MEMORANDUM

DATE: June 19, 2017
TO: Honorable Mayor and Council Members
FROM: Liisa Behrends, Senior Accountant
SUBJECT: INVESTMENT POLICY

RECOMMENDATION

Adopt Resolution No. 92-2017, approving the attached investment policy for the City of Rancho Cordova.

RESULT OF RECOMMENDED ACTION

Approval of this resolution will amend the City's investment policy, thereby guiding the City's investment of excess funds.

BACKGROUND

Since incorporation, the City's investment policy has been approved by the Council on an annual basis and has remained relatively unchanged. Although State law no longer requires that an investment policy be considered annually, Staff is proposing modifications to the policy and is requesting council review and approval. The policy has been modified to remove the CAMP limitation in the appendix and also update the LAIF limit outlined by the State of California.

Staff has attached both a clean copy of the proposed Investment Policy (Exhibit A) and a redlined version (Exhibit B) to help Council identify specific changes to the policy.

RESOLUTION NO. 92-2017

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF RANCHO CORDOVA
ADOPTING THE INVESTMENT POLICY**

WHEREAS, California Government Code states that a City may adopt an annual investment policy at public meeting; and

WHEREAS, the state of California Government Code governs allowable investments and is designed to maintain the safety of investment while deriving the best possible yields based on our risk tolerance; and

WHEREAS, the City's current investment policy is considerably more restrictive than State Code; and

WHEREAS, in today's environment of low interest rates, the City's restrictive policies are no longer considered "best practices"; and

WHEREAS, revising the City's policies to conform to State Code will allow Staff and our investment managers the flexibility to prudently manage the City's portfolio in the current economic environment; and

WHEREAS, a good investment policy drives the cash, treasury and investment management functions of a City and serves as a guide for setting and achieving program objectives, defines rules and establishes benchmarks, and reduces the exposure to liability of both the City staff and the City Council; and

WHEREAS, the amended Investment Policy is in compliance with California State Government Code Guidelines.

This investment policy applies to all financial assets of the City. These funds are accounted for in the City Comprehensive Annual Financial Report and may include:

- General Fund

- Enterprise Funds
- Internal Service Funds
- Permanent and Private Purpose Trust Funds

This Policy shall also apply to all funds of the City of Rancho Cordova including those funds which may be created as well as any other fund under the control of the City Treasurer.

PRUDENCE

The standard of prudence to be used by investment officials shall be the “prudent investor” standard and shall be applied in the context of managing an overall portfolio. The “prudent investor” standard states that:

When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency.

OBJECTIVE

The primary objective in priority order, of the City’s investment activities shall be:

Safety: Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio.

Liquidity: The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated.

DELEGATION OF AUTHORITY

The City Treasurer is appointed by the City Manager. The City Treasurer is currently the Finance Director. Pursuant to the Government Code, the City Council delegates the authority to invest or to reinvest funds, or to sell or exchange securities so purchased, to the City Treasurer for a one-year period. The City Treasurer is charged with the responsibility for carrying out the policies of the City Council and shall assume full responsibility for investment transactions until the delegation of authority is revoked or expires.

The daily cash management, investment transactions and account reconciliations are the primary responsibilities of the City Treasurer. These activities are also carried out by other members of the Finance Department under the direction of the City Treasurer. The City Treasurer shall establish procedures for the operation consistent with this investment policy.

The City Treasurer and authorized individuals acting in accordance with written procedures and the investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

ETHICS AND CONFLICT OF INTEREST

Officers and employees involved in the investment process shall refrain from personal business activities that could conflict with proper execution of the investment program or which could impair their ability to make impartial decisions. Officers and employees involved in the investment process shall abide by the Conflict of Interest Code, (California Government Code Section 1090 et seq.) and the California Political Reform Act (California Government Code Section 81000 et seq.).

With respect to maximum maturities, the Policy authorizes investing bond reserve fund proceeds beyond five years if prudent in the opinion of the City Treasurer.

MAXIMUM MATURITIES

Notwithstanding the five year maturity limitation, the City Council grants its express authority per Government Code Section 53601 to invest with maturities extending beyond five years.

SELECTION OF BROKER/DEALERS

Each approved broker/dealer must possess an authorizing certificate from the California Commissioner of Corporations as required by Section 25210 of the California Corporations Code.

To be eligible, a firm must meet at least one of the following criteria:

1. be recognized as Primary Dealers by the Federal Reserve Bank of New York or have a primary dealer within their holding company structure, or
2. report voluntarily to the Federal Reserve Bank of New York, or

The City Treasurer will select broker/dealers on the basis of their expertise in public cash management and their ability to provide service to the City's account. The City may engage the services of investment advisory firms to assist in the management of the Portfolio. Such investment advisors may utilize their own list of approved broker/dealers; however, the list shall comply with the criteria listed above and shall be provided to the City on an annual basis or upon request.

In the event that an investment advisory firm is not used in the process of recommending a particular transaction in the City's portfolio, authorized broker/dealers shall submit and annually update a City approved broker/dealer information request form that includes the firm's most recent financial statements.

The City may purchase commercial paper from direct issuers even though they are not on the approved broker/dealer list as long as they meet the criteria outlined in the Eligible Investments section of this Investment Policy.

SAFEKEEPING AND CUSTODY

The City Treasurer shall select one or more financial institutions to provide safekeeping and custodial services for the City. A Safekeeping Agreement approved by the City shall be executed with each custodian bank prior to utilizing that bank's safekeeping services.

Custodian banks will be selected on the basis of their ability to provide services for the City's account and the competitive pricing of their safekeeping related services.

The purchase and sale of securities and repurchase agreement transactions shall be settled on a delivery versus payment basis. Ownership of all securities shall be perfected in the name of the City. Sufficient evidence to title shall be consistent with modern investment, banking and commercial practices.

All investment securities purchased by the City shall be delivered by book entry and shall be held in third-party safekeeping by the City approved custodian bank, its correspondent bank or the Depository Trust Company (DTC).

The City's custodian shall be required to furnish the City a list of holdings on at least a monthly basis and safekeeping receipts or customer confirmations shall be issued for each transaction.

INTERNAL CONTROL

The City Treasurer is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse. The internal control structure shall be designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits to be derived and that the valuation of costs and benefits requires estimates and judgments by management.

REPORTING

The City Treasurer shall provide a quarterly investment report to the City Council, which provides a clear picture of the status of the current investment portfolio. This report will be submitted to the City Council each quarter at a public meeting.

Schedules in the quarterly Treasurer's Report will include the following:

2. A description of the funds, investments and programs;
3. A market value as of the date of the report (or the most recent valuation as to assets not valued monthly) and the source of the valuation;
4. A statement of compliance with the investment policy or an explanation for non-compliance; and
5. A statement of the City's ability to meet expenditure requirements for six months, and an explanation of why money will not be available if that is the case.

The quarterly report shall state compliance of the portfolio to the investment policy, or manner in which the portfolio is not in compliance. The quarterly report shall also include a statement denoting the ability of the City to meet its expenditure requirements for the next six months, or provide an explanation as to why sufficient money shall, or may, not be available.

POLICY REVIEW

The investment policy shall be adopted by resolution of the City Council. The investment policy shall be reviewed at least annually by Staff to ensure its consistency with the overall objectives of preservation of principal, liquidity and yield, and its relevance to current law and financial and economic trends. **CITY OF RANCHO CORDOVA
STATEMENT OF INVESTMENT POLICY**

**GLOSSARY OF TYPES OF INVESTMENTS
AVAILABLE TO LOCAL GOVERNMENTS**

STATE INVESTMENT POOL (LAIF)

The Local Agency Investment Fund (LAIF) is a voluntary program created by statute; began in 1977 as an investment alternative for California's local governments and special districts. The enabling legislation for the LAIF is Section 16429.1 et seq. of the California Government Code.

This program offers local agencies the opportunity to participate in a major portfolio, which invests hundreds of millions of dollars, using the investment expertise of the Treasurer's Office investment staff at no additional cost to the taxpayer. This in-house management team is comprised of civil servants who have each worked for the State Treasurer's Office for an average of 20 years.

The LAIF is part of the Pooled Money Investment Account (PMIA). The PMIA began in 1953 and oversight is provided by the Pooled Money Investment Board (PMIB) and an in-house Investment Committee. The PMIB members are the State Treasurer, Director of Finance, and State Controller.

The Local Investment Advisory Board (LIAB) provides oversight for LAIF. The Board consists of five members as designated by statute. The Chairman is the State Treasurer or his designated representative. Two members qualified by training and experience in the field of investment or finance, and the State Treasurer appoints two members who are treasurers, finance or fiscal officers or business managers employed by any county, city or local district or municipal corporation of this state. The term of each appointment is two years or at the pleasure of the appointing authority.

All securities are purchased under the authority of Government Code Section 16430 and 16480.4. The State Treasurer's Office takes delivery of all securities purchased on a delivery versus payment basis using a third party custodian. All investments are purchased at market and a market valuation is conducted monthly.

Additionally, the PMIA has Policies, Goals and Objectives for the portfolio to make certain that our goals of Safety, Liquidity and Yield are not jeopardized and that prudent management prevails. These policies are formulated by investment staff and reviewed by both the PMIB and the LIAB on an annual basis.

The State Treasurer's Office is audited by the Bureau of State Audits on an annual basis and the resulting opinion is posted to the STO website following its publication. The Bureau of State Audits also has a continuing audit process throughout the year. All investments and LAIF claims are audited on a daily basis by

the State Controller's Office as well as an in-house audit process involving three separate divisions.

Under Federal Law, the State of California cannot declare bankruptcy, thereby allowing the Government Code Section 16429.3 to stand. This Section states that "moneys placed with the Treasurer for deposit in the LAIF by cities, counties, special districts, nonprofit corporations, or qualified quasi-governmental agencies shall not be subject to either of the following: (a) transfer or loan pursuant to Sections 16310, 16312, or 16313, or (b) impoundment or seizure by any state official or state agency."

During the 2002 legislative session, California Government Code Section 16429.4 was added to the LAIF's enabling legislation. The Section states that "the right of a city, county, city and county, special district, nonprofit corporation, or qualified quasi-governmental agency to withdraw its deposited moneys from the LAIF, upon demand, may not be altered, impaired, or denied in any way, by any state official or state agency based upon the state's failure to adopt a State Budget by July 1 of each new fiscal year."

Investments in LAIF may not exceed the legally authorized limits.

County Pool Investment Funds

County Pool Investment Funds are local government investment pools operated on the County level. Funds are aggregated from public agencies and placed in the custody of the County Treasurer or Chief Finance Officer for investment and reinvestment. County pools have no maximum maturity and no specifications for the maximum percentage of a portfolio that can be invested in the pools. There are also no minimum rating requirements for the quality of these pools.

Joint Powers Authority Pools

Joint Powers Authority Pools (JPAs) are local government investment pools comprised of at least two entities and accredited by the California Joint Powers Authority (CAJPA). Each share shall represent an equal proportional interest in the underlying pool of securities owned by the joint powers authority. To be eligible, the joint powers authority issuing the shares shall have retained an investment adviser that meets all of the following criteria:

- (1) The adviser is registered or exempt from registration with the Securities and Exchange Commission,
- (2) The adviser has not less than five years of experience investing in the securities and obligations authorized in Section 53601, subdivisions (a) to (n), and
- (3) The adviser has assets under management in excess of five hundred million dollars (\$500,000,000).

CAMP (the California Asset Management Program), for instance, provides California public agencies, together with any bond trustee acting on behalf of such public agency, assistance with the investment of and accounting for bond proceeds and surplus funds. For bond proceeds, the objective of CAMP is to invest and account of such proceeds in compliance with arbitrage management and rebate requirements of the Internal Revenue Service. The program includes the California Asset Management Trust, a California common law trust organized in 1989. The Trust currently offers a professionally managed money market investment portfolio, the Cash Reserve Portfolio, to provide public agencies with a convenient method of pooling funds for temporary investment pending their expenditure. The Trust also provides record keeping, custodial and arbitrage rebate calculation services for bond proceeds. As part of the program, public agencies may also establish individual, professionally managed investment accounts.

The Pool seeks to attain as high a level of current income as is consistent with the preservation of principal. The Pool purchases only investments of the type in which public agencies are permitted by statute to invest surplus funds and proceeds of their own bonds.

Collateralized Bank Deposits

Bank deposits with appropriate securities (ie: surety bonds or letters of credit) pledged by the depositories in order to safeguard the underlying value of the original deposit. Such deposits shall have a final maturity not exceeding five years from the date of trade settlement. Investments in such issues are not limited in the portfolio.

CERTIFICATES OF DEPOSITS (CD)

Certificates of Deposits, sometimes known as "Jumbo Accounts" or "Fixed CD's" are savings accounts with Banks or Savings and Loans. These accounts are for a specific amount, have a set interest rate, and set maturity date. There is a substantial interest penalty if the CD is withdrawn prior to the maturity date.

The State law requires Public Fund CD's to be collateralized by the financial institution at 110% with US Government notes/bonds or at 150% with quality First Trust Deeds. This collateral can be waived if Federal Insurance (FDIC for banks or FSLIC for savings and loans) is available.

The City generally waives the collateralization requirements for the FDIC or FSLIC insurance. The waiver of collateral is a wide spread practice and will generally generate higher interest rates and provide the greatest security for the funds from the Federal Insurance Agencies.

NEGOTIABLE CERTIFICATE OF DEPOSIT (NCD)

This investment is similar to the Fixed CD's above. However, the NCD can be sold through a broker on a "secondary market" prior to the maturity date. Normally, NCD's are issued in \$500,000 and \$1,000,000 amounts. The State Code limits NCD's to not more than 30% of the local agency's portfolio and to a five-year maximum term. The security is the credit worthiness of the issuer. These deposits are uninsured and uncollateralized promissory notes.

BANKER'S ACCEPTANCES (BA)

A Banker's Acceptance is a time draft of invested funds, which has been drawn on and accepted for repayment by a bank. This financial instrument is generally used for short term (30 and 180 days) financing of export, import, or storage of goods. By accepting the draft (investment of City funds), the bank is liable for the payment at maturity. This bank liability makes the Banker's Acceptance a marketable investment. The State Code limits BA's to not more than 180 days to maturity and 40% of the local agency's portfolio. In addition, not more than 30% of the local agency's portfolio may be placed in any one bank.

US TREASURY BILLS

Commonly referred to as T-Bills, these are short-term marketable securities sold as obligations of the US Government. They are offered in three month, six month, nine month and one-year maturities. T-Bills do not accrue interest but are sold at a discount, and pay the face value at maturity.

US TREASURY NOTES

These are marketable, interest-bearing securities sold as obligations of the US Government with original maturities of one to ten years. Interest is paid semi-annually.

US TREASURY BONDS

These are the same as US Treasury Notes except they have original maturities of ten years or longer.

FEDERAL AGENCY ISSUES

Many Federal Government Agencies are authorized to issue short term and long term obligations that are used to finance various programs such as home loans, business loans, farm loans, etc. These Agencies were created by the Federal Government in the 1930's and have since become independent quasi-public agencies. The security for their issues is the guarantee of the Agency to pay. The Federal Government has only an implied liability to the extent that the Agency has an open credit line to borrow from the U.S. Treasury. It is widely accepted that Federal Agency issues are as secure as U.S. Government notes.

There is an active secondary market available to sell these issues prior to maturity. The issues are fairly liquid depending on the prevailing market interest rates at the time of sale.

Some of the more common agency notes are issued by the Federal National Mortgage Association (Fannie Mae), Federal Home Loan Banks, Federal Home Loan Mortgage Corporation (Freddie Mac), and the Federal Farm Credit Banks.

REPURCHASE AGREEMENTS AND REVERSE REPURCHASE AGREEMENTS (REPOS)

A Repurchase Agreement is a short-term investment agreement to loan City funds for a fixed period in return for a fixed interest rate and secured collateral, such as U.S. Treasuries or Agency Notes. This type of investment is usually done for overnight or very short term (7 days) investment of funds left in the general operating checking account. Reverse Repurchase agreements is a short-term investment, which is used to take advantage of market interest rate changes and increase the size of the portfolio. State law was amended in 1996 to limit the use of both repurchase and reverse repurchase agreements. The City Council must approve each reverse repurchase agreement.

COMMERCIAL PAPER (CP)

Commercial Paper is unsecured promissory notes of industrial corporations, utilities and bank holding companies. The notes are in bearer form in amounts starting at \$100,000. State law limits the City to investments in United States corporations having assets in excess of five hundred million dollars with an "A" or higher rating. Cities may not invest more than 25% of the portfolio in commercial paper and the CP's may not exceed a term of 270 days.

MUTUAL FUNDS

An investment company that pools money and can invest in a variety of securities, including fixed-income securities and money market instruments, cities may invest in Mutual Funds or Money Market funds that receive the highest ranking or the highest letter and numerical rating by two of the three largest nationally recognized statistical ratings organizations. The Mutual Funds must abide by the same investment restrictions and regulations that apply to public agencies in California. Money Market Funds must follow regulations specified the Security and Exchange Commission under the Investment Company Act of 1940. The City must verify that the Mutual Fund is in compliance with state laws for public agencies prior to purchasing shares.

GUARANTEED INVESTMENT CONTRACT (GIC)

This is an agreement acknowledging receipt of funds for deposit, specifying terms for withdrawal and guaranteeing a rate of interest to be paid. The investment follows all state laws for the investment of public funds.

ASSET-BACKED SECURITIES

Asset-backed securities are financial securities backed by a loan, lease or receivables against assets other than real estate and mortgage-backed securities. They are supported by pools of assets, such as installment loans or leases, or by pools of revolving lines of credits. Asset-backed securities are structured as trusts in order to perfect a security interest in the underlying assets. They shall have a final maturity

not exceeding five years from the date of trade settlement and no more than 20% of the local agency's portfolio may be invested in asset-backed securities. These securities must be rated at least AA by a nationally recognized statistical ratings organization, and the issuer's debt must be rated at least A.

MORTGAGE-RELATED SECURITIES

A type of asset-backed security that is secured by a mortgage or collection of mortgages and usually pays periodic payments that are similar to coupon payments. Furthermore, the mortgage must have originated from a regulated and authorized financial institution. Mortgage related securities shall have a final maturity not exceeding five years from the date of trade settlement and no more than 20% of the local agency's portfolio may be invested in mortgage related securities. These securities must be rated at least AA by a nationally recognized statistical ratings organization, and the issuer's debt must be rated at least A.

U.S. INSTRUMENTALITIES

Debt securities issued by international financial institutions, such as the World Bank, that provide development financing, advisory services, and/or other financial services to their member countries to achieve overall goal of improving living standards through sustainable economic growth. In 2014, the California Assembly passed Bill 1933, which will add bonds issued by certain supranational organizations effective January 1, 2015 to the list of permitted investments in the California Government Code.

Such investment advisors may utilize their own list of approved broker/dealers; however, the list shall comply with the criteria listed above and shall be provided to the City on an annual basis or upon request.

In the event that an investment advisory firm is not used in the process of recommending a particular transaction in the City's portfolio, authorized broker/dealers shall submit and annually update a City approved broker/dealer information request form that includes the firm's most recent financial statements.

**CITY OF RANCHO CORDOVA
STATEMENT OF INVESTMENT POLICY**

**GLOSSARY OF TYPES OF INVESTMENTS
AVAILABLE TO LOCAL GOVERNMENTS**

STATE INVESTMENT POOL (LAIF)

The Local Agency Investment Fund (LAIF) is a voluntary program created by statute; began in 1977 as an investment alternative for California's local governments and special districts. The enabling legislation for the LAIF is Section 16429.1 et seq. of the California Government Code.

This program offers local agencies the opportunity to participate in a major portfolio, which invests hundreds of millions of dollars, using the investment expertise of the Treasurer's Office investment staff at no additional cost to the taxpayer. This in-house management team is comprised of civil servants who have each worked for the State Treasurer's Office for an average of 20 years.

The LAIF is part of the Pooled Money Investment Account (PMIA). The PMIA began in 1953 and oversight is provided by the Pooled Money Investment Board (PMIB) and an in-house Investment Committee. The PMIB members are the State Treasurer, Director of Finance, and State Controller.

The Local Investment Advisory Board (LIAB) provides oversight for LAIF. The Board consists of five members as designated by statute. The Chairman is the State Treasurer or his designated representative. Two members qualified by training and experience in the field of investment or finance, and the State Treasurer appoints two members who are treasurers, finance or fiscal officers or business managers employed by any county, city or local district or municipal corporation of this state. The term of each appointment is two years or at the pleasure of the appointing authority.

All securities are purchased under the authority of Government Code Section 16430 and 16480.4. The State Treasurer's Office takes delivery of all securities purchased on a delivery versus payment basis using a third party custodian. All investments are purchased at market and a market valuation is conducted monthly.

Additionally, the PMIA has Policies, Goals and Objectives for the portfolio to make certain that our goals of Safety, Liquidity and Yield are not jeopardized and that prudent management prevails. These policies are formulated by investment staff and reviewed by both the PMIB and the LIAB on an annual basis.

The State Treasurer's Office is audited by the Bureau of State Audits on an annual basis and the resulting opinion is posted to the STO website following its publication. The Bureau of State Audits also has a continuing audit process throughout the year. All investments and LAIF claims are audited on a daily basis by

the State Controller's Office as well as an in-house audit process involving three separate divisions.

Under Federal Law, the State of California cannot declare bankruptcy, thereby allowing the Government Code Section 16429.3 to stand. This Section states that "moneys placed with the Treasurer for deposit in the LAIF by cities, counties, special districts, nonprofit corporations, or qualified quasi-governmental agencies shall not be subject to either of the following: (a) transfer or loan pursuant to Sections 16310, 16312, or 16313, or (b) impoundment or seizure by any state official or state agency."

During the 2002 legislative session, California Government Code Section 16429.4 was added to the LAIF's enabling legislation. The Section states that "the right of a city, county, city and county, special district, nonprofit corporation, or qualified quasi-governmental agency to withdraw its deposited moneys from the LAIF, upon demand, may not be altered, impaired, or denied in any way, by any state official or state agency based upon the state's failure to adopt a State Budget by July 1 of each new fiscal year."

~~The LAIF has grown from 293 participants and \$468 million in 1977 to 2,669 participants and \$20 billion at the end of December 2012.~~

~~There is a limitation of \$50 million per legal entity within an agency. There is also a maximum of fifteen transactions, deposits or withdrawals per month. Investments in LAIF may not exceed the legally authorized limits.~~

County Pool Investment Funds

County Pool Investment Funds are local government investment pools operated on the County level. Funds are aggregated from public agencies and placed in the custody of the County Treasurer or Chief Finance Officer for investment and reinvestment. County pools have no maximum maturity and no specifications for the maximum percentage of a portfolio that can be invested in the pools. There are also no minimum rating requirements for the quality of these pools.

Joint Powers Authority Pools

Joint Powers Authority Pools (JPAs) are local government investment pools comprised of at least two entities and accredited by the California Joint Powers Authority (CAJPA). Each share shall represent an equal proportional interest in the underlying pool of securities owned by the joint powers authority. To be eligible, the joint powers authority issuing the shares shall have retained an investment adviser that meets all of the following criteria:

- (1) The adviser is registered or exempt from registration with the Securities and Exchange Commission,

(2) The adviser has not less than five years of experience investing in the securities and obligations authorized in Section 53601, subdivisions (a) to (n), and

(3) The adviser has assets under management in excess of five hundred million dollars (\$500,000,000).

CAMP (the California Asset Management Program), for instance, provides California public agencies, together with any bond trustee acting on behalf of such public agency, assistance with the investment of and accounting for bond proceeds and surplus funds. For bond proceeds, the objective of CAMP is to invest and account of such proceeds in compliance with arbitrage management and rebate requirements of the Internal Revenue Service. The program includes the California Asset Management Trust, a California common law trust organized in 1989. The Trust currently offers a professionally managed money market investment portfolio, the Cash Reserve Portfolio, to provide public agencies with a convenient method of pooling funds for temporary investment pending their expenditure. The Trust also provides record keeping, custodial and arbitrage rebate calculation services for bond proceeds. As part of the program, public agencies may also establish individual, professionally managed investment accounts.

The Pool seeks to attain as high a level of current income as is consistent with the preservation of principal. The Pool purchases only investments of the type in which public agencies are permitted by statute to invest surplus funds and proceeds of their own bonds.

Collateralized Bank Deposits

Bank deposits with appropriate securities (ie: surety bonds or letters of credit) pledged by the depositories in order to safeguard the underlying value of the original deposit. Such deposits shall have a final maturity not exceeding five years from the date of trade settlement. Investments in such issues are not limited in the portfolio.

CERTIFICATES OF DEPOSITS (CD)

Certificates of Deposits, sometimes known as "Jumbo Accounts" or "Fixed CD's" are savings accounts with Banks or Savings and Loans. These accounts are for a specific amount, have a set interest rate, and set maturity date. There is a substantial interest penalty if the CD is withdrawn prior to the maturity date.

The State law requires Public Fund CD's to be collateralized by the financial institution at 110% with US Government notes/bonds or at 150% with quality First Trust Deeds. This collateral can be waived if Federal Insurance (FDIC for banks or FSLIC for savings and loans) is available.

The City generally waives the collateralization requirements for the FDIC or FSLIC insurance. The waiver of collateral is a wide spread practice and will generally generate higher interest rates and provide the greatest security for the funds from the Federal Insurance Agencies.

NEGOTIABLE CERTIFICATE OF DEPOSIT (NCD)

This investment is similar to the Fixed CD's above. However, the NCD can be sold through a broker on a "secondary market" prior to the maturity date. Normally, NCD's are issued in \$500,000 and \$1,000,000 amounts. The State Code limits NCD's to not more than 30% of the local agency's portfolio and to a five-year maximum term. The security is the credit worthiness of the issuer. These deposits are uninsured and uncollateralized promissory notes.

BANKER'S ACCEPTANCES (BA)

A Banker's Acceptance is a time draft of invested funds, which has been drawn on and accepted for repayment by a bank. This financial instrument is generally used for short term (30 and 180 days) financing of export, import, or storage of goods. By accepting the draft (investment of City funds), the bank is liable for the payment at maturity. This bank liability makes the Banker's Acceptance a marketable investment. The State Code limits BA's to not more than 180 days to maturity and 40% of the local agency's portfolio. In addition, not more than 30% of the local agency's portfolio may be placed in any one bank.

US TREASURY BILLS

Commonly referred to as T-Bills, these are short-term marketable securities sold as obligations of the US Government. They are offered in three month, six month, nine month and one-year maturities. T-Bills do not accrue interest but are sold at a discount, and pay the face value at maturity.

US TREASURY NOTES

These are marketable, interest-bearing securities sold as obligations of the US Government with original maturities of one to ten years. Interest is paid semi-annually.

US TREASURY BONDS

These are the same as US Treasury Notes except they have original maturities of ten years or longer.

FEDERAL AGENCY ISSUES

Many Federal Government Agencies are authorized to issue short term and long term obligations that are used to finance various programs such as home loans, business loans, farm loans, etc. These Agencies were created by the Federal Government in the 1930's and have since become independent quasi-public agencies. The security for their issues is the guarantee of the Agency to pay. The Federal Government has only an implied liability to the extent that the Agency has an open credit line to borrow from the U.S. Treasury. It is widely accepted that Federal Agency issues are as secure as U.S. Government notes.

There is an active secondary market available to sell these issues prior to maturity. The issues are fairly liquid depending on the prevailing market interest rates at the time of sale.

Some of the more common agency notes are issued by the Federal National Mortgage Association (Fannie Mae), Federal Home Loan Banks, Federal Home Loan Mortgage Corporation (Freddie Mac), and the Federal Farm Credit Banks.

REPURCHASE AGREEMENTS AND REVERSE REPURCHASE AGREEMENTS (REPOS)

A Repurchase Agreement is a short-term investment agreement to loan City funds for a fixed period in return for a fixed interest rate and secured collateral, such as U.S. Treasuries or Agency Notes. This type of investment is usually done for overnight or very short term (7 days) investment of funds left in the general operating checking account. Reverse Repurchase agreements is a short-term investment, which is used to take advantage of market interest rate changes and increase the size of the portfolio. State law was amended in 1996 to limit the use of both repurchase and reverse repurchase agreements. The City Council must approve each reverse repurchase agreement.

COMMERCIAL PAPER (CP)

Commercial Paper is unsecured promissory notes of industrial corporations, utilities and bank holding companies. The notes are in bearer form in amounts starting at \$100,000. State law limits the City to investments in United States corporations having assets in excess of five hundred million dollars with an "A" or higher rating. Cities may not invest more than 25% of the portfolio in commercial paper and the CP's may not exceed a term of 270 days.

MUTUAL FUNDS

An investment company that pools money and can invest in a variety of securities, including fixed-income securities and money market instruments, cities may invest in Mutual Funds or Money Market funds that receive the highest ranking or the highest letter and numerical rating by two of the three largest nationally recognized statistical ratings organizations. The Mutual Funds must abide by the same investment restrictions and regulations that apply to public agencies in California. Money Market Funds must follow regulations specified the Security and Exchange Commission under the Investment Company Act of 1940. The City must verify that the Mutual Fund is in compliance with state laws for public agencies prior to purchasing shares.

GUARANTEED INVESTMENT CONTRACT (GIC)

This is an agreement acknowledging receipt of funds for deposit, specifying terms for withdrawal and guaranteeing a rate of interest to be paid. The investment follows all state laws for the investment of public funds.

ASSET-BACKED SECURITIES

Asset-backed securities are financial securities backed by a loan, lease or receivables against assets other than real estate and mortgage-backed securities. They are supported by pools of assets, such as installment loans or leases, or by pools of revolving lines of credits. Asset-backed securities are structured as trusts in order to perfect a security interest in the underlying assets. They shall have a final maturity

not exceeding five years from the date of trade settlement and no more than 20% of the local agency's portfolio may be invested in asset-backed securities. These securities must be rated at least AA by a nationally recognized statistical ratings organization, and the issuer's debt must be rated at least A.

MORTGAGE-RELATED SECURITIES

A type of asset-backed security that is secured by a mortgage or collection of mortgages and usually pays periodic payments that are similar to coupon payments. Furthermore, the mortgage must have originated from a regulated and authorized financial institution. Mortgage related securities shall have a final maturity not exceeding five years from the date of trade settlement and no more than 20% of the local agency's portfolio may be invested in mortgage related securities. These securities must be rated at least AA by a nationally recognized statistical ratings organization, and the issuer's debt must be rated at least A.

U.S. INSTRUMENTALITIES

Debt securities issued by international financial institutions, such as the World Bank, that provide development financing, advisory services, and/or other financial services to their member countries to achieve overall goal of improving living standards through sustainable economic growth. In 2014, the California Assembly passed Bill 1933, which will add bonds issued by certain supranational organizations effective January 1, 2015 to the list of permitted investments in the California Government Code.

The term of the proposed new contract is January 1, 2018 through December 31, 2024, and the services include citywide street sweeping and collection of garbage, recyclables, and yard waste from residential solid waste customers.

BACKGROUND

On July 19, 2004, the Rancho Cordova City Council approved a contract with Republic (“BFI”) for residential waste collection and recycling services. On April 18, 2016, staff presented options to the City Council for the contract term beginning January 1, 2018. The City Council directed staff to negotiate with Republic for ninety days and return with a term sheet for consideration.

On August 1, 2016, staff presented a proposed term sheet to the City Council based upon the negotiations with Republic. The City Council found the terms favorable and directed staff to prepare a seven-year contract for City Council approval. The following is a summary of the new contract:

- \$450,000 annual payment to City for local improvement projects;
- 10% franchise fee, which provides over \$500,000 annually to City;

FISCAL IMPACT

The services provided in this contract will continue to be funded by the monthly service rate charged by Republic to residential solid waste customers in the City of Rancho Cordova. The proposed contract allows customer rates to be adjusted annually on July 1, in accordance with changes to the Consumer Price Index, and provides a floor of 2% and a ceiling of 3% for annual rate adjustments.

The proposed contract has no impact on the General Fund.

 803 marketing will be the sole responsibility of CONTRACTOR. CONTRACTOR may deliver
 804 Green Waste, for diversion, to a properly permitted facility for use as Alternative Daily
 805 Cover ("ADC") through December 31, 2019, or through such date as ADC may be
 806 counted towards meeting diversion requirements, as determined by CalRecycle. No
 807 later than January 1, 2019, CONTRACTOR shall provide CITY with a written proposal
 808 for how CONTRACTOR proposes to modify its operations in response to those
 809 regulatory changes and to meet the diversion requirements of this Contract. The

 851 to divert, CONTRACTOR shall sort all Large Items Collected as part of the Large Item
 852 Collection Service at or prior to delivery to a Sacramento Waste Authority ("SWA")

 872 Oil or Used Oil Filter. In the event of non-collection, CONTRACTOR shall affix to the
 873 Used Oil or Used Oil Filter Container a Non-Collection Notice explaining why Collection
 874 was not made and maintain a copy of such notice during the term of this Contract. Prior
 875 to the end of the Work Day, CONTRACTOR shall notify the Contract Administrator,
 876 either by Fax or e-mail, of any non-collection occurrences. If non-collection is because
 877 the Used Oil or Filter was placed in an improper container, CONTRACTOR shall also

 913 own cost and expense in accordance with applicable state and federal law.

914 8.13.6.2 CONTRACTOR shall notify the Contract Administrator,
 915 either by fax or e-mail, of any contamination which renders the Used Oil unacceptable
 916 for recycling or which requires disposal of the Used Oil or Used Oil Filters as a
 917 Hazardous Waste.

 919 terms and conditions:

920 8.14.1 Collection. Within one (1) week after request by Service Recipient

 939 telephone number to CONTRACTOR on that call, CONTRACTOR will return the call to
 940 schedule and Collect an Approved Sharps Container on Service Recipient's regularly
 941 scheduled Collection day between 6 a.m. and 3 p.m.

2025 and completed operations of CONTRACTOR; premises owned, leased or used by
2026 CONTRACTOR; and automobiles owned, leased, hired or borrowed by CONTRACTOR.
2027 The coverage shall contain no special limitations on the scope of protection afforded to
2028 CITY, its officers, employees, agents, contractors and volunteers.

2029 23.04.1.2 The endorsement must state that CONTRACTOR'S
2030 insurance coverage shall be primary insurance as respects CITY, its officers, employees,
2031 agents, contractors and volunteers. Any insurance or self-insurance maintained by
2032 CITY, its officers, employees, agents or contractors shall be in excess of
2033 CONTRACTOR'S insurance and shall not contribute with it.

2034 23.04.1.3 Any failure to comply with reporting provisions of
2035 the policies shall not affect coverage provided to CITY, officers, employees, agents,
2036 contractors and volunteers.

2037 23.04.1.4 Coverage shall state that CONTRACTOR'S
2038 insurance shall apply separately to each insured against whom claim is made or suit is
2039 brought, except with respect to the limits of the insurer's liability.

Exhibit 1**Collection Services Contract No. 67-2017**

2040 23.04.1.5 The Automobile Liability policy shall be endorsed to
 2041 delete the Pollution and/or the Asbestos exclusion, if applicable, and add the Motor
 2042 Carrier Act endorsement (MCS-90) TL 1005, TL1007.

2043 23.04.2 All Coverage. Each insurance policy required by this Contract
 2044 (other than workers' compensation) shall be endorsed to state that coverage shall not be
 2045 canceled, or materially changed or reduced in limits except after thirty (30) calendar
 2046 days prior written notice has been given to CITY.

2047 23.05 Acceptability of Insurers. Insurance is to be placed with insurers rate A-
 2048 VIII (or higher) by A.M.Best.

2049 23.06 Verification of Coverage. CONTRACTOR shall furnish CITY with
 2050 certificates of insurance and with original endorsements affecting coverage required by
 2051 this Contract. The certificates and endorsement for each insurance policy are to be
 2052 signed by a person authorized by that insurer to bind coverage on its behalf.
 2053 CONTRACTOR shall furnish CITY with a new certificate of insurance and endorsements
 2054 on each renewal of coverage or change of insurers.

2055 23.07 Proof of insurance shall be mailed as set forth in Article 41.

2056 23.08 Subcontractors. CONTRACTOR shall include all subcontractors as
 2057 insureds under its policies or shall obtain separate certificates and endorsements for
 2058 each subcontractor.

2059 23.09 Modification of Insurance Requirements. The insurance requirements
 2060 provided in this Contract may be modified or waived by CITY, in writing, upon the
 2061 request of CONTRACTOR if the CITY determines such modification or waiver is in the
 2062 best interest of CITY considering all relevant factors, including exposure to CITY.

2063 23.10 Rights of Subrogation. All required insurance policies shall preclude
 2064 any underwriter's rights of recovery or subrogation against CITY with the express
 2065 intention of the parties being that the required insurance coverage protects both parties
 2066 as the primary coverage for any and all losses covered by the above-described
 2067 insurance. CONTRACTOR shall ensure that any companies issuing insurance to cover
 2068 the requirements contained in this Contract agree that they shall have no recourse
 2069 against CITY for payment or assessments in any form on any policy of insurance. The
 2070 clauses 'Other Insurance Provisions' and 'Insured Duties in the Event of an Occurrence,
 2071 Claim or Suit' as it appears in any policy of insurance in which CITY is named as an
 2072 additional insured shall not apply to CITY.

