MEMORANDUM

DATE: June 6, 2016

TO: Honorable Mayor and Council Members

FROM: Elizabeth Sparkman, Engineering Manager

SUBJECT: RESOLUTIONS INITIATING PROCEEDINGS FOR THE ANNUAL LEVY AND COLLECTION OF ASSESSMENTS FOR THE LANDSCAPING AND LIGHTING DISTRICT NO. 2005-1 FOR FISCAL YEAR 2016-2017.

RECOMMENDATION

That City Council adopts:

- a) Resolution No. 56-2016 Initiating Proceedings for the Annual Levy and Collection of Assessments for the Landscaping and Lighting District 2005-1 for Fiscal Year 2016-17; and
- b) Resolution No. 57-2016 Preliminarily Approving the Engineer's Annual Levy Report and Declaring its Intention to Levy and Collect Annual Assessments for the Landscaping and Lighting District No. 2005-1 for Fiscal Year 2016-17.

RESULT OF RECOMMENDED ACTION

The recommended actions are required as part of the process to continue the annual levy and collection of assessments in the District. The assessments fund landscape maintenance in the District. There are no new impacts to existing or new residents. No assessments shall increase as a result of this action.

BACKGROUND

The Landscaping and Lighting District No. 2005-1 (LLD 2005-1) was formed in June 2005 by the City Council to continue a financial mechanism to provide landscape maintenance services previously funded since 1994 in Zone 4 and Zone 5 of the Sacramento County Landscape Maintenance District (SLMD). The maximum assessment rates authorized under LLC 2005-1 are equal to the maximum rates previously authorized in Zones 4 and 5 of the County's District.

State law requires the City Council direct an Engineer's Report to be prepared each year and to hold a public hearing on the report and the levy of the annual assessment. **Resolution No. 56-2016, Attachment 1**, directs Willdan Financial Services to prepare and file the Engineer's Report.

In anticipation of this resolution, the Engineer's Report has been prepared and is on file with the City Clerk. The **Engineer's Report, Exhibit A, to Resolution 57-2016, Attachment 2**, includes a diagram of the assessment area, a description of the maintenance services to be

provided, a description of the property to be benefited, and the amount of the assessment to each individual property. The services performed within and funded by LLD 2005-1 include ongoing maintenance, operation and servicing of landscaping within the right-of-ways and other public areas within the District at the locations described in the Engineer's Report.

The proposed Fiscal Year 2016-17 assessment rates do not exceed the rates previously levied by the County since 1994 and are equal to the rates levied by the City in Fiscal Year 2015-16. The boundaries of each Zone are shown in the district diagram in Part IV of the Engineer's Report and the details for each Zone are listed below:

- Zone 1 of the District is comprised of ninety-seven (97) residential parcels in the Ellenwood subdivision. These parcels are assessed on per Parcel basis at the maximum rate of \$42.50 per parcel.
- Zone 2 of the District is comprised of one hundred fifty-nine (154) residential parcels known as California Jazz Unit No. 1 and Unit No. 2. These parcels are assessed on an acreage basis at the maximum rate of \$30.48 per acre for the median landscape and parkway landscape improvements associated with these parcels.
- Zone 3 of the District is comprised of eighteen (18) parcels along Zinfandel Drive between Data Drive and south of International Drive. These parcels are assessed on an acreage basis at the rate of \$1,413.24 per acre for the median landscape improvements within the District.
- Zone 4 is comprised of fifty-two (52) parcels, including a portion of Capital Village, generally bounded by White Rock Road to the west, White Rock Road and Disk Drive to the north, fronting Kilgore Drive to the East, and fronting International Drive to the south. These parcels are assessed at the maximum rate of \$30.48 per gross acre.
- Zone 4A is comprised of eight hundred (800) parcels which are a part of the development known as Capital Village. Zone 4A was created to account for overlapping boundaries with a Landscape Maintenance CFD (LMCFD) formed by the City. The CFD will provide supplemental funding for landscape improvements within and adjacent to the development, including some median landscaping identified herein. Zone 4A shall be assessed at the maximum rate of \$30.48 per gross acre. Any supplemental funds generated by LMCFD that will be used to finance the median landscape improvements that benefit Zone 4A shall be transferred by the CFD to the District as a contribution to Zone 4A.

The Fiscal Year 2016-2017 total assessment is estimated at \$91,104. The District has an established Operating Reserve which provides funding for the operations and maintenance of the District, as well as providing financing for emergency expenditures. A second reserve fund finances special projects such as a central irrigation system, revegetation projects, and other rehabilitation projects or replacements of District improvements.

In July 2006, the County transferred funds previously collected in the County's Zone 4 and 5 to the City, which was deposited to the LLD 2005-1. The City had previously deemed that these transferred funds are to be used exclusively by the District and shall be considered as undesignated reserves within the Zones of the District. Funds from the undesignated reserve can be used to fund costs of any zone(s) that are unable to be funded by the annual assessments.

In order to proceed with the levy of assessments after consideration and approval of the Engineer's Report, it is appropriate for the Council to adopt **Resolution No. 56-2016, Attachment 2**, which declares the Council's intention to levy assessments for Fiscal Year 2016-2017. It also sets July 5, 2016 at 5:30 p.m. or as soon thereafter as possible, as the date and time for a public hearing on the issue of the levy of Fiscal Year 2016-2017 assessments. Notice of the public hearing will be given by publication.

INTRODUCTION

Pursuant to the provisions of the Landscaping and Lighting Act of 1972, being Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500 (hereafter referred to as the "1972 Act"), and in compliance with the substantive and procedural requirements of the California State Constitution Article XIII D (hereafter referred to as the "California Constitution"), the City Council of the City of Rancho Cordova, County of Sacramento, State of California (hereafter referred to as "City"), has by resolution initiated proceedings in connection with the ongoing maintenance of the special assessment district designated as:

Landscaping and Lighting District No. 2005-1

(hereafter referred to as "District"), for the purpose of continuing and providing for the ongoing maintenance and operation of landscaping and lighting improvements within the District.

These improvements have previously been provided and administered by the County of Sacramento (the "County") as part of the Sacramento Landscape Maintenance District (hereafter referred to as "SLMD"). Commencing with fiscal year 2005/2006, the City conducted property owner protest ballot proceedings and confirmed the assessments described herein at which time the maintenance and operation of the improvements became the responsibility of the City with the City Council acting as the legislative body of the District. The City Council proposes to continue the levy and collection of annual assessments through the County tax rolls to provide ongoing funding for the costs and expenses required to service and maintain the District improvements.

This Engineer's Report (hereafter referred to as "Report") has been prepared in connection with the annual administration of said District and the levy and collection of annual assessments related thereto for fiscal year 2016/17, as required pursuant to Chapter 1, Article 4 of the 1972 Act. This Report describes the District, the improvements, and the proposed assessments to be levied on properties within the District in connection with the special benefits the properties receive from the maintenance and servicing of the District improvements. The annual assessments will provide a continued funding source for the ongoing operation and maintenance of public landscaping and lighting improvements associated with the properties within the District.

The improvements and assessments described in this Report are based on the improvements and assessments previously established by the County for SLMD Zone 4 and Zone 5 and represent an estimate of the direct expenditures, incidental expenses, and fund balances associated with the maintenance and servicing of those improvements. The structure of the District (organization), the

improvements, the method of apportionment, and assessments described herein have been established to continue the maintenance of the existing improvements and assessments previously established by the County as outlined in the District's Fiscal Year 2005/2006 Engineer's Report.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number (APN) by the County Assessor's Office. The County Auditor/Controller uses Assessor's Parcel Numbers and specific Fund Numbers to identify properties to be assessed on the tax roll for special benefit assessments.

In fiscal year 2005/2006, as part of the District formation to continue the assessments previously levied by the County as part of the SLMD Zone 4 and Zone 5 for properties within the boundary of the City, the City conducted a Property Owner Protest Ballot proceeding for the District assessments pursuant to the provisions of the *California Constitution, Article XIID Section 4*. In conjunction with this ballot proceeding, the City Council also conducted a noticed public hearing to consider public testimonies, comments and written protests regarding the formation of the District and levy of maximum assessments. Upon conclusion of the public hearing, property owner protest ballots received were opened and tabulated to determine whether majority protest existed (ballots were weighted based upon the assessment amounts), and by resolution the City Council confirmed the results of the ballot tabulation. Tabulation of the ballots indicated that a majority protest did not exist for the continuation and transfer of assessments as presented and described in the fiscal year 2005/2006 Engineer's Report. The City Council approved the report, ordered the formation of the District, and approved the levy and collection of FY 2005/2006 assessments. The FY 2005/2006 assessments were then submitted to the Sacramento County Auditor/Controller for inclusion on the property tax roll for each parcel.

For fiscal year 2016/17, this Report has been prepared and presented to the City Council describing the District, any changes to the District or improvements, and the proposed budget and assessments for this fiscal year, and the City Council shall hold a noticed public hearing regarding these matters prior to approving and ordering the proposed levy of assessments. Should the proposed annual assessments for the District or portion thereof, exceed the maximum assessments described herein (as approved by the property owners), the new or increased assessment must be confirmed through another property owner protest ballot proceeding before the new or increased assessment may be imposed. It should be noted that an increased assessment to an individual property resulting from changes in development or land use does not constitute an increased assessment.

This Report consists of five (5) parts:

Part I

Plans and Specifications: A description of the District boundaries and the proposed improvements associated with the District. The District was formed with four (4) benefit zones encompassing all lots and parcels of land within the boundaries of the City. The territory within the District had previously been assessed through Zone 4 and Zone 5 of the SLMD in fiscal year 2004/2005. The District was first assessed in fiscal year 2005/2006.

Part II

The Method of Apportionment: A discussion of benefits the improvements and services provide to properties within the District and the method of calculating each property's proportional special benefit and annual assessment.

Part III

The District Budget: An estimate of the annual costs to operate, maintain and service the District's landscaping and lighting improvements and facilities. The special benefit assessments are based on the overall operation costs minus any costs that are considered general benefit. The proposed budget includes the anticipated costs for operating, maintaining and servicing the District improvements for fiscal year 2016/17, including any funds necessary to perform maintenance activities that cannot be reasonably collected in a single fiscal year to establish the proposed assessments for that year. Should the proposed assessments exceed the assessments described herein, property owner ballot proceedings shall be conducted to approve such an increase before the increase may be imposed.