2073 **ARTICLE 24. Indemnification**

2074 24.01 Indemnification. CONTRACTOR shall indemnify and hold harmless
 2075 CITY, CITY'S contractors, and the public officials, officers, directors, employees, agents,
 2076 volunteers and other contractors of each of them (collectively, "Idemnitees"), from and
 2077 against any and all claims, costs, the cost of remediation and cost-recoveries pursuant

Exhibit 1**Collection Services Contract No. 67-2017**

2078 to CERCLA, losses and damages (including but not limited to all fees and charges of
 2079 engineers, architects, attorneys and other professionals as well as all Court or other
 2080 dispute resolution costs), liabilities, expenditures or causes of action of any kind
 2081 (including negligent, reckless, willful or intentional acts or omissions of the
 2082 CONTRACTOR, any subcontractor, any supplier, any person or organization directly or
 2083 indirectly employed by any of them to perform or furnish any services or anyone for
 2084 whose acts any of them may be liable), arising from, relative to or caused by the
 2085 performance of the services. This indemnity includes but is not limited to claims
 2086 attributable to bodily injury, sickness, disease or death and to injury or destruction of
 2087 tangible property. CONTRACTOR agrees, at CONTRACTOR'S expense, after written
 2088 notice from the CITY, to defend any action against the CITY that falls within the scope of
 2089 this indemnity, or the CITY, at the CITY'S option, may elect not to tender such defense
 2090 and may elect instead to secure its own attorneys to defend any such action and the
 2091 reasonable costs and expenses of such attorneys incurred in defending such action shall
 2092 be payable by CONTRACTOR. Additionally, if CONTRACTOR, after receipt of written
 2093 notice from the CITY, fails to make any payment due under this Contract to the CITY,
 2094 CONTRACTOR shall pay any reasonable attorneys' fees or costs incurred by the CITY
 2095 in securing any such payment from CONTRACTOR. Payment of any amount due
 2096 pursuant to the foregoing indemnity shall, after receipt of written notice by
 2097 CONTRACTOR from the CITY that such amount is due, be made by CONTRACTOR
 2098 prior to the CITY being required to pay same, or in the alternative, the CITY, at the
 2099 CITY'S option, may make payment of an amount so due and CONTRACTOR shall
 2100 promptly reimburse the CITY for same, together with interest thereon at the rate of
 2101 twelve percent (12%) per annum simple interest from the date of receipt by
 2102 CONTRACTOR of written notice from the CITY that such payment is due.

2103 24.02 Hazardous Substances Indemnification. CONTRACTOR shall
 2104 indemnify, defend with counsel selected by CITY, protect and hold harmless the CITY,
 2105 CITY'S contractors, and the public officials, officers, directors, employees, agents,
 2106 volunteers and other contractors of each of them (collectively, "Idemnitees") from and
 2107 against all claims, damages (including but not limited to special, consequential, natural
 2108 resources and punitive damages), injuries, costs, (including without limit any and all
 2109 response, remediation and removal costs), losses, demands, debts, liens, liabilities,
 2110 causes of action, suits, legal or administrative proceedings, interest, fines, charges,
 2111 penalties, and expenses (including without limit attorneys and expert witness fees and
 2112 costs incurred in connection with defending against any of the foregoing or in enforcing
 2113 this indemnity providing the enforcement action is successful in establishing
 2114 indemnification), (Collectively, "damages") of any kind whatsoever paid, incurred or
 2115 suffered by, or asserted against, indemnitees arising from or attributable to the acts of
 2116 omission of CONTRACTOR, its officers, directors, employees, companies or agents,
 2117 whether or not negligent or otherwise culpable, in connection with or related to the
 2118 performance of this contract, including without limit damages arising from or attributable

Exhibit 1

Collection Services Contract No. 67-2017

2119 to any operations, repair, clean-up or detoxification, or preparation and implementation
 2120 of any removal, remedial, response, closure, post-closure or other plan (regardless of
 2121 whether undertaken due to governmental action) concerning any Hazardous substance,
 2122 Hazardous Waste, and/or Household Hazardous Waste (Collectively, "Waste") at any
 2123 places where CONTRACTOR Transfers, Transports, Processes, stores or Disposes of
 2124 CITY Solid Waste, or other waste Collected under this contract, however,
 2125 notwithstanding the above, CONTRACTOR shall in no way be liable to CITY, for acts
 2126 and/or omissions of the Recycling, Green Waste and Food Waste Collection Company,
 2127 including, but not limited to, acts or omissions related to the Recycling, Green Waste and
 2128 Food Waste Collection Company's facilities. This indemnity afforded indemnitees, shall
 2129 only be limited to exclude coverage for intentional wrongful acts and active negligence of
 2130 indemnitees. The foregoing indemnity is intended to operate as an agreement pursuant
 2131 to §107(e) of the Comprehensive Environmental Response, Compensation and Liability
 2132 Act. CERCLA, 42 USC. §9607(e) and California Health and Safety Code §25364, to
 2133 defend, protect, hold harmless, and indemnify CITY from liability. This provision is in
 2134 addition to all other provisions in this contract and is intended to survive the end of the
 2135 term of this contract. Nothing in this paragraph shall prevent the CONTRACTOR from
 2136 seeking indemnification or contribution from persons or entities other than indemnitees,
 2137 for any liabilities incurred by the CONTRACTOR, or the indemnitees. As appropriate,
 2138 the parent company should provide the guarantees necessary to meet this provision.

2139 24.03 Indemnification for Failure to Meet AB 939 Goals. CONTRACTOR
 2140 agrees to protect and defend CITY with counsel selected by CONTRACTOR and
 2141 approved by CITY, to pay all attorneys' fees, and to indemnify and hold CITY harmless
 2142 from and against all fines or penalties imposed by the CalRecycle if the diversion goals
 2143 specified in California Public Resources Code Section 41780 as of the date hereof and
 2144 hereafter throughout are not met by the CITY with respect to the Materials Collected by
 2145 CONTRACTOR and if the lack in meeting such goals are attributable to the failure of the
 2146 CONTRACTOR to implement and operate the recycling or diversion programs or
 2147 undertake the related activities required by this Contract.

2148 24.04 Consideration. It is specifically understood and agreed that the
 2149 consideration inuring to the CONTRACTOR for the execution of this Contract consists of
 2150 the promises, payments, covenants, rights and responsibilities contained in this
 2151 Contract.

2152 24.05 Obligation. The execution of this Contract by the CONTRACTOR shall
 2153 obligate the CONTRACTOR to comply with the foregoing indemnification provision;
 2154 however, the collateral obligation of providing insurance must also be complied with as
 2155 set forth in Article 23 above.

2156 24.06 Subcontractors. The CONTRACTOR shall require all subcontractors to
 2157 enter into a contract containing the provisions set forth in the preceding subsection in

Exhibit 1**Collection Services Contract No. 67-2017**

2158 which contract the subcontractor fully indemnifies the CITY in accordance with this
2159 Contract.

2160 24.07 Exception. Notwithstanding Sections 24.01, 24.02 and 24.03,
2161 CONTRACTOR'S obligation to indemnify, hold harmless and defend CITY, its officers
2162 and employees shall not extend to any loss, liability, penalty, damage, action or suit
2163 resulting from the sole negligence or willful misconduct of the CITY its officers or
2164 employees.

2165 24.08 Damage by CONTRACTOR. If CONTRACTOR'S employees or
2166 subcontractors cause any injury, damage or loss to CITY property, including but not
2167 limited to CITY streets or curbs, CONTRACTOR shall reimburse CITY for CITY'S cost of
2168 repairing such injury, damage or loss. Such reimbursement is not in derogation of any
2169 right of CITY to be indemnified by CONTRACTOR for any such injury, damage or loss.
2170 With the prior written approval of CITY, CONTRACTOR may repair the damage at
2171 CONTRACTORS sole cost and expense.

2172 **ARTICLE 25. Default of Contract**

2173 25.01 Termination. The CITY may cancel this Contract, except as otherwise
2174 provided below in this section, by giving the CONTRACTOR thirty (30) calendar days
2175 advance written notice, to be served as provided in Article 41, upon the happening of
2176 any one of the following events:

2177 25.02 The CONTRACTOR shall take the benefit of any present or future
2178 insolvency statute, or shall make a general assignment for the benefit of creditors, or file
2179 a voluntary petition in bankruptcy (court) or a petition or answer seeking an arrangement
2180 for its reorganization or the readjustment of its indebtedness under the Federal
2181 bankruptcy laws or under any other law or statute of the United States or any state
2182 thereof, or consent to the appointment of a receiver, trustee or liquidator of all or
2183 substantially all of its property; or

2184 25.03 By order or decree of a Court, the CONTRACTOR shall be adjudged
2185 bankrupt or an order shall be made approving a petition filed by any of its creditors or by
2186 any of the stockholders of the CONTRACTOR, seeking its reorganization or the
2187 readjustment of its indebtedness under the Federal bankruptcy laws or under any law or
2188 statute of the United States or of any state thereof, provided that if any such judgment or
2189 order is stayed or vacated within sixty (60) calendar days after the entry thereof, any
2190 notice of default shall be and become null, void and of no effect; unless such stayed
2191 judgment or order is reinstated in which case, said default shall be deemed immediate;
2192 or

2193 25.04 By, or pursuant to, or under the authority of any legislative act,
2194 resolution or rule or any order or decree of any Court or governmental board, agency or
2195 officer having jurisdiction, a receiver, trustee or liquidator shall take possession or control

Exhibit 1

Collection Services Contract No. 67-2017

2196 of all or substantially all of the property of the CONTRACTOR, and such possession or
2197 control shall continue in effect for a period of sixty (60) calendar days; or

2198 25.05 The CONTRACTOR has defaulted, by failing or refusing to pay in a
2199 timely manner the administrative charges or other monies due the CITY and said default
2200 is not cured within thirty (30) calendar days of receipt of written notice by CITY to do so;
2201 or

2202 25.05.1 The CONTRACTOR has defaulted by allowing any final
2203 judgment for the payment of money to stand against it unsatisfied and said default is not
2204 cured within thirty (30) calendar days of receipt of written notice by CITY to do so; or

2205 25.05.2 In the event that the monies due the CITY under Section
2206 25.01.3 above or an unsatisfied final judgment under Section 25.01.4 above is the
2207 subject of a judicial proceeding, the CONTRACTOR shall not be in default if the sum of
2208 money is bonded. All bonds shall be in the form acceptable to the City Attorney; or

2209 25.05.3 The CONTRACTOR has defaulted, by failing or refusing to
2210 perform or observe the terms, conditions or covenants in this Contract or any of the rules
2211 and regulations promulgated by the CITY pursuant thereto or has wrongfully failed or
2212 refused to comply with the instructions of the Contract Administrator relative thereto and
2213 said default is not cured within thirty (30) calendar days of receipt of written notice by the
2214 CITY to do so, or if by reason of the nature of such default, the same cannot be
2215 remedied within thirty (30) calendar days following receipt by the CONTRACTOR of
2216 written demand from the CITY to do so, the CONTRACTOR fails to commence the
2217 remedy of such default within said thirty (30) calendar days following such written notice
2218 or having so commenced shall fail thereafter to continue with diligence the curing thereof
2219 (with the CONTRACTOR having the burden of proof to demonstrate (a) that the default
2220 cannot be cured within thirty (30) calendar days, and (b) that it is proceeding with
2221 diligence to cure said default, and such default will be cured within a reasonable period
2222 of time). However, notwithstanding anything contained herein to the contrary, for the
2223 failure of the CONTRACTOR to provide Collection Services for a period of three (3)
2224 consecutive Work Days, the CITY may secure the CONTRACTOR'S records on the
2225 fourth (4th) Work Day in order to provide interim Collection services until such time as
2226 the matter is resolved and the CONTRACTOR is again able to perform pursuant to this
2227 Contract; provided, however, if the CONTRACTOR is unable for any reason or cause to
2228 resume performance at the end of thirty (30) calendar days all liability of the CITY under
2229 this Contract to the CONTRACTOR shall cease and this Contract may be deemed
2230 terminated by the CITY.

2231 25.06 Violations. Notwithstanding the foregoing and as supplemental and
2232 additional means of termination of this Contract under this article, in the event that the
2233 CONTRACTOR'S record of performance show that the CONTRACTOR has frequently,
2234 regularly or repetitively defaulted in the performance of any of the covenants and
2235 conditions required herein to be kept and performed by the CONTRACTOR, in the

2236 opinion of the CITY and regardless of whether the CONTRACTOR has corrected each
 2237 individual condition of default, the CONTRACTOR shall be deemed a "habitual violator",
 2238 shall be deemed to have waived the right to any further notice or grace period to correct,
 2239 and all of said defaults shall be considered cumulative and collectively shall constitute a
 2240 condition of irredeemable default. The CITY shall thereupon issue the CONTRACTOR a
 2241 final warning citing the circumstances therefore, and any single default by the
 2242 CONTRACTOR of whatever nature, subsequent to the occurrence of the last of said
 2243 cumulative defaults, shall be grounds for immediate termination of the Contract. In the
 2244 event of any such subsequent default, the CITY may terminate this Contract upon giving
 2245 of written final notice to the CONTRACTOR, such cancellation to be effective upon the
 2246 date specified in the CITY'S written notice to the CONTRACTOR, and all contractual
 2247 fees due hereunder plus any and all charges and interest shall be payable to said date,
 2248 and the CONTRACTOR shall have no further rights hereunder. Immediately upon the
 2249 specified date in such final notice the CONTRACTOR shall proceed to cease any further
 2250 performance under this Contract.

2251 25.07 Effective Date. In the event of the aforesaid events specified above,
 2252 and except as otherwise provided in said subsections, termination shall be effective
 2253 upon the date specified in the CITY'S written notice to the CONTRACTOR and upon
 2254 said date this Contract shall be deemed immediately terminated and upon such
 2255 termination all liability of the CITY under this Contract to the CONTRACTOR shall cease,
 2256 and the CITY shall have the right to call the performance bond and shall be free to
 2257 negotiate with other contractors for the operation of the herein specified services. The
 2258 CONTRACTOR for failure to perform shall reimburse the CITY all direct and indirect
 2259 costs of providing interim Collection Services.

2260 25.08 Immediate Termination. CITY may terminate this Contract immediately
 2261 upon written notice to CONTRACTOR in the event CONTRACTOR fails to provide and
 2262 maintain the performance bond as required by this Contract, CONTRACTOR fails to
 2263 obtain or maintain insurance policies endorsements as required by this Contract,
 2264 CONTRACTOR fails to provide the proof of insurance as required by this Contract, or
 2265 CONTRACTOR offers or gives any gift prohibited by CITY Municipal Code.

2266 25.09 Termination Cumulative. CITY'S right to terminate this Contract is
 2267 cumulative to any other rights and remedies provided by law or by this Contract.

2268 **ARTICLE 26. Modifications to the Contract**

2269 26.01 Modifications. The CITY shall have the power to make changes in this
 2270 Contract as the result of changes in law, changes in the City of Rancho Cordova
 2271 Municipal Code, or both, to impose new rules and regulations on the CONTRACTOR
 2272 under this Contract relative to the scope and methods of providing Collection Services
 2273 as shall from time-to-time be necessary and desirable for the public welfare. The CITY
 2274 shall give the CONTRACTOR notice of any proposed change and an opportunity to be

Exhibit 1**Collection Services Contract No. 67-2017**

2275 heard concerning those matters. The scope and method of providing Collection
 2276 Services as referenced herein shall also be liberally construed to include, but is not
 2277 limited to the manner, procedures, operations and obligations, financial or otherwise, of
 2278 the CONTRACTOR.

2279 26.02 Change in Law. The CITY and the CONTRACTOR understand and
 2280 agree that the California Legislature has the authority to make comprehensive changes
 2281 in Solid Waste Management legislation and that these and other changes in law in the
 2282 future which mandate certain actions or programs for counties or municipalities may
 2283 require changes or modifications in some of the terms, conditions or obligations under
 2284 this Contract. The CONTRACTOR agrees that the terms and provisions of the City of
 2285 Rancho Cordova Code, as it now exists or as it may be amended in the future, shall
 2286 apply to all of the provisions of this Contract and the Service Recipients of the
 2287 CONTRACTOR located within the Service Area. In the event any future change in the
 2288 City Code or change or enactment of existing or newly mandated State or local
 2289 legislation, policy or regulations materially alters the obligations of the CONTRACTOR,
 2290 then the affected service rates, as established in **Exhibit 1** of this Contract shall be
 2291 adjusted. Nothing contained in this Contract shall require any party to perform any act or
 2292 function contrary to law. The CITY and CONTRACTOR agree to enter into good faith
 2293 negotiations regarding modifications to this Contract which may be required in order to
 2294 implement changes in the interest of the public welfare or due to change in law. When
 2295 such modifications are made to this Contract, the CITY and the CONTRACTOR shall
 2296 negotiate in good faith, a reasonable and appropriate compensation adjustment for any
 2297 increase or decrease in the services or other obligations required of the CONTRACTOR
 2298 due to any modification in the Contract under this article. The CITY and the
 2299 CONTRACTOR shall not unreasonably withhold agreement to such compensation
 2300 adjustment. CONTRACTOR acknowledges and agrees that the provision of this section
 2301 does not apply to changes in governmental fees unless such change is enacted by an
 2302 agency of the Federal government, or the State of California and the change applies to
 2303 all disposal or processing facilities in the State of California, or such change is proposed
 2304 and requested by the CITY. Except for those changes proposed and requested by the
 2305 CITY, changes to governmental fees or new governmental fees enacted by a local
 2306 government that apply only to the disposal or processing facilities within the jurisdiction
 2307 of that local government are specifically excluded from this section of the Contract and
 2308 the Collection Service rates set forth in the Contract shall not be adjusted to account for
 2309 those fees.

2310 26.03 Initiative and Technology Changes. CITY may direct CONTRACTOR or
 2311 CONTRACTOR may propose to CITY to perform additional services (including new
 2312 diversion programs, additional public education activities, etc.), eliminate programs, or
 2313 modify the manner in which it performs existing services. Pilot programs and innovative
 2314 services, which may entail new Collection methods, targeted routing, different kinds of
 2315 services, different types of Collection vehicles, and/or new requirements for Customers

Exhibit 1**Collection Services Contract No. 67-2017**

2316 are included among the kinds of changes which CITY may direct or CONTRACTOR may
 2317 propose. CONTRACTOR shall be entitled to an adjustment in its compensation for
 2318 providing such additional or modified services but not for the preparation of its proposal
 2319 to perform such services.

2320 26.04 Service Proposal. Within thirty (30) calendar days of receipt of a
 2321 request for a service change from CITY or in the event CONTRACTOR is proposing a
 2322 service change, CONTRACTOR shall submit a proposal to provide such service. At a
 2323 minimum, the proposal shall contain a complete description of the following:

2324 26.04.1 Program objectives and goals to be used in measuring the
 2325 success of the program as discussed in Section 26.06 below;

2326 26.04.2 Collection methodology to be employed (equipment,
 2327 manpower, etc.);

2328 26.04.3 Equipment to be utilized (vehicle number, types, capacity, age,
 2329 etc.);

2330 26.04.4 Labor requirements (number of employees by classification);

2331 26.04.5 Type of Carts or Bins to be utilized;

2332 26.04.6 Provision for program publicity, education, and marketing; and

2333 26.04.7 Five (5) year projection of the financial results of the program's
 2334 operations in an operating statement format including documentation of the key
 2335 assumptions underlying the projections and the support for those assumptions, giving
 2336 full effect to the savings or costs to existing services.

2337 26.05 Incremental Costs. In the event the change(s) in service results in an
 2338 incremental cost increase over the life of the Contract, CONTRACTOR will be
 2339 responsible for the first ten thousand dollars (\$10,000) of such increase in the
 2340 aggregate. To the extent costs are projected to exceed ten thousand dollars (\$10,000),
 2341 CITY and CONTRACTOR shall agree on the amount of additional costs to be
 2342 reimbursed to CONTRACTOR prior to the initiation of the service change.

2343 26.06 Other Contractors. CONTRACTOR acknowledges and agrees that
 2344 CITY may permit other contractors or companies besides CONTRACTOR to provide
 2345 additional Collection Services and such other services not otherwise contemplated by
 2346 this Contract if CONTRACTOR and CITY cannot agree on terms and conditions,
 2347 including compensation adjustments, of such services in one hundred twenty (120)
 2348 calendar days from the date when CITY first requests a proposal from CONTRACTOR to
 2349 perform such services.

2350 26.07 Monitoring and Evaluation. At CITY'S request, CONTRACTOR shall
 2351 meet with CITY to describe the progress of each new program and other service issues.
 2352 At each meeting, CITY and CONTRACTOR shall have the opportunity to discuss

revisions to the program. If applicable, CONTRACTOR shall document the results of the new programs on a monthly basis, including at a minimum the tonnage diverted by material type, the end use or processor of the diverted materials and the cost per ton for transporting and processing each type of material and other such information requested by CONTRACTOR and/or CITY necessary to evaluate the performance of each program.

26.08 Termination for Cause. CITY shall have the right to terminate a program or assign the program to a third party for cause at no cost to CITY or Service Recipients if CONTRACTOR is not achieving the programs agreed to and defined goals and objectives. Prior to such termination or assignment, CITY shall meet and confer with CONTRACTOR for a period of up to ninety (90) calendar days to resolve CITY'S concerns. Thereafter, CITY may terminate the program or utilize a third party to perform these services if CITY reasonably believes CONTRACTOR cannot meet or is not meeting the agreed to and defined project goals and objectives. Notwithstanding these changes, CONTRACTOR shall continue the program during the ninety (90) day period and, in the event CITY elects to utilize a third party to continue the program, thereafter until the third party takes over the program.

26.09 Termination without Cause. CITY shall also have the right to terminate a program without cause. As a condition of the termination, CITY shall reimburse CONTRACTOR for all costs incurred for implementation and performance of the program that were identified in the program proposal prepared and submitted by CONTRACTOR and agreed to by CITY which will have not been funded or otherwise recovered through program compensation at the time the program is terminated.

26.10 Rate Adjustment at Termination. In the event a program is terminated as set forth in Section 26.07 or 26.08 above, CONTRACTOR shall adjust all Customer rates to remove the component of the rate used to fund the program. The rates shall be adjusted as of the effective date of the termination of the program.

ARTICLE 27. Legal Representation

27.01 Acknowledgement. It is acknowledged that each party was, or had the opportunity to be, represented by counsel in the preparation of and contributed equally to the terms and conditions of this Contract and, accordingly, the rule that a contract shall be interpreted strictly against the party preparing the same shall not apply herein due to the joint contributions of both parties.

ARTICLE 28. Financial Interest

28.01 Representation. CONTRACTOR warrants and represents that no elected official, officer, agent or employee of the City has a financial interest, directly or indirectly, in this Contract or the compensation to be paid under it and, further, that no CITY employee who acts in the CITY as a "purchasing agent" as defined in the

2391 appropriate Section of California Statutes, nor any elected or appointed officer of the
 2392 CITY, nor any spouse or child of such purchasing agent, employee or elected or
 2393 appointed officer, is a partner, officer, director or proprietor of the CONTRACTOR and,
 2394 further, that no such CITY employee, purchasing agent, CITY elected or appointed
 2395 officer, or the spouse or child of any of them, alone or in combination, has a material
 2396 interest in the CONTRACTOR. Material interest means direct or indirect ownership of

2458 default of this Contract and immediately terminate this Contract by giving written notice
2459 to the CONTRACTOR, and upon the date of such notice this Contract shall be deemed
2460 immediately terminated, and upon such termination all liability of the CITY under this

2469 services and the Contract Administrator has approved a subcontractor who will perform
2470 such services. CONTRACTOR shall be responsible for directing the work of
2471 CONTRACTOR'S subcontractors and any compensation due or payable to
2472 CONTRACTOR'S subcontractor shall be the sole responsibility of CONTRACTOR. The
2473 Contract Administrator shall have the right to require the removal of any approved

2481 amendment to the Rancho Cordova Municipal Code that would substantially affect the

2506 of any other term, covenant or condition. The subsequent acceptance by CITY of any
2507 fee, tax, or any other monies which may become due from CONTRACTOR to CITY shall

MEMORANDUM

DATE: June 19, 2017

TO: Honorable Mayor and Council Members

FROM: Albert Stricker, Public Works Director and
Steve Harriman, Operations and Maintenance Division Manager

SUBJECT: **RESOLUTION 89-2017 AWARDING CONSTRUCTION CONTRACT 63-2017 IN THE AMOUNT OF \$134,097 TO NORTHERN PACIFIC BUILDERS, INC. FOR THE CORPORATION YARD TENANT IMPROVEMENT PROJECT AND INCREASING THE PROJECT BUDGET FROM \$230,000 TO \$300,000.**

RECOMMENDATION

Adopt Resolution No. 89-2017.

RESULT OF RECOMMENDED ACTION

Adoption of this resolution will authorize the City Manager to execute construction contract 63-2017 in the amount of \$134,097 with Northern Pacific Builders, Inc. for the Corporation Yard Tenant Improvement Project, and increase the tenant improvement project budget from \$230,000 to \$300,000.

BACKGROUND

The Public Works Department provides on-going maintenance services across the City, including pavement and sidewalk repairs, street sign installation and maintenance, litter and graffiti abatement, and maintenance of light-rail stations and storm water basins and canals. Public Works employees who perform maintenance services currently dispatch from the Rancho Cordova Neighborhood Services Center (RCNC) on Gold Tailings Drive, which is shared with Code Enforcement and Facilities staff. Public Works has outgrown the RCNC facility in recent years due to staffing increases and a growing inventory of vehicles, equipment and supplies to cover additional maintenance responsibilities.

On January 17, 2017, the City Council approved the acquisition of real property located at 3303 Luyung Drive for a corporation yard. At the time of acquisition, staff estimates for all tenant improvements were in the amount of \$230,000. Bids for the tenant improvement project were solicited on the City's Website and published in the Grapevine Independent on May 19, 2017. Sealed bids for the project were publicly opened on June 7, 2017. A total of three bids were received, and the lowest responsible base bid was in the amount of \$134,097. In addition, bids for office furniture and warehouse equipment, architectural services and inspections, IT and security systems, and other upgrades totaled approximately \$147,000. Based on current quotes, including a 6% contingency, the total budget for all tenant improvements, furniture and equipment is \$300,000.

Staff recommends adoption of Resolution 89-2017 awarding construction contract 63-2017 with Northern Pacific Builders, Inc., and approving the increase in the tenant improvement project budget from \$230,000 to \$300,000.

FISCAL IMPACT

This project is funded by the Capital Facilities Fund and has no impact on the General Fund. The total project budget for the Corporation Yard purchase, tenant improvements, furniture and equipment is \$1,317,500.

FROM: Chris Pittman, Chief of Police

SUBJECT: RESOLUTION ACCEPTING A GRANT FROM THE STATE OF CALIFORNIA DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL (ABC) IN THE AMOUNT OF \$53,004 AND AUTHORIZING CITY MANAGER TO EXECUTE A GRANT AGREEMENT

RECOMMENDATION

Adopt Resolution No. 88-2017.

RESULT OF RECOMMENDED ACTION

The Rancho Cordova Police department will accept \$53,004 in grant money from ABC to undertake education and enforcement of ABC laws with a focus on general enforcement at on-sale and off-sale problem establishments.

BACKGROUND

The Rancho Cordova Police Department submitted a grant application to the California Department of Alcoholic Beverage Control (ABC) and was awarded \$53,004. The project will utilize sworn personnel to conduct training to local businesses, participate in youth alcohol prevention programs, and conduct undercover and enforcement operations on an overtime basis.

Patrols will be used to focus on areas where there is a high concentration of liquor establishments that often contribute to increased crimes such as assaults, thefts, robberies and narcotic violations.

The effectiveness of this program will be measured by a decrease in future calls for service at problem establishments, reduction in minors purchasing alcohol, fewer people cited for purchasing/selling alcohol to minors, and a reduction in DUI arrests/collisions.

The goals and objectives for this funding will focus on the following:

- Continue Minor Decoy/Shoulder Tap operations.
- Implement general enforcement operations around problem areas.
- Provide training to local business owners and employees.
- Team with community based organizations on education and preventative programs.
- Educate members of the community to reduce the amount of sales and consumption of alcohol to minors.

Officer Petersen will be assigned as the Project Director. He has coordinated several ABC Operations in the past and has facilitated training for local business owners and employees.

SCOPE OF WORK

1. Summary

Agency Description

The City of Rancho Cordova is located in the eastern portion of Sacramento County. The city's current population is approximately 67,911. Approximately 49.7% of the population is Caucasian, 20.5% Hispanic or Latino, 13.5% Asian, 9.2% African-American and 1.7% other. The City of Rancho Cordova contracts law enforcement services with the Sacramento County Sheriff's Department. The Rancho Cordova Police Department (RCPD) is a full-service agency. RCPD embraces Community Oriented Policing as the manner in which it serves an incorporated community. Under Chief of Police Chris Pittman, RCPD is currently comprised of 1 Captain, 4 Lieutenants, 11 Sergeants and 46 sworn officers.

RCPD proudly supports the Police Activities League (PAL) which is directed by Officer J. De La Cruz. PAL is a youth crime prevention program utilizing educational, athletic, recreational, and drug/alcohol awareness programs to create trust and understanding between police officers and youth. The PAL program brings youth under the supervision and positive influence of a law enforcement agency, expands public awareness about the role of police officers, and reinforces the responsible values and attitudes instilled in young people by their parents.

Working closely with PAL is the RCPD Problem Oriented Policing (POP) Unit. The team consists of a Sergeant, four POP Officers, two School Resource Officers, one Youth Services Officer and a Crime Prevention Specialist. The POP Sergeant oversees all alcoholic beverage licensing and enforcement. **There are 128 ABC licensed locations in the city and 111 locations in the areas immediately surrounding the city for a total of 239.**

In addition to the City of Rancho Cordova, the unincorporated areas surrounding the City are also serviced by the Sacramento County Sheriff's Department. These areas include Gold River with a population of 7,912, Rosemont with a population of 22,681, and the La Riviera neighborhoods with a population of 10,802. The Rancho Cordova Police Department included these areas for the 2015-2016 ABC grant and the OTS mini grant for 2016-2017 with great success. It is the intention of the Rancho Cordova Police Department to continue to include these areas with the award of this grant.

RCPD recently adapted and implemented Intelligence Lead Policing (ILP). With the implementation of ILP came a change to the shift model within the department. Our shifts are now comprised of three shifts covering morning watch, day watch, and evening watch. The shifts are now comprised of two teams per shift that cover both halves of the week with one overlap day where all personnel work one day per week. With this schedule, each shift is now responsible for special projects within the community to help enhance our policing efforts and the safety of the community.

With the award of this grant, the POP team will utilize the additional staffing on these shift overlap days and include patrol officers in the ABC operations when possible. With the inclusion of patrol officers, we will have additional staffing when needed while incurring no additional cost for the operations. As an added benefit, we will expose patrol staff to ABC operations while providing them with additional resources in combatting ABC related offenses. Incorporating Patrol into operations will allow the POP unit and the ABC grant officer to train patrol Officers. This training will be crucial for patrol officers to carry out education, prevention and enforcement measures after the grant cycle has been completed.

Exhibit A

SCOPE OF WORK

RCPD has seen evidence of the ABC GAP grant work within our community in recent years. Between the years of 2010 through 2016, arrests of minors for public intoxication, DUI, and minor in possession of alcohol related offenses have seen a marked reduction overall. For instance, RCPD has experienced a reduction of DUI for alcohol/drugs for minors reduced from sixteen in 2012 to seven for 2016.

Overall, we have experienced a decrease in minor related alcohol offenses for the past five years, of which we have participated in GAP funding for the past four years. It is believed with continued collaborative efforts with ABC, we can continue to strive for further improvements in these areas.

During the 2015/2016 GAP grant the Rancho Cordova Police Department incorporated social media to combat underage drinking and furnishing alcohol to minors. The RCPD Facebook page regularly posted pictures of our offenders who provided alcohol to minors during our shoulder tap operations. With the added popularity of the departments Facebook page and social media in general, we are able to publicize our efforts to educate a larger audience.

B. Funding Requested

The RCPD is requesting \$53,004.00 to conduct enforcement operations and "buy money" for operations.

C. Goals and Objectives

Our Goals and Objectives are a decrease in calls for service at problem establishments such as Monty's Lounge and the Sunrise Event Center, a reduction in minors purchasing alcohol, reduction in individuals cited for purchasing/selling alcohol to minors, and a reduction in DUI arrests/collisions involving minors. To accomplish our goals we will engage in the following:

- Minor Decoy and/or Shoulder Tap Operations.
- General Enforcement Operations around ABC licensed establishments.
- Provide LEAD Training to local business owners and employees.
- Collaborate with the Police Activities League (PAL) and provide education and prevention programs.
- Educate members of the community to reduce the amount of sales and consumption of alcohol to minors.
- Collaborate with our Community Prosecutor and provide education and prevention programs during the citizen's youth academy put on by the Sacramento County District Attorney's office.

D. Number of ABC Licensed Locations

- 83 on-sale and 45 off-sale retail licenses in the City of Rancho Cordova.
- 15 on-sale and 5 off-sale retail licenses in the Gold River area.
- 28 on-sale and 25 off-sale retail licenses in the Rosemont area.
- 21 on-sale and 17 off sale retail licenses in the La Riviera area.

The total licenses for our affected area consist of the following:

- 147 on-sale licenses and 92 off-sale licenses for a total of 239.

Exhibit A

SCOPE OF WORK**2. Problem Statement - Describe the issues or problems to be addressed with grant funds.*****High Concentration of Liquor Establishments, Folsom Blvd. Corridor***

Rancho Cordova has 128 alcohol licensed businesses. There are 45 off-sale and on-sale premises located along a five mile stretch of Folsom Boulevard. In 2015, 14% of the city's crime occurred within a 3.5 mile stretch of the Folsom Blvd. Corridor, which accounts for approximately 10% of the city's area. These crimes include burglary, larceny, assaults, robberies and narcotic violations. This equates to a 1% decrease in crimes from 2014. In 2016, 426 of the city's 3,640 crime reports were generated in this same area accounting for 12% of the city's crime.

Transients

The City of Rancho Cordova has a high concentration of local transients. RCPD receives citizen complaints regarding homeless camps and transients engaging in shoulder tapping, loitering, public urination, and public intoxication in close proximity to ABC licensed establishments. RCPD formerly utilized funding to specifically enforce transient related criminal activity which we referred to as the Transient Enforcement Detail (TED). TED funds were recently redirected to a specific target area we refer to as the Folsom, Olson, Zinfandel corridor or FOZ. We now utilize regular auxiliary shifts to patrol this specific area surrounding many of the city's core shopping centers. The majority of time officers work the FOZ corridor is spent enforcing transient related offenses which regularly include alcohol based crimes.

3. Project Description - What are the goals and objectives of the proposed project?

The project will utilize sworn personnel to conduct undercover and enforcement operations on an overtime basis. All operations will be coordinated through the POP Unit and when possible, will utilize patrol staffing. Our goals and objectives will predominantly focus on reducing alcohol related incidents at local establishments by implementing effective enforcement strategies in targeted problem areas.

RCPD will utilize this funding to enhance the education of licensees and their employees through IMPACT Inspections and LEAD Training. We will collaborate with existing resources including ABC, the Sacramento County District Attorney's Office, Code Enforcement, Business Licensing and the Sacramento Metro Fire Department. This will allow us to implement various strategies to combat the high volume of incidents at identified problem premises.

American River

In the past, the American River has been host to several river rafting events that had been problematic for the community. These "Rafters Gone Wild" events utilize social media to reach vast amounts of people for the event. It is not uncommon for thousands of people to converge on the American River and consume large quantities of alcohol. One such event resulted in 23 arrests and a near riot. As a result of spontaneous events, the county expanded the ban on alcohol ordinance to include such events.

We will maintain our partnerships formed with middle school and high school children through interactive programs such as PAL, the Folsom Cordova Community Partnership, and the District Attorney's youth academy to educate children of the risks of alcohol and drug use. These programs are well attended by our local youth who are active in alcohol and drug prevention and awareness.

Exhibit A

SCOPE OF WORK

Project Objectives:

1. Identify and target problem licensed locations.
2. Improve patrol investigative response to the problem licensed premises by forming a working relationship with ABC and establishing a direct contact with ABC.
3. Reduce the negative effects on our community and the Rancho Cordova Police Department of problem licensed premises.
4. Reduce the sales of alcoholic beverages to minors.
5. Reduce the availability of alcoholic beverages to minors.
6. Educate licensees and their employees.

Goals:

1. Educate patrol officers to promptly identify and appropriately deal with alcohol licensed premises by attending a minimum of **three** patrol briefings.
2. Conduct a minimum of **two*** IMPACT Operations.
3. Facilitate and coordinate **one** LEAD Training.
4. Attend community outreach programs to create an open line of communication between the police department and community groups by meeting with them at least **five** times.
5. Conduct a minimum of **eight*** Minor Decoy and/or Shoulder Tap Operations.
6. Conduct a minimum of **ten** General Enforcement Operations around On-sale and Off-sale establishments. Four of those will be done during daytime hours and **six*** will be during evening hours.
7. Issue a media release at the beginning of our grant period advising the public of our intent to conduct Minor Decoy/Shoulder Tap Operations.
8. *Conduct alcohol check points and enforcement at the American River during the 4th of July and Rafting Gone Wild events, including ABC licensed establishments where alcohol is conveniently located near river access points.

** Indicates operations requiring overtime*

4. Project Personnel – Describe the staffing required to carry out the grant objectives as supported by the proposed budget.

The Rancho Cordova Police Department will assign the POP Unit to coordinate all ABC Operations, presentations and training. The POP Unit currently consists of Sergeant C. Sotelo, Officer R. Moya, Officer G. Ma, Officer E. Petersen, Officer J. Wall, and Officer Jose De La Cruz who is the units Youth Services Officer. In addition, the POP Unit is augmented by two Sacramento County Probation Officers.

Officer Petersen and Officer Wall will be assigned as the Project Directors. Officer Petersen has coordinated and conducted multiple ABC Operations, facilitated a LEAD Training Class and has assisted in several IMPACT inspections. The current POP team has been involved in numerous ABC GAP funded operations. Officer Petersen and Officer Wall will attend the GAP conference and other alcohol related courses to increase their ability to carry out the project goals and objectives.

RCPD understands the importance of the Shoulder Tap and Minor Decoy Programs. We look forward to continuing our partnership with ABC to make a significant impact in our community to educate, deter, and arrest those individuals who choose to purchase and/or sell alcoholic beverages to minors.

DATE: June 19, 2017

TO: Honorable Mayor and Council Members

FROM: Cyrus Abhar, City Manager
Curt Haven, Director of Economic Development & Neighborhood Services
Jessica Hayes, Housing Consultant

SUBJECT: RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECTURE A CONTRACT AMENDMENT WITH MICHAEL BAKER INTERNATIONAL TO ADMINISTER THE CITY'S CALHOME HOUSING REHABILITATION PROGRAM

RECOMMENDATION

Adopt Resolution No. 96-2017.

RESULT OF RECOMMENDED ACTION

An approving resolution will authorize the City Manager to execute an amendment to an existing contract (contract #15-2014-2) with consultant Michael Baker International to administer the CalHOME Housing Rehabilitation Program, which will increase the contract amount from \$102,000 to \$125,000 and will extend the contract term through June 30, 2018.

BACKGROUND

In 2011/12 the City of Rancho Cordova applied for and was awarded a CalHOME grant for \$720,000 for owner occupied housing rehabilitation for low-income homeowners in the City's redevelopment area. Due to confusion about the State Housing and Community Development (HCD) requirements and staffing issues, the program was slow to initiate, and the City petitioned for two extensions of the grant to allow time for the program to gain momentum. The City completed about half of the rehabilitation loans scheduled for the program by the end of the last extension in April of 2017. HCD agreed to allow one more year for the City to complete the remaining loans and fully expend the remaining grant funds. The CalHOME Grant will expire in April of 2018.

HCD has changed the CalHOME program expectations and regulations a couple of times over the life of the City's grant. Originally CalHOME had very low activity delivery allowances and did not include any funding for grant administration. After several jurisdictions expressed difficulty completing projects with the allowed activity delivery, HCD agreed to increase the allowed funding for activity delivery to 18% of the grant funding. HCD did not agree to include any administration funding.

Michael Baker's contract for the administration of the underwriting and construction management components of the CalHOME program expired in February of 2012, however, Michael Baker Staff were informed that the City did wish to continue the program, that the City would consider a third contract amendment, and were asked to assist in obtaining the grant extension from HCD. The prior contract amendments were aligned with the grant deadline extensions allowed by HCD.

During the period between when the Michael Baker contract expired and the official grant extension was provided from HCD, the City experienced some turnover in housing staff, resulting in a loss of program knowledge and a lack of staff experienced in the administration of the CalHOME grant. Michael Baker staff have both program knowledge and experience in administering CalHOME funds, and were asked to include the program administration to the proposed contract amendment. Exhibit A includes the scope and budget proposed to fully administer and complete the City's CalHOME owner occupied housing rehabilitation program. It includes an increase in the activity delivery fee, as now allowed by HCD, and an estimated cost for administering the remaining year of the program. It also includes a new contract expiration date of June 30, 2018, which will allow sufficient time to fully close out the CalHOME program.

FISCAL IMPACT

The remaining funds in the City's CalHOME grant (about \$330,000) is expected to support about six additional owner occupied housing rehabilitations. The grant includes the cost of activity delivery for the project management of the remaining programs. HCD has increased the allowed activity delivery to 18% of the total project cost, all of which is reimbursable from the grant and has no impact on the City's General Fund. The current contract is for \$102,000. That contract price was made up of \$92,000 of grant reimbursable activity delivery, and \$10,000 of general administrative assistance funds intended to support the CalHOME program through 2016. The majority of that contract, including the general administrative assistance funds has been expended. HCD's increase to 18% activity delivery increases the amount of funding available for the remaining rehabilitation loan activities. These increases are eligible for reimbursement through the grant. Exhibit A includes a grant reimbursable increase of \$11,200 for activity delivery.

The CalHOME program does not include grant administration as part of the grant reimbursable costs. Program administration includes developing and updating guidelines, forms, contracts, budgets, quarterly reports, and other general administration activities. Prior to this contract amendment, City staff completed these activities, and the general administration of the CalHOME program was supported through the City's General Fund. Staff turnover has left the City without the capacity for ongoing administration of the CalHOME program. Michael Baker staff have successfully administered several CalHOME programs, and are very familiar with the City's administration requirements. Exhibit A includes costs for ongoing general administration of the CalHOME program throughout the remaining year and the closeout of the program, to be funded out of the City's General Fund for a not to exceed of \$11,800. **The new total contract price will be \$125,000, made up of \$102,000 from the prior contract, \$11,200 in new grant reimbursable funds, and \$11,800 in City General Fund to support the general administration and closeout of the program.**

TASK 1: HOME GRANT ADMINISTRATION

Michael Baker will continue to assist the City of Rancho Cordova with the following tasks related to the administration of the City's remaining \$339,000 of the \$720,000 2011 CalHOME grant from the California Department of Housing and Community Development (HCD). The following services will be performed on an as-needed basis to successfully complete the program and effectively manage costs.

SERVICES

- **Progress Reports** – Michael Baker will continually keep the City informed of any potential issues related to the project budget or milestone targets included in the City's grant agreements.
- **Prepare and Submit Required Reporting** – Michael Baker will prepare all required reports, including Financial and Accomplishment Reports, program income reports, draw requests, and any other reporting requested by the funding source, for City approval and submittal.
- **Maintain Public Information Binders** – Michael Baker will inform the City should a document be placed in the public information binder.
- **Prepare and Retain Records and Documents Relating to Submitted Charges** – Michael Baker will prepare grant draw requests and provide them for City review and submittal to HCD. City staff will maintain financial records with detailed copies of invoices and documentation.
- **Program Guidelines** – Michael Baker will revise the City's program guidelines for the Owner-Occupied Rehabilitation Program to indicate the current activity delivery allowance as approved by HCD.
- **Marketing** – To ensure that the City takes advantage of the remaining CalHOME funds, Michael Baker will produce marketing materials in English and Spanish. These materials will be full-color professionally designed materials. We will initiate marketing and promotional efforts in order to compile or supplement a list of potential participants and ensure that all groups have equal opportunity to apply for the program. Michael Baker will conduct marketing efforts in accordance with HCD affirmative marketing policies. We will contact potential owners with information on the program. All marketing and outreach efforts will be conducted in compliance with state and federal fair lending regulations.

COST

Michael Baker's fees will not exceed \$8,000 for these grants administration tasks. These will be General Administration costs that are not eligible for reimbursement from the City's CalHOME grant.

TASK 2: HOUSING REHABILITATION PROGRAM IMPLEMENTATION

Michael Baker will continue to assist the City of Rancho Cordova with the following tasks related to the implementation of the City's Owner-Occupied Housing Rehabilitation Program for the remaining \$339,000 of the \$720,000 CalHOME grant from HCD. The following services are all considered to be Activity Delivery tasks, and will be reimbursable from the CalHOME grant as eligible project costs.

SERVICES

- **Review Applications and Determine Eligibility** – Michael Baker will collect and review applications from all individuals interested in the program. Applicants will be qualified for the program based on a verification of income, current employment, credit history, and other determining factors. We will assist applicants who need help completing the application or who may have questions about the process. All applications will be reviewed for completeness and to determine if additional information is needed. Any additional information needed to complete the file will be collected by Michael Baker, including title documents, property liens, proof of insurance, and taxes.
- **Environmental Review** – Michael Baker staff will prepare a site-specific environmental review for each home to ensure compliance with state regulations and assess potential issues related to historic preservation, airport clear zones, and explosive and flammable operations, toxic/hazardous/radioactive materials, contamination, chemicals, or gases. Michael Baker has extensive experience with the environmental review process and in implementing mitigation measures upon any findings, and has also worked closely with the Office of Historic Preservation.
- **Loan Committee** – Once the homeowner has submitted a complete application package, Michael Baker will present the loan package to the City for approval. Michael Baker will also be available to present the loan package to the City's Loan Committee.
- **Manage Work Write-Up Development** – Michael Baker's rehabilitation specialist will complete detailed work specifications for all program participants. The housing rehabilitation specialist will visit the property, determine the level of rehabilitation needed, and create detailed work specifications. The rehabilitation specialist will also determine the need for lead-based paint abatement, and Michael Baker will require contractors to comply with HUD Lead-Based Paint Guidelines. If the repairs cannot be completed within the confines of the program (e.g., the after-rehabilitation value will exceed the maximum allowed), the homeowner will be informed and, when possible, directed to other resources. Applicants whose rehabilitation needs are in line with the program's capacity will be evaluated based on the criteria set forth by the City in the program guidelines. The work specifications will include all labor and materials needed to complete the rehabilitation, as well as an estimate of project cost and a line item cost estimate for the rehabilitation work specific to each trade.
- **Contractor Procurement and Contract Documentation** – Michael Baker will compile a list of qualified contractors in the area, with an emphasis on including minority- and women-owned businesses. Michael Baker's rehabilitation specialist will work with the homeowner to obtain competitive bids from the contractors on the list, as well as from contractors not included on the list. Michael Baker staff will ensure that all contractors understand any applicable prevailing wage regulations, are not debarred by the federal government, and meet any additional qualifications set forth by the City in the program guidelines. Michael Baker staff will, when necessary, help the homeowner select a contractor who is able to responsibly complete the rehabilitation work, and who provides a good value to the homeowner and the City. We will develop all construction documents, including scope of work, product and material specifications, and construction contracts, and the homeowner will approve the rehabilitation scope of work before construction begins. Michael Baker staff will execute and administer all

construction contracts, and we will require the contractor to obtain any necessary building permits.

- **Loan Underwriting** – After receiving loan approval from the City, Michael Baker will complete all the underwriting associated with making housing rehabilitation loans. This includes completing the Promissory Note and Deed of Trust, obtaining proof of insurance, notarizing the security documents, and recording them with the County Recorder's office. Michael Baker will also ensure that both the homeowner and the contractor fully understand all the provisions in their agreement. After the necessary loan documents are signed, a Notice to Proceed will be issued, allowing rehabilitation work to commence
- **Oversee Contractor's Work** – Michael Baker's rehabilitation specialist will be closely involved throughout the rehabilitation process, overseeing all work performed to ensure that it is completed and consistent with the quality standards set forth by the City and in accordance with contract documents, City code, and conditions of the building permit. The rehabilitation specialist will also work with the contractor and the homeowner to approve any change orders, and determine the best financial mechanism to cover change order costs. Photographs of the work progress will be taken and maintained in the project file.
- **Payment Management and Project Inspections** – Michael Baker staff will process partial payments to the contractor on a reimbursement basis for work completed, ensuring that all lien waivers, warranty commitments, and homeowner's approval are obtained. Michael Baker will coordinate with City staff (e.g., building inspector) to obtain final approval of the work completed, including achieving clearance of any lead-based paint work. When necessary, the rehabilitation specialist will contact the contractor to repair any work that was not completed or not up to the set standards. The rehabilitation specialist will ensure that all work is satisfactorily completed before final payment is issued.
- **Record Maintenance and Reporting** – Michael Baker will complete all required analysis and/or forms and submit them to the City. Michael Baker staff will ensure that all programs are administered in accordance with applicable federal, state, local, and program regulations, and will complete all reporting within the given time frame. Michael Baker will provide regular progress reports and maintain client files for each project. We will provide all completed files to the City.

COST

Michael Baker's fee will not exceed 18 percent of the loan amount for the implementation of the City's Owner-Occupied Housing Rehabilitation Program. These will be activity delivery costs reimbursable from the City's CalHOME grant.

Michael Baker has six loans that are in progress from the prior contract with the City. Michael Baker staff will continue to process these loans as per the project guidelines and will identify sufficient new applicants to fully expend the CalHOME grant funds. Michael Baker understands that the City's CalHOME grant is being operated under a grant extension from HCD, and that the grant extension will expire on April 5, 2018. The City has committed to expending all of the remaining CalHOME funds prior to the grant expiration, and Michael Baker will commit to completing all of the loans and all grant draw-down and reporting information by this deadline.

SUBJECT: **RESOLUTION NO. 98-2017 AUTHORIZING THE LEVYING OF SPECIAL ASSESSMENTS FOR DELINQUENT CHARGES RELATED TO NUISANCE ABATEMENT AGAINST PROPERTIES AND REQUESTING SACRAMENTO COUNTY TO COLLECT THESE CHARGES ON THE FISCAL YEAR 2017-18 TAX ROLL.**

RECOMMENDATION

Adopt Resolution 98-2017.

RESULT OF RECOMMENDED ACTION

Resolution No. 98-2017 will result in the levying of special assessments on properties that owe delinquent fines and fees related to nuisance abatement actions performed by the City.

BACKGROUND

The City has made great strides in the prevention and enforcement of nuisance property issues. The City has also greatly improved its rental housing inspection program to gain code compliance from these properties. The goals of the City's prevention, enforcement, and nuisance abatement efforts are compliance with the law, protection of the public health and welfare, and the retention and improvement of property values – all of which improve the quality of life for Rancho Cordova residents, businesses, and visitors.

However, costs related to these code enforcement efforts are not fully recovered because many property owners fail to pay the fees and charges owed for violations, inspections, and nuisance abatement.

In 2014, the City Council approved Ordinance No. 27-2014, establishing clear procedures for the recovery of these delinquent accounts by recording liens or special assessments against properties. Cost recovery is an important part of deterring future code violations. It also helps maintain the integrity of the City's code enforcement system.

Since the passage of Ordinance No. 27-2014, City staff has processed two rounds of cases owing delinquencies. Resolution No. 98-2017 authorizes the approval of the proposed special assessments to go on the tax roll for collection with other municipal taxes.

All property owners received notice and the opportunity to appear before a hearing officer to protest the delinquencies owed. The hearing officer examined the evidence and confirmed any and all delinquent amounts owed. Any protests related to the underlying citations (upon which the delinquencies are based) should have been made during the initial appeal period following the issuance of the citations—which has since passed. This means that the merits of the underlying citations are not at issue here; the proposed special assessment hearings were to determine whether the amounts owed were correct.

The Resolution before Council confirms the amounts owed and is the final step required prior to sending the accounts to the County Assessor.

SUBJECT: **RESOLUTION APPROVING PROCEEDINGS FOR THE ANNUAL LEVY AND COLLECTION OF ASSESSMENTS FOR LANDSCAPING AND LIGHTING DISTRICT NO. 2005-1 FOR FISCAL YEAR 2017-2018.**

RECOMMENDATION

Adopt Resolution No. 57-2017.

RESULT OF RECOMMENDED ACTION

Adoption of this resolution will authorize the continuance of the annual levy and collection of assessments in the District. There are no new impacts to existing or new residents. No assessments shall increase as a result of this action.

BACKGROUND

On June 5, 2017, the City Council approved resolutions ordering the preparation of the Engineer's Annual Levy Report, and set the public hearing to be held prior to approving and ordering the levy of assessments for Fiscal Year 2017-2018. The assessments fund the ongoing landscape maintenance services in the District. There are no new impacts to existing or new residents. No assessments shall increase as a result of this action.

State law requires the City Council to direct an Engineer's Report to be prepared each year and to hold a public hearing on the Report and the levy of the annual assessments. On June 5, 2017 the City initiated the proceedings for the annual levy and collection of assessments through adoption of Resolution No. 50-2017 ordering the preparation of the Engineer's Report and Resolution No. 51-2017 preliminarily approving the Engineer's Report, declaring its intention to levy and collect annual assessments for Fiscal Year 2017-2018, and set today as the time and place to conduct a public hearing on the matter.

The Engineer's Report includes a diagram of the assessment area, a description of the maintenance services to be provided, a description of the property to be benefited, and the amount of the assessment to each individual property. The services performed within and funded by LLD 2005-1 include ongoing maintenance, operation and servicing of landscaping and streetscape improvements within the right-of-ways and other public areas within the District at the locations described in the Engineer's Report.

The proposed Fiscal Year 2017-2018 assessment rates do not exceed the rates previously levied by the County since 1994 and are equal to the rates levied by the City in Fiscal Year 2016-2017. The boundaries of each Zone are shown in the district diagram in Part IV of the Engineer's Report and the details for each Zone are listed below:

- Zone 1 of the District is comprised of 97 residential parcels in the Ellenwood subdivision. These parcels are assessed on per a Parcel basis at the maximum rate of \$42.50 per parcel for the median landscape and parkway landscape improvements associated with these parcels.
- Zone 2 of the District is comprised of 159 residential parcels known as California Jazz Unit No. 1 and Unit No. 2. These parcels are assessed on an acreage basis at the maximum rate of \$30.48 per acre for the median landscape and parkway landscape improvements associated with these parcels.
- Zone 3 of the District is comprised of 18 parcels along Zinfandel Drive between Data Drive and south of International Drive. These parcels are assessed on an acreage basis at the rate of \$1,413.24 per acre for the median landscape improvements within the District.
- Zone 4 is comprised of 52 parcels, including a portion of Capital Village, generally bounded by White Rock Road to the west, White Rock Road and Disk Drive to the north, fronting Kilgore Drive to the East, and fronting International Drive to the south. These parcels are assessed at the maximum rate of \$30.48 per gross acre for the median landscape and parkway landscape improvements associated with these parcels.
- Zone 4A is comprised of six hundred 664 parcels which are a part of the development known as Capital Village. Zone 4A was created to account for overlapping boundaries with a Landscape Maintenance CFD (LMCFD) formed by the City. The CFD will provide supplemental funding for landscape improvements within and adjacent to the development, including some median landscaping identified herein. Zone 4A shall be assessed at the maximum rate of \$30.48 per gross acre. Any supplemental funds generated by LMCFD that will be used to finance the median landscape improvements that benefit Zone 4A shall be transferred by the CFD to the District as a contribution to Zone 4A.

The Fiscal Year 2017-2018 total assessment is estimated at \$91,104. The District has an established Operating Reserve which provides funding for the operations and maintenance of the District, as well as providing financing for emergency expenditures. A second reserve fund finances special projects such as a central irrigation system, revegetation projects, and other rehabilitation projects or replacements of District improvements.

In July 2006, the County transferred funds previously collected in the County's Zone 4 and 5 to the City, which were deposited to the LLD 2005-1. The City had previously deemed that these transferred funds are to be used exclusively by the District and shall be considered as undesignated reserves within the Zones of the District. Funds from the undesignated reserve can be used to fund costs of any zone(s) that are unable to be funded by the annual assessments.

In order to proceed with the levy of assessments, it is appropriate for the Council to conduct the public hearing and adopt Resolution No. 57-2017 which approves the Engineer's Report and authorizes the levy and collection of assessments for Fiscal Year 2017-2018.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund.

INTRODUCTION

Pursuant to the provisions of the Landscaping and Lighting Act of 1972, being Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500 (hereafter referred to as the “1972 Act”), and in compliance with the substantive and procedural requirements of the California State Constitution Article XIID (hereafter referred to as the “California Constitution”), the City Council of the City of Rancho Cordova, County of Sacramento, State of California (hereafter referred to as “City”), has by resolution initiated proceedings in connection with the ongoing maintenance of the special assessment district designated as:

Landscaping and Lighting District No. 2005-1

(hereafter referred to as “District”), for the purpose of continuing and providing for the ongoing maintenance and operation of landscaping and lighting improvements within the District.

These improvements have previously been provided and administered by the County of Sacramento (the “County”) as part of the Sacramento Landscape Maintenance District (hereafter referred to as “SLMD”). Commencing with fiscal year 2005/2006, the City conducted property owner protest ballot proceedings and confirmed the assessments described herein at which time the maintenance and operation of the improvements became the responsibility of the City with the City Council acting as the legislative body of the District. The City Council proposes to continue the levy and collection of annual assessments through the County tax rolls to provide ongoing funding for the costs and expenses required to service and maintain the District improvements.

This Engineer’s Report (hereafter referred to as “Report”) has been prepared in connection with the annual administration of said District and the levy and collection of annual assessments related thereto for fiscal year 2017/2018, as required pursuant to Chapter 1, Article 4 of the 1972 Act. This Report describes the District, the improvements, and the proposed assessments to be levied on properties within the District in connection with the special benefits the properties receive from the maintenance and servicing of the District improvements. The annual assessments will provide a continued funding source for the ongoing operation and maintenance of public landscaping and lighting improvements associated with the properties within the District.

The improvements and assessments described in this Report are based on the improvements and assessments previously established by the County for SLMD Zone 4 and Zone 5 and represent an estimate of the direct expenditures, incidental expenses, and fund balances associated with the maintenance and servicing of those improvements. The structure of the District (organization), the

improvements, the method of apportionment, and assessments described herein have been established to continue the maintenance of the existing improvements and assessments previously established by the County as outlined in the District's Fiscal Year 2005/2006 Engineer's Report.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number (APN) by the County Assessor's Office. The County Auditor/Controller uses Assessor's Parcel Numbers and specific Fund Numbers to identify properties to be assessed on the tax roll for special benefit assessments.

In fiscal year 2005/2006, as part of the District formation to continue the assessments previously levied by the County as part of the SLMD Zone 4 and Zone 5 for properties within the boundary of the City, the City conducted a Property Owner Protest Ballot proceeding for the District assessments pursuant to the provisions of the *California Constitution, Article XIII D Section 4*. In conjunction with this ballot proceeding, the City Council also conducted a noticed public hearing to consider public testimonies, comments and written protests regarding the formation of the District and levy of maximum assessments. Upon conclusion of the public hearing, property owner protest ballots received were opened and tabulated to determine whether majority protest existed (ballots were weighted based upon the assessment amounts), and by resolution the City Council confirmed the results of the ballot tabulation. Tabulation of the ballots indicated that a majority protest did not exist for the continuation and transfer of assessments as presented and described in the fiscal year 2005/2006 Engineer's Report. The City Council approved the report, ordered the formation of the District, and approved the levy and collection of FY 2005/2006 assessments. The FY 2005/2006 assessments were then submitted to the Sacramento County Auditor/Controller for inclusion on the property tax roll for each parcel.

For fiscal year 2017/2018, this Report has been prepared and presented to the City Council describing the District, any changes to the District or improvements, and the proposed budget and assessments for this fiscal year, and the City Council shall hold a noticed public hearing regarding these matters prior to approving and ordering the proposed levy of assessments. Should the proposed annual assessments for the District or portion thereof, exceed the maximum assessments described herein (as approved by the property owners), the new or increased assessment must be confirmed through another property owner protest ballot proceeding before the new or increased assessment may be imposed. It should be noted that an increased assessment to an individual property resulting from changes in development or land use does not constitute an increased assessment.

This Report consists of five (5) parts:

Part I

Plans and Specifications: A description of the District boundaries and the proposed improvements associated with the District. The District was formed with four (4) benefit zones encompassing all lots and parcels of land within the boundaries of the City. The territory within the District had previously been assessed through Zone 4 and Zone 5 of the SLMD in fiscal year 2004/2005. The District was first assessed in fiscal year 2005/2006.

Part II

The Method of Apportionment: A discussion of benefits the improvements and services provide to properties within the District and the method of calculating each property's proportional special benefit and annual assessment.

Part III

The District Budget: An estimate of the annual costs to operate, maintain and service the District's landscaping and lighting improvements and facilities. The special benefit assessments are based on the overall operation costs minus any costs that are considered general benefit. The proposed budget includes the anticipated costs for operating, maintaining and servicing the District improvements for fiscal year 2017/2018, including any funds necessary to perform maintenance activities that cannot be reasonably collected in a single fiscal year to establish the proposed assessments for that year. Should the proposed assessments exceed the assessments described herein, property owner ballot proceedings shall be conducted to approve such an increase before the increase may be imposed.

Part IV

District Diagram: A Diagram showing the exterior boundaries of the District and the Zones therein is provided in this Report and includes the parcels that receive special benefits from the improvements. Parcel identification, the lines and dimensions of each lot, parcel and subdivision of land within the District, are inclusive of all parcels as shown on the County Assessor's Parcel Maps as they existed at the time of the passage of the Resolution of Intention, and shall include all subsequent subdivisions, lot line adjustments or parcel changes therein. Reference is hereby made to the County Assessor's maps for a detailed description of the lines and dimensions of each lot and parcel of land within the District.

Part V

Assessment Roll: A listing of the proposed assessment amount for each parcel within the District. The proposed assessment amount for each parcel is based on the parcel's proportional special benefit as outlined in the method of apportionment.

Part I — PLANS AND SPECIFICATIONS

A. Description of the District

The territory within the District consists of the lots and parcels of land that in fiscal year 2004/2005 were both within the City and within a portion of Zone 4 and all of Zone 5 of the Sacramento Landscape Maintenance District ("SLMD"). Said territory encompasses an area of land totaling approximately five hundred twelve acres (512 acres) that is centrally located within the City, generally south of Highway 50 and north of the City limits. Refer to the Budget Section for the current number of parcels within each Zone.

- **Zone 1:** That portion of the previous SLMD Zone 4, which at the time of the formation of the District included a total of ninety-seven (97) assessable parcels within the residential subdivision known as Ellenwood Court located south of Ellenwood Avenue. Upon formation of the District, this area was designated as Zone 1 to reflect the special benefit these parcels receive from the District improvements associated with the development located on the south side of Ellenwood Avenue.
- **Zones 2, 3 and 4:** The parcels within previous SLMD Zone 5, which at the time of the formation of the District included a total of six hundred eighty-six (686) assessable parcels generally located south of the American River, east of Mather Field Road and in close proximity to Zinfandel Drive and International Drive. Upon formation of the District, this area was designated as Zones 2, 3, and 4 and are described as follows:

Zone 2 included the one hundred fifty-four (154) assessable parcels within the residential subdivision known as California Jazz Units 1 & 2 generally located east of Data Drive, north of Reserve Drive, south of Capital Center Drive and west of International Drive.

Zone 3 included the eight (8) assessable parcels located on either side of Zinfandel Drive from Data Drive to the southern boundary of the District (approximately 700 feet south of International Drive).

Zone 4 included the remaining parcels that were previously included in SLMD Zone 5 that were not designated as either Zone 2 or Zone 3 of the District. This Zone includes parcels along Data Drive, International Drive, Capital Center Drive, White Rock Road, Quality Drive, Disk Drive, Prospect Park Drive and Kilgore Road.

Zone 4A is the portion of Zone 4 that also lies within the City's Community Facilities District No. 2005-2 ("CFD 2005-2"). Zone 1 of CFD 2005-2 was established to fund, to the extent that funds from CFD 2005-2 are available, maintenance of landscape improvements of the residential subdivision development known as Capital Village. These landscape improvements were installed along the subdivision's rights-of-way and within the median(s) adjacent to the development. The funds from Zone 1 of CFD 2005-2, to the extent available, shall offset all or a portion of the costs within Zone 4A.

B. Description of Improvements and Services

Landscape Improvements

The purpose of this District is to ensure the ongoing maintenance, operation and servicing of local landscaping and street lighting improvements within the District (improvements that had been previously funded through annual assessments from the SLMD). The improvements may consist of all or a portion of the public landscaped areas, street lighting and appurtenant facilities within and adjacent to the District. These improvements may include, but are not limited to the materials, equipment, utilities, labor, appurtenant facilities and expenses necessary for the ongoing maintenance and operation of public street lighting and landscape improvements including but not limited to parkways, medians and other designated easements, right-of-ways or public areas within the District. The improvements to be maintained and funded entirely or partially through the District assessments are generally described as:

- **Zone 1:** Streetscape (parkway) landscaping along the South side of Ellenwood Avenue east of Routier Road that is within the public right-of-ways or easements dedicated to the City for maintenance. The costs and special benefits of these improvements are shared equally by only the assessable properties within Zone 1 of the District.
- **Zone 2:** Streetscape (parkway) landscaping surrounding and adjacent to the California Jazz subdivision on the north side of Reserve Drive from Data Drive to International Drive; the east side of Data Drive from Reserve Drive north to the end of the subdivision; the west side of Capital Center Drive from International Drive north to the end of the subdivision; and the north side of International Drive from Reserve Drive to Capital Center Drive. The costs and special benefits of these improvements are proportionately shared by only the properties within Zone 2 of the District.
- **Zone 3:** Streetscape (parkway) landscaping on both sides of Zinfandel Drive between International Drive and Data Drive. The costs and special benefits of these improvements are proportionately

shared by only the properties within Zone 3 of the District.

- **Zones 2, 3, 4 and 4A:** All median landscape improvements within the District located on International Drive from approximately 570 feet westerly of Data Drive to Kilgore Road and on Zinfandel Drive from Data Drive to International Drive. The costs and special benefits of these improvements are proportionately shared by all the properties within Zone 2, 3, 4 and 4A of the District.

Specifically not included as District improvements are those improvements located on private property, improvements and facilities that may be provided or maintained by an agency other than the City; improvements and facilities that may be provided by another assessment or tax levied by the City or County and any improvement provided and maintained by a Homeowner's Association or similar entity.

Detailed descriptions of the location and extent of the specific improvements to be maintained by the District are on file with the City and by reference are made part of this Report. The net annual cost to provide and maintain the improvements determined to be of special benefit shall be allocated to each property in proportion to the special benefits received.

The landscape improvements for the District may include, but are not limited to turf, ground cover, shrubs and plants, trees, irrigation and drainage systems, ornamental lighting, masonry walls or other fencing, hardscape improvements, monuments, and associated appurtenant facilities located within the landscape easements or public right-of-ways. Specifically the landscape improvement areas for this District generally consist of the following:

- Approximately 9,600 square feet of streetscape (parkway) landscaping and 34 trees within the public right-of-ways located on the south side of Ellenwood Avenue.
- Approximately 11,000 square feet of turf, 28,455 square feet of streetscape (parkway) landscaping including 110 trees, located on the north side of Reserve Drive from Data Drive to International Drive; east side of Data Drive, from Reserve Drive north to end of California Jazz tract Unit No. 1; west side of Capital Center Drive, from International Drive north to the end of California Jazz Tract Unit No. 2; and north side of International Drive, from Reserve Drive to Capital Center Drive.
- Approximately 19,400 square feet of turf, 11,500 of streetscape (parkway) landscaping including 57 trees, located on the west side of Zinfandel Drive, south of International Drive.
- Approximately 152,340 square feet of turf, 55,600 square feet of streetscape and median landscaping including 392 trees along the

medians and frontage corridors on Zinfandel Drive, from Data Drive to International Drive; and medians on International Drive, west of Data Drive to Kiloge Road.

Public Lighting Improvements

Lighting facilities that may be located within the landscaped areas including safety lights, security lights or ornamental lights installed as part of the landscape improvements are budgeted as part of the landscape maintenance costs.

The lighting improvements may include but shall not be limited to the cost of providing electrical energy and servicing of lighting fixtures, poles, meters, conduits, electrical cable and associated appurtenant facilities associated with the street lighting, safety lighting and/or traffic signals within the District including public lighting facilities on designated arterial and collector streets as well as lighting facilities within residential subdivisions or public areas such as parks. The cost of such improvements shall be allocated based on the proportional special benefits properties receive from these improvements.

Improvements and Services Permitted Pursuant to the 1972 Act

As generally defined by the 1972 Act, the improvements and associated assessments for this District may include now or in the future one or more of the following:

- 1) The installation or planting of landscaping;
- 2) The installation or construction of statuary, fountains, and other ornamental structures and facilities;

- 6) The acquisition of land for park, recreational, or open-space purposes or any existing improvement otherwise authorized pursuant to this section.

- 7) The maintenance or servicing, of any of the foregoing including the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement including but not limited to:
 - a) Repair, removal, or replacement of all or any part of any improvements;
 - b) Grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities;

Part II — METHOD OF APPORTIONMENT

A. General

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping and appurtenant facilities.

The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as:

“An agency which proposes to levy an assessment shall identify all

parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

The method of apportionment described in this Report for allocation of special benefit assessments utilizes commonly accepted engineering practices and have been established pursuant to the 1972 Act and the provisions of the California Constitution. The formulas used for calculating assessments reflects the composition of parcels within the District and the improvements and services provided, to fairly apportion the costs based on the special benefits to each parcel.

B. Benefit Analysis

Each of the proposed improvements, the associated costs and assessments have been carefully reviewed, identified, and allocated based on special benefit pursuant to the provisions of the California Constitution and 1972 Act.

The improvements provided by the District and for which properties will be assessed have been identified as necessary, required and/or desired for the development of properties within the District and as such, the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of the parcels within the District. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are a distinct and special benefit to the properties within the District. Any improvement or portion thereof that is considered to be of general benefit shall be funded by other revenue sources and not included as part of the special benefit assessments allocated to properties within the District.

Special Benefit

The method of apportionment (method of assessment) established herein is based on the premise that each assessed parcel within the District receives special benefits from specific improvements and the desirability and security of those properties is enhanced by the presence of well-maintained improvements in close proximity to those properties.

The special benefits associated with landscape improvements are

specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life through well-maintained green space and landscaped areas.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

The special benefits of street lighting and other public lighting facilities are the convenience, safety, and security of property, improvements, and goods. Specifically:

- Enhanced deterrence of crime and the aid to police protection.
- Increased nighttime safety on roads, streets and public areas.
- Improved ability of pedestrians and motorists to see.
- Improved ingress and egress to property.
- Reduced vandalism and other criminal act and damage to improvements or property.
- Improved traffic circulation and reduced nighttime accidents and personal property loss.

All of the preceding factors contribute to a specific enhancement and desirability of each of the assessed parcels within the District and thereby provide special benefits to the properties. Furthermore, it has been determined that the lack of funding to properly service and maintain the District improvements could have a negative impact on the properties within the District.

General Benefit

In reviewing each of the District improvements, the proximity of those improvements to both properties within the District and those outside the District as well as the reasons for installing and constructing such improvements, it is evident that the improvements are solely for the benefit of properties within the District and the ongoing maintenance and operation of the improvements will directly affect the properties within the District. Although the improvements include public areas, easements, right-of-ways and other amenities available or visible to the public at large, the construction and installation of these improvements were only in direct benefit to the properties within the District and were not required nor necessarily desired by any properties or developments outside the District boundary and any public access or use of the improvements by others is incidental. Therefore, it has been determined that the improvements and the ongoing maintenance, servicing and operation of those improvements provide no measurable general benefit to properties outside the District or to the public at large, but clearly provide distinct and special benefits to properties within the District.

C. Assessment Methodology

The method of apportionment for the District calculates the receipt of special benefit from the respective improvements based on the actual or proposed land use of the parcels within the District. The special benefit received by each lot or parcel is equated to the overall land use of parcels within the District based on the parcel's actual land use or proposed development.

All costs associated with the improvements shall be fairly distributed among the parcels based upon the special benefit received by each parcel. Additionally, in compliance with the California Constitution, each parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred to that parcel. The benefit formula used to determine the assessment obligation is therefore based upon both the improvements that benefit the parcels within the District as well as the proposed land use of each property as compared to other parcels that benefit from those specific improvements.

At the time that the District was being formed and to identify and determine the special benefit to be received by each parcel and their proportionate share of the improvement costs, it was necessary to consider the entire scope of improvements to be maintained by the District, as well as individual property development within the District. Upon review of the improvements to be maintained, it was determined that four (4) distinct areas benefit differently from the improvements within the District and therefore the landscape maintenance and assessments were established

as four (4) benefit zones for the allocation of the assessments and proportional special benefit, as described below. Although a portion of Zone 4 was designated as Zone 4A in fiscal year 2007/08, as discussed below, Zones 4 and 4A remain as one benefit zone and are assessed at the same maximum rate.

Zones and Assessments:

Zone 1, upon formation of the District, was comprised of one hundred five (105) parcels that were previously part of the SLMD Zone 4. At that time, ninety-seven (97) of these parcels were residential properties and were assessed on a per parcel basis at the pre-existing rate of \$42.50 per parcel. Ninety-seven (97) parcels are currently being assessed within Zone 1.

Zone 2, upon formation of the District, was comprised of one hundred fifty-nine (159) parcels that were previously part of SLMD Zone 5 and are part of the residential developments known as California Jazz Unit No.1 and Unit No. 2. At that time, one hundred fifty four (154) of these parcels were assessed as residential properties on an acreage basis at the pre-existing rate of \$30.48 per acre for the median landscape improvements and parkway landscape improvements associated with these parcels. One hundred fifty four (154) parcels are currently being assessed within Zone 2.

Zone 3, upon formation of the District, was comprised of eight (8) parcels, all of which were assessable, that were previously part of SLMD Zone 5. These parcels were assessed on an acreage basis at the pre-existing rate of \$30.48 per acre for the median landscaping and \$1,382.76 per acre for the landscaping along the parkways of Zinfandel Drive, totaling \$1,413.24 per acre. Eighteen (18) parcels are currently being assessed within Zone 3.

Zone 4, upon formation of the District, was comprised of seventy (70) parcels that were previously part of the SLMD Zone 5 that were not included as part of this District's Zone 2 or 3. At that time, sixty three (63) of these parcels were non-exempt and were assessed on an acreage basis at the pre-existing rate of \$30.48 per acre for the median landscape improvements within the District. Fifty-two (52) parcels are currently being assessed within Zone 4.

Zone 4A, a portion of Zone 4 was redesignated as Zone 4A commencing with the fiscal year 2007/08 levy to account for the Zone 4A parcels lying within with a portion of CFD 2005-2; the Zone 4 parcels are outside of the CFD 2005-2 boundaries. At that time, Zone 4A consisted of five hundred seven (507) parcels, four hundred sixty two (462) of which were assessable. Since the CFD 2005-2 Zone 1, special taxes are to be levied upon Zone 4A parcels, these special taxes are contributed in part to the

District for the benefit of Zone 4A. Zone 1 of the CFD provides funding for landscape improvements within and adjacent to the development, including the median landscaping identified herein. Although the CFD may fund median landscaping, the special taxes levied within Capital Village may not provide sufficient funds to maintain both the landscape improvements within the Capital Village development and the median landscape improvements within the District that specially benefit the parcels within Zone 4A. Therefore, the six hundred sixty four (664) non-exempt parcels currently within Zone 4A will continue to be assessed up to \$30.48 per gross acre until such time that the CFD generates sufficient revenue to fund the median landscape improvements. Any funds generated by the CFD that will be used to finance the median landscape improvements that benefit Zone 4A shall be transferred by the CFD to the District as a contribution to Zone 4A.