Part IV

District Diagram: A Diagram showing the exterior boundaries of the District and the Zones therein is provided in this Report and includes the parcels that receive special benefits from the improvements. Parcel identification, the lines and dimensions of each lot, parcel and subdivision of land within the District, are inclusive of all parcels as shown on the County Assessor's Parcel Maps as they existed at the time of the passage of the Resolution of Intention, and shall include all subsequent subdivisions, lot line adjustments or parcel changes therein. Reference is hereby made to the County Assessor's maps for a detailed description of the lines and dimensions of each lot and parcel of land within the District.

Part V

Assessment Roll: A listing of the proposed assessment amount for each parcel within the District. The proposed assessment amount for each parcel is based on the parcel's proportional special benefit as outlined in the method of apportionment.

Part I — PLANS AND SPECIFICATIONS

A. Description of the District

The territory within the District consists of the lots and parcels of land that in fiscal year 2004/2005 were both within the City and within a portion of Zone 4 and all of Zone 5 of the Sacramento Landscape Maintenance District ("SLMD"). Said territory encompasses an area of land totaling approximately five hundred twelve acres (512 acres) that is centrally located within the City, generally south of Highway 50 and north of the City limits. Refer to the Budget Section for the current number of parcels within each Zone.

- **Zone 1:** That portion of the previous SLMD Zone 4, which at the time of the formation of the District included a total of ninety-seven (97) assessable parcels within the residential subdivision known as Ellenwood Court located south of Ellenwood Avenue. Upon formation of the District, this area was designated as Zone 1 to reflect the special benefit these parcels receive from the District improvements associated with the development located on the south side of Ellenwood Avenue.
- **Zones 2, 3 and 4:** The parcels within previous SLMD Zone 5, which at the time of the formation of the District included a total of six hundred eighty-six (686) assessable parcels generally located south of the American River, east of Mather Field Road and in close proximity to Zinfandel Drive and International Drive. Upon formation of the District, this area was designated as Zones 2, 3, and 4 and are described as follows:

Zone 2 included the one hundred fifty-four (154) assessable parcels within the residential subdivision known as California Jazz Units 1 & 2 generally located east of Data Drive, north of Reserve Drive, south of Capital Center Drive and west of International Drive.

Zone 3 included the eight (8) assessable parcels located on either side of Zinfandel Drive from Data Drive to the southern boundary of the District (approximately 700 feet south of International Drive).

Zone 4 included the remaining parcels that were previously included in SLMD Zone 5 that were not designated as either Zone 2 or Zone 3 of the District. This Zone includes parcels along Data Drive, International Drive, Capital Center Drive, White Rock Road, Quality Drive, Disk Drive, Prospect Park

Drive and Kilgore Road.

Zone 4A is the portion of Zone 4 that also lies within the City's Community Facilities District No. 2005-2 ("CFD 2005-2"). Zone 1 of CFD 2005-2 was established to fund, to the extent that funds from CFD 2005-2 are available, maintenance of landscape improvements of the residential subdivision development known as Capital Village. These landscape improvements were installed along the subdivision's rights-of-way and within the median(s) adjacent to the development. The funds from Zone 1 of CFD 2005-2, to the extent available, shall offset all or a portion of the costs within Zone 4A.

B. Description of Improvements and Services

Landscape Improvements

The purpose of this District is to ensure the ongoing maintenance, operation and servicing of local landscaping and street lighting improvements within the District (improvements that had been previously funded through annual assessments from the SLMD). The improvements may consist of all or a portion of the public landscaped areas, street lighting and appurtenant facilities within and adjacent to the District. These improvements may include, but are not limited to the materials, equipment, utilities, labor, appurtenant facilities and expenses necessary for the ongoing maintenance and operation of public street lighting and landscape improvements including but not limited to parkways, medians and other designated easements, right-of-ways or public areas within the District. The improvements to be maintained and funded entirely or partially through the District assessments are generally described as:

- **Zone 1:** Streetscape (parkway) landscaping along the South side of Ellenwood Avenue east of Routier Road that is within the public right-of-ways or easements dedicated to the City for maintenance. The costs and special benefits of these improvements are shared equally by only the assessable properties within Zone 1 of the District.
- **Zone 2:** Streetscape (parkway) landscaping surrounding and adjacent to the California Jazz subdivision on the north side of Reserve Drive from Data Drive to International Drive; the east side of Data Drive from Reserve Drive north to the end of the subdivision; the west side of Capital Center Drive from International Drive north to the end of the subdivision; and the north side of International Drive from Reserve Drive to Capital Center Drive. The costs and special benefits of these improvements are proportionately shared by only the properties within Zone 2 of the District.

- **Zone 3:** Streetscape (parkway) landscaping on both sides of Zinfandel Drive between International Drive and Data Drive. The costs and special benefits of these improvements are proportionately shared by only the properties within Zone 3 of the District.
- **Zones 2, 3, 4 and 4A:** All median landscape improvements within the District located on International Drive from approximately 570 feet westerly of Data Drive to Kilgore Road and on Zinfandel Drive from Data Drive to International Drive. The costs and special benefits of these improvements are proportionately shared by all the properties within Zone 2, 3, 4 and 4A of the District.

Specifically not included as District improvements are those improvements located on private property, improvements and facilities that may be provided or maintained by an agency other than the City; improvements and facilities that may be provided by another assessment or tax levied by the City or County and any improvement provided and maintained by a Homeowner's Association or similar entity.

Detailed descriptions of the location and extent of the specific improvements to be maintained by the District are on file with the City and by reference are made part of this Report. The net annual cost to provide and maintain the improvements determined to be of special benefit shall be allocated to each property in proportion to the special benefits received.

The landscape improvements for the District may include, but are not limited to turf, ground cover, shrubs and plants, trees, irrigation and drainage systems, ornamental lighting, masonry walls or other fencing, hardscape improvements, monuments, and associated appurtenant facilities located within the landscape easements or public right-of-ways. Specifically the landscape improvement areas for this District generally consist of the following:

- Approximately 9,600 square feet of streetscape (parkway) landscaping and 34 trees within the public right-of-ways located on the south side of Ellenwood Avenue.
- Approximately 11,000 square feet of turf, 28,455 square feet of streetscape (parkway) landscaping including 110 trees, located on the north side of Reserve Drive from Data Drive to International Drive; east side of Data Drive, from Reserve Drive north to end of California Jazz tract Unit No. 1; west side of Capital Center Drive, from International Drive north to the end of California Jazz Tract Unit No. 2; and north side of International Drive, from Reserve Drive to Capital Center Drive.

- Approximately 19,400 square feet of turf, 11,500 of streetscape (parkway) landscaping including 57 trees, located on the west side of Zinfandel Drive, south of International Drive.
- Approximately 152,340 square feet of turf, 55,600 square feet of streetscape and median landscaping including 392 trees along the medians and frontage corridors on Zinfandel Drive, from Data Drive to International Drive; and medians on International Drive, west of Data Drive to Kiloge Road.

Public Lighting Improvements

Lighting facilities that may be located within the landscaped areas including safety lights, security lights or ornamental lights installed as part of the landscape improvements are budgeted as part of the landscape maintenance costs.

The lighting improvements may include but shall not be limited to the cost of providing electrical energy and servicing of lighting fixtures, poles, meters, conduits, electrical cable and associated appurtenant facilities associated with the street lighting, safety lighting and/or traffic signals within the District including public lighting facilities on designated arterial and collector streets as well as lighting facilities within residential subdivisions or public areas such as parks. The cost of such improvements shall be allocated based on the proportional special benefits properties receive from these improvements.

Part II — METHOD OF APPORTIONMENT

A. General

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping and appurtenant facilities.

The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public

improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

The method of apportionment described in this Report for allocation of special benefit assessments utilizes commonly accepted engineering practices and have been established pursuant to the 1972 Act and the provisions of the California Constitution. The formulas used for calculating assessments reflects the composition of parcels within the District and the improvements and services provided, to fairly apportion the costs based on the special benefits to each parcel.

B. Benefit Analysis

Each of the proposed improvements, the associated costs and assessments have been carefully reviewed, identified, and allocated based on special benefit pursuant to the provisions of the California Constitution and 1972 Act.

The improvements provided by the District and for which properties will be assessed have been identified as necessary, required and/or desired for the development of properties within the District and as such, the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of the parcels within the District. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are a distinct and special benefit to the properties within the District. Any improvement or portion thereof that is considered to be of general benefit shall be funded by other revenue sources and not included as part of the special benefit assessments allocated to properties within the District.

Special Benefit

The method of apportionment (method of assessment) established herein is based on the premise that each assessed parcel within the District receives special benefits from specific improvements and the desirability and security of those properties is enhanced by the presence of well-maintained improvements in close proximity to those properties.

The special benefits associated with landscape improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.

- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life through well-maintained green space and landscaped areas.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

The special benefits of street lighting and other public lighting facilities are the convenience, safety, and security of property, improvements, and goods. Specifically:

- Enhanced deterrence of crime and the aid to police protection.
- Increased nighttime safety on roads, streets and public areas.
- Improved ability of pedestrians and motorists to see.
- Improved ingress and egress to property.
- Reduced vandalism and other criminal act and damage to improvements or property.
- Improved traffic circulation and reduced nighttime accidents and personal property loss.

All of the preceding factors contribute to a specific enhancement and desirability of each of the assessed parcels within the District and thereby provide special benefits to the properties. Furthermore, it has been determined that the lack of funding to properly service and maintain the District improvements could have a negative impact on the properties within the District.

General Benefit

In reviewing each of the District improvements, the proximity of those improvements to both properties within the District and those outside the District as well as the reasons for installing and constructing such improvements, it is evident that the improvements are solely for the benefit of properties within the District and the ongoing maintenance and

operation of the improvements will directly affect the properties within the District. Although the improvements include public areas, easements, right-of-ways and other amenities available or visible to the public at large, the construction and installation of these improvements were only in direct benefit to the properties within the District and were not required nor necessarily desired by any properties or developments outside the District boundary and any public access or use of the improvements by others is incidental. Therefore, it has been determined that the improvements and the ongoing maintenance, servicing and operation of those improvements provide no measurable general benefit to properties outside the District or to the public at large, but clearly provide distinct and special benefits to properties within the District.