Exempt Parcels — Properties within the District that are not assessed for special benefit include but is not limited to:

- Lots or parcels identified as public streets and other roadways (typically not assigned an APN by the County);
- Dedicated public easements including open space areas, utility rights-of-way, greenbelts, parkways, parks or other publicly owned properties that are part of the District improvements or may provide other benefits to private properties within the District;
- Private properties that cannot be developed independently from an adjacent property, such as common areas, sliver parcels or bifurcated lots or properties with very restrictive development use;

These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment, but shall be reviewed annually by the assessment engineer to confirm the parcels current development status. Government owned properties or public properties are not necessarily exempt properties and shall be subject to special benefit assessment unless it qualifies for an exempt status.

Special Cases — In many districts where multiple land uses and zones exist, the typical property classification and assessment methodology does not accurately identify the special benefits received from the improvements for each and every parcel. For example, in some cases, only a small percentage of the parcel's total acreage can actually be developed. In this case, an appropriate calculation would be based on the net acreage that can be utilized rather than the gross acreage of the parcel. These special circumstances will be reviewed annually by the assessment engineer.

Part III — DISTRICT BUDGET

A. Budget

The Maximum Assessment per Parcel or Acre shown herein is based on the cost of providing for the District improvements and does not include any other assessments or charges imposed on the properties. The budget within this report identifies the cost to maintain the improvements within each specified Zone of the District.

Each zone within the District maintains two separate reserves, one is utilized for Working Capital purposes (the “Operating Reserve”) and the other for longer-term projects (the “Special Projects Reserve”). The Operating Reserve provides cash for the ongoing operations and maintenance of the District, as well as providing funding for unanticipated expenditures. The size of the Operating Reserve for each zone is limited by Streets and Highways Code 22569, which states that an Operating Reserve shall not exceed the estimated costs of maintenance and services from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County. The City has determined that all budgeted costs as presented in this Report shall be considered as costs to maintain and service the District, or incidental expenses thereof, as to the application of the of Streets and Highways Code 22569.

The Special Projects Reserve can be used to finance the Central Irrigation System (CIS) project and re-vegetation projects, as well as other rehabilitation projects, repairs or replacements of District improvements. The District also holds an undesignated reserve, which represents the balance of the funds transferred from Sacramento County to the City when the authority for the District passed from County control to that of the City. At that time, the City deemed that these transferred funds are to be used exclusively by the District and shall be considered as undesignated reserves within the Zones of the District. Accordingly, funds from the Undesignated Reserve shall be transferred to fund the costs of any Zone, to the extent that the Zone is unable to fund such costs through the annual assessments and available reserves of the Zone.

B. Description of Budget Items

Description of the terms used in the preceding Budget, Assessment Rates and Reserve Balance tables are listed below:

MAINTENANCE AND OPERATION (DIRECT COSTS)

Contract Maintenance - Landscaping – Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements, irrigation and related drainage systems, as well as maintenance of appurtenant facilities (the “improvements”).

Utilities (Water/Electricity) – Landscaping - The furnishing of water and electricity required for the operation and maintenance of the landscaping related improvements.

Utilities (Electricity) – Lighting - The furnishing electricity required for the operation of the lighting improvements.

Periodic Repair/Rehabilitation – Landscaping – Expected costs for repair, replacement, installation or planned upgrades of District landscaping improvements.

Periodic Repair/Rehabilitation – Lighting – Expected costs for repair, replacement, installation or planned upgrades of District lighting improvements. If zero, this line item may not be shown in the budget.

Special Project Expenditures – Expected costs for installation, replacement or planned upgrades of District landscaping or lighting improvements for the current year that were previously funded or accumulated in the Special Projects Reserve. The Special Projects Reserve is used to accumulate funds for costs associated with the future rehabilitation, repair or replacement of these District improvements that cannot be conveniently raised from a single year’s assessment. If zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

District Administration – Estimated costs incurred by the City in preparation of the annual budget and the preparation, review, posting and / or publishing of documents and notices required for City Council action to approve the annual assessments. These costs also include contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's Report.

Contract Administration – Estimated costs to coordinate and oversee the maintenance contracts and overall repair, maintenance and replacements of the District Improvements.

County Collection Fees – The fee charged to the District by the County for placing assessments on property tax bills.

Other Administration Expenses – Administration expenses not included above, including the cost to publish public notices required for City Council action relating to the District. If zero, this line item may not be shown in the budget.

TOTAL COSTS – The total expected costs of the District.

ADJUSTMENTS AFFECTING LEVY AMOUNT

Replenishment/(Use) of Operating Reserve – A “Replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “Use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided in the following pages of this Section.

Contribution to/(use of) Special Projects Reserve — A “Contribution” increases the levy in order to generate funding for the Special Projects Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Special Projects Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Special Projects Reserve. In the event that the expenditure of a current year special project is funded entirely by a collection from the current fiscal year levy and / or a transfer from the

Undesignated Reserve, this line item may show as zero, which is the net of the two amounts. If zero, this line item may not be shown in the budget. Further information regarding the function of the Special Projects Reserve is provided in the following pages of this Section.

Undesignated Reserve Fund Transfer - A transfer of undesignated reserve funds provides current year funding for one or more Zones that are unable to be adequately funded by a Zone's annual assessments. Further information regarding the undesignated reserve can be found in the first page of the Budget Section.

Revenues from Other Sources – These amounts represent contributions from CFD No. 2005-2; only affects Zone 4A. This relationship is more fully described in the previous sections of this report.

Rounding Adjustment – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

BALANCE TO LEVY - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

DISTRICT STATISTICS & ASSESSMENT RATES

Number of Assessable Parcels - The total number of parcels within each Zone that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public right-of-ways or easements, common areas, and/or parcels within the boundaries of the District that currently do not benefit from the improvements, due possibly to development restrictions.

Assessable Acreage - The total assessable acreage within each Zones at are expected to be assessed on an acreage basis for the current fiscal year.

Applied Rate per Parcel - The assessment rates to be applied each non-exempt parcel within the Zone for the current fiscal year.

Applied Rate per Acre - The assessment rate per acre to be applied each non-exempt parcel within the respective Zone for the current fiscal year.

Maximum Rate per Parcel - The maximum assessment rate that can be assessed to each non-exempt parcel within the respective Zone for the current fiscal year.

Maximum Rate per Acre - The maximum assessment rate per acre that can be assessed to each non-exempt parcel within the respective Zone for the current fiscal year.

Potential Maximum Assessment – The total amount that can be assessed to all parcels within each Zone for the current fiscal year based upon the expected number of assessable units and acres using the maximum assessment rates.

UNDESIGNATED RESERVE FUND BALANCE

Beginning Undesignated Reserve Balance 7-1-2017 (est.) - The anticipated beginning balance of cash and receivables, net of any unpaid prior year obligations, of the Undesignated Reserve. This reserve is undesignated; therefore, funds from the Undesignated Reserve may be used to fund costs of any Zone, to the extent that the Zone is unable to fund such costs through the annual assessments and available reserves of the Zone. Further information regarding the Undesignated Reserve can be found in the first page of the Budget Section.

Funding of Expenses in Excess of Assessments (est.) – The amounts expected to be transferred from the Undesignated Reserve to fund FY 2017/2018 expenses. Funds from the Undesignated Reserve may be transferred to fund the costs of any Zone, to the extent that the Zone is unable to fund such costs through the annual assessments and available reserves of the Zone.

Ending Undesignated Reserve Balance 6-30-2018 (est.) - The anticipated ending balance of cash and receivables, net of any unpaid prior year obligations, of the Undesignated Reserve.

OPERATING RESERVE BALANCES

Beginning Reserve Balance 7-1-2017 (est.) - The anticipated beginning balance of cash and receivables, net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. The Special Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Add: Collect from FY 17/18 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Less: Use for FY 17/18 Expenses – The amount of the Operating Reserve to be used to fund FY 17/18 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Special Projects Reserve — The amount of Operating Reserve monies to be transferred to or from the Special Projects Reserve. Periodically, funds held in a Special Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Special Projects Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2018 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2017. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance and service from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the

County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Special Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

SPECIAL PROJECTS RESERVE BALANCES

Beginning Reserve Balance 7-1-2017 (est.) — The projected balance of funds in the Special Projects Reserve as of July 1, 2017. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Add: Collect from FY 17/18 Levy — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, repairs, restorations or upgrades of District improvements. This line may show a portion of funds transferred from the Undesignated Reserve to fund a current year special project. If zero, this line item may not be shown in the budget.

Less: Use for FY 17/18 Special Projects – The amount of Special Projects Reserve monies expected to be expended for Special Projects to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Special Projects Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Special Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Special Projects Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2018 (est.) - The projected balance of funds in the Special Projects Reserve as of June 30, 2017. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Special Projects Reserve or related activity, the Special Projects Reserve information may not be presented in the Report.

C. Special Projects Reserve – Capital Improvement Plan

Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. Therefore, a five-year Capital Improvement Plan is shown below for the rehabilitation, restoration, repair and/or replacement of District improvements and other allowable costs for each Zone projecting an ending Special Projects Reserve balance:

Zone 3:

- Upgrades to irrigation system; replacement and/or enhancement of landscape improvements: \$30,000 in FY 2018/19, and \$25,000 in each of FYs 2019/20, 2020/2021 and 2021/22.
- Upgrades related to drought resistant landscaping: \$25,000 in FY 2018/19 and \$15,500 in each of FYs 2019/20, 2020/21, and 2021/22.
- Projected costs to reorganize district, including costs of re-engineering and balloting: \$25,330 in each of FYs 2020/21 and 2021/22 for Zone 3's share of costs.

Periodically, funds held in a Special Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Special Projects Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements.

Part IV — DISTRICT DIAGRAM

The parcels to be assessed consist of all lots, parcels and subdivisions of land located within the boundaries of the map designated as “Boundary Map of Landscaping and Lighting District No. 2005-1.”

The following Boundary Map displays the exterior boundaries of the District, as well as the zones of benefit within the District, which was based upon both the County Assessor’s Maps and County Assessor’s information and identifies all the parcels of land as the same existed at the time that the District was formed. The combination of these diagrams and the Assessment Roll contained in this Report constitute the Assessment Diagram for this District.

Part V — ASSESSMENT ROLL

Parcel identification for each lot or parcel within the District is based on the Assessment Diagrams presented herein and is based on available parcel maps and property data from the County Assessor's Office at the time the Engineer's Report was prepared. A listing of the proposed lots and parcels to be assessed within this District along with the assessment amounts is provided herein.

Non-assessable lots or parcels may include, but are not limited to public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas, right-of-ways, common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed or has little or no value. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate described in this Report as approved by the City Council. Therefore, if a single parcel is subdivided to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

The following is a list of the parcels and proposed assessment amounts for each of the parcels within the District as determined by the assessment rates and method of apportionment described herein:

MEMORANDUM

DATE: June 19, 2017

TO: Honorable Mayor and Council Members

FROM: Elizabeth Sparkman, Engineering Manager

SUBJECT: **RESOLUTION APPROVING PROCEEDINGS FOR THE ANNUAL LEVY AND COLLECTION OF ASSESSMENTS FOR THE RANCHO CORDOVA LIGHTING DISTRICT NO. 2012-1 FOR FISCAL YEAR 2017-2018.**

RECOMMENDATION

Adopt Resolution No. 58-2017.

RESULT OF RECOMMENDED ACTION

Adoption of this resolution will authorize the continuance of the annual levy and collection of assessments in the District. There are no new impacts to existing or new residents

BACKGROUND

On June 5, 2017, the City Council approved resolutions ordering the preparation of the Engineer's Annual Levy Report for Rancho Cordova Lighting District No. 2012-1, and set the public hearing to be held prior to approving and ordering the levy of assessments for Fiscal Year 2017-2018. The assessments fund the ongoing maintenance, servicing and operation of public lighting improvements (safety lights and street lights) in the District.

County Service Area 1 was created in 1986 by the Sacramento County Board of Supervisors by reorganizing five existing street light maintenance districts. CSA 1 was established to provide street light services to those unincorporated portions of Sacramento County. Since that time, the Board of Supervisors approved the creation of separate zones within CSA 1 for the Cities of Citrus Heights, Elk Grove and Rancho Cordova allowing the cities and the County to supplement CSA 1 revenues specific to those areas; Zone 2 of CSA 1 encompassed all of the City of Rancho Cordova. This action also facilitated the eventual Local Agency Formation Commission (LAFCO) approved detachment of Elk Grove (August 2005), Citrus Heights (June 2006) and Rancho Cordova (June 2012) from CSA 1. The City of Rancho Cordova has been administering the District since the FY 2012-2013 annual levy. In July 2012, the County transferred the remaining CSA 1 Zone 2 funds to the City which were then deposited into the District's Fund.

State law requires that the City Council direct an Engineer's Report to be prepared each year and to hold a public hearing on the Report and the levy of the annual assessments. On June 5, 2017, the City initiated the proceedings for the annual levy and collection of assessments through adoption of Resolution No. 46-2017 ordering the preparation of the Engineer's Report and Resolution No. 61-2017 preliminarily approving the Engineer's Report, declaring its intention to

levy and collect annual assessments for Fiscal Year 2017-2018, and set today as the time and place to conduct a public hearing on the matter.

The Engineer's Report includes a diagram of the assessment area, a description of the improvements and maintenance services to be provided, a description of the property to be benefited, and the amount of the assessment to each individual property. The services performed within and funded by RCLD 2012-1 include ongoing maintenance, operation and servicing of street lights and safety lights within the right-of-ways and other public areas within the District as described in the Engineer's Report.

The Fiscal Year 2017-2018 total assessment is estimated at \$358,415. These assessment rates are the same rates applied to the district under CSA-1 and have not increased since the passage of Proposition 218 in 1996. The District has established an Operating Reserve which provides funding for the operations and maintenance of the District Improvements, as well as providing financing for emergency expenditures. A Capital Projects Reserve has been established to fund replacements and upgrades of the District Improvements.

In September 2014, the City of Rancho Cordova completed the retrofit of all existing street lights located within the RCLD 2012-1 with new LED street lights. The project was funded from a 1% interest loan from the California Energy Commission (CEC). This project significantly reduced electricity usage and maintenance costs. The electrical and maintenance savings will be used to pay back the loan from the energy commission. The RCLD 2012-1 has historically been underfunded and has been supplemented by Measure A Maintenance funds. Once the CEC loan is paid off in Fiscal Year 2028, the District is projected to generate sufficient revenues to build a reserve to cover the costs of the replacement of the LED street light heads when they need to be replaced in 20 years.

In order to proceed with the levy of assessments, it is appropriate for the Council to conduct the public hearing and adopt Resolution No. 58-2017 which approves the Engineer's Report and authorizes the levy and collection of assessments for Fiscal Year 2017-2018.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund.

WHEREAS, upon reasonable written notice by Sacramento County of any claim or challenge, the City of Rancho Cordova agrees to defend with counsel of its choice, indemnify and hold harmless Sacramento County, its Board of Supervisors, officers, officials, agents and employees (collectively "the County"), against the payment of any liabilities, losses, costs and expenses, including attorney fees and court costs, not due to the County's own active negligence or willful misconduct, which the County may incur in the exercise and performance of its powers and duties in placing these assessments onto the County roll and tax bills for the City of Rancho Cordova.

NOW, THEREFORE, BE IT HEREBY RESOLVED BY THE CITY COUNCIL OF THE CITY OF RANCHO CORDOVA AS FOLLOWS:

1. Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.
2. Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection, the City Council hereby finds and determines that:

Introduction

Pursuant to the provisions of the Landscape and Lighting Act of 1972, being Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500 (hereafter referred to as the “1972 Act”), the City Council of the City of Rancho Cordova, County of Sacramento, State of California (hereafter referred to as “City”), has by resolution initiated proceedings in connection with the ongoing maintenance and operation of a special benefit assessment district designated as:

Rancho Cordova Lighting District No. 2012-1

(hereafter referred to as “District”), for the purpose of continuing and providing for the ongoing maintenance, servicing and operation of public lighting improvements (safety lights and street lights) within the City that had been administered by the County of Sacramento as Zone 2 of County Service Area 1 (CSA 1) until the FY 2012/2013 levy.

Prior to the formation of the District, the detachment of those portions of CSA 1 lying within the City limits was approved, resulting in the transfer of the responsibility of the servicing of CSA 1 improvements and related administration to the City. Commencing with the FY 2012/2013 levy, the City Council formed the District in order to provide ongoing funding for the costs and expenses required to service and maintain the safety light and street light improvements for the benefiting lots and parcels of land within the boundaries of the District.

County Service Area 1 was created in 1986 by the Sacramento County Board of Supervisors by reorganizing five existing street light maintenance districts. CSA 1 was established to provide street light services to those unincorporated portions of Sacramento County. Since the establishment of CSA 1, the cities of Citrus Heights, Elk Grove and Rancho Cordova have been incorporated and in July 2005, the Board of Supervisors approved the creation of zones within CSA 1. The creation of these zones allowed the incorporated cities and the County to supplement CSA 1 revenues specific to those areas. This action also facilitated the eventual Local Agency Formation Commission (LAFCO) approved detachment of Elk Grove (August 2005) and Citrus Heights (June 2006) from CSA 1 and Rancho Cordova (June 2012).

This Engineer’s Report (hereafter referred to as “Report”) has been prepared in connection with the levy and collection of annual assessments related thereto for FY 2017/2018, as required pursuant to Chapter 1, Article 4 of the 1972 Act. This Report describes the District, the improvements, and the assessments to be levied on properties within the District in connection with the special benefits the properties receive from the maintenance and servicing of the District improvements. The formation of this District and the annual assessments will provide a continued funding source for the City to fund, in part, the ongoing maintenance, servicing and operation, of the safety lights and street lights that provide special benefits to the properties within the District.

The improvements and assessments described in the FY 2012/2013 Engineer’s Report (hereafter referred to as the “Formation Report”) were based on the improvements and assessments previously established by the County of Sacramento for CSA 1 Zone 2 and the assessment revenues will be used to fund, in part, the annual direct expenditures and incidental expenses associated with the maintenance and servicing of the District’s improvements. The formation of the District, the structure of the District (organization), the improvements, the method of apportionment, and assessments described in the Formation Report have been

established to continue the maintenance of the existing improvements and assessments previously established by the County of Sacramento for CSA 1 and as such are not considered to be new or increased assessments under the provisions of the California Constitution Article XIIIID.

As part of the District formation to continue the assessments previously levied by the County of Sacramento as part of CSA 1, in addition to the proceedings conducted the Local Agency Formation Commission (LAFCO) for the detachment of the City of Rancho Cordova from CSA 1, the Rancho Cordova City Council conducted a noticed public hearing pursuant to the provisions of the 1972 Act to consider public testimonies, comments and written protests regarding the formation of the District and levy of assessments.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (APN) by the Sacramento County Assessor’s Office. The Sacramento County Auditor/Controller uses Assessor’s Parcel Numbers and specific Fund Numbers to identify properties to be assessed on the tax roll for special benefit assessments.

Each subsequent fiscal year, an Engineer’s Report shall be prepared and presented to the City Council describing the District, any changes to the District or improvements, and the proposed budget and assessments for that fiscal year, and the City Council shall hold a noticed public hearing regarding these matters prior to approving and ordering the proposed levy of assessments for that fiscal year. If in any year, the proposed annual assessments for the District exceed the assessments described herein, such an assessment would be considered a new or increased assessment and must be confirmed through property owner protest ballot proceeding before that new or increased assessment may be imposed. It should be noted that an increased assessment to an individual property resulting from changes in development or land use does not constitute an increased assessment.

This Report consists of five (5) parts:

Part I

Plans and Specifications: A description of the District boundaries and the proposed improvements associated with the District. The District has two (2) designated benefit zones that collectively encompass all lots and parcels of land within the boundaries of the District. The two benefit zones are designated as “Safety Light Only” Zone, which includes those lots and parcels of land within the District that are associated and benefit from only safety light improvements; and “Safety Light and Street Light” Zone, which includes those lots and parcels of land within the District that are associated and benefit from both safety light improvements and local street light improvements.

Part II

Method of Apportionment: A discussion of benefits the improvements and services provide to properties within the District and the method of calculating each property’s proportional special benefit and annual assessment.

Part III

District Budget: An estimate of the annual costs to service, maintain and operate the safety light and street light improvements and appurtenant facilities within the District. This budget includes an estimate of direct operational costs (energy and maintenance costs), anticipated repair and replacement of the existing facilities and incidental expenses authorized by the 1972 Act such as administration expenses and collection of appropriate fund balances.

Part IV

District Diagram: A diagram showing the exterior boundaries of the District, and the Zones therein at the time of the formation of the District, is provided herein and includes all parcels that receive special benefits from the improvements. Parcel identification, the lines and dimensions of each lot, parcel and subdivision of land within the District, are inclusive of all parcels as shown on the Sacramento County Assessor's Parcel Maps, as they existed at the time this Report was prepared and shall include all subsequent subdivisions, lot-line adjustments or parcel changes therein. Reference is hereby made to the Sacramento County Assessor's maps for a detailed description of the lines and dimensions of each lot and parcel of land within the District.

Part V

Assessment Roll: A listing of the proposed assessment amount for each parcel based on the parcel's proportional special benefit as outlined in the method of apportionment. These assessment amounts represent the assessments proposed to be levied and collected on the County Tax Rolls for fiscal year 2017/2018.

Part I — Plans and Specifications

Description of the District

The territory within the District consists of all lots and parcels of land within the boundaries of the City of Rancho Cordova that in fiscal year 2011/2012, were considered to lie within CSA 1 Zone 2. Within these boundaries, parcels are identified and grouped into one of two designated benefit zones based on the special benefits properties receive from the District improvements, namely Safety Lights Only or Safety Lights and Street Lights. The two Zones within the District and the benefits associated with the properties therein are described in more detail in Part II (Method of Apportionment) of this Report. In addition, the District Diagram in Section IV of the Report provides a visual representation of the District showing the exterior boundaries of the District.

Improvements and Services

Improvements and Services Authorized by the 1972 Act

As generally defined by the 1972 Act and may be applicable to this District, the improvements and associated assessments may include one or more of the following:

- The installation or construction of public lighting facilities including, but not limited to street lights, safety lights and traffic signals;
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof;
- The maintenance or servicing, of any of the foregoing including the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement including but not limited to:
 - Repair, removal, or replacement of all or any part of any improvements;
 - Grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities;
 - Electric current or energy, gas, or other illuminating agent for any public lighting facilities or for the lighting or operation of any other improvements;
- Incidental expenses associated with the improvements including, but not limited to:
 - The costs of the report preparation, including plans, specifications, estimates, budgets, diagrams, and assessment;
 - The costs of printing and advertising, and publishing, posting and mailing of notices;
 - Compensation payable to the County for collection of assessments;
 - Compensation of any engineer or attorney employed to render services;
 - Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
 - Costs associated with any elections held for the approval of new or increased assessments.

Description of District Improvements

The District's annual assessments will finance in part the maintenance, operation and servicing of the District's lighting improvements (safety lights and street lights) which generally includes the furnishing of labor, materials, equipment and electricity for the ordinary and usual maintenance, operation, and servicing of street lights within the public right-of-ways and easements dedicated to the City, incidental expenses including administrative costs as well as the performance of periodic repairs, replacement and expanded maintenance resulting from damage or vandalism. These services and activities more specifically may include, but are not limited to:

- Payment of the electrical bill for the safety lights and street lights.
- Maintenance, repair and replacement of light poles and fixtures, including changing light bulbs, painting, photoelectric cell repair or replacement, and repairing damage cause by automobile accidents, vandalism, time, and weather, including principal and interest related to funding of the replacement of the improvements.
- Electrical conduit and pullbox repair and replacement due to damage by construction and weather.
- Monitoring of the Underground Service Alert (USA) network, identification of proposed excavation in the vicinity of lighting electrical conduits, and marking the location of those underground conduits in the field to prevent damage by excavation.
- Service-can maintenance, repair and replacement including painting, replacing worn out electrical components and repairing damage due to accidents, vandalism, and weather.
- Remedial projects for major repairs or upgrading of facilities. Construction for such projects are usually performed by contract, however City maintenance workers may execute small projects.
- Street light inventory database, pole numbering and mapping to establish the number of streetlights that must be maintained, as well as the condition and location of these street lights as part of an effective maintenance program.
- Acquisition of land, easements and right-of-ways necessary to maintain the street and safety lighting system.
- Responding to citizens and Council member inquiries and complaints regarding street lighting. Resolving complaints may require an engineering study and possible project.

For the purpose of determining benefit and the proportional assessment of special benefit, the light fixtures to be maintained by the District are defined as either “Street Lights” or “Safety Lights”. Safety Lights are lights located at intersections on major streets and along the rear of properties that abut major streets. All other lights are designated as Street Lights. The following table provides a summary of the safety light and street light inventory within the City upon formation of the District. Detailed maps identifying the location and extent of the District’s Safety Lights and Street Lights at that time are on file in the Public Works Department.

Type of Light	Number of Lights
Safety Lights	428
Street Lights	4,240
Total District Lights	4,668
Decorative Lights ⁽¹⁾	92
Total City Lights	4,760

(1) The 92 decorative lights shown above were contained within a single residential development and these lights are funded by a separate revenue source levied on those parcels. Therefore, these lights are not included as part of the District’s improvements, budget or assessments. Parcels within this residential development are included in the “Safety Light Only” zone.

Part II — Method of Apportionment

Based on the provisions of the 1972 Act and the California Constitution, this section of the Report summarizes the benefits associated with the District’s safety and street light improvements and services to be provided by the District; the resulting District structure (zones of benefit); and the formulas used to calculate each parcel’s proportional special benefit assessment obligation based on the entirety of the cost of providing the various improvements (method of assessment).

Benefit Analysis

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include but are not limited to the construction, maintenance, operation, and servicing of public street lighting improvements and appurtenant facilities.

The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

The method of apportionment (method of assessment) established herein is based on the premise that each assessed property receives special benefits from the maintenance, serving and operation of either safety lights located throughout the District or both safety lights and local street lights and these improvements will be funded in part by such assessments, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as compared to other properties that receive such special benefits as outlined in the preceding definitions established in the 1972 Act and the California Constitution.

To identify and determine the proportional special benefit to each parcel within the District, as well as any general benefit associated with the improvements, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The District's improvements and the associated costs described in this Report, have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District and is consistent with the method of apportion previously established for the assessments as part of CSA 1.

While the California Constitution requires that *“The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement...”*; it is reasonable to conclude that the reasons for installing local street lights are often similar, but somewhat different than the reasons for installing safety lights. Therefore, the overall benefits associated with street lights and safety lights are different which also suggests that the apportionment of the cost to provide those improvements would be different.

In reviewing the location and extent of the City's Street Light improvements to be funded by District assessments and the relationship these improvements have to properties within the District, it was determined that these lights are entirely local lighting improvements that were installed specifically in connection with the development of nearby properties or were necessary as a precursor to property development and would otherwise not have been necessary or required without the development of the properties near those improvements. As such, these

Street Light improvements have a direct and particular relationship to, and provide special benefit to, the properties located in close proximity to those lighting improvements and serve as extension of those properties and developments into the public areas (streets) that serve those properties. These lights clearly provide special benefits that affect these properties in a way that is particular and distinct from its effect on other parcels, and that of real property in general and the public at large do not share. This is most evident in the fact that the District's Street Light improvements are concentrated within the City's various residential developments and developed non-residential areas and the absence of such lights within many portions of the undeveloped areas of the District. The fact that these lights are a direct result of property development and many areas of the City forgo the need of local street lighting, the maintenance and operation costs associated with the Street Light improvements are considered to be solely a special benefit to those properties and developments in close proximity to those lights and have no measurable general benefit to the public at large or to the District as a whole. However, it is also recognized that these lights are not exclusive or typically isolated to a particular parcel, but are rather shared and directly affect entire neighborhoods or groups of parcels. In this District, it has been determined that each parcel that is assessed for Street Lights is at least within two-hundred feet (200 feet) of a street light although that light may be located across the street from the parcel.

As previously noted, Safety Lights are lights located at intersections on major streets and along the rear of properties that abut major streets. Although the location and extent of these lights are most certainly driven by development of properties in the area (concentrated largely in developed areas of the City), unlike the Street Light improvements which are directly correlated to specific developments and parcels, the District's Safety Lights are not entirely the result of specific property development, but more the result of overall development throughout the City and in addition to directly benefiting the properties in the District, these Safety Lights provide nighttime traffic illumination to enhance traffic circulation and safety.

Therefore, while the need for such lights is most often facilitated by development in the area and certainly a special benefit to properties within the District, because safety lights promote nighttime traffic illumination and circulation for the general public as well as for properties in the District, these lights obviously provide some measure of benefit to the community as a whole and to the public at large (general benefit). In order to separate general benefits from special benefits, an evaluation of the overall extent and location of the Safety Lights in the City, revealed that less than half (approximately 47%) of the Safety Lights within the District are located on major streets that are considered through-traffic corridors, namely Bradshaw Road, Folsom Boulevard and Sunrise Boulevard. The remaining Safety Lights within the City were located on streets and intersections considered internal City traffic routes that provide direct access to the parcels in the District. Therefore it would be reasonable to conclude that like the local Street Light improvements, the Safety Light improvements located on these internal City traffic routes (approximately 53% of the Safety Lights at the time of formation of the District) are entirely for the special benefit of the properties they serve, while the Safety Lights on the through-traffic corridors provide comparable (proportionately equal) special benefit to properties in the District and general benefit to real property in general and the public at large. Therefore, collectively, it has been determined that no more than 25% of the total maintenance and operation (O&M) costs of providing Safety Lights would be considered general benefit.

Zones of Benefit

In order to calculate and identify the proportional special benefit received by each parcel and their proportionate share of the improvement costs it is necessary to consider not only the

improvements and services to be provided, but the relationship each parcel has to those improvements as compared to other parcels in the District

Article XIIID Section 4a reads in part:

“...The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement or for the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

In an effort to ensure an appropriate allocation of the estimated annual cost to provide the District improvements based on proportional special benefits, this District has established benefit zones (“Zones”) as authorized pursuant to Chapter 1 Article 4, Section 22574 of the 1972 Act:

“The diagram and assessment may classify various areas within an assessment district into different zones where, by reason of variations in the nature, location, and extent of the improvements, the various areas will receive differing degrees of benefit from the improvements. A zone shall consist of all territory which will receive substantially the same degree of benefit from the improvements.”

Therefore, in order to separate general benefits from special benefits and to ensure each parcel is assessed for only the special benefits received from the improvements two benefit zones have been established and every parcel in the City is grouped into one of these two Zones:

- **Safety Lights Only:** Includes all parcels that receive special benefits from the maintenance of Safety Lights only which includes lights located at intersections on major streets and along the rear of properties that abut major streets.
- **Street Lights and Safety Lights:** Includes all remaining parcels within the City that specially benefit from maintenance of Street Lighting (local lights) as well as Safety Lights.

The District Budget, incorporated herein under Part III of this Report, provides a summary of the total estimated cost of providing the street light improvements and the allocation of those costs that are considered general benefit. Details regarding the location and extent of the street lighting improvements within the District and the Zones therein upon formation of the District are on file in the Public Works Department. A diagram showing the exterior boundaries of the District and the location of the two Zones therein at the time of formation is attached and incorporated herein under Part IV (District Diagram) of this Report.

Assessment Methodology

In order to calculate and identify the proportional special benefit received by each parcel and their proportionate share of the improvement costs it is necessary to consider not only the improvements and services to be provided, but the relationship each parcel has to those improvements as compared to other parcels in the District.

Article XIIID Section 4a reads in part:

“...The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement or for the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

Safety Lights and Street Lights, like most public improvements, provides varying degrees of benefit (whether they be general or special) based largely on the extent of such improvements, the location of the improvements in relationship to the properties, the specific use of each property, and the reason or need for such improvements as it relates to individual properties. In this District, these issues are each considered in determining the proportional special benefit to each parcel by the use of benefit zones, the separation of general benefit and special benefit, and County land use designations.

Safety Lights

Safety Lights are located throughout the District and properties throughout the City are considered to benefit proportionally from Safety Lights and are therefore levied a flat rate calculated by the following formula.

$$\text{Net Safety Light Cost} / \text{Total Assessable Parcels} = \text{Levy per Parcel}$$

Street Lights

Only properties that benefit from Street Lights are charged for Street Lights. Parcels are classified based on land use into two categories: Residential and Non-Residential. Residential parcels that have street lights are levied equally. Non-Residential are levied on a front footage basis. Formulas for both Non-Residential and Residential parcels are illustrated below.

Residential Parcels

$$\text{Net Residential Street Light Cost} / \text{Residential Parcels} = \text{Levy per Residential Unit}$$

Non-Residential Parcels

$$\text{Net Non-Residential Street Light Cost} / \text{Non-Residential Front Footage} = \text{Levy per Non-Residential Front Foot}$$

$$\text{Levy per Non-Residential Front Foot} \times \text{Non-Residential Parcel Front Footage} = \text{Levy per Parcel}$$

Exempt

Excepted from the assessment would be the areas of public streets and other roadways (typically not assigned an APN by the County), dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways. Also excepted from assessment would be utility rights-of-ways, common areas (such as in condominium complexes), landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels do not benefit from the improvements.

The land use classification for each parcel has been based on the Sacramento County Assessor's Roll.

Rates

The following Table shows the assessment rates proposed to be levied in Fiscal Year 2017/2018. It is important to note that these rates are the same rates applied to the District parcels under CSA 1 and that these rates have not increased since the passage of Proposition 218 in 1996.

Description of District Budget

Annual Maintenance & Operation (O&M) — Includes the regular annual costs of maintaining and servicing lighting improvements. This may include, but is not limited to, the costs for labor, utilities, equipment and supplies that are required to properly maintain the items that provide a direct benefit to the District.

- **Electrical Costs** — Includes the cost of providing electricity to the lights. Additionally, some lights may be maintained by the Sacramento Municipal Utility District ("SMUD") and the cost for maintenance of these lights is included as part of the utility bill for those lights.
- **Maintenance Costs** — Includes the contract labor associated with the maintenance of the lights and the cost of the preparing and maintaining the light inventory.
- **Special Project** - Includes costs for minor special project(s) related to annual maintenance and / or operation of the improvements not described in the above categories.

Capital Expenditures & Other Costs — Includes funding needs to support the improvements that are not included or considered to be costs associated with the regular annual maintenance, servicing and operation of the District improvements.

- **Repairs/Replacements & Capital Expenditures** — Includes, but is not limited to repairs that are only required periodically, repairs and replacements resulting from damage or vandalism, capital improvement expenditures to rehabilitate or upgrade the improvements, and collection of funding (installments) for future capital improvement projects. The amount collected each fiscal year is based on an estimate of current and future needs, but may be limited by available funding (assessment revenues and City contributions).
- **USA Markings** – includes costs associated with marking the location of underground utilities related to the above.
- **RCLD Loan Principal** --- Amounts of principal due to repay a low interest California Energy Commission (CEC) loan to fund the retrofitting of existing street lights located within the District with new LED street lights which will reduce energy costs.
- **RCLD Loan Interest** --- Amounts of interest due to repay a low interest California Energy Commission (CEC) loan to fund the retrofitting of existing street lights located within the District with new LED street lights which will reduce energy costs.
- **Special Capital Projects** - Includes costs expected to be incurred in FY 2017/2018 for special capital projects shown in the District's Capital Improvement Plan. Costs in this category do not increase the annual levy as the Capital Improvement Reserve is used to fund these costs.

Annual Administrative Expenses — Incidental district costs not included above that are required on an annual basis.

- **District Administration** — Includes the estimated cost to coordinate District services including responding to property owner inquiries relating to the assessments and services and contracting with professionals to provide administration, legal, and engineering services to the District that are required on an annual basis. This also includes the costs for the City to account for the funds, the calculation of the assessments, preparation of the annual Report, and placing the assessment on the property tax bills.

- **Contract Administration** — Estimated costs to coordinate and oversee the applicable maintenance and operation contracts and overall repair, maintenance, operation and replacements of the District Improvements.
- **County Collection Fees** — Includes the cost that the County charges to place the assessments onto the Sacramento County Secured Tax Roll.
- **Miscellaneous Administration Expenses** — Includes other minor administrative costs such as telephone, copying, noticing, mailing, office supplies and fees related to District Administration.

Total District Expenses — This is the total of the Annual Maintenance & Operation (O&M), Capital Expenditures, Annual Administrative Expenses and other costs which are considered to be the direct and incidental costs for the regular annual maintenance, servicing and operation of the District improvements.

Contributions/Adjustments — Represents the expected funding from sources other than the current year assessments to support the annual costs budgeted for the maintenance, servicing and operation of the District improvements.

- **Replenishment/(Use) of Operating Reserve** — Funding transferred from or to the District's Operating Reserve to either offset a portion of the Total Expense or to replenish the Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided in the following pages of this Section.
- **Replenishment/(Use) of Capital Projects Reserve** — Funding transferred from or to the District's Capital Projects Reserve to either adjust the annual levy for FY 2017/2018 expenditures funded by the Capital Projects Reserve or to replenish the Capital Projects Reserve for future projects. Further information regarding the function of the Capital Projects Reserve is provided in the following pages of this Section. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided in the following pages of this Section.
- **General Benefit Contribution** — Funding from the City utilizing revenue sources other than assessment revenues to pay the proportional costs for the regular annual maintenance, servicing and operation of the District improvements that have been determined to be of General Benefit and which cannot be included as part of the annual assessments. This City funding may be from the City's General Fund or any other funding source available to the City.
- **Other Revenue Contributions** — Additional funds designated for use by the District that are not District assessments. Often referred to as a City Contribution, these funds may be from any source available to the City to support the District and reduce the amount to be collected by the District assessments (the "Net Assessment Budget"). If the Total District Expenses minus any Reserve Fund Transfer and General Benefit Contribution results in an amount greater than the amount that can be collected through the assessments, the City would either have to reduce expenses or contribute funds to balance the budget.

Net Assessment Budget (Balances to Levy) — Represents the total amount proposed to be levied and collected as assessments on the County Tax Rolls for the fiscal year.