C. Assessment Methodology

The method of apportionment for the District calculates the receipt of special benefit from the respective improvements based on the actual or proposed land use of the parcels within the District. The special benefit received by each lot or parcel is equated to the overall land use of parcels within the District based on the parcel's actual land use or proposed development.

All costs associated with the improvements shall be fairly distributed among the parcels based upon the special benefit received by each parcel. Additionally, in compliance with the California Constitution, each parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred to that parcel. The benefit formula used to determine the assessment obligation is therefore based upon both the improvements that benefit the parcels within the District as well as the proposed land use of each property as compared to other parcels that benefit from those specific improvements.

At the time that the District was being formed and to identify and determine the special benefit to be received by each parcel and their proportionate share of the improvement costs, it was necessary to consider the entire scope of improvements to be maintained by the District, as well as individual property development within the District. Upon review of the improvements to be maintained, it was determined that four (4) distinct areas benefit differently from the improvements within the District and therefore the landscape maintenance and assessments were established as four (4) benefit zones for the allocation of the assessments and proportional special benefit, as described below. Although a portion of Zone 4 was designated as Zone 4A in fiscal year 2007/08, as discussed below, Zones 4 and 4A remain as one benefit zone and are assessed at the same maximum rate.

Zones and Assessments:

Zone 1, upon formation of the District, was comprised of one hundred five (105) parcels that were previously part of the SLMD Zone 4. At that time, ninety-seven (97) of these parcels were residential properties and were assessed on a per parcel basis at the pre-existing rate of \$42.50 per parcel. Ninety-seven (97) parcels are currently being assessed within Zone 1.

Zone 2, upon formation of the District, was comprised of one hundred fifty-nine (159) parcels that were previously part of SLMD Zone 5 and are part of the residential developments known as California Jazz Unit No.1 and Unit No. 2. At that time, one hundred fifty four (154) of these parcels were assessed as residential properties on an acreage basis at the pre-existing rate of \$30.48 per acre for the median landscape improvements and parkway landscape improvements associated with these parcels. One hundred fifty four (154) parcels are currently being assessed within Zone 2.

Zone 3, upon formation of the District, was comprised of eight (8) parcels, all of which were assessable, that were previously part of SLMD Zone 5. These parcels were assessed on an acreage basis at the pre-existing rate of \$30.48 per acre for the median landscaping and \$1,382.76 per acre for the landscaping along the parkways of Zinfandel Drive, totaling \$1,413.24 per acre. Eighteen (18) parcels are currently being assessed within Zone 3.

Zone 4, upon formation of the District, was comprised of seventy (70) parcels that were previously part of the SLMD Zone 5 that were not included as part of this District's Zone 2 or 3. At that time, sixty three (63) of these parcels were non-exempt and were assessed on an acreage basis at the pre-existing rate of \$30.48 per acre for the median landscape improvements within the District. Fifty-two (52) parcels are currently being assessed within Zone 4.

Zone 4A, a portion of Zone 4 was redesignated as Zone 4A commencing with the fiscal year 2007/08 levy to account for the Zone 4A parcels lying within with a portion of CFD 2005-2; the Zone 4 parcels are outside of the CFD 2005-2 boundaries. At that time, Zone 4A consisted of five hundred seven (507) parcels, four hundred sixty two (462) of which were assessable. Since the CFD 2005-2 Zone 1, special taxes are to be levied upon Zone 4A parcels, these special taxes are contributed in part to the District for the benefit of Zone 4A. Zone 1 of the CFD provides funding for landscape improvements within and adjacent to the development, including the median landscaping identified herein. Although the CFD may fund median landscaping, the special taxes levied within Capital Village may not provide sufficient funds to maintain both the landscape improvements within the Capital Village development and the median

landscape improvements within the District that specially benefit the parcels within Zone 4A. Therefore, the six hundred sixty four (664) non-exempt parcels currently within Zone 4A will continue to be assessed up to \$30.48 per gross acre until such time that the CFD generates sufficient revenue to fund the median landscape improvements. Any funds generated by the CFD that will be used to finance the median landscape improvements that benefit Zone 4A shall be transferred by the CFD to the District as a contribution to Zone 4A.

Exempt Parcels — Properties within the District that are not assessed for special benefit include but is not limited to:

- Lots or parcels identified as public streets and other roadways (typically not assigned an APN by the County);
- Dedicated public easements including open space areas, utility rights-of-way, greenbelts, parkways, parks or other publicly owned properties that are part of the District improvements or may provide other benefits to private properties within the District;
- Private properties that cannot be developed independently from an adjacent property, such as common areas, sliver parcels or bifurcated lots or properties with very restrictive development use;

These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment, but shall be reviewed annually by the assessment engineer to confirm the parcels current development status. Government owned properties or public properties are not necessarily exempt properties and shall be subject to special benefit assessment unless it qualifies for an exempt status.

Special Cases — In many districts where multiple land uses and zones exist, the typical property classification and assessment methodology does not accurately identify the special benefits received from the improvements for each and every parcel. For example, in some cases, only a small percentage of the parcel's total acreage can actually be developed. In this case, an appropriate calculation would be based on the net acreage that can be utilized rather than the gross acreage of the parcel. These special circumstances will be reviewed annually by the assessment engineer.

Part III — DISTRICT BUDGET

A. Budget

The Maximum Assessment per Parcel or Acre shown herein is based on the cost of providing for the District improvements and does not include any other assessments or charges imposed on the properties. The budget within this report identifies the cost to maintain the improvements within each specified Zone of the District.

Each zone within the District maintains two separate reserves, one is utilized for Working Capital purposes (the "Operating Reserve") and the other for longer-term projects (the "Special Projects Reserve"). The Operating Reserve provides cash for the ongoing operations and maintenance of the District, as well as providing funding for unanticipated expenditures. The size of the Operating Reserve for each zone is limited by Streets and Highways Code 22569, which states that an Operating Reserve shall not exceed the estimated costs of maintenance and services from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County. The City has determined that all budgeted costs as presented in this Report shall be considered as costs to maintain and service the District, or incidental expenses thereof, as to the application of the of Streets and Highways Code 22569.

The Special Projects Reserve can be used to finance the Central Irrigation System (CIS) project and re-vegetation projects, as well as other rehabilitation projects, repairs or replacements of District improvements. The District also holds an undesignated reserve, which represents the balance of the funds transferred from Sacramento County to the City when the authority for the District passed from County control to that of the City. At that time, the City deemed that these transferred funds are to be used exclusively by the District and shall be considered as undesignated reserves within the Zones of the District. Accordingly, funds from the Undesignated Reserve shall be transferred to fund the costs of any Zone, to the extent that the Zone is unable to fund such costs through the annual assessments and available reserves of the Zone.

B. Description of Budget Items

Description of the terms used in the preceding Budget, Assessment Rates and Reserve Balance tables are listed below:

MAINTENANCE AND OPERATION (DIRECT COSTS)

Contract Maintenance - Landscaping – Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements, irrigation and related drainage systems, as well as maintenance of appurtenant facilities (the “improvements”).

Utilities (Water/Electricity) – Landscaping - The furnishing of water and electricity required for the operation and maintenance of the landscaping related improvements.

Utilities (Electricity) – Lighting - The furnishing electricity required for the operation of the lighting improvements.

Periodic Repair/Rehabilitation – Landscaping – Expected costs for repair, replacement, installation or planned upgrades of District landscaping improvements.

Periodic Repair/Rehabilitation – Lighting – Expected costs for repair, replacement, installation or planned upgrades of District lighting improvements. If zero, this line item may not be shown in the budget.

Special Project Expenditures – Expected costs for installation, replacement or planned upgrades of District landscaping or lighting improvements for the current year that were previously funded or accumulated in the Special Projects Reserve. The Special Projects Reserve is used to accumulate funds for costs associated with the future rehabilitation, repair or replacement of these District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

District Administration – Estimated costs incurred by the City in preparation of the annual budget and the preparation, review, posting and / or publishing of documents and notices required for City Council action to approve the annual assessments. These costs also include contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's Report.

Contract Administration – Estimated costs to coordinate and oversee the maintenance contracts and overall repair, maintenance and replacements of the District Improvements.

County Collection Fees – The fee charged to the District by the County for placing assessments on property tax bills.

Other Administration Expenses – Administration expenses not included above, including the cost to publish public notices required for City Council action relating to the District. If zero, this line item may not be shown in the budget.

TOTAL COSTS – The total expected costs of the District.

ADJUSTMENTS AFFECTING LEVY AMOUNT

Replenishment/(Use) of Operating Reserve – A “Replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “Use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided in the following pages of this Section.

Contribution to/(Use of) Special Projects Reserve — A “Contribution” increases the levy in order to generate funding for the Special Projects Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Special Projects Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Special Projects Reserve. In the event that the expenditure of a current year special project is funded entirely by a collection from the current fiscal year levy and / or a transfer from

the Undesignated Reserve, this line item may show as zero, which is the net of the two amounts. If zero, this line item may not be shown in the budget. Further information regarding the function of the Special Projects Reserve is provided in the following pages of this Section.

Undesignated Reserve Fund Transfer - A transfer of undesignated reserve funds provides current year funding for one or more Zones that are unable to be adequately funded by a Zone's annual assessments. Further information regarding the undesignated reserve can be found in the first page of the Budget Section.

Revenues from Other Sources – These amounts represent contributions from CFD No. 2005-2; only affects Zone 4A. This relationship is more fully described in the previous sections of this report.

Rounding Adjustment – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

BALANCE TO LEVY - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

DISTRICT STATISTICS & ASSESSMENT RATES

Number of Assessable Parcels - The total number of parcels within each Zone that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public right-of-ways or easements, common areas, and/or parcels within the boundaries of the District that currently do not benefit from the improvements, due possibly to development restrictions.

Assessable Acreage - The total assessable acreage within each Zones at are expected to be assessed on an acreage basis for the current fiscal year.

Applied Rate per Parcel - The assessment rates to be applied each non-exempt parcel within the Zone for the current fiscal year.

Applied Rate per Acre - The assessment rate per acre to be applied

each non-exempt parcel within the respective Zone for the current fiscal year.

Maximum Rate per Parcel - The maximum assessment rate that can be assessed to each non-exempt parcel within the respective Zone for the current fiscal year.

Maximum Rate per Acre - The maximum assessment rate per acre that can be assessed to each non-exempt parcel within the respective Zone for the current fiscal year.

Potential Maximum Assessment – The total amount that can be assessed to all parcels within each Zone for the current fiscal year based upon the expected number of assessable units and acres using the maximum assessment rates.

UNDESIGNATED RESERVE FUND BALANCE

Beginning Undesignated Reserve Balance 7-1-2016 (est.) - The anticipated beginning balance of cash and receivables, net of any unpaid prior year obligations, of the Undesignated Reserve. This reserve is undesignated; therefore, funds from the Undesignated Reserve may be used to fund costs of any Zone, to the extent that the Zone is unable to fund such costs through the annual assessments and available reserves of the Zone. Further information regarding the Undesignated Reserve can be found in the first page of the Budget Section.

Funding of Expenses in Excess of Assessments (est.) – The amounts expected to be transferred from the Undesignated Reserve to fund FY 2016/17 expenses. Funds from the Undesignated Reserve may be transferred to fund the costs of any Zone, to the extent that the Zone is unable to fund such costs through the annual assessments and available reserves of the Zone.

Ending Undesignated Reserve Balance 6-30-2017 (est.) - The anticipated ending balance of cash and receivables, net of any unpaid prior year obligations, of the Undesignated Reserve.

OPERATING RESERVE BALANCES

Beginning Reserve Balance 7-1-2016 (est.) - The anticipated beginning balance of cash and receivables, net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2016 to December 31, 2016, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. The Special Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Add: Collect from FY 16/17 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2016 (the beginning of the Fiscal Year) through December 31, 2016. If zero, this line item may not be shown in the budget.

Less: Use for FY 16/17 Expenses – The amount of the Operating Reserve to be used to fund FY 16/17 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2016 (the beginning of the Fiscal Year) through December 31, 2016. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Special Projects Reserve — The amount of Operating Reserve monies to be transferred to or from the Special Projects Reserve. Periodically, funds held in a Special Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Special Projects Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2017 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2017. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance and service from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from

the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Special Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

SPECIAL PROJECTS RESERVE BALANCES

Beginning Reserve Balance 7-1-2016 (est.) — The projected balance of funds in the Special Projects Reserve as of July 1, 2016. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Add: Collect from FY 16/17 Levy — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, repairs, restorations or upgrades of District improvements. This line may show a portion of funds transferred from the Undesignated Reserve to fund a current year special project. If zero, this line item may not be shown in the budget.

Less: Use for FY 16/17 Special Projects – The amount of Special Projects Reserve monies expected to be expended for Special Projects to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Special Projects Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Special Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Special Projects Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2017 (est.) - The projected balance of funds in the Special Projects Reserve as of June 30, 2017. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Special Projects Reserve or related activity, the Special Projects Reserve information may not be presented in the Report.

C. Special Projects Reserve – Capital Improvement Plan

Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. Therefore, a five year Capital Improvement Plan is shown below for the rehabilitation, restoration, repair and/or replacement of District improvements and other allowable costs for each Zone projecting an ending Special Projects Reserve balance:

Zone 3:

- Upgrades to irrigation system; replacement and/or enhancement of landscape improvements: \$30,000 in each of FYs 2017/18, 2018/19, 2019/20, and 2020/2021.
- Upgrades related to drought resistant landscaping: \$25,000 in FY 2016/17 and \$15,500 in each of FYs 2017/18, 2018/19, 2019/20 and 2020/21.
- Projected costs to reorganize district, including costs of re-engineering and balloting: \$25,330 in each of FYs 2018/19 and 2019/20 for Zone 3's share of costs.

Periodically, funds held in a Special Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Special Projects Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements.

Part IV — DISTRICT DIAGRAM

The parcels to be assessed consist of all lots, parcels and subdivisions of land located within the boundaries of the map designated as "Boundary Map of Landscaping and Lighting District No. 2005-1."

The following Boundary Map displays the exterior boundaries of the District, as well as the zones of benefit within the District, which was based upon both the County Assessor's Maps and County Assessor's information and identifies all the parcels of land as the same existed at the time that the District was formed. The combination of these diagrams and the Assessment Roll contained in this Report constitute the Assessment Diagram for this District.

Part V — ASSESSMENT ROLL

Parcel identification for each lot or parcel within the District is based on the Assessment Diagrams presented herein and is based on available parcel maps and property data from the County Assessor's Office at the time the Engineer's Report was prepared. A listing of the proposed lots and parcels to be assessed within this District along with the assessment amounts is provided herein.

Non-assessable lots or parcels may include, but are not limited to public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas, right-of-ways, common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed or has little or no value. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate described in this Report as approved by the City Council. Therefore, if a single parcel is subdivided to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

The following is a list of the parcels and proposed assessment amounts for each of the parcels within the District as determined by the assessment rates and method of apportionment described herein:

MEMORANDUM

DATE: June 6, 2016

TO: Honorable Mayor and Council Members

FROM: Elizabeth Sparkman, Engineering Manager

SUBJECT: **RESOLUTIONS INITIATING PROCEEDINGS FOR THE ANNUAL LEVY AND COLLECTION OF ASSESSMENTS FOR THE RANCHO CORDOVA LIGHTING DISTRICT NO. 2012-1 FOR FISCAL YEAR 2016-2017**

RECOMMENDATION

That City Council adopts:

- a) Resolution No. 58-2016 Initiating Proceedings for the Annual Levy and Collection of Assessments for the Rancho Cordova Lighting District No. 2012-1 for Fiscal Year 2016-2017; and
- b) Resolution No. 59-2016 Preliminarily Approving the Engineer's Annual Levy Report and Declaring its Intention to Levy and Collect Annual Assessments for the Rancho Cordova Lighting District No. 2012-1 for Fiscal Year 2016-2017.

RESULT OF RECOMMENDED ACTION

The recommended actions are required as part of the process to continue the annual levy and collection of assessments for the Rancho Cordova Lighting District No. 2012-1 (the "District"). The assessments fund street lights and safety lights in the District. There are no new impacts to existing or new residents. No assessment rates shall increase as a result of this action.

BACKGROUND

State law requires the City Council direct an Engineer's Report to be prepared each year and to hold a public hearing on the Report and the levy of the annual assessment. **Resolution No. 58-2016, Attachment 1**, directs Willdan Financial Services to prepare and file the Engineer's Report.

In anticipation of this resolution, the Engineer's Report has been prepared and is on file with the City Clerk. The **Engineer's Report, Exhibit A to Resolution 59-2016, Attachment 2**, includes a diagram of the assessment area, a description of the improvements and the operation and maintenance to be provided, a description of the property to be benefited, and the amount of the assessment to each individual property. The services performed within and funded by RCLD 2012-1 include ongoing maintenance, operation and servicing of street lights and safety lights within the right-of-ways and other public areas within the District as described in the Engineer's Report.

The proposed Fiscal Year 2016-2017 assessment rates are equal to the rates previously levied by the City in Fiscal Year 2015-2016.

The Fiscal Year 2016-2017 total assessment is estimated at \$359,282. The District has established an Operating Reserve which provides funding for the operations and maintenance of the District Improvements, as well as providing financing for emergency expenditures. A Capital Projects Reserve has been established to fund replacements and upgrades of the District Improvements.

In September 2014, the City of Rancho Cordova completed the retrofit of all existing street lights located within the Rancho Cordova Lighting District (RCLD) with new LED street lights. The project was funded from a 1% interest loan from the California Energy Commission (CEC). This project has significantly reduced electricity and maintenance costs. The electrical and maintenance savings will be used to pay back the loan from the energy commission. Once the CEC loan is paid off in Fiscal Year 2028, the District is projected to generate sufficient revenues to build a reserve to cover the costs of the replacement of the LED street light heads when they need to be replaced in 20 years.

In order to proceed with the levy of assessments after consideration and approval of the Engineer's Report, it is appropriate for the Council to adopt **Resolution No. 59-2016, Attachment 2**, which declares the Council's intention to levy assessments for Fiscal Year 2016-2017. It also sets Tuesday, July 5, 2016 at 5:30 p.m., or as soon thereafter as possible, as the date and time for a public hearing on the issue of the levy of Fiscal Year 2016-2017 assessments. Notice of the public hearing will be given by publication.

INTRODUCTION

Pursuant to the provisions of the Landscape and Lighting Act of 1972, being Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500 (hereafter referred to as the "1972 Act"), the City Council of the City of Rancho Cordova, County of Sacramento, State of California (hereafter referred to as "City"), has by resolution initiated proceedings in connection with the ongoing maintenance and operation of a special benefit assessment district designated as:

Rancho Cordova Lighting District No. 2012-1

(hereafter referred to as "District"), for the purpose of continuing and providing for the ongoing maintenance, servicing and operation of public lighting improvements (safety lights and street lights) within the City that had been administered by the County of Sacramento as Zone 2 of County Service Area 1 (CSA 1) until the FY 2012/2013 levy.

Prior to the formation of the District, the detachment of those portions of CSA 1 lying within the City limits was approved, resulting in the transfer of the responsibility of the servicing of CSA 1 improvements and related administration to the City. Commencing with the FY 2012/2013 levy, the City Council formed the District in order to provide ongoing funding for the costs and expenses required to service and maintain the safety light and street light improvements for the benefiting lots and parcels of land within the boundaries of the District.

County Service Area 1 was created in 1986 by the Sacramento County Board of Supervisors by reorganizing five existing street light maintenance districts. CSA 1 was established to provide street light services to those unincorporated portions of Sacramento County. Since the establishment of CSA 1, the cities of Citrus Heights, Elk Grove and Rancho Cordova have been incorporated and in July 2005, the Board of Supervisors approved the creation of zones within CSA 1. The creation of these zones allowed the incorporated cities and the County to supplement CSA 1 revenues specific to those areas. This action also facilitated the eventual Local Agency Formation Commission (LAFCO) approved detachment of Elk Grove (August 2005) and Citrus Heights (June 2006) from CSA 1 and Rancho Cordova (June 2012).

This Engineer's Report (hereafter referred to as "Report") has been prepared in connection with the levy and collection of annual assessments related thereto for FY 2016/17, as required pursuant to Chapter 1, Article 4 of the 1972 Act. This Report describes the District, the improvements, and the assessments to be levied on properties within the District in connection with the special benefits the properties receive from the maintenance and servicing of the District improvements. The formation of this District and the annual assessments will provide a continued funding source for the City to fund, in part, the ongoing maintenance, servicing and operation, of the safety lights and street lights that provide special benefits to the properties within the District.