OPERATING RESERVE

Beginning Reserve Balance 7-1-2017 (est.) - The anticipated beginning balance of cash and receivables, net of any unpaid prior year obligations. These beginning balances shall be used to fund expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. The Capital Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Replenishment/(Use) of Operating Reserve – Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve is intended to fund expenditures from the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If positive, this amount is added to the levy in order to replenish the Operating Reserve. On the other hand, if negative, this portion of the Operating Reserve is used to fund FY 2017/2018 expenses and therefore reduces the levy amount. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Capital Projects Reserve — The amount of Operating Reserve monies to be transferred to or from the Capital Projects Reserve. Periodically, funds held in a Capital Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Projects Reserve are subject to transfer the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2018 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) as of June 30, 2018. The size of the Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance and service from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, the District may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Capital Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

CAPITAL PROJECTS RESERVE

Beginning Reserve Balance 7-1-2017 (est.) — The projected balance of funds in the Capital Projects Reserve as of July 1, 2017. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Use for 2017/2018 Capital Projects – The amount expected to be incurred for Capital Projects in FY 2017/2018 and funded from the Capital Projects Reserve rather than the FY 2017/2018 levy. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Capital Projects Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Capital Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Projects Reserve are subject to transfer into the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2018 (est.) - The projected balance of funds in the Capital Projects Reserve as of June 30, 2018. These funds shall be used to fund the costs of installation, replacement, repair or upgrading of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Capital Projects Reserve or related activity for the current fiscal year, the Capital Projects Reserve information will not be presented in the Report.

Capital Projects Reserve – Capital Improvement Plan

Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. Should an ending Capital Projects Reserve balance be projected, a five-year Capital Improvement Plan is shown below in order to fund the installation, replacement, repair or upgrading of District improvements and other allowable costs:

The District expects expenditures for updating, verifying and/or replacing street light / pole numbers: \$15,000 in FY 2017/18; the painting of existing street light poles: \$20,000 in FY 2020/21; the retrofit of poles for electrical outlet upgrade and installation of new sign brackets: \$25,000 in FY 2018/19, \$10,000 in FY 2019/20 and \$100,000 in FY 2020/21.

Periodically, funds held in a Capital Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Projects Reserve are subject to transfer into the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements.

The parcels within the District consist of all lots and parcels of land within the City of Rancho Cordova. The following page provides a boundary map that displays exterior boundaries of the District, as well as the two zones of benefit within the District as the same existed at the time that the District was formed. The combination of this map and the Assessment Roll contained in this Report constitute the Assessment Diagram for this District.

Part V — Assessment Roll

Parcel identification for each lot or parcel within the District is based on available parcel maps and property data from the Sacramento County Assessor's Office. A listing of the Assessor's Parcel Numbers (APNs) to be assessed within this District, along with the corresponding Assessment Amount to be levied for fiscal year 2017/2018, as determined by the District's assessment rates and method of apportionment, is provided in the following pages.

If any APN submitted for collection of the assessments is identified by the County Auditor/Controller of the County of Sacramento to be an invalid parcel number for the fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment, as described in this Report and approved by the City Council.

MEMORANDUM

DATE: June 19, 2017

TO: Honorable Mayor and Council Members

FROM: Elizabeth Sparkman, Engineering Manager

SUBJECT: **RESOLUTIONS APPROVING PROCEEDINGS FOR THE ANNUAL LEVY AND COLLECTION OF CHARGES FOR THE RANCHO CORDOVA TRANSIT RELATED SERVICES BENEFIT DISTRICT, ZONE NO. 1 FOR FISCAL YEAR 2017-2018.**

RECOMMENDATION

Adopt Resolution No. 63-2017 initiating proceedings for the annual levy and collection charges, preliminarily approving the engineer's report and declaring its intention to levy the annual charges for Fiscal Year 2017-2018 for the Rancho Cordova Transit Related Services Benefit District, Zone No. 1; and

Adopt Resolution No. 64-2017 amending and/or confirming the engineer's report and establishing the Fiscal Year 2017-2018 Service Charge for the Rancho Cordova Transit Related Services Benefit District, Zone No. 1.

RESULT OF RECOMMENDED ACTION

Adoption of Resolutions 63-2017 and 64-2017 will authorize the continuance of the annual levy and collection of service charges in the Transit Related Services Benefit District, Zone No. 1 to provide for a broad range of transportation services within the District identified in the engineer's report.

BACKGROUND

The purpose of the District is to provide an ongoing financial mechanism to fund a broad range of transportation services intended to benefit property within the District.

In May 2003, the Board of Supervisors of the County of Sacramento formed Benefit Zone No. 1 of County Services Area (CSA) No. 10. to collect annual charges for extended transportation-related services within Benefit Zone No. 1 for the Villages of Zinfandel.

Following the City's incorporation, procedures to detach the district from the County were initiated. On February 15, 2008, LAFCO issued a Certificate of Completion to the City for the detachment from the CSA No. 10 formally detaching the district from the County and transferring responsibility to serve the CSA to the City.

The City redesignated the name of County Services Area No. 10 Benefit Zone No. 1 to “**Transit Related Services Benefit District, Zone No. 1**” (hereafter referred to as the “Transit Benefit Zone No. 1 or the “District”). Services include transit shuttle services, transportation planning, educational programs at Navigator Elementary School, a Guaranteed Ride Home Program, and infrastructure support.

Transit shuttle services commenced on June 15, 2009 with the implementation of a 3-year demonstration route called the “Rancho CordoVan” which was primarily funded through a grant from the federal Congestion Mitigation and Air Quality (“CMAQ”) program with supplemental funding from Transit Zone 1. The CMAQ funding and demonstration period ended on June 30, 2012. The City has been able to continue to operate the shuttle serving Zone 1 by modifying the previous CordoVan route to focus service to the benefit areas, increase the contribution from the special benefit areas, and expanding service to include Zone 2. The Rancho CordoVan service was rerouted in StoneCreek and Capital Village and in September 2012 was expanded to the Anatolia neighborhood. As part of the service upgrade, the pickup point along RT’s Gold Line was changed to the Zinfandel Station in the Zinfandel Plaza parking field. The City and RT improved the Zinfandel Plaza/RT Connection CordoVan stop with a sheltered bench and solar LED light. Based on customer feedback a five minute adjustment was implemented to the schedule in April 2013 to better synchronize with the train. The City added a CordoVan vehicle to the service fleet in the October 2015. This resulted in the route serving Zone 1 being improved through a concept called “interlining” which takes advantage of switching vehicles among the three. The result added one loop at the end of the morning period and at the end of the evening period. In April 2016, two of the morning routes were adjusted earlier by 25 minutes to better accommodate work arrival times in the business park and the riders heading to Light Rail.

State law requires that the City Council hold a public hearing prior to approval and levy of the proposed charges. An Engineer’s Report showing the proposed rates has been prepared, placed on file with the City Clerk, a copy of which is attached as Exhibit A to the second resolution.

Through adoption of **Resolution No. 63-2017, Attachment 1**, the City is initiating proceedings for the annual levy and collection of charges for certain miscellaneous extended services and preliminarily approves such written report, and declares its intention to levy the annual charges for Fiscal Year 2017-2018. The City Clerk has given notice and set today as the time and place to conduct a public hearing on the matter.

The Engineer’s Report prepared by Willdan Financial Services includes a description of the District boundaries, a description and cost estimates of the services to be provided, the method and apportionment of charges, a District budget, a description of the property to be benefited, and the amount of the charge to each individual property. The proposed Fiscal Year 2017-2018 charge for each land use category is shown in Table 1.

Table 1 - Transit Zone No. 1

Land Use Category	Parcels Levied	Residential Units / Acres	Equivalent Dwelling Units	Proposed Rate	Per Unit / Acre	FY 2017/2018 Charge
Low Density Cluster Residential	196	196 units	196.00	\$68.88	per unit	\$13,500.48
Low Density Residential	1,298	1,298 units	1,298.00	\$68.88	per unit	\$89,406.24
Business Park	3	8.224 acres	181.257	\$1518.451	per acre	\$12,487.74
TOTAL LEVY						\$115,394.50

In order to proceed with the levy of charges, it is appropriate for the Council to conduct the public hearing and adopt **Resolution No. 63-2017, Attachment 1**, which initiates the proceedings for the District, preliminarily approves the Engineer's Report, and declares its intention to levy and collect service charges for Fiscal Year 2017-2018 and adopt **Resolution No. 64-2017, Attachment 2**, which amends and/or confirms the Engineer's Report and authorizes the levy and collection of service charges for Fiscal Year 2017-2018.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund.

I. EXECUTIVE SUMMARY

A. Introduction

In May of 2003, the Board of Supervisors of the County of Sacramento, State of California (hereafter referred to as the "County"), pursuant to the provisions of the County Service Area law of California Government Code (§25210 et seq.) (hereafter referred to as "County Service Area Law"), and in compliance with the substantive and procedural requirements of the California State Constitution Article XIID (hereafter referred to as the "Constitution") formed a County Service Area designated as:

County Service Area No. 10

(hereafter referred to as "the CSA" or "CSA 10") to provide miscellaneous extended transportation services for trip reduction in the following areas:

Villages of Zinfandel, Sunridge Specific Plan, and Mather Field.

On May 21, 2003, the County formed a benefit zone within a portion of the CSA to be known as:

Benefit Zone No. 1

to impose an annual charge, commencing Fiscal Year 2003/04, upon all of the parcels of land within the subdivision known as:

The Villages of Zinfandel

An Engineer's Report, dated February 27, 2003, (hereafter referred to as the "CSA Formation Report") was prepared in connection with the formation proceedings of the CSA and the concurrent proceedings to form and levy annual charges in Benefit Zone No. 1. Reference is hereby made to the CSA Formation Report concerning the formation of CSA 10 Benefit Zone No. 1, including its structure (organization), proposed services, initial rates, inflator formula, and method of apportionment and charges, as well as the projections of development activity and cost associated with the extended services, all of which have been presented in the CSA Formation Report, and approved by the County of Sacramento. (For reference purposes, the CSA Formation Report was incorporated into the District's Fiscal Year 2008/09 Engineer's Report, which was approved through City Council Resolution 81-2008.)

Upon the Incorporation of the City of Rancho Cordova

On July 1, 2003, a portion of the territory within CSA No. 10, including all parcels within Benefit Zone Nos. 1 and 2, were then located within the new City limits.

Pursuant to County Service Area Law and after all requirements to detach these portions of the CSA from County control and transfer to the City of Rancho Cordova (hereafter referred to as the "City"), LAFCO issued a Certificate of Completion to the City for the

Detachment from County Service Area No. 10

subject to the conditions within LAFCO Resolution 1342.

Upon the recordation of the Certificate of Completion on February 15, 2008, the detachment of those portions of CSA No. 10 lying within the City limits was approved, resulting in the transfer of service responsibility and funding of the CSA to the City, pursuant to Government Code section 56886(m) and 56886(t). In connection with the above-described detachment proceedings and the resulting transfer and reorganization of CSA 10 Benefit Zone No. 1, the City approved the District's Fiscal Year 2008/09 Engineer's Report to continue the annual levy of charges previously authorized for CSA No. 10 and to re-designate the name of CSA 10 Benefit Zone No. 1 as the:

Transit Related Services Benefit District, Zone No. 1

(hereafter referred to as the "Transit Zone No. 1" or the "District").

It is the City's intention to hold a public hearing and consider an annual resolution to levy annual charges for Fiscal Year 2017/18 in order to provide certain miscellaneous extended transportation services within the District.

B. Report Organization

This Report consists of the following five (5) parts.

Part I: Plans and Specifications

This part describes the properties included in the boundaries of Transit Zone No. 1 together with the proposed extended services to be provided by Transit Zone No. 1.

Part II: The Method of Apportionment

This part describes the method of calculating each Transit Zone No. 1 parcel's annual charge.

Part III: Transit Zone No. 1 Budget

This part provides the projected costs to provide extended services to developed properties within Transit Zone No. 1.

Part IV: Diagrams

This part provides a diagram showing the detached territory of CSA 10 Benefit Zone No. 1, together with the diagrams of CSA 10 Benefit Zone No. 1; these diagrams shall serve as the exterior boundaries of Transit Zone No. 1.

Part V: Preliminary Charge Roll

This part provides the fiscal year 2017/18 preliminary charges for the parcels within Transit Zone No. 1 to be applied to the tax roll.

C. Overview

Purpose of Transit Zone No. 1

The purpose of Transit Zone No. 1 is to enable the extension of a broad range of miscellaneous transportation services to developing areas within the District boundaries. These extended services are funded by a property related charge validated pursuant to the Constitution Article XIIID, Section 6. The formation of the former CSA 10 Benefit Zone No. 1 fulfilled certain conditions of development the Zinfandel Special Planning Area and related planning documents.

Annual charges through Transit Zone No. 1 for residential and nonresidential development will fund transit shuttle services and/or other supplemental transportation services as determined appropriate by the City Council.

Adoption Proceedings of CSA No. 10, Benefit Zone No. 1

Pursuant to Constitution Article XIIID, Sections 4 and 6, the County conducted a mailed ballot election for the territory known as CSA 10 Benefit Zone No. 1. Each ballot, which was weighted by the amount of the charge for each parcel, was mailed to each owner of record.

The results of the returned ballots determined that a majority protest of the charge and inflator formula did not exist. The County then approved the CSA Formation Report, imposed the maximum allowable charge in Benefit Zone No. 1 for fiscal year 2003/04, authorized annual increases in the charge for all subsequent fiscal years up to the amount allowed by the inflator formula and ordered the charge to be placed onto the property tax roll.

Authority for the City to Continue the Charges of CSA 10 Benefit Zone No. 1

According to Government Code section 56886, "Any change of organization or reorganization may provide for, or be made subject to one or more of, the following terms and conditions: (m) the designation of a city, county, or district, as the successor to any local agency that is extinguished as a result of any change of organization or reorganization, for the purpose of succeeding to all of the rights, duties, and obligations of the extinguished local agency with respect to enforcement, performance ...or other contracts and obligations of the extinguished local agency; and (t) the extension or continuation of any previously authorized charge, fee, assessment, or tax by the local agency or a successor local agency in the affected territory."

Pursuant to the foregoing, the City is duly authorized to continue to levy the charges previously authorized for detached Zones within CSA 10, utilizing the procedures prescribed for Counties under County Service Area Law to fix and collect charges for particular extended services. For the remainder of this Report, any references to County Service Area Law and the City's authorized capacity to apply same, the term "City" shall be used in the place of "County".

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own number by the Sacramento County Assessor’s Office. The Sacramento County Auditor/Controller uses these numbers to identify properties to be charged on the tax roll for district charges, including the charges described in this Report.

Compliance with Current Legislation

On November 5, 1996, California voters approved Proposition 218. This Constitutional amendment was the latest in a series of initiatives altering the revenue-raising discretion of California local agencies. The provisions of the Proposition are set forth in California Constitutional Articles XIIC and XIID.

As relevant to the District, California Constitution Article XIII D, Sections 1 through 5, provide for additional substantive and procedural requirements, as outlined below.

In Proposition 218, “Assessments” are defined as:

“... any levy or charge upon real property by an agency for a special benefit conferred upon the real property. ‘Assessment’ includes, but is not limited to, ‘special assessment,’ ‘benefit assessment,’ ‘maintenance assessment’ and ‘special assessment tax.’” Article XIII D Section 2b.

Although the District’s annual service charges are generally collected on the property tax rolls, the District’s service charges are not “taxes.” Service charges are distinct from the regular one percent (1%) property tax and property tax debt overrides in that assessment rates are not levied on an ad valorem basis. The service charges contained in this report are considered assessments under Proposition 218.

Proposition 218 requires that beginning July 1, 1997, all new and existing assessments (with some exceptions) conform to new substantive and procedural requirements. However, certain assessments are exempted from the conformity requirement until they are increased. Generally, these exemptions include:

- Assessments used exclusively to fund sidewalks, streets, sewers, water, flood control, drainage systems, or vector control.
- Assessments used exclusively for bond repayments, the cessation of which would violate the Contract Impairment Clause of the U.S. Constitution.
- Assessments previously approved by a majority of voters.
- Assessments approved by the persons owning all of the property at the time the assessment was initially imposed.

Transit Zone No. 1 was formed after the passage of Proposition 218. As such, Transit Zone No. 1 was formed in accordance with the substantive and procedural requirements and the property owners were balloted for the annual service charges and this successful balloting included an annual Consumer Price Index inflator.

Part I: Plans and Specifications

This part describes the properties included in the boundaries of Transit Zone No. 1. This part also describes the proposed extended services to be provided by Transit Zone No. 1.

A. Description of CSA No. 10 and Sphere of Influence

CSA No. 10 Boundaries

For information regarding the boundaries of County Service Area (CSA) No. 10 and its sphere of influence, reference is made to the CSA Formation Report.

B. Description of Transit Zone No. 1

Transit Zone No. 1 Boundaries

The boundaries of Transit Zone No. 1 and the former CSA 10 Benefit Zone No. 1 are congruent. Transit Zone No. 1 is an irregular shape that covers the Villages of Zinfandel. The Villages of Zinfandel is generally located:

- ♦ South of International Boulevard;
- ♦ North of Mather Boulevard;
- ♦ East of Femoyer Street; and
- ♦ West of the Folsom South Canal.

Reference is made to the diagram shown in Part IV of the Report.

General Description of Services

Transit Zone No. 1 provides the funding mechanism (annual charges) for transit shuttle and other supplemental transportation services as described in the CSA Formation Report. Transit Zone No. 1 will provide transportation services to both residential and nonresidential development within the Zinfandel Special Planning Area. The formation of CSA 10 Benefit Zone No. 1 fulfilled certain conditions of development included in County Ordinance No SCZ 2000-018 for the Zinfandel Special Planning Area and related planning documents as well as the related Transportation System Management Plan and AQ-15 Plan, for funding shuttle service and provision of supplemental transportation services.

The charges for residential and nonresidential development will fund these transportation services as determined appropriate by the City Council. The City Council, in its sole discretion, may discontinue the portion of the service charge used for shuttle service once the City Council determines that Sacramento Regional Transit has provided appropriate service. Alternately, the City Council may maintain such service charge and increase other

supplemental transportation services. Supplemental transportation services may include, but are not limited to, the following:

- ♦ Transit Shuttle – shuttle for residents and/or employees between residential areas, employment centers, shopping and service centers and light rail stations and/or other public transit options;
- ♦ Guaranteed Ride Home – free taxi rides and rental cars for ride sharers in case of an emergency;
- ♦ Transit Subsidies – financial assistance to encourage residents and employees to use transit or other alternative transportation measures;
- ♦ Transportation Planning for employers and/or resident groups – plans which guide employers and resident groups on the implementation of trip reduction programs, such as ride share matching or other similar programs;
- ♦ Education Programs – various programs such as education of transit options, home office set up, and alternative commute opportunities;
- ♦ Infrastructure Support – additional bike racks and lockers, transportation alternative and ride share informational boards/kiosks, and transit facilities;
- ♦ Transportation Coordinator, Training and Support – instruction in mobility (transportation alternatives) for residential groups and work site coordinators;
- ♦ Bicycle and Alternative Fuel Vehicle Incentives – incentives for purchasing new bicycles or alternative fuel vehicles.

Part II: Method of Apportionment

A. General

County Service Area Law (Government Code Section 25210 et seq), together with Local Agency Formation law (Government Code Sections 56886(m) and 56886(t)), permit a county, or a successor city, in the case of a detached CSA, to levy or collect a tax or charge in any CSA, or zone within a CSA, to fund any one or more of the services mentioned in Part I, above. A county or successor city may also levy and collect taxes or charges for capital outlay purposes within the respective CSA or detached CSA, for the accumulation of a reserve fund for capital outlay purposes, and for any appropriation for contingencies to be used for expenses for maintenance and operation of any services.

The method of apportionment utilized commonly accepted engineering practices that have been established pursuant to the County Service Area Law and the Constitution.

The remainder of this part describes the methodology, estimated annual revenue, and inflator formula for the charge to be levied in Transit Zone No. 1.

B. Methodology

General

The methodology established through CSA 10 Benefit Zone No. 1 and authorized for Transit Zone No. 1 is summarized below.

The Transit Zone No. 1 charges are levied to fund property-related services. These charges comply with County Service Area Law and the Constitution Article XIID, Section 6, as the charges are to fund property-related services as defined in Article XIID.

The initial rates of CSA 10 Benefit Zone No. 1 were based on the estimated costs to fund supplemental transportation services in fiscal year 2003/04 for the Villages of Zinfandel Special Planning Area at build out. The costs of the District are apportioned by a formula or method which fairly distributes the net amount to be assessed among the assessable parcels in proportion to the special benefits received by each such parcel from the services provided by the District and a parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel. Article XIID requires that only special benefits are assessable and that the agency shall separate the general benefit from special benefit. A special benefit is a particular and distinct benefit over and above general benefits conferred on the public at large, including real property within the district. The general enhancement of property value does not constitute a special benefit. Each parcel within the District receives special benefits from the services provided due to the distinct nature and proximity of these services.

Specific Benefit

The method of apportionment (method of assessment) is based on the premise that each charged parcel receives special benefit from the District services funded by the annual service charges as these services are to be provided to individuals using, visiting or occupying the parcels within the District.

The annual service charges outlined in this Report are based on the estimated costs to provide necessary services, improvements, operation and administration required to ensure the satisfactory condition of each improvement and quality of the services provided.

The special benefits associated with the District services, include but are not limited to:

- ♦ Transit Shuttle – shuttle for District residents and/or employees of District businesses;
- ♦ Guaranteed Ride Home – free taxi rides and rental cars for ride sharers, in case of an emergency, for those residing and/or employed within the District;
- ♦ Transit Subsidies – financial assistance to encourage residents and employees working within the District to use transit or other alternative transportation measures;
- ♦ Transportation Planning for employers and/or resident groups working or residing within the District;
- ♦ Education Programs – various programs such as education of transit options, home office set up, and alternative commute opportunities for employers and/or resident groups working or residing within the District;
- ♦ Infrastructure Support – additional bike racks and lockers, transportation alternative and ride share informational boards/kiosks, and transit facilities within the District;
- ♦ Transportation Coordinator, Training and Support – instruction in mobility (transportation alternatives) for residential groups and employers located in the District;
- ♦ Bicycle and Alternative Fuel Vehicle Incentives – incentives for District residents and/or employees of businesses within the District to purchase new bicycles or alternative fuel vehicles;
- ♦ A reduction of close-proximity car and diesel truck emissions, at ground level, onto District properties.

The preceding special benefits contribute to a special enhancement and desirability of each of the assessed parcels within the District.

General Benefit

In addition to the special benefits received by the parcels within the District, there are incidental general benefits conferred by the District services and improvements. These incidental general benefits conferred by the District improvements:

- ♦ A general reduction in vehicle traffic in portions of the City.
- ♦ A possible general reduction in the traffic accidents in portions of the City.

Equivalent Dwelling Unit Factors

The unit of demand used for the charge is an equivalent dwelling unit ("EDU"). One EDU is the amount of demand for services associated with one low-density residential unit in a single year. The demand for all other land use types reflects the demand for service relative to one EDU for Low Density. **Table 1** provides the number of EDUs assigned to each land use type for calculating the maximum charge.

Table 1: Transit Zone No. 1 -EDU's by Land Use

Land Use	EDU Factor ⁽¹⁾
<i>Developed Acreage</i>	
<i><u>Residential (per dwelling unit)</u></i>	
Low Density	1.00
Medium Density	0.80
High Density	0.60
<i><u>Nonresidential (per acre)</u></i>

Business Park	22.04
Light Industrial	9.20
<i>Undeveloped Acreage</i>	
All Land Uses	-

⁽¹⁾ EDU Factors as approved for Sacramento County CSA 10, Benefit Zone No.1, FY 2003/04

These EDU Factors were based upon average daily vehicle trips ("ADT") per land use type. ADT was used to determine the charge by land use type because vehicle trips are a reasonable measure of demand for the supplemental transportation services immediately available to property owners paying the charge. Demand for services was measured by using average vehicle trip generation rates that vary by type of land use. Each parcel's charge was calculated by multiplying the cost per unit of demand by each parcel's demand for services. Demand is assumed to be generated by

developed residential and nonresidential land uses. No demand is associated with undeveloped land and no charge is levied on this land use.

This methodology fairly distributes the total cost for services among all parcels based on each parcel's proportional demand for the services immediately available to that parcel. In this manner, each parcel's charge does not exceed the reasonable cost of services to that parcel.

Land Use Definitions

Land use definitions are as follows:

- Developed Parcels -*** All single-family detached residential parcels for which a final map has been recorded, and all other parcels for which a building permit has been issued, on or prior to June 30 of the fiscal year preceding the year in which the charge is levied.
- Undeveloped Parcels -*** All parcels that are not Developed Parcels or Exempt Parcels.
- Low Density -*** This category includes densities of up to five (5.0) dwelling units per residential acre. Permitted uses in the LD Area as shown in Section 512-215 of the Zoning Code include those uses allowed in the RD-5, RD-4, and RD-3 Land Use Zones.
- Low Density Cluster -*** This category includes densities of more than five (5.1 and greater) dwelling units per acre and up to 15.0 units per acre. Permitted uses in the Low Density Cluster area as shown in Section 512-215 include those uses allowed in the RD-7, RD-10, and RD-15 Land Use Zones.
- Medium Density -*** This category includes densities of more than 15.0 (15.1 and greater) and no more than 20.0 dwelling units per acre. Permitted uses in the Medium Density area as shown in Section 512-215 of the Zoning Code include those uses allowed in the RD-15 and RD-20 Land Use Zones.
- High Density -*** The category includes densities of more than 20.0 (20.1 and greater) units per net residential acre. The uses permitted in a High Density area as shown include those uses allowed in the RD-25, RD-30 and, RD-40 Land Use Zones.
- Retail Commercial -*** Permitted uses within the retail commercial areas, as shown in Section 512-215 of the Zoning Code, are those uses permitted in the Shopping Center, Business and Professional Office Zone, and

Residential (RD-10, RD-15, and RD-20) or any other retail category.

This land use designation further includes all other uses that would generate a high number of average daily trips.

Business Park -

Permitted uses within the Business Park areas as shown in Section 512-215 of the Zoning Code are those permitted in Business and Professional Office (BP), as listed in Zoning Code Section 225, and Industrial – Office Park (MP) Zone, as listed in Zoning Code Section 230 or any other business park-related land use category.

This land use designation further includes all other uses that would generate a medium number of average daily trips.

Light Industrial -

Permitted uses within the Light Industrial areas as shown in Section 512-215 of the Zoning Code are those uses permitted in the Light Industrial (M-1) Land Use Zone and the Industrial – Office Park (MP) Zone, as listed in Zoning Code Section 230 or any other industrial-related land use category.

This land use designation further includes all other uses that would generate a low number of average daily trips.

Exempt -

Public parcels including parks, schools, utility parcels, and designated open space parcels are exempt from the service charge because no services funded by Transit Zone No. 1 are provided to these parcels.

C. Formula for Inflating the Annual Maximum Charge

The formula for inflating the annual maximum charge established through CSA 10 Benefit Zone No. 1, and to be used for Transit Zone No. 1, is summarized below.

The property owner balloting that established the maximum charges to CSA 10 Benefit Zone No. 1 included an annual inflator formula. The purpose of establishing an inflator formula was to provide for a reasonable inflationary adjustment to the annual maximum charges without requiring periodic noticing and balloting procedures that would add administrative costs to Benefit Zone No. 1. The law implementing Constitution Article XIID (Senate Bill 919) clarifies that an increase in a maximum charge to implement a voter-

approved inflator formula is not an increase subject to additional property owner consideration.

This inflator formula allows for annual increases to the maximum allowable charges by the increase in the Consumer Price Index published for the Sacramento Region by the U.S. Department of Labor (CPI), or six percent (6%), whichever is less. The CPI increase to be used in the inflator formula will be the change in the CPI index from the January two years before adjustment of the charge to the January in the year preceding adjustment of the charge; beginning in the second fiscal year (fiscal year 2004/2005) and each fiscal year thereafter, the maximum allowable charge will be recalculated and a new maximum charge established.

The City may choose to impose less than the maximum allowable charge in any year if service costs warrant the reduction. If the City, or previously the County, has imposed an amount less than the maximum charge, the City may also choose to increase the charge in any year to fully fund services up to the level of the maximum allowable charge for that fiscal year. In this way, the maximum allowable charge is adjusted annually and is calculated independent of the Benefit Zone's annual budget.

The U.S. Department of Labor, Bureau of Labor Statistics no longer provides CPI factors for January for the San Francisco-Oakland-San Jose area as these are now published bi-monthly on even months only (February, April, June, etc.). Since the February CPI factors include, in part, the data that would have been used to determine the January CPI factors, the City has determined that Transit Zone No. 1 shall now use the CPI data for the month of February.

The percentage increase from the February 2016 CPI to the February 2017 CPI was 3.43717%.

Table 2 provides the fiscal year 2017/18 maximum charge per EDU together with the maximum charge by land use.

Table 2: Transit Zone No. 1 -Maximum Charge by Land Use

B. Additional Funding Requirements

The City of Rancho Cordova and Sacramento Regional Transit conducted a joint planning effort in 2008 to identify the operational characteristics of a pilot neighborhood shuttle service. The planning effort resulted in the implementation of a demonstration route (called the “Rancho CordoVan”) on June 15, 2009. A primary benefit of the demonstration shuttle service is mitigating the difficult pedestrian access over the Zinfandel/Highway 50 Interchange and providing better connectivity with Regional Transit’s light rail system.

The primary funding source for the planning effort and the pilot shuttle service was a grant from the federal Congestion Mitigation and Air Quality (“CMAQ”) program with supplemental funding from Transit Zone 1. The CMAQ funding and demonstration period ended on June 30, 2012.

The City has continued to operate the shuttle serving Zone 1 by modifying the previous CordoVan route to focus service to the benefit areas, increase the contribution from the special benefit areas, and expanding service to include Zone 2. The Rancho CordoVan service was rerouted in Stone Creek and Capital Village in September 2012 and was expanded to the Anatolia neighborhood. As part of the service upgrade, the pickup point along RT’s Gold Line was changed to the Zinfandel Station in the Zinfandel parking field. The City and RT improved the Zinfandel Plaza/RT Connection CordoVan stop with a sheltered bench and solar LED light. Based on customer feedback a five-minute adjustment was implemented to the schedule in April 2013 to better synchronize with the train. The City added a CordoVan vehicle to the service fleet in the October 2015. This resulted in the route serving Zone 1 was improved through a concept called “interlining” which takes advantage of switching vehicles among the three. The result added one loop at the end of the morning period and at the end of the evening period. In April 2016, two of the morning routes were adjusted earlier by 25 minutes to better accommodate work arrival times in the business park and the riders heading to Light Rail.

The FY 2017/18 expenditures for Transit Zone No. 1 include:

- ♦ Shuttle Services Operations & Planning – \$93,500 towards the operations and maintenance of the CordoVan shuttle service
- ♦ Transportation Planning and Coordination – about \$6,000 is allocated for the 50 Corridor TMA to provide outreach and coordination services to continue ridesharing, van pool, and shuttle program.
- ♦ Outreach and Educational Programs – about \$2,200 is allocated to continue safe routes to school education at Navigator Elementary

School on alternative mode transportation and encourage students and parents to walk or bicycle to school.

- ♦ **Guaranteed Ride Home** – about \$1,000 is allocated for free taxi rides and rental cars for ride sharers or shuttle riders in the case of an emergency.
- ♦ **Infrastructure Support** – transit facilities (bus stop signs, shelters, etc.). An allocation of at least \$10,000 is needed for new infrastructure and on-going maintenance of bus stops, shelters, and signs.
- ♦ **Transit Subsidies and Incentives** – about \$15,000 of financial assistance in the form of subsidies to encourage residents and employees to use transit or other alternative transportation measures, including ride sharing, vanpool, and transit shuttle services.

C. Descriptions of Budget Items

The following is a brief description of the budgeted costs associated with the services funded through the Transit Zone No. 1.

SERVICES AND OPERATING COSTS (DIRECT COSTS)

Shuttle Services Operations & Planning – Includes costs to provide transit shuttle services for residents and/or employees between residential areas, employment centers, shopping and service centers and light rail stations, as well as other public transit options.

Transportation Planning and Coordination - Includes cost of transportation plans for employers and/or resident groups, which can guide employers and resident groups on the implementation of trip reduction programs, such as ride share matching or other similar programs, as well as instruction in mobility (transportation alternatives) for residential groups and work site coordinators; if zero, this line item may not be shown in the budget.

Outreach and Educational Programs - Includes cost of various programs such as education of elementary students at Navigator Elementary School on alternative mode transportation and encourage students and parents to walk or bicycle to school. If zero, this line item may not be shown in the budget.

Guaranteed Ride Home – Includes cost to provide free taxi rides and rental cars for ride sharers in case of an emergency.

Infrastructure Support – Includes cost of facilities, such as additional bike racks and lockers, transportation alternative and ride share informational boards/kiosks, and transit facilities.

Transit Subsidies and Incentives – includes cost for financial assistance in the form of subsidies to encourage residents and employees to use transit or other alternative transportation measures, including ride sharing, vanpool, and transit shuttle services.

ADMINISTRATION COSTS

City Administration — Estimated costs incurred by the City for the management and administration of the District, including actions associated with the annual levy and collection of charges and response to inquiries or concerns of the public related thereto.

Transit Shuttle Administration — Includes all or a portion of the administrative costs associated with overseeing the operation of the Transit Shuttle, developing an annual service budget and coordination of the annual approval of the charges.

Professional Services — Includes the professional service costs associated with the annual process of preparing the annual Engineer's Report, calculating rates, placing the annual charges of the Transit Zone onto the County tax roll and responding to public inquiries. This budget item also includes the costs of contracting with professionals to provide other administrative, legal or engineering services for operation of the Transit Zone, or for the costs of future ballot protest procedures as required.

County Collection Fees — This is the cost to the Transit Zone for the County Auditor/Controller to place charges on the property tax bills.

ADJUSTMENTS AFFECTING LEVY AMOUNT

Replenishment/(Use) of Operating Reserve – A “replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget.

Contribution for/(Use of) Capital Outlay/Contingency Reserve — A “contribution” increases the levy in order to generate funding for capital outlay contingency purposes. On the other hand, a “use of” of this reserve provides current year funding for capital outlays or contingency purposes from available funds within the Capital Outlay / Contingency Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Capital Outlay / Contingency Reserve is provided under “Reserve Balance Information” below.

Rounding – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

Net Adjustments – The net adjustments affecting levy amount.

Balance to Levy – This is the total amount to be levied and collected through charges for the current fiscal year. “Balance to Levy” represents the sum of the total costs together with any applicable adjustments to the budget as described above.

DISTRICT STATISTICS

Parcels to be Levied - The total number of parcels that are expected to be charged for the current fiscal year.

Developed Equivalent Dwelling Units (EDU's) – The total number of developed Equivalent Dwelling Units (EDU's) that are expected to be charged for the current fiscal year.

Applied Rate per EDU – The rate to be applied to each developed EDU for the current fiscal year.

Maximum Rate per EDU – The maximum rate to be charged to each EDU for the current fiscal year.

Total Potential Maximum Charges – The total amount that can be charged against all parcels within the Transit Zone for the current fiscal year based upon the expected number of EDU's to be charged.

RESERVE BALANCE INFORMATION

The Transit Zone's two types of reserves are described further below. Community Service Area Law allows the levy and accumulation of funds in excess of the Transit Zone's operating reserve as follows: a) Government Code Section 25210.6 allows the City to levy and collect charges to fund capital outlays in the current year or to levy and collect charges to accumulate funds for capital outlay purposes; and, b) Government Code Section 25210.7 allows the City to levy and collect charges for any appropriation for contingencies to be used for expenses for maintenance and operation of any services within the Transit Zone.

OPERATING RESERVE BALANCE

Beginning Operating Reserve Balance 7-1-2017 (est.) - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations. These beginning balances are expected to be used to fund expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is used to compensate for the approximate six-month delay between the start of the Transit Zone's fiscal year and the receipt of the collections from the County. All Capital Outlay / Contingency Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately.

Collect from FY 2017/18 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the Transit

Zone's receipt of charge collections, the Operating Reserve balance should be sufficiently funded to provide for expenditures from the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Use for FY 2017/18 Expenses – The amount of the Operating Reserve to be used to fund FY 2017/18 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected Transit Zone costs for the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Capital Outlay/Contingency Reserve – The amount of Operating Reserve monies to be transferred to or from the Capital Outlay/Contingency Reserve. Periodically, funds held in a Capital Outlay / Contingency Reserve may be needed to respond to changing operational needs of or conditions within the Transit Zone. If zero, this line item may not be shown in the budget.

Ending Operating Reserve Balance 6-30-2018 (est.) – This amount represents the anticipated Operating Reserve balance/(deficit) as of June 30, 2018. This balance should be sufficiently funded to provide for the first six-months of budgeted expenses in order to meet ongoing obligations until the first collections are received from the County. All Capital Outlay / Contingency Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

CAPITAL OUTLAY / CONTINGENCY RESERVE BALANCE

Beginning Capital Outlay / Contingency Reserve Balance 7-1-2017 (est.)– The projected balance of funds in the Capital Outlay / Contingency Reserve as of July 1, 2017. Community Service Area Law allows the levy and accumulation of funds in excess of the Transit Zone's operating reserve to fund capital outlays within the current year or to accumulate funds for these purposes. In addition, these funds may be used for any appropriation for contingencies to fund the services or other expenses of the Transit Zone. Further information regarding the use of Capital Outlay / Contingency Reserve is provided above under "Reserve Balance Information".

Collect from FY 2017/18 Levy — This amount is added to the levy to accumulate funding for future year Capital Outlay / Contingency purposes. If zero, this line item may not be shown in the budget.