The improvements and assessments described in the FY 2012/2013 Engineer's Report (hereafter referred to as the "Formation Report") were based on the improvements and assessments previously established by the County of Sacramento for CSA 1 Zone 2 and the assessment revenues will be used to fund, in part, the annual direct expenditures and incidental expenses associated with the maintenance and servicing of the District's improvements. The formation of the District, the structure of the District (organization), the improvements, the method of apportionment, and assessments described in the Formation Report have been established to continue the maintenance of the existing improvements and assessments

previously established by the County of Sacramento for CSA 1 and as such are not considered to be new or increased assessments under the provisions of the California Constitution Article XIIID.

As part of the District formation to continue the assessments previously levied by the County of Sacramento as part of CSA 1, in addition to the proceedings conducted the Local Agency Formation Commission (LAFCO) for the detachment of the City of Rancho Cordova from CSA 1, the Rancho Cordova City Council conducted a noticed public hearing pursuant to the provisions of the 1972 Act to consider public testimonies, comments and written protests regarding the formation of the District and levy of assessments.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number (APN) by the Sacramento County Assessor's Office. The Sacramento County Auditor/Controller uses Assessor's Parcel Numbers and specific Fund Numbers to identify properties to be assessed on the tax roll for special benefit assessments.

Each subsequent fiscal year, an Engineer's Report shall be prepared and presented to the City Council describing the District, any changes to the District or improvements, and the proposed budget and assessments for that fiscal year, and the City Council shall hold a noticed public hearing regarding these matters prior to approving and ordering the proposed levy of assessments for that fiscal year. If in any year, the proposed annual assessments for the District exceed the assessments described herein, such an assessment would be considered a new or increased assessment and must be confirmed through property owner protest ballot proceeding before that new or increased assessment may be imposed. It should be noted that an increased assessment to an individual property resulting from changes in development or land use does not constitute an increased assessment.

This Report consists of five (5) parts:

Part I

Plans and Specifications: A description of the District boundaries and the proposed improvements associated with the District. The District has two (2) designated benefit zones that collectively encompass all lots and parcels of land within the boundaries of the District. The two benefit zones are designated as "Safety Light Only" Zone, which includes those lots and parcels of land within the District that are associated and benefit from only safety light improvements; and "Safety Light and Street Light" Zone, which includes those lots and parcels of land within the District that are associated and benefit from both safety light improvements and local street light improvements.

Part II

Method of Apportionment: A discussion of benefits the improvements and services provide to properties within the District and the method of calculating each property's proportional special benefit and annual assessment.

Part III

District Budget: An estimate of the annual costs to service, maintain and operate the safety light and street light improvements and appurtenant facilities within the District. This budget includes an estimate of direct operational costs (energy and maintenance costs), anticipated repair and replacement of the existing facilities and incidental expenses authorized by the 1972 Act such as administration expenses and collection of appropriate fund balances.

Part IV

District Diagram: A diagram showing the exterior boundaries of the District, and the Zones therein at the time of the formation of the District, is provided herein and includes all parcels that receive special benefits from the improvements. Parcel identification, the lines and dimensions of each lot, parcel and subdivision of land within the District, are inclusive of all parcels as shown on the Sacramento County Assessor's Parcel Maps, as they existed at the time this Report was prepared and shall include all subsequent subdivisions, lot-line adjustments or parcel changes therein. Reference is hereby made to the Sacramento County Assessor's maps for a detailed description of the lines and dimensions of each lot and parcel of land within the District.

Part V

Assessment Roll: A listing of the proposed assessment amount for each parcel based on the parcel's proportional special benefit as outlined in the method of apportionment. These assessment amounts represent the assessments proposed to be levied and collected on the County Tax Rolls for fiscal year 2016/17.

PART I — PLANS AND SPECIFICATIONS

Description of the District

The territory within the District consists of all lots and parcels of land within the boundaries of the City of Rancho Cordova that in fiscal year 2011/2012, were considered to lie within CSA 1 Zone 2. Within these boundaries, parcels are identified and grouped into one of two designated benefit zones based on the special benefits properties receive from the District improvements, namely Safety Lights Only or Safety Lights and Street Lights. The two Zones within the District and the benefits associated with the properties therein are described in more detail in Part II (Method of Apportionment) of this Report. In addition, the District Diagram in Section IV of the Report provides a visual representation of the District showing the exterior boundaries of the District.

These services and activities more specifically may include, but are not limited to:

- Payment of the electrical bill for the safety lights and street lights.
- Maintenance, repair and replacement of light poles and fixtures, including changing light bulbs, painting, photoelectric cell repair or replacement, and repairing damage cause by automobile accidents, vandalism, time, and weather, including principal and interest related to funding of the replacement of the improvements.
- Electrical conduit and pullbox repair and replacement due to damage by construction and weather.
- Monitoring of the Underground Service Alert (USA) network, identification of proposed excavation in the vicinity of lighting electrical conduits, and marking the location of those underground conduits in the field to prevent damage by excavation.
- Service-can maintenance, repair and replacement including painting, replacing worn out electrical components and repairing damage due to accidents, vandalism, and weather.
- Remedial projects for major repairs or upgrading of facilities. Construction for such projects are usually performed by contract, however City maintenance workers may execute small projects.
- Street light inventory database, pole numbering and mapping to establish the number of streetlights that must be maintained, as well as the condition and location of these street lights as part of an effective maintenance program.
- Acquisition of land, easements and right-of-ways necessary to maintain the street and safety lighting system.
- Responding to citizens and Council member inquiries and complaints regarding street lighting. Resolving complaints may require an engineering study and possible project.

For the purpose of determining benefit and the proportional assessment of special benefit, the light fixtures to be maintained by the District are defined as either "Street Lights" or "Safety Lights". Safety Lights are lights located at intersections on major streets and along the rear of properties that abut major streets. All other lights are designated as Street Lights. The following table provides a summary of the safety light and street light inventory within the City upon formation of the District. Detailed maps identifying the location and extent of the District's Safety Lights and Street Lights at that time are on file in the Public Works Department.

Type of Light	Number of Lights
Safety Light	428
Street Light	4,240
Total District Lights	4,668
Decorative Light ⁽¹⁾	92
Total City Lights	4,760

- ⁽¹⁾ The 92 decorative lights shown above were contained within a single residential development and these lights are funded by a separate revenue source levied on those parcels. Therefore these lights are not included as part of the District's improvements, budget or assessments. Parcels within this residential development are included in the "Safety Light Only" zone

PART II — METHOD OF APPORTIONMENT

Based on the provisions of the 1972 Act and the California Constitution, this section of the Report summarizes the benefits associated with the District's safety and street light improvements and services to be provided by the District; the resulting District structure (zones of benefit); and the formulas used to calculate each parcel's proportional special benefit assessment obligation based on the entirety of the cost of providing the various improvements (method of assessment).

Benefit Analysis

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include but are not limited to the construction, maintenance, operation, and servicing of public street lighting improvements and appurtenant facilities.

The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service";

Article XIID Section 2i defines Special Benefit as:

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Article XIID Section 4a defines proportional special benefit assessments as:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

The method of apportionment (method of assessment) established herein is based on the premise that each assessed property receives special benefits from the maintenance, serving and operation of either safety lights located throughout the District or both safety lights and local street lights and these improvements will be funded in part by such assessments, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as

compared to other properties that receive such special benefits as outlined in the preceding definitions established in the 1972 Act and the California Constitution.

To identify and determine the proportional special benefit to each parcel within the District, as well as any general benefit associated with the improvements, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The District's improvements and the associated costs described in this Report, have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District and is consistent with the method of apportion previously established for the assessments as part of CSA 1.

While the California Constitution requires that *"The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement..."*; it is reasonable to conclude that the reasons for installing local street lights are often similar, but somewhat different than the reasons for installing safety lights. Therefore, the overall benefits associated with street lights and safety lights are different which also suggests that the apportionment of the cost to provide those improvements would be different.

In reviewing the location and extent of the City's Street Light improvements to be funded by District assessments and the relationship these improvements have to properties within the District, it was determined that these lights are entirely local lighting improvements that were installed specifically in connection with the development of nearby properties or were necessary as a precursor to property development and would otherwise not have been necessary or required without the development of the properties near those improvements. As such, these Street Light improvements have a direct and particular relationship to, and provide special benefit to, the properties located in close proximity to those lighting improvements and serve as extension of those properties and developments into the public areas (streets) that serve those properties. These lights clearly provide special benefits that affect these properties in a way that is particular and distinct from its effect on other parcels, and that of real property in general and the public at large do not share. This is most evident in the fact that the District's Street Light improvements are concentrated within the City's various residential developments and developed non-residential areas and the absence of such lights within many portions of the undeveloped areas of the District. The fact that these lights are a direct result of property development and many areas of the City forgo the need of local street lighting, the maintenance and operation costs associated with the Street Light improvements are considered to be solely a special benefit to those properties and developments in close proximity to those lights and have no measurable general benefit to the public at large or to the District as a whole. However, it is also recognized that these lights are not exclusive or typically isolated to a particular parcel, but are rather shared and directly affect entire neighborhoods or groups of parcels. In this District, it has been determined that each parcel that is assessed for Street Lights is at least within two-hundred feet (200 feet) of a street light although that light may be located across the street from the parcel.

As previously noted, Safety Lights are lights located at intersections on major streets and along the rear of properties that abut major streets. Although the location and extent of these lights are most certainly driven by development of properties in the area (concentrated largely in developed areas of the City), unlike the Street Light improvements which are directly correlated to specific developments and parcels, the District's Safety Lights are not entirely the result of specific property development, but more the result of overall development throughout the City and in addition to directly benefiting the properties in the District, these Safety Lights provide nighttime traffic illumination to enhance traffic circulation and safety.

Therefore, while the need for such lights is most often facilitated by development in the area and certainly a special benefit to properties within the District, because safety lights promote nighttime traffic illumination and circulation for the general public as well as for properties in the District, these lights obviously provide some measure of benefit to the community as a whole and to the public at large (general benefit). In order to separate general benefits from special benefits, an evaluation of the overall extent and location of the Safety Lights in the City, revealed that less than half (approximately 47%) of the Safety Lights within the District are located on major streets that are considered through-traffic corridors, namely Bradshaw Road, Folsom Boulevard and Sunrise Boulevard. The remaining Safety Lights within the City were located on streets and intersections considered internal City traffic routes that provide direct access to the parcels in the District. Therefore it would be reasonable to conclude that like the local Street Light improvements, the Safety Light improvements located on these internal City traffic routes (approximately 53% of the Safety Lights at the time of formation of the District) are entirely for the special benefit of the properties they serve, while the Safety Lights on the through-traffic corridors provide comparable (proportionately equal) special benefit to properties in the District and general benefit to real property in general and the public at large. Therefore, collectively, it has been determined that no more than 25% of the total maintenance and operation (O&M) costs of providing Safety Lights would be considered general benefit.

Zones of Benefit

In order to calculate and identify the proportional special benefit received by each parcel and their proportionate share of the improvement costs it is necessary to consider not only the improvements and services to be provided, but the relationship each parcel has to those improvements as compared to other parcels in the District

Article XIID Section 4a reads in part:

"...The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement or for the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

In an effort to ensure an appropriate allocation of the estimated annual cost to provide the District improvements based on proportional special benefits, this District has established benefit zones ("Zones") as authorized pursuant to Chapter 1 Article 4, Section 22574 of the 1972 Act:

"The diagram and assessment may classify various areas within an assessment district into different zones where, by reason of variations in the nature, location, and extent of the improvements, the various areas will receive differing degrees of benefit from the improvements. A zone shall consist of all territory which will receive substantially the same degree of benefit from the improvements."

Therefore, in order to separate general benefits from special benefits and to ensure each parcel is assessed for only the special benefits received from the improvements two benefit zones have been established and every parcel in the City is grouped into one of these two Zones:

- Safety Lights Only: Includes all parcels that receive special benefits from the maintenance of Safety Lights only which includes lights located at intersections on major streets and along the rear of properties that abut major streets.

- **Street Lights and Safety Lights:** Includes all remaining parcels within the City that specially benefit from maintenance of Street Lighting (local lights) as well as Safety Lights.

The District Budget, incorporated herein under Part III of this Report, provides a summary of the total estimated cost of providing the street light improvements and the allocation of those costs that are considered general benefit. Details regarding the location and extent of the street lighting improvements within the District and the Zones therein upon formation of the District are on file in the Public Works Department. A diagram showing the exterior boundaries of the District and the location of the two Zones therein at the time of formation is attached and incorporated herein under Part IV (District Diagram) of this Report.

Assessment Methodology

In order to calculate and identify the proportional special benefit received by each parcel and their proportionate share of the improvement costs it is necessary to consider not only the improvements and services to be provided, but the relationship each parcel has to those improvements as compared to other parcels in the District.

Article XIID Section 4a reads in part:

"...The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement or for the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

Safety Lights and Street Lights, like most public improvements, provides varying degrees of benefit (whether they be general or special) based largely on the extent of such improvements, the location of the improvements in relationship to the properties, the specific use of each property, and the reason or need for such improvements as it relates to individual properties. In this District, these issues are each considered in determining the proportional special benefit to each parcel by the use of benefit zones, the separation of general benefit and special benefit, and County land use designations.

Safety Lights

Safety Lights are located throughout the District and properties throughout the City are considered to benefit proportionally from Safety Lights and are therefore levied a flat rate calculated by the following formula.

$$\text{Net Safety Light Cost} / \text{Total Assessable Parcels} = \text{Levy per Parcel}$$

Street Lights

Only properties that benefit from Street Lights are charged for Street Lights. Parcels are classified based on land use into two categories: Residential and Non-Residential. Residential parcels that have street lights are levied equally. Non-Residential are levied on a front footage basis. Formulas for both Non-Residential and Residential parcels are illustrated below.

Residential Parcels

$$\text{Net Residential Street Light Cost} / \text{Residential Parcels} = \text{Levy per Residential Unit}$$

Non-Residential Parcels

Net Non-Residential Street Light Cost / Non-Residential Front Footage=
 Levy per Non-Residential Front Foot

Levy per Non-Residential Front Foot x Non-Residential Parcel Front Footage=
 Levy per Parcel

Exempt

Excepted from the assessment would be the areas of public streets and other roadways (typically not assigned an APN by the County), dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways. Also excepted from assessment would be utility rights-of-ways, common areas (such as in condominium complexes), landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels do not benefit from the improvements.

The land use classification for each parcel has been based on the Sacramento County Assessor's Roll.

Rates

The following Table shows the assessment rates proposed to be levied in Fiscal Year 2016/17. It is important to note that these rates are the same rates applied to the District parcels under CSA 1 and that these rates have not increased since the passage of Proposition 218 in 1996.

This may include, but is not limited to, the costs for labor, utilities, equipment and supplies that are required to properly maintain the items that provide a direct benefit to the District.

- **Electrical Costs** — Includes the cost of providing electricity to the lights. Additionally, some lights may be maintained by the Sacramento Municipal Utility District ("SMUD") and the cost for maintenance of these lights is included as part of the utility bill for those lights.
- **Maintenance Costs** — Includes the contract labor associated with the maintenance of the lights and the cost of the preparing and maintaining the light inventory.
- **Special Project** - Includes costs for minor special project(s) related to annual maintenance and / or operation of the improvements not described in the above categories.

Capital Expenditures & Other Costs — Includes funding needs to support the improvements that are not included or considered to be costs associated with the regular annual maintenance, servicing and operation of the District improvements.

- **Repairs/Replacements & Capital Expenditures** — Includes, but is not limited to repairs that are only required periodically, repairs and replacements resulting from damage or vandalism, capital improvement expenditures to rehabilitate or upgrade the improvements, and collection of funding (installments) for future capital improvement projects. The amount collected each fiscal year is based on an estimate of current and future needs, but may be limited by available funding (assessment revenues and City contributions).
- **USA Markings** – includes costs associated with marking the location of underground utilities related to the above.
- **RCLD Loan Principal** --- Amounts of principal due to repay a low interest California Energy Commission (CEC) loan to fund the retrofitting of existing street lights located within the District with new LED street lights which will reduce energy costs.
- **RCLD Loan Interest** --- Amounts of interest due to repay a low interest California Energy Commission (CEC) loan to fund the retrofitting of existing street lights located within the District with new LED street lights which will reduce energy costs.
- **Special Capital Projects** - Includes costs expected to be incurred in FY 2016/17 for special capital projects shown in the District's Capital Improvement Plan. Costs in this category do not increase the annual levy as the Capital Improvement Reserve is used to fund these costs.

Annual Administrative Expenses — Incidental district costs not included above that are required on an annual basis.

- **District Administration** — Includes the estimated cost to coordinate District services including responding to property owner inquiries relating to the assessments and services and contracting with professionals to provide administration, legal, and engineering services to the District that are required on an annual basis. This also includes the costs for the City to account for the funds, the calculation of the assessments, preparation of the annual Report, and placing the assessment on the property tax bills.

- **Contract Administration** — Estimated costs to coordinate and oversee the applicable maintenance and operation contracts and overall repair, maintenance, operation and replacements of the District Improvements.
- **County Collection Fees** — Includes the cost that the County charges to place the assessments onto the Sacramento County Secured Tax Roll.
- **Miscellaneous Administration Expenses** — Includes other minor administrative costs such as telephone, copying, noticing, mailing, office supplies and fees related to District Administration.

Total District Expenses — This is the total of the Annual Maintenance & Operation (O&M), Capital Expenditures, Annual Administrative Expenses and other costs which are considered to be the direct and incidental costs for the regular annual maintenance, servicing and operation of the District improvements.

Contributions/Adjustments — Represents the expected funding from sources other than the current year assessments to support the annual costs budgeted for the maintenance, servicing and operation of the District improvements.

- **Replenishment/(Use) of Operating Reserve** — Funding transferred from or to the District's Operating Reserve to either offset a portion of the Total Expense or to replenish the Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided in the following pages of this Section.
- **Replenishment/(Use) of Capital Projects Reserve** — Funding transferred from or to the District's Capital Projects Reserve to either adjust the annual levy for FY 2016/17 expenditures funded by the Capital Projects Reserve or to replenish the Capital Projects Reserve for future projects. Further information regarding the function of the Capital Projects Reserve is provided in the following pages of this Section. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided in the following pages of this Section.
- **General Benefit Contribution** — Funding from the City utilizing revenue sources other than assessment revenues to pay the proportional costs for the regular annual maintenance, servicing and operation of the District improvements that have been determined to be of General Benefit and which cannot be included as part of the annual assessments. This City funding may be from the City's General Fund or any other funding source available to the City.
- **Other Revenue Contributions** — Additional funds designated for use by the District that are not District assessments. Often referred to as a City Contribution, these funds may be from any source available to the City to support the District and reduce the amount to be collected by the District assessments (the "Net Assessment Budget"). If the Total District Expenses minus any Reserve Fund Transfer and General Benefit Contribution results in an amount greater than the amount that can be collected through the assessments, the City would either have to reduce expenses or contribute funds to balance the budget.

Net Assessment Budget (Balances to Levy) — Represents the total amount proposed to be levied and collected as assessments on the County Tax Rolls for the fiscal year.

OPERATING RESERVE

Beginning Reserve Balance 7-1-2016 (est.) - The anticipated beginning balance of cash and receivables, net of any unpaid prior year obligations. These beginning balances shall be used to fund expenditures from July 1, 2016 to December 31, 2016, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. The Capital Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Replenishment/(Use) of Operating Reserve – Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve is intended to fund expenditures from the period of July 1, 2016 (the beginning of the Fiscal Year) through December 31, 2016. If positive, this amount is added to the levy in order to replenish the Operating Reserve. On the other hand, if negative, this portion of the Operating Reserve is used to fund FY 2016/17 expenses and therefore reduces the levy amount. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Capital Projects Reserve — The amount of Operating Reserve monies to be transferred to or from the Capital Projects Reserve. Periodically, funds held in a Capital Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Projects Reserve are subject to transfer the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2017 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) as of June 30, 2017. The size of the Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance and service from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, the District may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Capital Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

CAPITAL PROJECTS RESERVE

Beginning Reserve Balance 7-1-2016 (est.) — The projected balance of funds in the Capital Projects Reserve as of July 1, 2016. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Use for 16/17 Capital Projects – The amount expected to be incurred for Capital Projects in FY 2016/17 and funded from the Capital Projects Reserve rather than the FY 2016/17 levy. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Capital Projects Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Capital Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Projects Reserve are subject to transfer into the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2017 (est.) - The projected balance of funds in the Capital Projects Reserve as of June 30, 2017. These funds shall be use to fund the costs of installation, replacement, repair or upgrading of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Capital Projects Reserve or related activity for the current fiscal year, the Capital Projects Reserve information will not be presented in the Report.