Use for FY 2017/18 Capital Outlay / Contingency Purposes – The amount of Capital Outlay / Contingency Reserve monies expected to be transferred out of the Capital Outlay / Contingency Reserve to be used in the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve – The amount of Capital Outlay / Contingency Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Capital Outlay / Contingency Reserve may be needed to respond to changing operational needs of or conditions within the Transit Zone. If zero, this line item may not be shown in the budget.

Ending Capital Outlay / Contingency Reserve Balance 6-30-2018 (est.) – The projected balance of funds in the Capital Outlay / Contingency Reserve as of June 30, 2018. These funds shall be used for future year Capital Outlay / Contingency purposes.

Part V: Charge Roll

Parcel identification for each lot or parcel within Transit Zone No. 1 shall be the parcel as shown on the Sacramento County secured property tax roll for the year in which this Report is prepared and reflective of the Assessor's parcel maps.

A listing of the proposed parcels to be included within Transit Zone No. 1 and the charge amount for each parcel is provided on the following pages. This listing is based on the then current property tax roll as of the date of this report.

At the conclusion of the public hearing for Transit Zone No. 1 and the proposed charges, approval of the Report (as submitted or as modified) confirms the method of apportionment and the charges to be levied against each eligible parcel and thereby constitutes the approved levy and collection of charges for FY 2017/18. The listing of parcels and the amount of charges to be levied shall be submitted to the County Auditor/Controller and included on the FY 2017/18 County tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the Auditor/Controller. The charge amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and charge rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the charge amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and charge rate rather than a proportionate share of the original charge.

MEMORANDUM

DATE: June 19, 2017

TO: Honorable Mayor and Council Members

FROM: Elizabeth Sparkman, Engineering Manager

SUBJECT: RESOLUTIONS APPROVING PROCEEDINGS FOR THE ANNUAL LEVY AND COLLECTION OF CHARGES FOR THE RANCHO CORDOVA TRANSIT RELATED SERVICES BENEFIT DISTRICT, ZONE NO. 2 FOR FISCAL YEAR 2017-2018

RECOMMENDATION

Adopt Resolution No. 59-2017 initiating proceedings for the annual levy and collection of charges, preliminarily approving the engineer's report, and declaring its intention to levy the annual charges for fiscal year 2017-2018 for the Rancho Cordova Transit Related Services Benefit District, Zone No. 2; and

Adopt Resolution No. 60-2017 amending and/or confirming the engineer's report and establishing the fiscal year 2017-2018 service charges for the Rancho Cordova Transit Related Services Benefit District, Zone No. 2.

RESULT OF RECOMMENDED ACTION

Adoption of resolutions 59-2017 and 60-2017 will authorize the continuance of the annual levy and collection of service charges in the Transit Related Services Benefit District, Zone No. 2 to provide for a broad range of miscellaneous transportation services within the District as identified in the Engineer's Report.

BACKGROUND

The purpose of the District is to provide an ongoing financial mechanism to fund a broad range of miscellaneous transportation services intended to benefit the property within the Zone.

In January 2004, the Board of Supervisors of the County of Sacramento formed Benefit Zone No. 2 of County Services Area (CSA) No. 10. to collect annual charges for extended transportation-related services within Benefit Zone No. 2 for the Sunridge Specific Plan Area.

Upon the City's incorporation, procedures to detach the district from the County were initiated. On February 15, 2008, LAFCO issued a Certificate of Completion to the City for the detachment from the County Service Area No. 10 formally detaching the district from the County and transferring services responsibility and funding of the CSA to the City.

The City redesignated the name of County Services Area No. 10 Benefit Zone No. 2 to “Transit Related Services Benefit District, Zone No. 2” (hereafter referred to as the “Transit Benefit Zone No. 2” or the “District”).

The construction of the International Drive extension to Sunrise Boulevard and the completion of the extension of Zinfandel Drive to Douglas Road provided the opportunity to effectively service the area with shuttle service. The CordoVan shuttle commenced new routing in September 2012 with a service between the Anatolia Club House and the Zinfandel Light Rail Station. The City and RT improved the Zinfandel Plaza/RT Connection CordoVan stop with a sheltered bench and solar LED light. Based on customer feedback a five minute adjustment was implemented to the schedule in April 2013 to better synchronize with the train. The City added a CordoVan vehicle to the service fleet in October of 2015. The new vehicle connects to the Anatolia Clubhouse and proceeds on to Sunridge Park. The CordoVan that is serving the Anatolia Clubhouse was extended to serve Kavala Ranch. The resulting service to the Anatolia Clubhouse has improved services by reducing headways (intervals between busses) from 45 to 30 minutes. In April 2016, the morning routes were adjusted earlier by 25 minutes to better accommodate work times in the business park and the riders heading to Light Rail. Unused funds of the FY 2017-2018 levy will be retained in reserves for future additional service to the area.

State law requires that the City Council hold a public hearing prior to approval and levy of the proposed charges. An Engineer’s Report showing the proposed rates has been prepared, placed on file with the City Clerk, a copy of which is attached as Exhibit A to the second resolution.

Through adoption of **Resolution No. 59-2017, Attachment 1**, the City is initiating proceedings for the annual levy and collection of charges for certain miscellaneous extended services and preliminarily approves such written report, and declares its intention to levy the annual charges for Fiscal Year 2017-2018. The City Clerk has given notice and set today as the time and place to conduct a public hearing on the matter.

The Engineer’s Report prepared by Willdan Financial Services, describes the District boundaries, a description and cost estimates of the services to be provided, the method and apportionment of charges, a District budget, a description of the property to be benefited, and the amount of the charge to each individual property.

The proposed Fiscal Year 2017-2018 charges for each land use category are shown in Table 1 below.

Table 1 - Transit Zone No. 2

Land Use Category	Parcels Levied	Residential Units / Acres	Equivalent Dwelling Units	Proposed Rate	Per Unit / Acre	FY 2017/2018 Charges
Low Density Residential	3,438	3,438 units	3,438.00	\$107.02	per unit	\$367,934.76
Medium Density Residential	999	999 units	799.20	\$85.62	per unit	\$85,534.38
Mixed Commercial	1	4.34 acres	95.65	\$2,358.93	per acre	\$10,237.74
Retail	6	13.22 acres	339.01	\$2,744.23	per acre	\$36,284.24
TOTAL LEVY						\$482,884.24

In order to proceed with the levy of charges, it is appropriate for the Council to conduct the public hearing and adopt Resolution No. **59-2017, Attachment 1**, which initiates the proceedings for the District, preliminarily approves the Engineer's Report, and declares its intention to levy and collect service charges for Fiscal Year 2017-2018. **Resolution No. 60-2017, Attachment 2**, amends and/or confirms the Engineer's Report and authorizes the levy and collection of service charges for Fiscal Year 2017-2018.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund.

Executive Summary

A. Introduction

In May of 2003, the Board of Supervisors of the County of Sacramento, State of California (hereafter referred to as the "County"), pursuant to the provisions of the County Service Area law of California Government Code (§25210 et seq.) (hereafter referred to as "County Service Area Law"), and in compliance with the substantive and procedural requirements of the California State Constitution Article XIID (hereafter referred to as the "Constitution") formed a County Service Area designated as:

County Service Area No. 10

(hereafter referred to as "the CSA" or "CSA 10") to provide miscellaneous extended transportation services for trip reduction in the following areas:

**Villages of Zinfandel,
Sunridge Specific Plan, and
Mather Field.**

Upon the Incorporation of the City of Rancho Cordova

on July 1, 2003, a portion of the territory within CSA No. 10, including all parcels within the Sunridge Specific Plan, was then located within the new City limits.

On January 11, 2005, the County, in coordination with the City of Rancho Cordova (hereafter referred to as the "City"), formed a benefit zone within a portion of the CSA to be known as:

Benefit Zone No. 2

to impose an annual charge, commencing Fiscal Year 2005/06, upon all of the parcels of land within the subdivision known as the:

Sunridge Specific Plan

An Engineer's Report dated November 18, 2004 and noted as "Final (Revised)", together with the one-page memorandum, dated January 10, 2005, regarding an amendment thereto (hereafter referred to as the "CSA Zone 2 Formation Report") was prepared in connection with the proceedings to form and levy annual charges in Benefit Zone No. 2. Reference is hereby made to the CSA Formation Report concerning the formation of CSA 10 Benefit Zone No. 2, including its structure (organization), proposed services, initial rates, inflator formula, and method of apportionment and charges, as well as the projections of development activity and cost associated with the extended services, all of which have been presented in the CSA Formation Report, and approved by the County of Sacramento. (For reference purposes, the CSA

Formation Report was incorporated into the District's Fiscal Year 2008/09 Engineer's Report, which was approved through City Council Resolution 82-2008.)

Pursuant to County Service Area Law and after all requirements to detach the portion of CSA 10 from County control and transfer to the City, LAFCO issued a Certificate of Completion to the City for the

Detachment from County Service Area No. 10

subject to the conditions within LAFCO Resolution 1342. The detaching territory was comprised of the areas known as Benefit Zone No. 1, Benefit Zone No. 2 and a portion of Mather Field.

Upon the recordation of the Certificate of Completion on February 15, 2008, the detachment of these portions of CSA No. 10 within the City's boundary was approved, resulting in the transfer of service responsibility and funding of the CSA to the City, pursuant to Government Code Sections 56886(m) and 56886(t). In connection with the above-described detachment proceedings and the resulting transfer and reorganization of CSA 10 Benefit Zone No. 2, the City approved the District's Fiscal Year 2008/09 Engineer's Report to continue the annual levy of charges previously authorized for CSA No. 10 and to re-designate the name of CSA 10 Benefit Zone No. 2 as the:

Transit Related Services Benefit District, Zone No. 2

(hereafter referred to as the "Transit Zone No. 2" or the "District").

It is the City's intention to hold a public hearing and consider an annual resolution to levy annual charges for Fiscal Year 2017/18 in order to provide certain miscellaneous extended transportation services within the District.

B. Report Organization

This Report consists of the following five (5) parts:

Part I: Plans and Specifications

This part describes the properties included in the boundaries of Transit Zone No. 2 together with the proposed extended services to be provided by Transit Zone No. 2.

Part II: The Method of Apportionment

This part describes the method of calculating each Transit Zone No. 2 parcel's annual charge.

Part III: Transit Zone No. 2 Budget

This part provides the projected costs to provide extended services to developed properties within Transit Zone No. 2.

Part IV: Diagrams

This part provides a diagram showing the detached territory of CSA 10 Benefit Zone No. 2, together with the diagrams of CSA 10 Benefit Zone No. 2; these diagrams shall serve as the exterior boundaries of Transit Zone No. 2.

Part V: Preliminary Charge Roll

This part provides the fiscal year 2017/18 preliminary charges for the parcels within Transit Zone No. 2 to be applied to the tax roll.

C. Overview

Purpose of Transit Zone No. 2

The purpose of Benefit Zone No. 2 is to extend certain transportation-related services to developing areas, as described below. Extended services are funded by a property related charge pursuant to the Constitution Article XIIID, Section 6. The formation of Benefit Zone No. 2 fulfills certain conditions of development for the Sunridge Specific Plan and related planning documents.

Annual charges through Transit Zone No. 2 for residential and nonresidential development will fund transit shuttle services and/or other supplemental transportation services as determined appropriate by the City Council.

Adoption Proceedings of CSA No. 10, Benefit Zone No. 2

Pursuant to Constitution Article XIIID, Sections 4 and 6, the County conducted a mailed ballot election for the territory known as CSA 10 Benefit Zone No. 2. Each ballot, which was weighted by the amount of the charge for each parcel, was mailed to each owner of record.

The results of the returned ballots determined that a majority protest of the charge and inflator formula did not exist. The County then approved the CSA Zone 2 Formation Report, imposed the maximum allowable charge in Benefit Zone No. 2 for fiscal year 2005/06, authorized annual increases in the charge for all subsequent fiscal years up to the amount allowed by the inflator formula and ordered the charge to be placed onto the property tax roll.

Authority for the City to Continue the Charges of CSA 10 Benefit Zone No. 2

According to Government Code section 56886, "Any change of organization or reorganization may provide for, or be made subject to one or more of, the following terms and conditions: (m) the designation of a city, county, or district, as the successor to any local agency that is extinguished as a result of any change of organization or reorganization, for the purpose of succeeding to all of the rights, duties, and obligations of the extinguished local agency with respect to enforcement, performance...or other contracts and obligations of the extinguished local agency; and (t) the extension or continuation of any

previously authorized charge, fee, assessment, or tax by the local agency or a successor local agency in the affected territory.”

Pursuant to the foregoing, the City is duly authorized to continue to levy the charges previously authorized for the detached Zones within CSA 10, utilizing the procedures prescribed for Counties under County Service Area Law to fix and collect charges for particular extended services. For the remainder of this Report, any references to County Service Area Law and the City’s authorized capacity to apply same, the term “City” shall be used in the place of “County”.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own number by the Sacramento County Assessor’s Office. The Sacramento County Auditor/Controller uses these numbers to identify properties to be charged on the tax roll for district charges, including the charges described in this Report.

Compliance with Current Legislation

On November 5, 1996, California voters approved Proposition 218. This Constitutional amendment was the latest in a series of initiatives altering the revenue-raising discretion of California local agencies. The provisions of the Proposition are set forth in California Constitutional Articles XIIC and XIID.

As relevant to the District, California Constitution Article XIII D, Sections 1 through 5, provide for additional substantive and procedural requirements, as outlined below.

In Proposition 218, “Assessments” are defined as:

“... any levy or charge upon real property by an agency for a special benefit conferred upon the real property. ‘Assessment’ includes, but is not limited to, ‘special assessment,’ ‘benefit assessment,’ ‘maintenance assessment’ and ‘special assessment tax.’” Article XIII D Section 2b.

Although the District’s annual service charges are generally collected on the property tax rolls, the District’s service charges are not “taxes.” Service charges are distinct from the regular one percent (1%) property tax and property tax debt overrides in that assessment rates are not levied on an ad valorem basis. The service charges contained in this report are considered assessments under Proposition 218.

Proposition 218 requires that beginning July 1, 1997, all new and existing assessments (with some exceptions) conform to new substantive and procedural requirements. However, certain assessments are exempted from the conformity requirement until they are increased. Generally, these exemptions include:

- Assessments used exclusively to fund sidewalks, streets, sewers, water, flood control, drainage systems, or vector control.
- Assessments used exclusively for bond repayments, the cessation of which would violate the Contract Impairment Clause of the U.S. Constitution.
- Assessments previously approved by a majority of voters.
- Assessments approved by the persons owning all of the property at the time the assessment was initially imposed.

Transit Zone No. 2 was formed after the passage of Proposition 218. As such, Transit Zone No. 2 was formed in accordance with the substantive and procedural requirements and the property owners were balloted for the annual service charges and this successful balloting included an annual Consumer Price Index inflator.

Part I: Plans and Specifications

This part describes the properties included in the boundaries of Transit Zone No. 2. This part also describes the proposed extended services to be provided by Transit Zone No. 2.

A. Description of Transit Zone No. 2

Transit Zone No. 2 Boundaries

The boundaries of Transit Zone No. 2 and the former CSA 10 Benefit Zone No. 2 are congruent. Benefit Zone No. 2 is an irregular shape that covers the Sunridge Specific Plan. The Sunridge Specific Plan is generally located:

- ♦ South of Douglas Boulevard (plus a small triangular section adjoining to the north);
- ♦ North of Kiefer Boulevard;
- ♦ East of Sunrise Boulevard; and
- ♦ West of Grant Line Road.

Reference is made to the diagrams shown in Part IV of the Report.

General Description of Services

Transit Zone No. 2 provides the funding mechanism (annual charges) for transit shuttle and other supplemental transportation services as described in the CSA Zone 2 Formation Report. Transit Zone No. 2 will provide transportation services to both residential and nonresidential development within the Sunridge Specific Plan. The formation of CSA 10 Benefit Zone No. 2 fulfilled certain

conditions of development included in County Ordinance No SCZ 2002-0014 for the Sunridge Specific Plan and related planning documents as well as the related Transportation System Management Plan and AQ-15 Plan.

In particular, Benefit Zone No. 2 is designed to support implementation of the following zoning condition:

The Sunridge Specific Plan shall have a targeted goal of a 30% reduction in daily vehicle trips. In support of that goal, the Sunridge Specific Plan shall participate in a County Service Area (CSA), or an equivalent funding mechanism to the satisfaction of the Board of Supervisors, or successor city, for the purpose of funding a variety of transportation demand management strategies, including but not limited to a transit shuttle service, which will contribute Sunridge's targeted 30% reduction in daily vehicle trips.

The charges for residential and nonresidential development will fund these transportation services as determined appropriate by the City Council. Supplemental transportation services may include, but are not limited to, the following:

- ♦ Transit Shuttle – shuttle for residents and/or employees between residential areas, employment centers, shopping and service centers and light rail stations and/or other public transit options;
- ♦ Guaranteed Ride Home – free taxi rides and rental cars for ride sharers in case of an emergency;
- ♦ Transit Subsidies – financial assistance to encourage residents and employees to use transit or other alternative transportation measures;
- ♦ Transportation Plans for employers and/or resident groups – plans which guide employers and resident groups on the implementation of trip reduction programs, such as ride share matching or other similar programs;
- ♦ Education Programs – various programs such as education of transit options, home office set up, alternative commute opportunities;
- ♦ Infrastructure Support – additional bike racks and lockers, transportation alternative and ride share informational boards/kiosks, and transit facilities;
- ♦ Transportation Coordinator Training and Support – instruction in mobility (transportation alternatives) for residential groups and work site coordinators;
- ♦ Bicycle and Alternative Fuel Vehicle Incentives – incentives for purchasing new bicycles or alternative fuel vehicles.

Part II: Method of Apportionment

A. General

County Service Area Law (Government Code Section 25210 et seq.), together with Local Agency Formation law (Government Code Sections 56886(m) and 56886(t)), permit a county, or a successor city, in the case of a detached CSA, to levy or collect a tax or charge in any CSA, or zone within a CSA, to fund any one or more of the services mentioned in Part I, above. A county or successor city may also levy and collect taxes or charges for capital outlay purposes within the respective CSA or detached CSA, for the accumulation of a reserve fund for capital outlay purposes, and for any appropriation for contingencies to be used for expenses for maintenance and operation of any services.

The method of apportionment utilized commonly accepted engineering practices that have been established pursuant to the County Service Area Law and the Constitution.

The remainder of this part describes the methodology, estimated annual revenue, and inflator formula for the charge to be levied in Transit Zone No. 2.

B. Methodology

The methodology established through CSA 10 Benefit Zone No. 2 and authorized for Transit Zone No. 2 is summarized below.

The Transit Zone No. 2 charges are levied to fund property-related services. These charges comply with County Service Area Law and Constitution Article XIID, Section 6, as the charges are to fund property-related services as defined in Article XIID.

The initial rates of CSA 10 Benefit Zone No. 2 were based on the estimated costs to fund supplemental transportation services in fiscal year 2005/06 for the Sunridge Specific Plan at build out.

Equivalent Dwelling Unit Factors

Each land use type is assigned an Equivalent Dwelling Unit (EDU) factor representing the relative demand for services compared to a low-density single family unit.

The level of service identified for Benefit Zone No. 2 was based on the level of service identified in user surveys conducted by the North Natomas Transportation Management Authority ("NNTMA"). Demand for services was measured using vehicle trip generation rates adjusted for trip length and trip purpose (diverted and pass-by trips versus primary trips) by type of land use.

Demand is assumed to be generated by developed residential and nonresidential land uses. No demand is associated with undeveloped land and

no charge is levied on this land use. **Table 1** provides the number of EDU's assigned to each land use type for calculating the maximum charge.

Table 1: Transit Zone No. 2 – EDU's by Land Use

Land Use	EDU Factor ⁽¹⁾
Developed Acreage	
<u>Residential (per dwelling unit)</u>	
Low Density	1.00
Medium Density	0.80
High Density	0.60
<u>Nonresidential (per acre)</u>	
Retail and Service Commercial	25.64
Commercial Mixed Use	22.04
Undeveloped Acreage	
All Land Uses	-

⁽¹⁾ EDU Factors as approved for Sacramento County CSA 10, Benefit Zone No. 2, FY 2005/06.

Each parcel's charge is calculated by multiplying the cost per EDU by the amount of EDU's assigned to each land use type. This methodology fairly distributes the total cost for services among all parcels based on each parcel's proportional demand for the services immediately available to that parcel. Each parcel's charge does not exceed the reasonable cost of services to that parcel.

The EDU factor for each land use is based upon average daily vehicle trips (ADT) per land use type. ADT is used to determine the charge by land use type because vehicle trips are a reasonable measure of demand for the supplemental transportation services immediately available to property owners paying the charge.

Land Use Definitions

Land use definitions are as follows:

<i>Developed Parcels</i>	All single-family detached residential parcels for which a final map has been recorded, and all other parcels for which a building permit has been issued, on or prior to June 30 of the fiscal year preceding the year in which the charge is levied.
<i>Undeveloped Parcels</i>	All parcels that are not Developed Parcels or Exempt Parcels.

<i>Low Density Residential</i>	This category includes densities of up to five (5.0) dwelling units per acre. Uses consistent with the Low Density Residential category include those allowed by right in the RD-5 land use zone and other residential zones of lesser maximum density as specified in Title II Chapter 15 of the Rancho Cordova Zoning Code. For purposes of levying the charge in Benefit Zone 2, non-residential uses allowed in these residential zones by conditional use permit are considered to be either Retail Commercial, Commercial Mixed Use, or Exempt as determined by the Planning Director of Rancho Cordova.
<i>Medium Density Residential</i>	This category includes densities of more than five (5.1 or greater) dwelling units per acre and up to fifteen (15.0) dwelling units per acre. Uses consistent with the Medium Density Residential category include those allowed by right in the RD-7, RD-10, and RD-15 land use zones as specified in Title II Chapter 15 of the Rancho Cordova Zoning Code. For purposes of levying the charge in Benefit Zone 2, non-residential uses allowed in these residential zones by conditional use permit are considered to be either Retail Commercial, Commercial Mixed Use, or Exempt as determined by the Planning Director of Rancho Cordova.
<i>High Density Residential</i>	This category includes densities of more than fifteen (15.1 or greater) dwelling units per acre. Uses consistent with the High Density Residential category include those allowed by right in the RD-20, RD-25, RD-30, and RD-40 land use zones as specified in Title II Chapter 15 of the Rancho Cordova Zoning Code. For purposes of levying the charge in Benefit Zone 2, non-residential uses allowed in these residential zones by conditional use permit are considered to be either Retail Commercial, Commercial Mixed Use, or Exempt as determined by the Planning Director of Rancho Cordova.
<i>Retail & Service Commercial</i>	This category as designated in the Sunridge Specific Plan includes those non-residential land uses allowed by right or use permit in the SC Shopping Center land use zone as specified in Title II Chapter 25 of the Rancho Cordova Zoning Code. This land use category further includes all other non-residential uses that would generate a high number (500 or more) of average daily trips. For purposes of levying the charge in Benefit Zone 2, residential uses allowed in the SC Shopping Center land use zone by development plan review or by conditional use permit are considered to

be Low Density, Medium Density, or High Density Residential according to their density as determined by the Planning Director of Rancho Cordova and these definitions.

Commercial Mixed Use

This category as designated in the Sunridge Specific Plan includes those non-residential land uses allowed by right or use permit in the LC Limited Commercial land use zone as specified in Title II Chapter 25 of the Rancho Cordova Zoning Code. This land use category further includes all other non-residential uses that would generate a low to medium number (less than 500) of average daily trips. For purposes of levying the charge in Benefit Zone 2, residential uses allowed in the LC Limited Commercial land use zone by development plan review or by conditional use permit are considered to be either Low Density, Medium Density, or High Density Residential according to their actual density in dwelling units per acre as determined by the Planning Director of Rancho Cordova and these definitions.

Exempt

Public parcels including parks, schools, utility parcels, and designated open space parcels are exempt from the service charge because no services funded by Transit Zone No. 2 are provided to these parcels.

C. Formula for Inflating the Annual Maximum Charge

The formula for inflating the maximum annual charge established through CSA 10 Benefit Zone No. 2, and to be used for Transit Zone No. 2, is summarized below.

The property owner balloting that established the maximum charges to CSA 10 Benefit Zone No. 2 included an annual inflator formula. The purpose of establishing an inflator formula was to provide for a reasonable inflationary adjustment to the annual maximum charges without requiring periodic noticing and balloting procedures that would add administrative costs to Benefit Zone No. 2. The law implementing Constitution Article XIID (Senate Bill 919) clarifies that an increase in a maximum charge to implement a voter-approved inflator formula is not an increase subject to additional property owner consideration.

This inflator formula allows for annual increases to the maximum allowable charges by the increase in the Consumer Price Index published for the Sacramento Region by the U.S. Department of Labor (CPI), or six percent (6%), whichever is less. The CPI increase to be used in the inflator formula will be the change in the CPI index from the January two years before adjustment of the charge to the January in the year preceding adjustment of the charge; beginning in the second fiscal year (fiscal year 2006/2007) and each fiscal year thereafter, the maximum allowable charge will be recalculated and a new maximum charge established.

The City may choose to impose less than the maximum allowable charge in any year if service costs warrant the reduction. If the City, or previously the County, has imposed an amount less than the maximum charge, the City may also choose to increase the charge in any year to fully fund services up to the level of the maximum allowable charge for that fiscal year. In this way, the maximum allowable charge is adjusted annually and is calculated independent of the Benefit Zone's annual budget.

The U.S. Department of Labor, Bureau of Labor Statistics no longer provides CPI factors for January for the San Francisco-Oakland-San Jose area as these are now published bi-monthly on even months only (February, April, June, etc.). Since the February CPI factors include, in part, the data that would have been used to determine the January CPI factors, the City has determined that Transit Zone No. 2 shall now use the CPI data for the month of February.

The percentage increase from the February 2016 CPI to the February 2017 CPI was 3.43717%.

Table 2 provides the fiscal year 2017/18 maximum charge per EDU together with the maximum charge by land use.

Table 2: Transit Zone No. 2 – Maximum Charge by Land Use

B. Additional Funding Requirements

The City of Rancho Cordova and Sacramento Regional Transit conducted a joint planning effort in 2008 to identify the operational characteristics of a pilot neighborhood shuttle service. The planning effort resulted in the implementation of a demonstration route (called the “Rancho CordoVan”) on June 15, 2009. A primary benefit of the demonstration shuttle service was mitigating the difficult pedestrian access over the Zinfandel/Highway 50 Interchange and providing better connectivity with Regional Transit’s light rail system. The Rancho CordoVan demonstration shuttle was limited to the area between the Cordova Town Center Light Rail station and the businesses and residents just south of Highway 50, along Zinfandel Boulevard.

The primary funding source for the planning effort and the pilot shuttle service was a grant from the federal Congestion Mitigation and Air Quality (“CMAQ”) program with supplemental funding from each benefit zone proportional to directly related services in that Zone. No funds from CSA 10 Benefit Zone 2 were used to operate this service. The Grant funding and the demonstration period ended on June 30, 2012.

The construction of the International Drive extension to Sunrise Boulevard and the completion of the extension of Zinfandel Drive to Douglas Road provided the opportunity to effectively serve the Sunridge area with shuttle service. The Cordovan shuttle commenced new routing in September 2012 with a service between the Anatolia Club House and the Zinfandel Light Rail Station. The City and RT improved the Zinfandel Plaza/RT Connection CordoVan stop with a sheltered bench and solar LED light. Based on customer feedback a five-minute adjustment was implemented to the schedule in April 2013 to better synchronize with the train. New route changes commenced in September 2015 to extend service to Kavala Ranch. In addition, a third vehicle was added to connect the Anatolia Clubhouse shuttle stop and proceed onto Sunridge Park. In April 2016, the morning routes were adjusted earlier by 25 minutes to better accommodate work times in the business park and the riders heading to the Light Rail, Unused funds of the FY 2017/18 annual levy will be retained in reserves for future additional services to the area.

The FY 2017/18 expenditures for Transit Zone No. 2 include:

- ♦ Shuttle Services Operations - \$385,000 towards the operations and maintenance of the CordoVan shuttle service.
- ♦ Transportation Planning and Coordination – about \$15,000 is allocated for the 50 Corridor TMA to provide outreach and coordination services to continue ride sharing, van pool and shuttle program
- ♦ Outreach and Educational Programs – about \$25,000 is allocated to continue safe routes to school education at Sunrise Elementary School

in the Anatolia community on alternative mode transportation and encourage students and parents to walk or bicycle to school.

- ♦ **Guaranteed Ride Home** – about \$10,000 is allocated for free taxi rides and rental cars for ride sharers or shuttle riders in the case of an emergency.
- ♦ **Transit Subsidies and Incentives** – about \$29,300 of financial assistance in the form of subsidies to encourage residents and employees to use transit or other alternative transportation measures, including ride sharing, vanpool, and transit shuttle services.
- ♦ **Infrastructure Support** – transit facilities (bus stop signs, shelters, etc). An allocation of about \$20,000 is needed for new infrastructure and on-going maintenance of bus stops, shelters, and signs.

C. Descriptions of Budget Items

The following is a brief description of the budgeted costs associated with the services funded through the Transit Zone No. 2.

SERVICES AND OPERATING COSTS (DIRECT COSTS)

Shuttle Services Operations – Includes costs to provide transit shuttle services for residents and/or employees between residential areas, employment centers, shopping and service centers and light rail stations, as well as other public transit options; if zero, this line item may not be shown in the budget.

Transportation Planning and Coordination – Includes cost of transportation plans for employers and/or resident groups which can guide employers and resident groups on the implementation of trip reduction programs for ridesharing, van pool, shuttle services or similar programs, as well instruction in mobility (transportation alternatives) for residential groups and work site coordinators; if zero, this line item may not be shown in the budget.

Outreach and Educational Programs – Includes cost of various programs such as education of elementary students at Sunrise Elementary School on alternative mode transportation and encourage students and parents to walk or bicycle to school; if zero, this line item may not be shown in the budget.

Guaranteed Ride Home – Includes cost to provide free taxi rides and rental cars for ride sharers or shuttle riders in case of an emergency; if zero, this line item may not be shown in the budget.

Transit Subsidies and Incentives – Includes financial assistance in the form of subsidies to encourage residents and employees to use transit or other alternative transportation measures, including ride sharing, vanpool or transit shuttle services; if zero, this line item may not be shown in the budget.

Infrastructure Support – Includes cost of facilities, such as additional bike racks and lockers, transportation alternative and ride share informational boards/kiosks, and transit facilities; if zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

City Administration – Estimated costs incurred by the City for the management and administration of the District, including actions associated with the annual levy and collection of charges and response to inquiries or concerns of the public related thereto.

Transit Shuttle Administration – Includes all or a portion of the administrative costs associated with overseeing the operation of the Transit Shuttle, developing an annual service budget and coordination of the annual approval of the charges.

Professional Services – Includes the professional service costs associated with the annual process of preparing the annual Engineer's Report, calculating rates, placing the annual charges of the Transit Zone onto the County tax roll and responding to public inquiries. This budget item also includes the costs of contracting with professionals to provide other administrative, legal or engineering services for operation of the Transit Zone, or for the costs of future ballot protest procedures as required.

County Collection Fees – This is the cost to the Transit Zone for the County Auditor/Controller to place charges on the property tax bills.

ADJUSTMENTS AFFECTING LEVY AMOUNT

Replenishment to / (Use of) Operating Reserve – A “replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget.

Contribution to / (Use of) Capital Outlay / Contingency Reserve – A “contribution” increases the levy in order to generate funding for capital outlay / contingency purposes. On the other hand, a “use of” of this reserve provides current year funding for capital outlays or contingency purposes from available funds within the Capital Outlay / Contingency Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Capital Outlay / Contingency Reserve is provided under “Reserve Balance Information” below.

Rounding – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

Net Adjustments – The net adjustments affecting levy amount.

Balance to Levy – This is the total amount to be levied and collected through charges for the current fiscal year. “Balance to Levy” represents the sum of the total costs together with any applicable adjustments to the budget as described above.

DISTRICT STATISTICS

Parcels to be Levied – The total number of parcels that are expected to be charged for the current fiscal year.

Developed Equivalent Dwelling Units (EDU's) – The total number of developed Equivalent Dwelling Units (EDU's) that are expected to be charged for the current fiscal year.

Applied Rate per EDU – The rate to be applied to each developed EDU for the current fiscal year.

Maximum Rate per EDU – The maximum rate to be charged to each EDU for the current fiscal year.

Total Potential Maximum Charges – The total amount that can be charged against all parcels within the Transit Zone for the current fiscal year based upon the expected number of EDU's to be charged.

RESERVE BALANCE INFORMATION

The Transit Zone's two types of reserves are described further below. Community Service Area Law allows the levy and accumulation of funds in excess of the Transit Zone's operating reserve as follows: a) Government Code Section 25210.6 allows the City to levy and collect charges to fund capital outlays in the current year or to levy and collect charges to accumulate funds for capital outlay purposes; and, b) Government Code Section 25210.7 allows the City to levy and collect charges for any appropriation for contingencies to be used for expenses for maintenance and operation of any services within the Transit Zone.

OPERATING RESERVE BALANCE

Beginning Operating Reserve Balance 7-1-2017 (est.) – The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations. These beginning balances are expected to be used to fund expenditures from July 1, 2017 to December 31, 2017, as the Operating Reserve is used to compensate for the approximate six-month delay between the start of the Transit Zone's fiscal year and the receipt of the collections from the County. All Capital Outlay / Contingency Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately.

Collect from FY 17/18 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the Transit Zone's receipt of charge collections, the Operating Reserve balance should be sufficiently funded to provide for expenditures from the period of July 1, 2017

(the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Expenses – The amount of the Operating Reserve to be used to fund FY 17/18 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected Transit Zone costs for the period of July 1, 2017 (the beginning of the Fiscal Year) through December 31, 2017. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Capital Outlay/Contingency Reserve – The amount of Operating Reserve monies to be transferred to or from the Capital Outlay/Contingency Reserve. Periodically, funds held in a Capital Outlay / Contingency Reserve may be needed to respond to changing operational needs of or conditions within the Transit Zone. If zero, this line item may not be shown in the budget.

Ending Operating Reserve Balance 6-30-2018 (est.) – This amount represents the anticipated Operating Reserve balance/(deficit) as of June 30, 2018. This balance should be sufficiently funded to provide for the first six-months of budgeted expenses in order to meet ongoing obligations until the first collections are received from the County. All Capital Outlay / Contingency Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

CAPITAL OUTLAY / CONTINGENCY RESERVE BALANCE

Beginning Capital Outlay / Contingency Reserve Balance 7-1-2017 (est.) – The projected balance of funds in the Capital Outlay / Contingency Reserve as of July 1, 2017. Community Service Area Law allows the levy and accumulation of funds in excess of the Transit Zone's operating reserve to fund capital outlays within the current year or to accumulate funds for these purposes. In addition, these funds may be used for any appropriation for contingencies to fund the services or other expenses of the Transit Zone. Further information regarding the use of Capital Outlay / Contingency Reserve is provided above under "Reserve Balance Information".

Collect from FY 17/18 Levy – This amount is added to the levy to accumulate funding for future year Capital Outlay / Contingency purposes. If zero, this line item may not be shown in the budget.

Use for FY 17/18 Capital Outlay / Contingency Purposes – The amount of Capital Outlay / Contingency Reserve monies expected to be transferred out of the Capital Outlay / Contingency Reserve to be used in the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve – The amount of Capital Outlay/Contingency Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Capital Outlay / Contingency Reserve

may be needed to respond to changing operational needs of or conditions within the Transit Zone. If zero, this line item may not be shown in the budget.

Ending Capital Outlay / Contingency Reserve Balance 6-30-2018 (est.) –

The projected balance of funds in the Capital Outlay / Contingency Reserve as of June 30, 2018. These funds shall be used for future year Capital Outlay/Contingency purposes.

Part IV: Diagrams

A depiction of the diagram showing the detached territory of the CSA 10 Benefit Zone No. 2 is provided on the following page.

The diagrams used to form the CSA 10 Benefit Zone No. 2 are shown thereafter; these diagrams serve as the exterior boundaries of Transit Zone No. 2.

For parcel identification, including the lines and dimensions of each lot, parcel and subdivision of land within Transit Zone No. 2, reference is hereby made to the Sacramento County Assessor's maps for a detailed description of each parcel within Transit Zone No. 2.

FIGURE 1

Part V: Charge Roll

Parcel identification for each lot or parcel within Transit Zone No. 2 shall be the parcel as shown on the Sacramento County secured property tax roll for the year in which this Report is prepared and reflective of the Assessor's parcel maps.

A listing of the proposed parcels to be included within Transit Zone No. 2 and the charge amount for each parcel is provided on the following pages. This listing is based on the then current property tax roll as of the date of this report.

At the conclusion of the public hearing for Transit Zone No. 2 and the proposed charges, approval of the Report (as submitted or as modified) confirms the method of apportionment and the charges to be levied against each eligible parcel and thereby constitutes the approved levy and collection of charges for FY 2017/18. The listing of parcels and the amount of charges to be levied shall be submitted to the County Auditor/Controller and included on the FY 2017/18 County tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the Auditor/Controller. The charge amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and charge rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the charge amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and charge rate rather than a proportionate share of the original charge.

MEMORANDUM

DATE: June 19, 2017

TO: Honorable Mayor and Council Members

FROM: Elizabeth Sparkman, Engineering Manager

SUBJECT: **RESOLUTION DECLARING A PROTEST HEARING AND AUTHORIZING THE MAILING OF PROPERTY OWNER BALLOT RELATING TO THE IMPOSITION OF AN ANNUAL STORMWATER UTILITY FEE FOR ANATOLIA IV SUBDIVISION PROJECT.**

RECOMMENDATION

Adopt Resolution No. 4-2017.

RESULT OF RECOMMENDED ACTION

Action on this item will declare the results of the property owner protest and, if there exists less than a majority protest, authorize the mailing of a ballot to property owner to approve the levy of the fee to pay for maintenance of storm drainage and flood protection systems for the Anatolia IV Subdivision Project. The action also sets 1:00 p.m. on August 3, 2017 in the office of the City Clerk, as the time and date for the ballot tabulation for the matter.