Capital Projects Reserve – Capital Improvement Plan

Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. Should an ending Capital Projects Reserve balance be projected, a five year Capital Improvement Plan is shown below in order to fund the installation, replacement, repair or upgrading of District improvements and other allowable costs:

The District expects expenditures for updating, verifying and/or replacing street light / pole numbers: \$15,000 in FY 2016/17 and \$15,000 in FY 2020/21; the painting of existing street light poles: \$15,000 in FY 2016/17 and \$20,000 in FY 2020/21; the retrofit of poles for electrical outlet upgrade and installation of new sign brackets: \$100,000 in FY 2017/18, \$25,000 in FY 2018/19 and \$10,000 in FY 2019/20.

Periodically, funds held in a Capital Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Projects Reserve are subject to transfer into the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements.

The parcels within the District consist of all lots and parcels of land within the City of Rancho Cordova. The following page provides a boundary map that displays exterior boundaries of the District, as well as the two zones of benefit within the District as the same existed at the time that the District was formed. The combination of this map and the Assessment Roll contained in this Report constitute the Assessment Diagram for this District.

PART V — ASSESSMENT ROLL

Parcel identification for each lot or parcel within the District is based on available parcel maps and property data from the Sacramento County Assessor's Office. A listing of the Assessor's Parcel Numbers (APNs) to be assessed within this District, along with the corresponding Assessment Amount to be levied for fiscal year 2016/17, as determined by the District's assessment rates and method of apportionment, is provided in the following pages.

If any APN submitted for collection of the assessments is identified by the County Auditor/Controller of the County of Sacramento to be an invalid parcel number for the fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment, as described in this Report and approved by the City Council.

MEMORANDUM

DATE: June 6, 2016

TO: Honorable Mayor and Council Members

FROM: Reed Flory, Manager, Reinvestment and Housing Opportunities Division

SUBJECT: **APPROVAL OF RESOLUTION NO. 53-2016 AUTHORIZING THE CITY TO SUBMIT A JOINT APPLICATION WITH DEVELOPER URBAN HOUSING COMMUNITIES FOR STAGE TWO OF STATE AFFORDABLE HOUSING AND SUSTAINABLE COMMUNITIES FUNDING IN SUPPORT OF THE HORIZONS AT NEW RANCHO SENIOR DEVELOPMENT AND IF FUNDING IS APPROVED TO ENTER AN AGREEMENT WITH THE STATE TO SECURE THE FUNDING**

RECOMMENDATION

Adopt Resolution No. 53-2016.

RESULT OF RECOMMENDED ACTION

Action will permit application for \$5.965 million to complete the funding for the Horizons at New Rancho and, if the application is approved, the attached resolution would authorize, the City, as a Co-applicant, to enter into a State of California Standard Agreement in a total amount not to exceed \$5,965,068 (\$5,169,168 for the AHSC Loan and \$795,900 for the AHSC Grant), and any and all other documents required to secure the AHSC Program funds from the Department, and all amendments thereto (collectively, the "AHSC Documents").

BACKGROUND

PROJECT HISTORY

In 2008 the City of Rancho Cordova and its Redevelopment Agency (active at the time) commenced a comprehensive effort to redevelop the Stagger Inn Redevelopment Project area. The area was ultimately comprised of approximately 2.09 acres with frontage on Folsom Boulevard running northerly to Croetto Way. The area included the Stagger Inn and six other foreclosed, abandoned or marginally feasible contiguous properties. These properties were assembled, relocation provided, and structures were demolished. A lot line adjustment resulted in two development parcels. During this time the City solicited Developer interest and found only one developer so interested. In 2008, a Memorandum of Understanding (MOU) was signed with Urban Housing Communities (UHC) to prepare projects for the redevelopment of the subject two sites. The Northerly most site was successfully developed as the Crossings at New Rancho receiving Tax Credits and Neighborhood Stabilization grants and has been successfully operated since February of 2012. The Phase two effort (subject of the current proposed City action) will complete the redevelopment effort and is proposed as a 48 unit, senior, affordable

housing development named the Horizons @ New Rancho. Efforts to accumulate the funding required for this phase have proved a considerable challenge.

Finally after submitting yet another application this time for an Affordable Housing Sustainable Communities grant, the Developer and the City as co-applicants passed the Stage one competition and has been asked to submit a stage two application. Although not yet an award of funds, this invitation reflects a significant reduction in those in competition for this funding.

PROJECT STATUS

The Horizons @ New Rancho is a shovel-ready project. The City and Developer have prepared plans and specifications for the project. This includes complete architectural and engineering plans, landscape plans, local approvals, and utility applications. There is some remaining work that will need to be done to get the plans and specs permit-ready, however, because the project is designed to be factory built, those changes will be simpler to implement and will not add significantly to the cost of the project.

Similar to the Crossings project, the Horizons @ New Rancho senior housing project would be owned by Developer, and would be governed by a regulatory agreement with the City of Rancho Cordova committing the units to remain affordable to seniors at and below 50% of the area median income. The project would be managed by a professional management company, and the proximity to the Crossings project would allow the developer and the management company to really leverage services – ensuring a higher quality residential product.

If the application is approved, the attached resolution would authorize, the City as a Co-applicant to enter into, execute, and deliver a State of California Standard Agreement (Standard Agreement) in a total amount not to exceed \$5,965,068 (\$5,169,168 for the AHSC Loan and \$795,900 for the AHSC Grant), and any and all other documents required or deemed necessary or appropriate to secure the AHSC Program funds from the Department, and all amendments thereto (collectively, the “AHSC Documents”).

FISCAL IMPACT

An inter-fund loan agreement between the City’s General Fund and its Local Housing Trust fund authorizes expenditures for the Horizons project up to the amount of \$2,162,200. Future City expenditures through occupancy will be limited to staff time and legal services. It is estimated that the combined cost of those activities will remain within the authorized limit.

SUBJECT: RESOLUTION AWARDING THE ON-CALL TREE MAINTENANCE SERVICES AGREEMENT TO WEST COAST ARBORISTS, INC. IN THE AMOUNT OF \$175,000

RECOMMENDATION

Adopt Resolution No. 20-2016.

RESULT OF RECOMMENDED ACTION

Adoption of this resolution will award and authorize the City Manager to execute a three year on-call contract with West Coast Arborists, Inc. to provide on-call professional tree maintenance services for the Public Works Department.

BACKGROUND

Public Works has solicited proposals for on-call tree maintenance services and received five proposals. After careful review and consideration, staff recommends award of contract to West Coast Arborists, Inc., based on their low prices, available resources, and positive feedback from their references. The Contractor will be expected to perform services comprised of on-call tree pruning, tree removal, stump grinding, 24/7 emergency services, crane services, traffic control, and arborist consulting.

The contractor's bid sheet is provided and attached as Exhibit A to Contract No. 56-2016. The bid sheet includes billing rates for the most common types of tree services. Any work that was not included in the bid schedule will be paid based on time and materials or by a project specific proposal from the contractor. The estimated quantities are for reference only and not a guaranteed amount of work.

Public Works staff recommends that a \$175,000 maximum dollar amount be assigned to this contract to allow Public Works the flexibility to adjust the annual contract amount to meet the City's needs each fiscal year.

FISCAL IMPACT

This contract is currently funded through Measure A and Stormwater funds and has no impact to the General Fund.

Section 4. COMPENSATION OF CONTRACTOR. The City agrees to pay Contractor an amount not to exceed \$175,000, for performance pursuant to this Agreement. Upon receipt and approval of the Contractor's invoices, the City shall remit payment to the Contractor for Services provided within thirty (30) days. Payment to Contractor shall be considered as full compensation for performing the Services.

City's failure to discover or object to any unsatisfactory work or billing prior to payment will not constitute a waiver of City's right to request Contractor to correct such work or billings or seek any other legal remedy.

Section 5. PERFORMANCE STANDARDS.

A. Contractor shall comply with all applicable laws now in force or which may hereafter be in force with regard to the provision of Services and this Agreement.

B. Contractor represents that it has the skills, expertise, licenses and permits necessary to perform the Services. Contractor shall perform all such Services in the manner and according to the standards observed by a competent practitioner of the same profession in which Contractor is engaged and in accordance with applicable industry standards. Section 6. PREVAILING WAGES. Pursuant to the provisions of Articles 1 and 2 of Chapter 1, Part 7, Division II, of the Labor Code of the State of California, not less than the general prevailing rate of per diem wages, and not less than the general prevailing rate of per diem wages for holidays and overtime work, for each craft, classification or type of worker needed to execute the work contemplated under this Agreement shall be paid to all workers,

laborers and mechanics employed in the execution of said work by Contractor, or by any subcontractor doing or contracting to do any part of said work. The appropriate determination of the Director of the California Department of Industrial Relations is filed with, and available for inspection at 2729 Prospect Park Drive, Rancho Cordova, CA 95670, the office of the Clerk of the City. Contractor shall post, at each job site, a copy of such prevailing rate of per diem wages as determined by the Director for the California Department of Industrial Relations.

Section 7. INDEPENDENT CONTRACTOR. Contractor shall perform the Services as an independent contractor and nothing herein contained shall be construed to make Contractor an agent or employee of the City while providing the Services. Contractor shall be entitled to no other benefits or compensation except as provided in this Agreement.

Section 8. INSURANCE REQUIREMENTS. Prior to beginning any Service under this Agreement, Contractor, at its own cost and expense, shall procure insurance coverage at such levels of coverage, scope, limits, and/or forms as set forth in Exhibit B ("Insurance Requirements") hereto. Contractor shall provide proof satisfactory to City of such insurance and maintain the insurance throughout the term of this Agreement.

Section 9. PERFORMANCE AND PAYMENT BONDS. The Contractor shall, before beginning said work for the Project, file two bonds with the City, each made payable to the City. These bonds shall be issued by a surety company authorized to do business in the State of California, and shall be maintained during the entire life of the Agreement at the expense of the Contractor. One bond shall be in the amount of fifteen percent (15%) of the Agreement and shall guarantee the faithful performance of the Agreement. The second bond shall be the payment bond required by California Civil Code Section 3247 et seq., and shall be in the amount of one hundred percent (100%) of the Agreement. The foregoing obligation of Contractor shall not apply when (1) the injury, loss of life, damage to property, or violation of law arises wholly from the negligence or willful misconduct of the City or its officers, employees, agents, or volunteers and (2) the actions of Contractor or its employees, subcontractor, or agents have contributed in no part to the injury, loss of life, damage to property, or violation of law. It is understood that the duty of Contractor to indemnify and hold harmless includes the duty to defend as set forth in Section 2778 of the California Civil Code. Acceptance by City of insurance certificates and endorsements required under this Agreement does not relieve Contractor from liability under this indemnification and hold harmless clause. This indemnification and hold harmless clause shall apply to any damages or claims for damages whether or not such insurance policies shall have been determined to apply. By execution of this Agreement, Contractor acknowledges and agrees to the provisions of this Section and that it is a material element of consideration.

Contractor shall comply with all applicable federal, state, and local laws, policies, rules, and requirements related to equal opportunity and nondiscrimination in employment, contracting, and the provision of any services that are the subject of this Agreement, including but not limited to the satisfaction of any positive obligations required of Contractor thereby. Contractor shall include the provisions of this section in any subcontract approved by the City.

Section 12. AMENDMENTS. No modification or amendment of this Agreement is effective unless made in writing and signed by both the City and Contractor.

Section 13. ASSIGNMENT AND SUBCONTRACTING. Contractor shall not assign or transfer any interest in this Agreement without the prior written consent of the City.

Section 16. GOVERNING LAW AND VENUE. The laws of the State of California shall govern this Agreement. Venue for any action regarding this Agreement shall be in the Superior Court of the County of Sacramento.

Section 17. ATTORNEYS' FEES. If a party to this Agreement brings any action, including an action for declaratory relief, to enforce or interpret the provisions of this Agreement, the prevailing party shall be entitled to reasonable attorneys' fees in addition to any other relief to which that party may be entitled. Contractor shall provide proof satisfactory to City of such insurance that meets the requirements of this section and under forms of insurance satisfactory in all respects to the City. Professional shall maintain the insurance policies required by this section throughout the term of this Agreement. The cost of such insurance shall be included in the Contractor's bid. Contractor shall maintain all required insurance listed herein for the duration of this Agreement.

1. **Workers' Compensation.** Contractor shall, at its sole cost and expense, maintain Statutory Workers' Compensation Insurance and Employer's Liability Insurance for any and all persons employed directly or indirectly by Contractor. In the alternative, Contractor may rely on a self-insurance program to meet those requirements, but only if the program of self-insurance complies fully with the provisions of the California Labor Code. The insurer, if insurance is provided, or the Contractor, if a program of self-insurance is provided, shall waive all rights of subrogation against the City and its officers, officials, employees, and volunteers for loss arising from work performed under this Agreement.

An endorsement shall state that coverage shall not be canceled except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the City. Contractor shall notify City within fourteen (14) days of notification from Contractor's insurer if such coverage is suspended, voided or reduced in coverage or in limits.

The requirement to maintain Statutory Worker's Compensation and Employer's Liability Insurance may be waived by the City upon written verification that Contractor does not have any employees.

2. **Commercial General and Automobile Liability Insurance.**

- 2.1 **General requirements.** Contractor, at its own cost and expense, shall maintain commercial general liability insurance for the term of this Agreement in an amount not less than TWO MILLION DOLLARS (\$2,000,000.00) and automobile liability insurance for the term of this Agreement in an amount not less than ONE MILLION DOLLARS (\$1,000,000.00). The commercial general liability and automobile liability insurance shall be per occurrence, combined single limit coverage for risks associated with the work contemplated by this Agreement. If a commercial general liability insurance or an automobile liability form or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to the work to be performed under this Agreement or the general aggregate limit shall be at least twice the required occurrence limit. Such coverage shall include but shall not be limited to, protection against claims arising from bodily and personal injury, including death resulting therefrom, and damage to property resulting from activities contemplated under this Agreement, including the use of owned and non-owned automobiles.

- 2.2 **Minimum scope of coverage.** Commercial general liability coverage shall be at least as broad as Insurance Services Office Commercial General Liability occurrence form CG 0001 (most recent

edition) covering comprehensive General Liability on an "occurrence" basis. Automobile coverage shall be at least as broad as Insurance Services Office Automobile Liability form CA 0001 (most recent edition), Code 1 (any auto). No endorsement shall be attached limiting the coverage.

- a. City and its officers, employees, agents, and volunteers shall be covered as additional insureds with respect to each of the following: liability arising out of activities performed by or on behalf of Contractor, including the insured's general supervision of Contractor; products and completed operations of Contractor; premises owned, occupied, or used by Contractor; and automobiles owned, leased, or used by the Contractor. The coverage shall contain no special limitations on the scope of protection afforded to City or its officers, employees, agents, or volunteers.
- b. The insurance shall cover on an occurrence or an accident basis, and not on a claims-made basis.
- c. An endorsement must state that coverage is primary insurance with respect to the City and its officers, officials, employees and volunteers, and that no insurance or self-insurance maintained by the City shall be called upon to contribute to a loss under the coverage.
- d. Any failure of Contractor to comply with reporting provisions of the policy shall not affect coverage provided to City and its officers, employees, agents, and volunteers.
- e. An endorsement shall state that coverage shall not be canceled except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the City. Contractor shall notify City within fourteen (14) days of notification from Contractor's insurer if such coverage is suspended, voided or reduced in coverage or in limits.

3. **All Policies Requirements.**

- 3.1 **Acceptability of insurers.** All insurance required by this section is to be placed with insurers with a Bests' rating of no less than A:VII.
- 3.2 **Verification of coverage.** Prior to beginning any work under this Agreement, Contractor shall furnish City with certificates of insurance and with original endorsements effecting coverage required herein. The certificates and endorsements for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.
- 3.3 **Subcontractors.** Contractor shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all of the requirements stated herein.
- 3.4 **Deductibles and Self-Insured Retentions.** Contractor shall disclose to and obtain the approval of City for the self-insured retentions and deductibles before beginning any of the services or work called for by any term of this Agreement.

During the period covered by this Agreement, only upon the prior express written authorization of Contract Administrator, Contractor may increase such deductibles or self-insured retentions with respect to City, its officers, employees, agents, and volunteers. The Contract Administrator may condition approval of an increase in deductible or self-insured retention levels with a requirement that Contractor procure a bond, guaranteeing payment of losses and related investigations, claim administration, and defense expenses that is satisfactory in all respects to each of them.

3.5 **Waiver of Subrogation.** Contractor hereby agrees to waive subrogation which any insurer or contractor may require from vendor by virtue of the payment of any loss. Consultant agrees to obtain any endorsements that may be necessary to affect this waiver of subrogation. The Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of the entity for all work performed by the Contractor, its employees, agents, and subcontractors.

3.6 **Notice of Reduction in Coverage.** In the event that any coverage required by this section is reduced, limited, or materially affected in any other manner, Contractor shall provide written notice to City at Contractor's earliest possible opportunity and in no case later than five (5) days after Contractor is notified of the change in coverage.

4. **Remedies.** In addition to any other remedies City may have if Contractor fails to provide or maintain any insurance policies or policy endorsements to the extent and within the time herein required, City may, at its sole option exercise any of the following remedies, which are alternatives to other remedies City may have and are not the exclusive remedy for Contractor's breach:

- Obtain such insurance and deduct and retain the amount of the premiums for such insurance from any sums due under the Agreement;
- Order Contractor to stop work under this Agreement or withhold any payment that becomes due to Contractor hereunder, or both stop work and withhold any payment, until Contractor demonstrates compliance with the requirements hereof; and/or

SUBJECT: **A RESOLUTION APPROVING FISCAL YEAR 2016/2017 BUDGET AMOUNTS FOR COMMUNITY GRANTS, CITY COUNCIL PROJECTS, AND STAFF PROJECTS TO BE FUNDED FROM THE COMMUNITY ENHANCEMENT FUND, THE REVENUES FROM THE VOTER-APPROVED ½ CENT SALES TAX.**

RECOMMENDATION

Adopt Resolution No. 61-2016.

RESULT OF RECOMMENDED ACTION

Approval of Resolution No. 61-2016 will establish budget amounts for the fiscal year 2016/2017 community grant projects and programs, City Council projects, and staff projects for the Community Enhancement Fund; it will also establish next steps regarding project implementation.

BACKGROUND

In November 2014, voters approved Measure H, a ½ cent sales tax measure, now referred to as the Community Enhancement Fund. It is anticipated that the Community Enhancement Fund will raise about \$7.2 million annually in revenues for the City's general fund.

On February 1, 2016, City Council confirmed the criteria to evaluate project applications in fiscal year 2016/2017, the prioritization method for project selection, and the timeline for the next application cycle. City Council also provided some preliminary comments and feedback on the funding categories and amounts for fiscal year 2016/2017 Community Enhancement Fund projects on February 1, 2016 and February 16, 2016.

In March 2016, City Council and staff invited the community to submit applications to receive funding from the fiscal year 2016/2017 Community Enhancement Fund. Over 100 grant applications were received and considered by the City Council.

During the April 26, 2016 Work Session and during the May 2, 2016 regular City Council meeting, Council reviewed staff recommendations, supported the staff analysis, and began the project selection process by concentrating on the "Arts, Culture, History, and Entertainment" category, the "Sports" category, and the "School Gardens" subcategory.

During the May 16, 2016 City Council meeting and during the May 24 Work Session, Council made selection decisions on the “Education” and “After School” subcategories and the “Other” category. Council also selected the City/Council driven projects and programs.

As previously noted, Exhibit A to Resolution No. 61-2016 contains those projects identified for funding for the 2016/2017 fiscal year and the corresponding dollar value. A summary, by category, of the attached list is provided below.

FY 2016/2017 Community Enhancement Fund