BACKGROUND

The Anatolia IV Subdivision Project has a condition of approval which requires that the property owner annex to a District formed by the City of Rancho Cordova to fund operation and maintenance of the storm drainage system. This condition will be satisfied by the participation in the new Stormwater Utility Fee for storm drainage and flood protection services which is the subject of tonight's action.

The property owner of the Anatolia IV Subdivision Project has requested the City annex the project to the City's Stormwater Utility Fee pursuant to the California Health and Safety Code Section 5471 et seq. to provide the method of financing for storm drainage and flood protection services required to meet the condition.

On June 5, 2017 Council adopted Resolution No. 65-2017 which established Procedures for the Conduct of a Protest Hearing and Balloting Relating to a Stormwater Utility Fee (the "Procedures") and designated June 19, 2017 at 5:30 p.m. as the time and place for hearing protests in connection with the annual Stormwater Utility Fee for the Anatolia IV Subdivision project.

DISCUSSION

The property owner has submitted a petition and waiver for the City to institute the proceedings to participate in the Stormwater Utility Fee. This annexation to the Stormwater Utility Fee will include the project generally known as the Anatolia IV Subdivision Project, see **ATTACHMENT 1**. The maintenance services to be funded include the furnishing of services and materials for the ordinary and usual operation, maintenance, and servicing of the storm drain and flood protection systems.

ATTACHMENT 2 is the Resolution declaring the results of the property owner protest and authorizing the mailing of the property owner ballot, as required by Article XIII D of the California Constitution (also known as Proposition 218). The resolution sets forth the tabulation of ballots on August 3, 2017 at 1:00 p.m. in the office of the City Clerk. The results of the mailed ballot election will be presented to City Council at their regularly scheduled meeting on August 7, 2017 and additional actions will be recommended based the ballot results.

A "Rate Analysis Report" was approved by City Council on September 4, 2014 by Resolution 103-2014 setting Fiscal Year 2014/2015 maximum annual Stormwater Utility Fee amount for each parcel proportionate to the estimated stormwater runoff for each parcel, see **ATTACHMENT 3**. The maximum annual fee will increase each subsequent Fiscal Year by the annual change in the Consumer Price Index (CPI), during the preceding year, for All Urban Consumers, for the San Francisco-Oakland-San Jose areas, published by the United States Department of Labor, Bureau of Labor Statistics.

A sample of the Stormwater Utility Fees for Fiscal Year 2016/2017 are summarized in the following table:

Rate Analysis Report

for the

Stormwater Utility Fee

For the

City of Rancho Cordova

August 7, 2014

Introduction

The City of Rancho Cordova (City) is detaching from the County of Sacramento fee and is creating their own Stormwater Utility Fee, which is being levied per the California Health and Safety Code Section 5471 et seq.

The purpose of this Rate Analysis Report is to:

- Review the Stormwater Utility Fee and improvements to be funded.
- Review the requirements of Article XIID of the State Constitution (Proposition 218) relating to requirements for apportioning the costs associated with the City's stormwater runoff system.
- Analyze and recommend an appropriate rate structure and provide estimated rates based on cost data information provided by the City.

Proposition 218 Requirements

This fee must comply with the provisions of Article XIID of the California Constitution (Proposition 218). Section 6 of Proposition 218 has the following requirements for all "new, extended, imposed or increased" fees and charges:

- 1) "Revenues derived from the fee or charge shall not exceed the funds required to provide the property-related service."
- 2) "Revenues derived from the fee or charge shall not be used for any purpose other than that for which the fee or charge was imposed."
- 3) "The amount of a fee or charge imposed upon any parcel or person as an incident of property ownership shall not exceed the proportional cost of the service attributable to the parcel."
- 4) "No fee or charge may be imposed for a service unless that service is actually used by, or immediately available to, the owner of the property in question. Fees or charges based on potential or future use of service are not permitted. Standby charges, whether characterized as charges or assessments, shall be classified as assessments and shall not be imposed without compliance with [the assessment section of this code]."
- 5) "No fee or charge may be imposed for general governmental services including, but not limited to, police, fire, ambulance or library services where the service is available to the public at large in substantially the same manner as it is to property owners."

Background Information

In accordance with the Federal Clean Water Act of 1972, the United States Environmental Protection Agency (EPA) is required to establish regulations setting forth National Pollution Discharge Elimination System (NPDES) permit standards. The enactment of 1987 amendments to the Federal Clean Water Act (Act) of 1972 imposes permit requirements for discharge of storm waters. The Act allows the EPA to delegate its NPDES permitting authority to states with an approved environmental regulatory program. The State of California is one of the delegated states.

The responsibility for implementing various NPDES permits in the State of California has been delegated to the State Water Resources Control Board (SWRCB). The SWRCB administers NPDES authority through its nine Regional Boards. As an NPDES permittee, the City is required to manage stormwater pollution within its jurisdiction.

In order to provide for the safety of the residents of the City and protect property in the City from the damage associated with flooding and to meet the requirements of the NPDES permit, it is necessary to design, construct, operate, maintain, improve and replace storm drainage facilities which collect storm and surface water runoff and convey and treat such runoff in a safe manner to an acceptable point of discharge. It is also necessary to inspect, monitor, and take enforcement action related to illegal dumping, and illicit discharges. In order to properly fund such facilities and activities, the City has determined that it is necessary to impose on all developing properties in Rancho Cordova a user charge for storm drainage service.

Based on the 2030 General Plan and current specific plan areas, Rancho Cordova is expected to develop as shown in Table 1 below. The proposed boundary for the stormwater utility is shown in Appendix A.

Services Funded

Expenditures from the revenue generated from the Stormwater Utility Fee are intended to comply with the requirements set forth in the NPDES permit. The activities and services funded by this fee include, but are not limited to:

1. Administration and oversight of the requirements set forth in the NPDES permit to City departments, developments, and local agencies.
2. Respond to and investigate incidents of illicit discharges and illegal connections to the storm drain system.
3. Periodically inspect facilities for proper handling of materials, chemicals, pollutants, garbage, waste, and debris and prevent any discharges to the storm drain system.
4. Regularly clean and maintain catch basins, the flowline, and storm drainage facilities.
5. Installation and maintenance of water quality devices required to keep pollutants out of the storm drain system.
6. Discourage illegal dumping or discharge of pollutants into the storm drain system by stenciling all City-owned catch basins with a "No Dumping" message.
7. Augment public education and outreach programs in regards to the proper use and function of the storm drainage system and the receiving waters.

8. Develop programs to promote, publicize, and facilitate public reporting of illicit discharges to the storm drain system.
9. Encourage the proper disposal of household hazardous waste (HHW) to prevent the improper disposal to the storm drain system or to the sewer system.
10. Discourage the improper disposal of litter, garden clippings, leaves, and pet waste into the street or the storm drain system.
11. Capital replacement of storm drainage and flood control improvements at the end of the expected useful life for such improvements.

Rate Structure Analysis

Section 6.b of Article XIID of the State Constitution (Proposition 218) states that:

“The amount of a fee or charge imposed upon any parcel or person as an incident of property ownership shall not exceed the proportional cost of the service attributable to the parcel.”

and

“No fee or charge may be imposed for a service unless that service is actually used by, or immediately available to, the owner of the property in question.”

By definition, all properties that shed stormwater into the City’s stormwater drainage system use, or are served by, the City’s stormwater drainage system. The amount of use attributed to each parcel is measurable by the amount of storm runoff contributed by the property, which is directly proportional to the amount of impervious area on a parcel (such as buildings and concrete). The more impervious area on a property, the more storm runoff the property generates, the more demand placed on the storm drain system.

The amount each parcel uses the stormwater drainage system is computed by the following formula:

$$(\text{Parcel Area}) \times (\text{Impervious Percentage}) = \text{Drainage Units}$$

The typical percent impervious (% Impervious) for land uses in the City, have been applied for the purposes of estimating the runoff generated by each property. These are shown in Appendix B.

The more Drainage Units a parcel has, the more storm run-off it generates, and the more it uses and impacts the stormwater drainage system.

It is standard practice to relate other land uses to a developed single family residential (SFR) parcel, instead of working exclusively with drainage units. The median size of a SFR parcel will be approximately 0.16 acre. Therefore, it makes sense to relate all parcels to this median residential property. The runoff from a 0.16-acre SFR parcel is set equal to one Drainage Measurement Unit (DMU) and this base DMU is calculated as follows:

$$(0.16 \text{ acres of area}) \times 50\% = 0.0800 \text{ Impervious Area} = 1 \text{ DMU}$$

Single Family Residential Parcels

As a SFR property increases in size over the median parcel size, the typical percentage of impervious area decreases, as shown in Appendix B. Conversely, as a SFR parcel decreases in size below the median parcel size, the typical percentage of impervious area increases, and such increase is typically proportional to the decrease in size. Therefore, SFR properties are separated into five (5) groups. The median parcel area for each group was used and their DMUs are calculated as follows:

<u>SFR Category</u>	<u>DMU/ Formula</u>
SFR1 – SFR parcels 0.16 acres or less	1.00 DMU
SFR2 – SFR parcels 0.17 - 0.25 acres	1.10 DMUs
SFR3 – SFR parcels 0.26 – 0.33 acres	1.175 DMUs
SFR4 – SFR parcels 0.34 – 0.50 acres	1.25 DMUs
SFR5 – SFR parcels greater than 0.50 acres	$1.25 + \frac{[(\text{acres} - 0.50) \times 5\%]}{0.0800} = \text{DMUs}$

Multi-Family Residential Parcels

Multi-Family Residential (MFR) units (including condominiums) are split into categories by the density, or number of dwelling units per acre (DU/Ac) as follows:

<u>MFR Category</u>	<u>Density</u>	<u>% Impervious</u>
MFR1 - High Density	Greater than 18 DU/Ac	75%
MFR 2 - Med Density	10 – 18 DU/Ac	70%

$$\frac{\text{Acreage} \times \% \text{Impervious}}{0.0800} = \text{DMUs}$$

Condominium unit parcel areas are calculated by dividing the total area of the condominium complex (which includes the common area) by the number of condominium units, and the total imperviousness of the entire complex is attributed to each individual condo parcel in the complex. (This divides the runoff of the entire complex to each of the individual units.) Because these condominium common areas are taken into consideration in this manner, they are exempt from the charge.

Non- Residential Parcels

All non-residential parcel DMUs will be based on the impervious area (runoff coefficient) table shown in Exhibit B, using the following formula:

$$\frac{\text{Acreage} \times \% \text{Impervious}}{0.0800} = \text{DMUs}$$

All parcels draining into Rancho Cordova Stormwater Utility Fee-maintained drainage infrastructure are proposed to be charged the same user fee rate per DMU for stormwater runoff treatment. The Rancho Cordova Stormwater Utility Fee is proposed in perpetuity.

For the purposes of this report, City-maintained drainage infrastructure includes streets, pipes, inlets, outlets, and natural drainage courses. Parcels related to these types of property uses are exempt from the runoff charge, as they are part of the infrastructure being funded. Also exempt from the runoff charge is Caltrans right-of-way, because Caltrans handles its own runoff under a separate NPDES permit.

Drainage units may be adjusted based on appeal from the property owner. See the Appeals Process below.

Table 3, below, provides a preliminary summary of DMUs for the various land uses in Rancho Cordova.

Fee Calculations

The estimated annual costs for the proposed storm drain improvements are \$5,401,709 as shown in Table 4 above. Dividing that by the total number of proposed DMU's in Rancho Cordova (47,124), the maximum estimated annual Stormwater Utility Fee rate is **\$114.63 per DMU**.

This would be the proposed maximum fee rate for fiscal year 2014-15. The maximum rate will be increased each subsequent Fiscal Year by the annual change in the Consumer Price Index (CPI), during the preceding year, for All Urban Consumers, for the San Francisco-Oakland-San Jose areas, published by the United States Department of Labor, Bureau of Labor Statistics (or a reasonably equivalent index should the stated index be discontinued, as determined by the Director of Public Works).

The actual rate to be levied each year will be as approved by the City at a public hearing, after they consider an Annual Fee Report outlining the estimated annual costs of the program for the ensuing fiscal year.

Table 5 provides sample fee calculations for various land uses and parcel sizes.

The Preliminary Charge Roll, which is a listing of each parcel to be charged a fee and its proposed maximum fee for FY 2014-15, is on file in the office of the City Clerk.

Appeals Process

If a property owner disagrees with the calculation of his or her fee, based on the parcel area and estimated impervious percentage assigned to the property, then the property owner may appeal the calculation as follows:

1. Property owner must provide written documentation explaining the reason why the charge should be changed. This documentation must include:
 - a. The name, phone number, mailing address, and email address, if available, of the property owner.
 - b. The Assessor's Parcel Number (APN) of the property in question.
2. If additional documentation is required or insufficient documentation was submitted, a representative of the Department of Public Works (Staff) will notify the property owner in writing.
3. Once Staff has determined that sufficient documentation has been submitted, Staff will perform the initial review. Staff will notify the property owner in writing within four (4) weeks from the time sufficient documentation was submitted as to whether or not the fee amount will be changed.
 - a. If the determination is to change the fee amount, then the new fee amount will be documented within the City's fee database.

- b. If the determination is that the fee should not be changed, the property owner can appeal Staff's decision to the Director of Public Works. The appeal must be made in writing and returned no later than four (4) weeks from the date of mailing of Staff's initial review decision. The Director of Public Works will notify the property owner in writing within four (4) weeks from the date of receipt of the appeal as to whether or not the fee amount will be changed.

If the owner of any parcel shall have reason to feel that the computation of the DMU for his/her parcel is not correct, that person may file an appeal with the Director of Public Works in the manner prescribed by the Director of Public Works. The Director of Public Works will consider all data provided by the appellant and shall render a decision in writing. The decision of the Director of Public Works will be final with respect to City action on the appeal.

Appeals will be accepted annually up until June 30 for inclusion on the following fiscal year's property tax roll submittal. However, if an appeal is granted by Staff or the Director of Public Works that does not permit inclusion for the following fiscal year's property tax roll submittal, a reimbursement will be provided to the property owner by the City.

MEMORANDUM

DATE: June 19, 2017

TO: Honorable Mayor and Council Members

FROM: Cyrus Abhar, City Manager
Curt Haven, Director of Economic Development & Neighborhood Services
Jessica Hayes, Housing Consultant

SUBJECT: **RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT WITH THE COUNTY OF SACRAMENTO AND CITY OF CITRUS HEIGHTS TO JOIN THE HOME INVESTMENT PARTNERSHIPS CONSORTIUM FOR THE CITY TO RECEIVE AND ADMINISTER FEDERAL HOME PROGRAM FUNDS**

RECOMMENDATION

Adopt Resolution No. 97-2017.

RESULT OF RECOMMENDED ACTION

An approving resolution will authorize the City Manager to execute an agreement with Sacramento Housing and Redevelopment Agency, Sacramento County, and the City of Citrus Heights that will include the City of Rancho Cordova in the Home Investment Partnership Consortium, and allow the City to receive HOME funds through the consortium.

BACKGROUND

When the City incorporated in 2003, it became a partner in the Urban County Consortium that managed U.S. Housing and Urban Development (HUD) funds, through administration with SHRA. In 2006 the City completed the actions necessary to become a Community Development Block Grant (CDBG) entitlement jurisdiction, and withdrew from the Consortium to administer its independent CDBG program. During this period, the City also declined to participate in the HOME Investment Partnership program, also administered by SHRA on behalf of Sacramento County and other participating jurisdictions. Participation in the HOME Investment Partnership Consortium precludes the opportunity to apply for large HOME grants from the State of California to help finance new affordable housing construction programs. The City had multiple new construction affordable housing projects under consideration, and planned to apply for large HOME grants to fund those projects.

In 2012 and 2014 the City applied for two separate HOME grants in partnership with non-profit developers to fund new construction of affordable housing in the City. HOME grant applications for new affordable housing construction require a significant investment of staff time, developer expenses, and consultant costs to complete in the relatively short application window. Neither of the City's applications was successful. Staff analyzed the applications that were awarded funding, and results indicated that the City's current projects did not have the characteristics

necessary to win funding in such a highly competitive grant. During other discussions with regional partners about opportunities to support affordable housing, City staff were reminded about the HOME Investment Partnership Consortium, and were invited to consider participation when the agreement re-opened for the 2018-2020 Consortium agreement period.

The City of Rancho Cordova does not currently meet HUD's criteria for a direct HOME allocation. However, the Consortium, currently consisting of Sacramento County and the City of Citrus Heights, does meet HUD's criteria for population size and housing need, and receives annual HOME funding. The Sacramento Housing and Redevelopment Agency (SHRA) manages the HOME funds for the consortium, including preparing the five year Consolidated Plans, the annual Action Plans, and the Consolidated Annual Performance Evaluation Reports. SHRA partners with the Consortium members to administer the individual HOME funded housing programs. HOME funds must be used for housing specific activities to benefit low- and moderate-income households, and are eligible for housing acquisition (including home-buyer support programs), rehabilitation (including both rental and owner occupied rehabilitation programs), new construction (requiring rent restriction agreements), and tenant-based rental assistance.

On May 30, 2017 the City Manager received a letter from SHRA inviting the City to join the HOME Consortium. The letter included the necessary actions and deadlines for the City to join the Consortium and included an estimated annual funding amount that the City could expect to receive as part of the Consortium. The first deadline included in the letter was for the City to submit a letter of intent to join the Consortium, due June 15th, 2017. The City submitted the letter of intent prior to the deadline. The complete agreement was circulated for City staff review the week of June 5th, and is included as an attachment to this report. The executed agreement must be returned to SHRA prior to the June 30th deadline set by HUD. The HOME agreement includes a three year term, after which the City may renew partnership or withdraw from the Consortium to pursue other HOME funding opportunities.

The City has not yet identified a program or project for the proposed HOME funding. There has been an identified community need for funding for low-income owner-occupied rehabilitation loan program to complement the current CalHOME program, which is restricted to specific neighborhoods in the City. The City currently has owner occupied housing rehabilitation guidelines, policies, and procedures in place that fit the HOME program requirements. The City has not made any obligation to a specific program or project at this time, however, the City will be required to either prepare an independently administered program, or elect to participate in one of the County programs once the Consortium agreement is in place.

FISCAL IMPACT

The estimated annual allocation to the City is about \$122,000 per year based on the HOME funding formula, and SHRA's calculations. HOME funds include a 10% planning and administration allowance. SHRA will split the administration funds with the City based on the program that the City decides to implement, the administrative burden of that program, and the City's capacity to administer the program directly. Additionally, CDBG funds may be used to support the administration of HOME funded programs and projects, which will reduce the administrative burden of the selected HOME program. HOME funds will require fiscal accounting and tracking similar to CDBG funds, however, SHRA will take the lead in fund reporting and administration. Staff costs in administering the HOME program are not expected to impact the City's General Fund.

HOME funds do require a 25% match for all funds spent on eligible projects. The match requirement for the City of Rancho Cordova's estimated allocation is about \$30,500. Matching requirements can be met in a variety of ways including cash match, value of waived taxes or fees, value of donated land or property, and value of donated goods, services, materials or equipment. Matching funds do not need to be included as part of the same project funded through HOME funds, and there is a flexibility about how and when match must be provided. For example Community Enhancement funds used to support affordable housing (such as housing rehabilitation) can be identified as HOME match, even if those funds are not associated with the HOME funded program or project. CDBG may also be used for match depending on the HOME funded program. The net impact of the match requirement on the City's General Fund is expected to be minimal.

RE: Letter of Intent for Sacramento County HOME Consortium Agreement for
Years 2018, 2019, and 2020

Dear Mr. Ross,

This letter of intent evidences the City's respective intent to enter into an agreement with the County of Sacramento and the City of Citrus Heights to participate in the HOME Investment Partnerships Consortium. The consortium receives HOME Investment Partnership funding from the U.S. Department of Housing and Urban Development, and provides a vehicle to invest these funds in the participating jurisdictions. The program's purpose is to provide state and local governments with funds to acquire, rehabilitate, and/or construct affordable housing, and to provide tenant-based rental assistance. The Sacramento Housing and Redevelopment Agency (SHRA) is the County of Sacramento's representative and the agency responsible for administering this Consortium program.

It is the intent of the City to execute the Sacramento County HOME Consortium Agreement after public hearing on Monday, June 19th before which time the City Council is anticipated to review and approve the terms of the agreement and adopt an approving resolution,

Sincerely,

Cyrus Abhar, City Manager

 - b) Each jurisdiction's allocation will be determined by using the "Consortia Builder" tool

Using the Consortia Builder, AGENCY will determine each jurisdiction's annual allocation of HOME funds by estimating the value of the jurisdiction's contribution as a fraction of the sum of the estimated values of the jurisdictions within the CONSORTIUM, as determined by HUD.

- c) The amount of HOME funding available annually for each jurisdiction's projects or programs will be the amount of allocation determined using the process described in the preceding paragraph, less the fifteen percent (15%) "CHDO Set-aside", and less the ten percent (10%) HOME administration allowance.

Nothing in this paragraph shall be construed to prevent the expenditure of CHDO Set-aside funds within a CONSORTIUM MEMBER'S jurisdiction if a CHDO proposes, and AGENCY and the respective CONSORTIUM MEMBER approve.
 - e) AGENCY will utilize the allowable ten percent (10%) HOME administration allowance to defray the costs of management and delivery of Programs AGENCY agrees to provide. However, a portion of this administration allowance may be shared with any CONSORTIUM MEMBER jurisdiction that chooses to manage its own HOME-funded program, pursuant to a subrecipient agreement between the jurisdiction and AGENCY.
10. Program Income: CONSORTIUM MEMBERS will receive all revenue that may result from activities within its jurisdiction that receive commitments of HOME Program funds during the term of the Consortium Agreement. This includes all program income, recaptured funds, and repayments as defined in 24 CFR 92.  - b) AGENCY shall defend, indemnify, and hold harmless CONSORTIUM MEMBERS, its officers, employees, and agents from all claims, suits, actions or losses of any type, and from liability for any fines, penalties or damages of any type, resulting from AGENCY's performance of this Agreement and caused by any act or omission of AGENCY, including failure to comply with any requirement of the Act of the Program described herein, except to the extent that any such claims, suits, actions, losses, or liability arise from any act or omission of CONSORTIUM MEMBERS.
12. Agreement during that three-year period.

- b) At the end of the initial three-year term of this agreement, and at the end of each subsequent three-year period, this consortium agreement shall be automatically renewed.
 - c) At the end of each three-year period of this agreement, by the date specified in HUD's consortia designation notices or listed on HOME's Consortia web page, AGENCY will notify CONSORTIUM MEMBERS in writing of its right to not participate in the CONSORTIUM for the successive three-year qualification period. Notwithstanding Subsection b) above, CONSORTIUM MEMBERS may opt out of membership in the CONSORTIUM by responding in writing to AGENCY's notification by the deadline prescribed by HUD. AGENCY will send a copy of the notifications and member response letters to the HUD Field Office.
 - d) The automatic renewal provision as described in this Section is void if AGENCY fails to notify a CONSORTIUM MEMBER of its right not to participate for the next qualification period or fails to submit a copy of each amendment, as required.
 - e) If HUD should change the requirements for the content of consortium agreements for subsequent qualification periods, this agreement shall be amended to conform to the new requirements. AGENCY's notification required pursuant to Subsection c) above shall provide notice of any new HUD requirements..
 - f) The program year for AGENCY AND CONSORTIUM MEMBERS begins on January 1st.
13. Authority to Amend Agreement: Should it become necessary to change the language of the Agreement to meet HUD requirements, without making changes that alter the intent of the Agreement, such changes may be made administratively with the written consent of the Executive Director, or designee, of the AGENCY and the Chief Executive Official, or designee, of the CONSORTIUM MEMBERS. All parties must consent to the change in order for the change to be effective.

RE: HOME Consortium Agreement for Years 2018, 2019, and 2020

Dear Mr. Abhar,

The City of Rancho Cordova has expressed interest in participating in the HOME Consortium with the County of Sacramento and the City of Citrus Heights. By joining the HOME consortium, the City of Rancho Cordova would be able to undertake essential housing assistance activities by combining HOME funds with private and other public funds. The city would also benefit from their participation in the consortium because SHRA would be delegated the responsibility for the preparation and filing of the One-Year Action Plan and the Consolidated Annual Performance and Evaluation Reporting (CAPER) with HUD. Based on the HOME funding formula, Rancho Cordova will be eligible for an allocation of approximately \$122,000 annually. Assuming 2016 funding levels, this accounts for the required fifteen percent set aside for projects developed by Community Housing Development Organizations (CHDOs) and splitting of the ten percent administration set-aside between SHRA and the City being taken out. The upcoming qualification period runs from 2018-2020. Please notify SHRA in writing by June 15, 2017 if you choose to become a member of the consortium.

By joining the consortium, a new HOME consortium agreement will be required. A consortium agreement will be mailed to you for execution. The agreement must be signed by Rancho Cordova's chief executive officer or authorized official by June 20, 2017 in order for SHRA to execute the agreement and submit it to HUD by June 30, 2017. Additionally, an authorizing resolution of each member unit of general local government is required. Please provide a new resolution to SHRA by June 20, 2017.

We look forward to continuing our relationship. If you have any questions, please feel free to contact Jacqueline Martinez-Jaurez at (916) 449-6220 or Brad Satterwhite at (916) 449-6242.

Sincerely,

Geoffrey Ross
Assistant Director, Development

RECOMMENDATION

Adopt Resolution 90-2017.

RESULT OF RECOMMENDED ACTION

Approval of Resolution 90-2017 would allow the subdivision of 444 single family lots, one neighborhood park, four greenbelt lots, seven landscape corridor lots, three paseo lots and construction of the proposed residential project and associated infrastructure.

BACKGROUND/PROJECT HISTORY

The Rio Del Oro Specific Plan (RDOSP) is a 12,189 residential unit mixed use development on a 3,828-acre site located south of White Rock Road, north of Douglas Road and between Sunrise Road and North Douglas subdivision (**Figure 1; Rio Del Oro Specific Plan Location**). The original Rio Del Oro project was submitted to Sacramento County for processing in 2003 prior to the City's incorporation. Upon incorporation, the City took responsibility for the

proposed development project. The RDOSP project was approved in two separate phases or "tiers" of development approvals. The goal was to limit the initial, "Tier One Entitlements," to the adoption of the Rio del Oro Specific Plan (with corresponding environmental analysis and development agreements) without allowing actual construction, and to defer subdivision maps, overall map conditions, and detailed plans for financing, phasing, and affordable housing, to a subsequent, "Tier Two," entitlement process.

Figure 1: Rio Del Oro Specific Plan Location

Tier One Entitlements, the EIR and EIS, were approved by the City Council on September 20, 2010 and included the following;

- Adoption of the RDO Specific Plan that established zoning and a land use plan that reflects/implements the General Plan vision for the project area and advanced the City's circulation system
- Created a framework for future planning and construction of several important improvements (e.g., high school, regional park, transportation improvements, library)
- Facilitated the federal 404 permit process for wetlands by establishing certainty about the land use plan and infrastructure
- Protected the integrity and significant investment in the technical studies and project analysis associated with the project EIR
- Certified an EIR that provides the foundation to expedite all future environmental review

Tier Two Entitlements were approved on August 29, 2016 and included the Financing Plan, the Affordable Housing Plan, Development Agreements, Infrastructure Finance and Phasing Plans,

and the Master Conditions of Approval. Specific actions for the Rio Del Oro Specific Plan Tier Two Entitlements (and the regulatory basis for these actions) were as follows:

1. Rio del Oro Specific Plan Amendment - Rancho Cordova Municipal Code Section 23.152.010
2. Amended and Restated Development Agreements for the Rio del Oro Specific Plan - Rancho Cordova Municipal Code Section 23.158.010 and Tier One Development Agreements
3. Affordable Housing Plans – Rancho Cordova General Plan Housing Element, Policy H.1.5 and Action H.1.2.1 and Tier One approval requirements
4. Large Lot Tentative Subdivision Map – Subdivision Map Act; Rancho Cordova Municipal Code Section 22.20 and Tier One approval requirements
5. Infrastructure Phasing Master Plan – RDO Specific Plan requirement
6. Public Facilities Finance Plan – Rancho Cordova General Plan Infrastructure, Services and Finance Element, Policy ISF 2.1; and RDO Specific Plan requirement
7. Environmental Impact Report/Statement (EIR/EIS) Addendum - California Environmental Quality Act – Cal. CEQA Guidelines, Section 15063 et al.

Provided below is a summary of the levels of approval and the entitlements associated with both Tier One and Tier Two. A third category entitled “Development” represents the tentative subdivision map and future permits that will be required for the actual development and construction of the RDO Parcel 67 project.

ANALYSIS TENTATIVE SUBDIVISION MAP

Tentative Subdivision Map Layout

The approved Rio Del Oro Specific Plan and Design Guidelines function is to establish a framework for the Rio Del Oro area. Consecutively, the tentative subdivision map establishes the form or configuration for the proposed subdivision. The tentative subdivision map includes 444 single-family homes, a neighborhood park, greenbelt lots, landscape corridor lots, and paseo lots (**Figure 5: Proposed Tentative Subdivision Map**). The subdivision map layout includes the following:

- The subdivision layout is similar to a grid system with minimal cul-de-sacs which provides a high level of connectivity within the subdivision. Two of the four cul-de-sacs include paseos/connections to greenbelts.
- The neighborhood park is located centrally within the subdivision which allows a walkable destination for the entire subdivision. Traffic calming and enhanced pedestrian crossings are located around the neighborhood park and at the future connections to International Drive.
- Several paseo connections are provided to the greenbelts and one paseo to Rancho Cordova Parkway.
- A 200-foot wide greenbelt is located along the western property line between the future homes and existing industrial uses.
- A 100-foot wide greenbelt is located along the southern property line between the future homes and Rio Del Oro Business Park zoning district.
- Section of the western and southern greenbelts includes single loaded streets that provides an opening view from the subdivision to the greenbelt. The sections at either end of the greenbelts include single-family lot rear yards facing the greenbelt. Homes with rear yards facing the greenbelt will have open view type fencing except for lots along the southeast and southwest corners that are adjacent to major roads.
- Several paseos are located between single-family lot rear yards face the greenbelt.

The applicant has provided an arborist report, **Attachment 3**. The City Arborist reviewed the arborist report and completed a site visit and concurs with the submitted arborist report. Due to the locations of the existing trees, within roads and single-family lots and condition, the trees are proposed to be removed. In compliance with the approved MMRP, the applicant will provide oak tree mitigation.

Access and Infrastructure Improvements:

The proposed subdivision includes two access locations; one from White Rock Road and one from Rancho Cordova Parkway. Onsite and offsite infrastructure improvements will be constructed to serve the first phase of development in Rio Del Oro. Two future access connections will be made to International Drive. The construction of the future International Drive is not included with the Parcel 67 subdivision Consistent with the Rio Del Oro Specific Circulation Plan and Phasing Plan the proposed subdivision includes as follows:

- White Rock Road will be widened from the western property boundary to Rancho Cordova Parkway from two to four lanes including frontage improvements, median and landscaping amenities as depicted on the Tentative Subdivision Map **Exhibit A**.
- Rancho Cordova Parkway will be constructed from White Rock Road to the southern Parcel 67 boundary as a two lane roadway with frontage improvements and median as depicted on the Tentative Subdivision Map **Exhibit A**.

- The onsite improvements including traffic signals on White Rock Road and Rancho Cordova Parkway and the internal roadway system will be constructed in phases per the Rio Del Oro Parcel 67 Phasing Plan **Exhibit A**.
- The improvement phasing includes the drainage parkway and trail system on the western and southern project boundaries as well as the detention basin located south of the project.

Figure 5: Proposed Tentative Subdivision Map

Phasing

The applicant is proposing a phased subdivision split into five phases: Phase A, B, C, D, and E, **Exhibit A**. The phasing area does not coordinate with the unit boundary lines but follows the street infrastructure connections. Phase A will be constructed first and Phase B will be constructed second. Phase C, D, and E may be constructed in any sequence as dictated by market trends. Each Phasing Exhibit illustrates the area and infrastructure that will be constructed.

Greenbelt; Bike and Pedestrian

The proposed project includes three Class 1 bike/pedestrian trails that are located along the western, northern, and southern boundaries of the subdivision (**Figure 6: Bikeway System**). Consistent with the Rio Del Oro Specific Plan: a Class 3 bike route is provided within the subdivision surrounding the neighborhood park with connections to the Class 1 bike/pedestrian trails. Detached sidewalks are proposed along the Class 3 bike route within the subdivision. Paseo connections are located along the Class 1, west trail, the Class 1, north trail (the “north trail” is the trail along the southern property line), and to Rancho Cordova Parkway. Conceptual greenbelt cross-sections are provided on the **Exhibit A, Tentative Subdivision Map** and include the following infrastructure:

Western Greenbelt 200-foot wide (“West Trail”)

- Class 1 bike/pedestrian trail includes 12-foot wide paved trail with 2-foot wide shoulder on each side
- Sound wall along the western property line, along the Industrial properties
- 60-foot wide existing water and pipeline easement
- Drainage channel
- The greenbelt southern portion includes a 20-foot wide SMUD easement for 69 KV lines.
- Landscaping

Southern Greenbelt 100-foot wide (“North Trail”)

- Class 1 bike/pedestrian trail includes 10-foot wide paved trail with 2-foot wide shoulder on each side.
- Drainage channel
- Landscaping

Figure 6: Bikeway System Exhibit**Utilities:**

The area will be served by Sacramento County Water Agency, Sacramento Area Sewer District, and Sacramento Metro Utility District (SMUD). All public utility agencies have reviewed and provided conditions to the project. Utility easements are located on the tentative subdivision map as appropriately located. Consistent with the Rio Del Oro Specific Plan a 20-foot wide SMUD utility easement is located at the southwest area of the subdivision plan for 69 kV transmission line.

RIO DEL ORO SPECIFIC PLAN DEVELOPMENT STANDARDS AND DESIGN GUIDELINES CONSISTENCY

The proposed Rio Del Oro Parcel 67 Tentative Subdivision Map is consistent with the Rio Del Oro Specific Plan Development Standards Design Guidelines based on the criteria as follows;

Development Standards:

- The proposed subdivision is consistent with the Rio Del Oro Land Use Plan.
- The overall proposed subdivision density of 4.66 is consistent with Development Standards Low-Density Residential (2.0-6.0 du/ac).

- The Low-Density Residential includes Single Family (SF) Residential (minimum lot size 5,000 square-feet, 45-foot wide lot minimum, and 90-foot lot depth). The proposed subdivision lots are consistent with the SF development standards.

Design Guidelines:

- The proposed subdivision layout is similar to a grid system that provides a short block layout. Traffic calming devices, in the form of bulb-outs, are provided around the neighborhood park and will be developed with the future connection with International Drive.
- The proposed neighborhood park is consistent with the Rio Del Oro Land Use Plan and is centered within the subdivision which provides a walkable destination.
- The proposed subdivision includes three types of lot sizes that promote a diversity of housing products.
- Consistent with the Design Guidelines, both proposed greenbelts provide a section of single-loaded neighborhood streets perpendicular to open space to provide view corridors from the neighborhood.
- The proposed subdivision includes bicycle and pedestrian connections between neighborhoods and open space trail systems.
- The proposed subdivision map is consistent with the Design Guidelines Parks and Open Space Plan. The subdivision includes a 5.1 acre neighborhood park and 17.6 acres of Greenbelt.
- The proposed subdivision includes access for bicycle and pedestrian traffic via trails and paseos.
- The proposed greenbelts are part of the green infrastructure that include trails, open space, and drainage parkways.
- The proposed Rancho Cordova Parkway is prepared as a Green Street that includes landscape setbacks from single-family lots, consistent with the Design Guidelines.
- The proposed "West Trail" greenbelt cross-section is consistent with the Design Guidelines that show a Class I trail, area of landscaping, a six-foot high sound wall adjacent to the existing industrial uses.
- The class 1 trail width is consistent with the Design Guidelines.
- Consistent with the Design Guidelines, single family lot fencing adjacent to the open space is open view fencing that allow observation of public areas to aid security.

The Tentative Subdivision Map Review as conditioned, adheres to Section 66474 of the California Subdivision Map Act requires a City to the deny approval of a tentative map, if any of the findings are found to be true. In the case of the proposed map, none of the required findings were found to be true. The following evidence supports the map request:

1. *Finding: That the proposed map is not consistent with applicable general and specific plans as specified in Section 65451.*

Evidence: The proposed project is consistent with the General Plan/Rio Del Oro Specific Plan land use designation. All lots are consistent with the existing development standards of the Rio Del Oro Specific Plan designation of Single Family (SF RDOSP), Neighborhood Park (NP RDOSP), and Green Belt (GB RDOSP).

2. *Finding: That the design or improvement of the proposed subdivision is not consistent with applicable general and specific plans.*

Evidence: The proposed Tentative Subdivision Map is consistent with the existing development standards of the Rio Del Oro designation as follows:

- § The proposed subdivision is consistent with the Rio Del Oro Land Use Plan.
- § The overall proposed subdivision density of 4.66 is consistent with Development Standards Low-Density Residential (2.0-6.0 du/ac).
- § The Low-Density Residential includes Single Family (SF) Residential (minimum lot size 5,000 square-feet, 45-foot wide lot minimum, and 90-foot lot depth). The proposed subdivision lots are consistent with the SF development standards.

3. Finding: *That the site is not physically suitable for the type of development.*

Evidence: The site is physically suitable to subdivide. The existing parcel will be split into 444 single-family homes, a neighborhood park, four greenbelt lots, seven landscape corridor lots, and three paseo lots. There are no buildings currently onsite.

4. Finding: *That the site is not physically suitable for the proposed density of development.*

Evidence: The site is physically suitable for the proposed density of development. The proposed Tentative Subdivision Map will divide the existing parcel into 444 single-family homes, a neighborhood park, greenbelt lots, landscape corridor lots, and paseo lots. The overall residential density is 4.66 which is consistent with the SF density of 2.1 to 6.0 units per acre. Improvements are provided as shown on the Tentative Subdivision Map (**Exhibit A**), and subject to the attached Conditions of Approval (**Exhibit B**).

5. Finding: *That the design of the subdivision or the proposed improvements are likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat.*

Evidence: The proposed project was adequately analyzed pursuant to the California Environmental Quality Act (CEQA), the proposed subdivision is consistent with the approved Rio Del Oro Environmental Impact Report and will adhere to the approved Rio Del Oro Mitigation Monitoring Report Plan.

6. Finding: *That the design of the subdivision or the type of improvements is not likely to cause serious public health problems.*

Evidence: The subdivision of a portion of one parcel into 460 new parcels would allow the future 444 single family homes to be placed on individual lots to allow for the sale. The proposed Tentative Subdivision Map includes necessary improvements to serve the residential subdivision. The proposed improvements are consistent with the Rio Del Oro Specific Plan. No public health problems will result from approval of the subdivision map.

7. Finding: *That the design of the subdivision or the type of improvements will conflict with easements, acquired by the public at large, for access through or use of property within the proposed subdivision. In this connection, the legislative body may approve a map if it finds that alternate easements, for access or for*

use, will be provided, and that these will be substantially equivalent to ones previously acquired by the public.

Evidence: The proposed improvements included with the subdivision are consistent and meet the Rio Del Oro Specific Plan and City of Rancho Cordova Ordinances and Standards and do not conflict with public easements and related necessary access through the subdivision.

GENERAL PLAN/SPECIFIC PLAN CONSISTENCY

General Plan/Rio Del Oro Specific Plan:

The project site is located within the Rio Del Oro Specific Plan Area. The Rio Del Oro Planning Area contains a mix of low, medium, and high-density residential units in a series of eight or ten neighborhoods with an average density of approximately six to eight units per acre. Residential areas will be developed as an interconnected series of walkable neighborhoods served by neighborhood centers and village centers, as well as neighborhood and community parks. The conceptual land use plan reflects the City's building blocks concept. The proposed subdivision includes single-family lots, a neighborhood park, and greenbelts and is consistent with the General Plan and Rio Del Oro Specific Plan Land Use Plan. The proposed project is the first phase of the Specific Plan and includes expansion of existing infrastructure as well as constructing new infrastructure to serve the area.

Refer to Rio Del Oro Large Lot COA #53. (Public Works).

3. A level of service widening criteria will be required for all roads that are planned for four of six lanes on internal and perimeter roadways. Four and six lane roadways that are initially built with 2 lanes will be annually monitored by the City for traffic volume. Once the subject roadway exceeds 15,300 vehicles per day, Developer will be required to widen from two to four lanes. If a traffic study is provided to the satisfaction of City that supports that the demand is from outside the specific plan area, the City will take responsibility for the widening if the existing two (2) lanes are developer frontage and the widening occurs within the CIP lanes. If frontage lanes are required as part of the widening, Developer will be required to build those lanes regardless of the source of the travel demand. The level of service widening criteria condition shall be required at the direction of the city engineer. Refer to Rio Del Oro Large Lot COA #59. (Public Works).

PROJECT: FILE: LOCATION: ZONING: APN: PLANNER:	The applicant is requesting a Major Design Review for an existing 5 story 64,173 square foot La Quinta Inn and Suites. The proposed renovation includes new paint, new metal panel cladding on existing columns of porte-cochere, new butterfly roof for porte-cochere, demolition and replacement of the breakfast area addition on same footprint, and new neolith cladding on main entrance façade. No additional square footage will be added and no interior work is proposed with this request. ---	--

RECOMMENDATION

Adopt Resolution 94-2017.

RESULT OF RECOMMENDED ACTION

Approval of Resolution 94-2017 would allow the applicant to obtain the necessary construction permits to begin renovations on the exterior façade of the existing La Quinta Inn and Suites.

BACKGROUND

The project site is within a developed commercial center that includes retail and restaurant uses, paved parking, and existing landscaping located on the corner of Sunrise Boulevard and Folsom Boulevard (**Figure 1**). The project site is zoned Commercial Mixed Use (CMU) within the Folsom Boulevard Specific Plan (FBSP) and consists of an existing 5-story, 120-unit building with a pool originally built in 1985 (**Figures 2, 3, 4: Existing Elevations**). The City of Rancho Cordova received an application on March 27, 2017 requesting a Major Design Review Permit to renovate the existing hotel by demolishing and rebuilding the existing breakfast area, replacing the porte-cochere canopy, adding new paint, adding new neolith cladding to the main

entrance, and adding new metal panels to the existing porte-cochere columns. No additional square footage is proposed and no interior improvements are requested with this permit.

The application was routed to the City's commenting agencies and reviewed for environmental concerns. As a result of that review, the improvements have been found to be in compliance with all applicable City standards.

Figure 1: Subject Property

Figure 2: Main Entrance (South Elevation)

Figure 3: Rear Entrance (North Elevation)

Figure 4: Side Elevations (East and West Respectively)

REQUIRED PERMITS AND REGULATORY BASIS

Zoning Code Chapter 23.141 “Major Design Reviews” states that any façade renovations exceeding 200 linear feet of frontage of an existing building requires a Major Design Review. As part of the Design Review process, the site design was reviewed for consistency with all development standards while the proposed architecture was reviewed for quality of design, use of variety of materials and colors, and for compatibility with the existing buildings on the project site.

Approvals Required for Construction: The following permit will be required for this project:

- A building permit for the demolition of the existing breakfast area and construction of the new breakfast area as well as installation of new metal cladding and canopy for the Porte-Cochere.
- The project will also be subject to any other building permits as required by the Building and Safety Department.

ANALYSIS

Architecture

The proposed revitalization of the 5-story hotel includes the removal and replacement of the breakfast dining area and a replacement of the existing port-cochere on site. A new gray color scheme with several new materials is proposed. The project proposes a new entrance defined by the use of dark rust color “iron corten” tiles on the south elevation as well as a new canopy on the existing porte-cochere structure with white metal panel cladding on the existing concrete columns. Variations of grays will be used for the new color scheme to break up the monotony of the “box” building look of the 1980’s when the building was originally built. Additional trees will also be added to the rear of the building to help soften the rear façade. The white porte-cochere will stand out against the modern gray color scheme creating a more visually appealing and defined main entrance for guests of the La Quinta Inn and Suites (**Figure 5, 6, 7, 8: Proposed Elevations**).

City Design Guidelines

The proposed plans were reviewed in accordance with Zoning Code Section 23.141 and the design guidelines for Commercial buildings. Design review approval should be granted when all of the findings defined in Zoning Code Section 23.141.050 can be made. The required findings and evidence to support them are contained within this staff report as well as in Resolution No. 94-2017 (**Attachment 1**)

Figure 8: 3D Renderings of proposed renovations

Figure 5: Proposed Southwest Elevation (Front)

Figure 6: Proposed Northeast Elevation (Rear)

Figure 7: Proposed Southeast/Northwest Elevations (Sides)

Zoning Code:

The project site is zoned Commercial Mixed Use (CMU) within the Folsom Boulevard Specific Plan (FBSP) which allows for a Hotel/Motel use as permitted by right. No additional permits are required. The site provides approximately 180 on-site parking spaces for the 120 unit hotel which is more than adequate parking for a requirement of 1 parking space/room.

The Major Design Review Permit as conditioned adheres to the approval findings as defined by Zoning Code Section 23.141.050 as follows:

- A. **Finding:** *The proposed project is consistent with the objectives of the General Plan, complies with applicable zoning regulations, Specific Plan provisions, and special planning area provisions, and is consistent with the applicable Rancho Cordova design guidelines.*

Evidence:

The General Plan Designation for the subject property is Folsom Boulevard Planning Area. The intentions of the planning area are to take advantage of the areas proximity and availability of light rail and Highway 50 and to revitalize these

areas to enhance the character of the City. The proposed improvements are consistent with City standards and will refresh an outdated design. The proposed project has been designed to meet all applicable Zoning regulations and adequately meets the objectives of the City Design Guidelines.

- B. Finding: The proposed architecture, site design, and landscape are suitable for the purposes of the building and the site and will enhance the character of the neighborhood and community.*

Evidence: The site has been analyzed to confirm there is adequate parking per the zoning code requirements of 1 parking space per room. The updated architecture and revised color scheme of the buildings will better integrate the building into the commercial area and will enhance the character of a pivotal location visible from Highway 50. The applicant has agreed to add additional trees to ensure that parking lot shading requirements are met.

- C. Finding: The architecture, including the character, scale, and quality of the design, relationship with the site and other buildings, building materials, screening of exterior appurtenances, exterior lighting and signing, and similar elements, establishes a clear design concept and is compatible with the character of existing or anticipated buildings on adjoining and nearby properties.*

Evidence: The proposed building is architecturally consistent with the existing commercial buildings in the surrounding commercial areas. The improvements and variations of gray in the color scheme will reduce the overall massing by breaking up the building façade with multiple defined edges emphasizing main entrances for the building. No signage was included with this application.

- D. Finding: The proposed project will not create conflicts with vehicular, bicycle, or pedestrian transportation modes of circulation.*

Evidence: The proposed project is primarily for façade improvements to an outdated design and will not create conflicts among various transportation modes. The project does not propose to alter the existing layout or add square footage as the site has adequate vehicular circulation and parking facilities.

General Plan:

The project site is located within the Folsom Boulevard Planning Area (FBPA) of the City's General Plan. This Planning Area consists of mostly commercial and office uses, with the area surrounding the project site containing mostly retail, restaurants and hotel services. The FBPA is intended to serve as the high-intensity development center of the City Target land uses for this area included Transit-Oriented and Regional Town Centers located along light rail stations and freeway interchanges. The project site is located in a prime location near both a light rail station and an interchange. Renovation of the building would support the intentions of the Folsom Boulevard Planning area which is to revitalize existing commercial centers within the area.

FISCAL IMPACTS

Staff estimates the project's fiscal impacts to the City to be positive due to the project's proposed revitalization of the existing commercial building. The project has received a response from our Economic Development team which states,

La Quinta Façade Renovations
Major Design Review

“The hospitality industry is an important segment of the Rancho Cordova business community and efforts to reinvest through capital improvement projects indicate a healthy market. The exterior refresh will help the hotel foster positive reception thereby increasing demand and occupancy and creating additional Transient Occupancy Tax revenue. The refresh will also positively impact the overall impression of its retail center on Sunrise Blvd and Folsom Blvd, one of the city’s busiest intersections”

ENVIRONMENTAL

The project is exempt from the California Environmental Quality Act (CEQA) pursuant to Title 14 of the California Code of Regulations, Chapter 3, Division 6 (State CEQA Guidelines) Sections 15301 (Existing Facilities), the project site is fully developed and the proposed improvements to the building facades will not have the potential for causing a significant effect on the environment.

RECOMMENDED MOTIONS

Staff recommends that the City Council find the project to be in compliance with the California Environmental Quality Act (CEQA) as exempt pursuant to CEQA Guidelines Section 15301 and adopt Resolution Number 94-2017 the Major Design Review for La Quinta Façade Renovations – Project No. DD9695, subject to the findings, Project Plans (**Exhibit A**) and Conditions of Approval (**Exhibit B**).”

WHEREAS, the City Council is the appropriate authority to hear and take action on this project; and

WHEREAS, the City Council of the City of Rancho Cordova has conducted a properly noticed public hearing pursuant to Government Code Section 65090 and has duly considered all written and verbal testimony presented during the hearing.

- B. Approve the Major Design Review subject to the Conditions of Approval herein, and subject to the findings as defined by Zoning Code Section 23.141.050 and evidence as follows:

1. *Finding: The proposed project is consistent with the objectives of the General Plan, complies with applicable zoning regulations, Specific Plan provisions, and special planning area provisions, and is consistent with the applicable Rancho Cordova design guidelines.*

Evidence:

The General Plan Designation for the subject property is Folsom Boulevard Planning Area. The intentions of the planning area are to take advantage of the areas proximity and availability of light rail and Highway 50 and to revitalize these areas to enhance the character of the City. The proposed improvements are consistent with City standards and will refresh an outdated design. The proposed project has been designed to meet all applicable Zoning regulations and adequately meets the objectives of the City Design Guidelines.

ATTACHMENT 1

2. *Finding: The proposed architecture, site design, and landscape are suitable for the purposes of the building and the site and will enhance the character of the neighborhood and community.*

Evidence: The site has been analyzed to confirm there is adequate parking per the zoning code requirements of 1 parking space per room. The updated architecture and revised color scheme of the buildings will better integrate the building into the commercial area and will enhance the character of a pivotal location visible from Highway 50. The applicant has agreed to add additional trees to ensure that parking lot shading requirements are met.

3. *Finding: The architecture, including the character, scale, and quality of the design, relationship with the site and other buildings, building materials, screening of exterior appurtenances, exterior lighting and signing, and similar elements, establishes a clear design concept and is compatible with the character of existing or anticipated buildings on adjoining and nearby properties.*

Evidence: The proposed building is architecturally consistent with the existing commercial buildings in the surrounding commercial areas. The improvements and variations of gray in the color scheme will reduce the overall massing by breaking up the building façade with multiple defined edges emphasizing main entrances for the building. No signage was included with this application.

4. *Finding: The proposed project will not create conflicts with vehicular, bicycle, or pedestrian transportation modes of circulation.*

Evidence: The proposed project is primarily for façade improvements to an outdated design and will not create conflicts among various transportation modes. The project does not propose to alter the existing layout or add square footage as the site has adequate vehicular circulation and parking facilities.

MEMORANDUM

DATE: June 19, 2017

TO: Honorable Mayor and Council Members

FROM: June Cowles, Senior Planner

SUBJECT: INTRODUCTION AND FIRST READING OF ORDINANCE 5-2017, AN ORDINANCE AMENDING TITLE 23, ZONING CODE, OF THE MUNICIPAL CODE TO OMIT “OUTDOOR COMMERCIAL RECREATION” USE FROM THE OFFICE PROFESSIONAL MIXED USE ZONE, REPLACE “LIMITED USE PERMIT” WITH “ADMINISTRATIVE USE PERMIT” THROUGHOUT THE ZONING CODE, REQUIRE 1,000 FEET BETWEEN MASSAGE ESTABLISHMENTS, AND LIMIT ELECTRONIC MESSAGE SIGNS ON BUILDING FACADES

RECOMMENDATION

Introduce and waive first reading of Ordinance 5-2017.

RESULT OF RECOMMENDED ACTION

Approval of Ordinance 5-2017 will amend the following:

- Chapter 23.313 Table 23.313-1 of the Municipal Code related to the Office Professional Mixed Use (OPMU) zone district. Specifically, the proposed amendment will modify the list of allowable uses to omit outdoor commercial recreation as a use.
- Replace “Limited Use Permit” with “Administrative Use Permit” throughout Title 23, Zoning, of the Municipal Code.
- Chapter 4.33, Table 23.313-1 and Table 23.316-1 of the Municipal Code addition of a distance requirement between massage establishments.
- Section 23.743.065 of the Municipal Code by prohibiting electronic message signs on building facades.

If approved, the Ordinance would come back to Council for second reading and adoption at its next regular meeting.

BACKGROUND

Two Zoning Code Ordinance amendments were approved in early 2017 as follows;

1. On February 21, 2017, Chapter 23.313 of the Municipal Code related to the Office Professional Mixed Use (OPMU) zone district was amended. Specifically, the proposed amendments modified the list of allowable uses and further clarified the applicable development standards for this zoning designation.

2. On May 15, 2017 the Zoning Code Ordinance Amendments were approved by City Council. The Amendments included both minor clean ups and more substantive amendments compiled over the last two to three years for the following purposes:
 - a) To ensure compliance with state and federal laws,
 - b) To clarify ambiguities,
 - c) To codify interpretations,
 - d) To streamline procedures,
 - e) To address local issues and concerns,
 - f) To make sure that zoning is not an obstacle to economic development, and
 - g) To make the document more user-friendly.

All of the proposed amendments are text changes only and do not propose any changes to the Zoning Map.

PROPOSED ZONING CODE ORDINANCE AMENDMENTS

OPMU Zoning District

At the February 6, 2017 Council meeting, staff presented the Council with three specific issues including: potential updates intended to preserve the character and vision for the City's business parks. Based on the input received from the Council at this meeting and a strong desire to preserve its vision for all business parks within the City, staff prepared an Ordinance to incorporate minor amendments to the Zoning Code for the Office Professional Mixed Use zoning district. At that time "Outdoor Commercial Recreation" use was not included in the list of amendments to the OPMU zoning district or the April 5, 2017 Zoning Code Ordinance Amendments due to a pending proposed project for an outdoor commercial recreation use in the OPMU zoning district. The proposed project was approved at the May 15, 2017 City Council meeting.

Based on input from Council to preserve the vision for all business parks within the City, the "Outdoor Commercial Recreation" use is proposed to not be allowed within the OPMU zoning district. Table 23.313-1 in the Zoning Code identifies the allowable uses within the OPMU zone district.

Analysis

Maintaining the high quality appearance and functionality of the City's business parks is a high priority of the City Council. Ensuring that the allowable uses within these areas and the applicable development standards are functional and supportive of the vision, is critical to the long term success of this land use type. In accordance with the City's Zoning Code, business parks are primarily located in the Office Professional Mixed Use (OPMU) zoning district. As defined in Section 23.313.020 of the Zoning Code, the OPMU zoning district is:

"... intended to designate property for the development of larger office buildings and business parks with supporting retail and service uses. The predominant use is office, but commercial and residential uses may be integrated into office buildings or located horizontally in freestanding buildings."

The "Outdoor Commercial Recreation" use does not appear to be compatible with the Council's vision for the OPMU zone district. The purpose for this change is to ensure that the allowed uses reflect the business and professional nature envisioned in these zones and that the uses

all function in an integrated, pedestrian oriented manner. Therefore, "Outdoor Commercial Recreation" use is proposed to not be allowed within the OPMU zone district. **Exhibit A.**

Replace "Limited Use Permit" with "Administrative Use Permit"

The April 5, 2017 Zoning Code Ordinance Amendment contained streamlining procedures that included reducing two procedures: "Limited Use Permit" (LUP) and "Administrative Use Permit" (AUP) into one procedure: "Administrative Use Permit". This was completed by replacing LUP with the AUP procedure. The replacement was completed for Chapters 1, 3, 5, 7, and 9. Staff realized that some "LUP" were not replaced by "AUP". The proposed amendment is a "clean-up" item that will replace "LUP" with "AUP" throughout the Zoning Ordinance.

Require 1,000 Feet Between Massage Establishments

The massage use is allowed within the Commercial Mixed Use (CMU) zone district and allowed with approval of a Conditional Use Permit within the Heavy Industrial (M-2) zone district. However, the massage use is not allowed within the Folsom Boulevard Specific Plan Area where most of the CMU zone districts are located. An over-concentration of the massage use is creating negative impacts on certain properties including traffic and parking issues. In order to provide less concentration of one use in a few areas and allow for a variety of uses for residents, a distance requirement is provided for the CMU and M-2 zone districts. This is accomplished through amendments to Municipal Code section 4.33 and amendments to the land use tables in the Zoning Code for the CMU and M-2 zones.

Limit Electronic Message Signs on Building Facades

The proposed Amendment includes limiting electronic message signs by prohibiting these types of signs on building facades. Section 23.743.065, "Standards for electronic message signs," states the following:

23.743.065 Standards for electronic message signs.

A. Applicability. Permit requirements for electronic message signs are established in Section 23.743.030(C). Provisions of this section apply to the following sign types as defined in this chapter:

- 1. Video display signs.*
- 2. Electronic graphic display signs.*
- 3. Time and temperature signs.*

B. Development Standards. The following provisions apply to electronic message signs:

- 1. Signs are permitted in any zoning district and must be located a minimum distance of 100 feet from an abutting residential district boundary.*
- 2. An electronic sign(s) is limited to a maximum of 32 square feet per site and shall be included as part of the total sign area allowances established by Table 23.743-1.*
- 3. Sign must be located on the site of the use identified or advertised by the sign.*
- 4. Audio speaker or any form of pyrotechnics are prohibited in association with any electronic message signs.*
- 5. Illumination levels shall be regulated such that the illumination is appropriate to the time of day through the use of such means as light meters and programmed illumination regulation or LEDs that are designed to limit the spread of light. Dimmer controls that are automatically responsive to surrounding light levels are highly encouraged.*
- 6. Time and Temperature Signs. A time and/or temperature sign does not count toward the otherwise applicable limits as to number and size of signs for the property on which it is located, provided:*
 - a. Maximum Area and Height. The sign shall have a maximum area of 36 square feet and shall comply with the height requirements established in Table 23.743-1 (Allowed*

Permanent On-Site Sign Standards) for the type of sign (building/freestanding) to which it is attached.

b. Design. The sign shall be designed in a manner that is architecturally compatible with other signs and with the structure on which it is placed.

The proposed language includes addition to 23.743.065 “Development Standards” as follows:

23.743.065 Development Standards “Electronic message signs are prohibited on building facades.”

And remove the word “building” from Development Standard 23.743.065(6a).

Analysis

The proposed sign ordinance amendment of prohibiting electronic message signs on building facades is necessary to create a more unified approach to signs throughout the City which maintains aesthetic standards. Electronic message signs are defined as the following:

23.1104.050 Sign Definitions

“Electronic message sign” means an electronic sign that displays one or more messages. An electronic message sign could be used as a message delivery method for a wall sign, a monument sign or other freestanding sign, or a billboard, subject to all applicable provisions and limitations in the code. Digital freeway signs utilizing electronic messaging technology are subject to the standards and permit requirements in Section 23.743.150.”

Staff reviewed sign ordinances from adjacent jurisdictions: The City of Elk Grove and The City of Folsom.

The City of Elk Grove sign ordinance states the following;

23.62.100 Prohibited signs.

The signs listed in this section are inconsistent with the purposes and standards of this chapter as described below and as such are prohibited in all zoning districts, unless specifically authorized by another provision of this chapter. For examples for prohibited signs, see Figure 26.62-2.

A. Abandoned signs;

B. Animated, moving, flashing, blinking (intermittent light), fluctuating, reflecting, revolving, or other similar signs (also see EGMC Section [23.56.040](#), Lighting prohibited);

C. Inflated signs, balloons, and figures, but not including “party jumps” or other inflatable party devices intended for short-term use;

D. Pole signs (not including ground-mounted freestanding signs, commonly called “monuments” or signs constructed with poles as the substructure; provided, that the poles are covered with architectural cladding or coverings);

E. Electronic readerboard signs other than time/temperature signs. However, the City Council may consider electronic readerboard signs on a case-by-case basis as part of a specific plan or special planning area application or amendment thereto. Electronic readerboard signs, if allowed by the City Council, will be limited to on-site commercial messages only and will not be permitted within three thousand five hundred (3,500) feet of each other;

The City of Folsom sign ordinance considers a changeable copy sign that changes more than once a day as an animated sign and therefore, an animated sign is prohibited as stated below:

City of Folsom 17.59.030 General provisions.

A. Signs Prohibited. The following signs are prohibited:

1. Any nonexempt sign which is not authorized by a valid permit;
2. Abandoned signs;
3. Any sign located in a required clear-vision triangle;
4. Signs within the public right-of-way. The only type of signs permitted in the public right-of-way are governmental or city-sponsored civic signs, or those which comply with Section [17.59.030\(D\)](#), Special Provisions;
5. Signs erected without the permission of the owner (or his/her agent) of the property on which the sign is located;
6. Billboard signs and off-site directional or off-site identification signs except government, civic, real estate and other signage as provided in this chapter;
7. Portable signs except those approved in the historic district zone or as otherwise provided in this chapter;
8. Vehicle signs where the primary purpose of the motor vehicle relates to its use as a sign;
9. Animated signs unless a special event sign permit is granted by the planning director or as otherwise provided for in this chapter;

In addition, many of the City of Folsom businesses are within an integrated shopping or business centers that include a Uniform Sign Program that do not allow electronic message signs on the building façade.

Many of the businesses within the City of Rancho Cordova that are located within an integrated shopping and business centers do not have Unified Sign Programs and adhere to the City of Rancho Cordova sign ordinance. Therefore, in order to prevent electronic message signs on building facades and to create a more unified approach to signs throughout the City which maintains high aesthetic standards, staff is proposing that electronic message signs be prohibited from building facades. They would still be allowed within window displays if they meet all other requirements, including total area coverage limitations.

ENVIRONMENTAL ANALYSIS

The Rancho Cordova General Plan Final Environmental Impact Report (EIR) was certified in June 2006 by the Rancho Cordova City Council. The General Plan EIR is a Program EIR (CEQA Guidelines section 15168). The amendments to the City Zoning Code are activities within the scope of the General Plan Program EIR and no further environmental review is required. Further environmental review is not required because the proposed amendments do not meet the criteria for preparing a subsequent EIR under State CEQA Guidelines Section 15162, as detailed below.

First, the proposed amendments do not constitute substantial changes to the existing policies and actions in the General Plan. The proposed amendments are limited in nature and are not substantial changes to existing policies and actions contained in the General Plan. Overall, the project would not cause any new significant environmental impacts or substantially increase the severity of a previously identified significant impacts from the General Plan Final EIR (State CEQA Guidelines Section 15162[a][1]) that would require major revisions to the General Plan Final EIR.

Second, the City is not aware of any substantial changes in the circumstances that would cause any new significant impacts or substantially increase the severity of a previously identified significant impacts requiring major revisions to the General Plan EIR (State CEQA Guidelines Section 15162[a][2]). There have been no changes in the environmental conditions contemplated and analyzed in the General Plan EIR that would result in new or substantially more severe environmental impacts.

Third, there is no new information of substantial importance (which was not known or could not have been known at the time of the General Plan adoption in June 2006) that identifies: a new significant impact (condition "A" under State CEQA Guidelines Section 15162[a][3]); a substantial increase in the severity of a previously identified significant impact (condition "B" State CEQA Guidelines Section 15162[a][3]); mitigation measures or alternatives previously found infeasible that would now be feasible and would substantially reduce one or more significant effects of the General Plan; or mitigation measures or alternatives which are considerably different from those analyzed in the General Plan EIR which would substantially reduce one or more significant effects on the environment (conditions "C" and "D" State CEQA Guidelines Section 15162[a][3]). None of the "new information" conditions listed in the State CEQA Guidelines Section 15162[a][3] are present here to trigger the need for a subsequent EIR.

Further environmental review is not required because the proposed amendments do not meet the criteria for preparing a subsequent EIR or Negative Declaration under State CEQA Guidelines Section 15162. They are merely text amendments to the code and any new projects would be required to undergo the applicable CEQA review.

FISCAL IMPACT

There is no anticipated fiscal impact of the proposed action on City finances.

CITY OF RANCHO CORDOVA

ORDINANCE NO. 5-2017

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF RANCHO CORDOVA AMENDING CHAPTER 23.313 REGARDING THE ALLOWED USES WITHIN THE OFFICE PROFESSIONAL MIXED USE ZONING DISTRICT IN TITLE 23, THE REPLACEMENT OF "LIMITED USE PERMIT" WITH "ADMINISTRATIVE USE PERMIT" THROUGHOUT TITLE 23, ZONING ORDINANCE, ENACTING DISTANCE REQUIREMENTS BETWEEN MASSAGE ESTABLISHMENTS, AND ENACTING LIMITATIONS TO ELECTRONIC READER SIGNS ON BUILDING FACADES

THE CITY COUNCIL OF THE CITY OF RANCHO CORDOVA DOES ORDAIN AS FOLLOWS:

Section 1. Purpose and Declarations.

WHEREAS, as seen throughout the region, professional office business parks are a vital component to the City's sustainable land use planning efforts as a means of providing a positive jobs-housing balance and positive economic growth for the community. City Council directed staff to review and propose amendments to the OPMU zone district that would preserve the character and vision for the City's professional business parks; and

WHEREAS, the replacement of "Limited Use Permit" (LUP) with "Administrative Use Permit" (AUP) throughout the Zoning Code is considered a "clean-up" item; and.

WHEREAS, an over-concentration of massage establishments has occurred and is creating negative impacts on certain properties including traffic and parking issues; and

WHEREAS, amendments to the electronic message provisions are necessary to create a more unified approach to signs throughout the City which maintains aesthetic standards; and

WHEREAS, the certified Environmental Impact Report prepared for and adopted by City Council for the previously adopted General Plan, via City Council Resolution 116-2006, was found to adequately address all potential environmental impacts associated with the adoption of the proposed Zoning Code amendments; and

WHEREAS, these amendments were analyzed and determined to be within the scope of the General Plan EIR and require no further environmental review under State CEQA Guidelines Section 15162 as established in the staff report associated with this Ordinance; and

WHEREAS, on June 19, 2017, the City Council held a properly noticed public hearing for this Ordinance and considered all oral and written testimony.

Section 2: Findings. The City Council hereby finds:

A. **CEQA Compliance.** The Rancho Cordova General Plan Final Environmental Impact Report (EIR) was certified in June 2006 by the Rancho Cordova City Council City Council Resolution 116-2006. The General Plan EIR is a Program EIR (CEQA Guidelines section 15168). The amendments to the City-wide Zoning Code are activities within the scope of the General Plan Program EIR and no further environmental review is required. Further

ATTACHMENT 1

environmental review is not required because the proposed amendments do not meet the criteria for preparing a subsequent EIR under State CEQA Guidelines Section 15162.

B. The proposed amendment is consistent with the General Plan. The attached Zoning Code Amendments (“Amendments”) are consistent with the General Plan, as required by Government Code Section 65454, because it advances numerous General Plan Policies and Goals, including: Goal LU.1 – Achieve a Balanced and Integrated Land Use Pattern Throughout the Community; Policies LU.1.2 and LU.1.3; Goal LU.6 – Ensure Development of the Planning Areas is Consistent with the City’s Vision. The amendment will preserve the intent of the office professional mixed use zone district opportunities throughout the City. The replacement of the LUP process with the AUP process is considered a “clean-up” administrative item. Providing distance requirements for massage use so that over-concentration does not occur achieves balanced land use. Amendment to the electronic message provisions are necessary to create a more unified approach to signs throughout the City which maintains aesthetic standards.

C. The proposed amendments would not be detrimental to the public interest, health, safety, convenience, or welfare of the City. The attached amendments focus on preserving the intended allowable uses for the Office Professional Mixed Use zone district by restricting a use that is not compatible with the predominant use type of professional office uses or secondary uses related to support commercial and residential uses. The replacement of the LUP process with the AUP process is an administrative clean-up item. Providing distance criteria for an over-concentrated use is to correct negative impacts to the property and on surrounding properties. Prohibiting electronic message signs on building facades is necessary to create a unified approach to signs throughout the City to maintain aesthetic standards. None of these proposed amendments will be detrimental to the public interest, health, safety, convenience, or welfare of the City. Rather, the amendments will be beneficial by preserving a valuable land use type for the City’s jobs-housing balance, adding clarity as a correction to the zoning ordinance in order to eliminate the LUP process throughout the zoning ordinance, providing less concentration of massage establishments, and amendments to the electronic message provisions are necessary to create a more unified approach to signs throughout the City which maintains aesthetic standards.

D. The proposed amendments are internally consistent with other applicable provisions of this zoning code. The attached Amendments were reviewed for consistency with the entirety of Title 23 of the Municipal Code and is consistent with other applicable provisions of the Municipal Code.

Section 3. Amendments to Title 23

The City Council hereby adopts amendments shown in **Exhibit A**, attached hereto and included herein; to Table 23.313-1, Table 23.316-1, and Section 23.743.065 of the Municipal Code, including the replacement of the term “Limited Use Permit” (LUP) with the Administrative Use Permit (AUP) throughout Title 23 of the Municipal Code

Section 4. Amendments related to Massage Establishments Not Included in Tables 23.313-1. and Table 23.313-6 Within Exhibit A.

The City Council hereby adopts the amended portions of Chapter 4.33 of the Rancho Cordova Municipal Code shown in **Exhibit B**, attached and incorporated herein.

ATTACHMENT 1**Section 5. Severability**

If any provision of this Ordinance or the application thereof to any person or circumstance, is held invalid, the remainder of the Ordinance, including the application of such part or provision to other persons or circumstances shall not be affected thereby and shall continue in full force and effect. To this end, provisions of this Ordinance are severable. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase hereof irrespective of the fact that any one or more sections, subsections, subdivisions, paragraphs, sentences, clauses, or phrases be held unconstitutional, invalid or unenforceable.

Section 6. Effective Date

Within fifteen (15) days after adoption, a Summary of this Ordinance shall be published once in the Grapevine Independent, or the Sacramento Bee, a newspaper of general circulation printed and published in Sacramento County and circulated in the City of Rancho Cordova, in accordance with Government Code Section 36933. This Ordinance shall take effect and be enforced thirty (30) days after its inception.

June 19, 2017

June Cowles, Senior Planner

Proposed Municipal Code Amendments

1. Title 23, Zoning Ordinance: Not allow “Outdoor Commercial Recreation” use within the Office Professional Mixed Use Zone District.
2. Title 23, Zoning Ordinance: Replace “Limited Use Permit” (LUP) with “Administrative Use Permit” (AUP) throughout the Zoning Ordinance.
3. Title 23, Zoning Ordinance and Title 4 Business Regulation: Require 1,000 feet between Massage establishments.
4. Title 23, Zoning Ordinance: Limit Electronic Message Signs on Building facades.

“Office Professional Mixed Use zoning district is intended to designate property for the development of larger office buildings and business parks with supporting retail and service uses. The predominant use is office, but commercial and residential uses may be integrated into office buildings or located horizontally in freestanding buildings.”

Office Professional Mixed Use Zone District

To ensure the allowable uses within the OPMU zone district accurately reflect the intended vision for this type of land use, Table 23.313-1 includes modifications to “Outdoor Commercial Recreation” use:

Proposed modification: the following uses would change from “P” (allowed) to “N” (not allowed):

Administrative Item

Replace “Limited Use Permit” (LUP) with “Administrative Use Permit (AUP)” throughout the Zoning Ordinance.

Require 1,000 feet Between Massage Establishments

Massage use is allowed within the Commercial Mixed Use (CMU) zone district and allowed with approval of a Conditional Use Permit within the Heavy Industrial (M-2) zone district. The Folsom Boulevard Specific Plan and Convention Overlay District do not allow massage use within the CMU zone district.

There are six CMU locations within the City that allow massage use, which has resulted in over-concentration of the use and negative impacts including traffic and parking issues.

In order to provide less concentration of one use in a few areas, a distance requirement for massage establishments of 1,000 feet is provided for the CMU and M-2 zone districts.

CMU and M-2 Zone District Locations (massage establishments)

Electronic Message Signs on Building Facades

- Proposed Amendment includes prohibiting electronic messaging signs on building facades.
- Currently, the sign ordinance with an approved Administrative Use Permit allows electronic message signs on building facades and freestanding signs.
- Adjacent jurisdictions (City of Folsom and City of Elk Grove) contacted. Both jurisdictions have restrictions in their Code or through Unified Development Sign Programs.
- In order to prevent electronic message signs on building facades and to create a more unified approach to signs throughout the City which maintains high aesthetic standards, staff is proposing that electronic message signs be prohibited from building facades. They would still be allowed within window displays if they meet all other requirements, including total area coverage limitations. And freestanding signs would allow electronic messaging.

MEMORANDUM

DATE: June 19, 2017

TO: Honorable Mayor and Council Members

FROM: Adam U. Lindgren, City Attorney
Kerry Simpson, Neighborhood Services

SUBJECT: PROPERTY MAINTENANCE CODE

RECOMMENDATION

Staff recommends Council introduce Ordinance No. 6-2017 by title and make a motion to waive first reading of ordinance.

RESULT OF RECOMMENDED ACTION

Introduction of Ordinance No. 6-2017, "An Ordinance of the City Council of the City of Rancho Cordova Adding Article XVII, "Property Maintenance Code" to Chapter 16.18, "Nuisance Code," of Title 16, "Buildings and Construction" of the Rancho Cordova Municipal Code relating to Property Maintenance of Privately Owned Property Visible from Public Property Within the City and waive first reading of the Ordinance.

BACKGROUND

On April 25, 2017, City Council held a work session to discuss the proposed Property Maintenance Code. At that meeting, Council discussed the proposed ordinance and made recommendations for changes to the ordinance to clarify and expand some of the provisions. The recommendations included the following:

- Add additional language to sections 16.18.1703(A) & 16.18.1704(A) specifying length of grass not to exceed 8 inches, per the new zoning code update;
- Add additional language specifying 5 foot separation from edge of driveway to property line so that driveways between properties are not merged;
- Clarify sections 16.18.1703(Q) & 16.18.1704(P) to add language specifying what type of material is appropriate for fencing;
- Clarify section 16.18.1703(P) to distinguish between UL listed outdoor landscape lighting and temporary holiday lights;
- Add language to sections 16.18.1703(O) and 16.18.1704(O) to provide that paint must be consistent with the building color when abating graffiti;
- Add language to section 16.18.1704(F) to prohibit the presence of packing boxes, cardboard boxes, lumber, rubbish, refuse, barrels, drums, salvage materials or other debris;
- Add language to section 16.18.1704(X) that would require business owners to remove trash from site regularly and remove trash in the immediate vicinity of the business to include roads, sidewalks etc.;

- Expand language in section 16.18.1704(X) to include power washing sidewalks, parking lots and building entrances free of gum and spilled liquids; and
- Add language to section 16.18.1704(X) to reference ASTM standards for paint used in parking lot and parking stalls.

Staff has revised the proposed Property Maintenance Code to address all of the aforementioned recommendations. Some areas of discussion at the work session, such as shopping carts and zoning code language, will be addressed in the future through possible revisions to other sections of the Municipal Code.

IMPLEMENTATION OF ORDINANCE

Staff will follow up to ensure that property owner and staff education occurs on these new regulations.

FISCAL IMPACT

There will be minimal fiscal impact as a result of this item.
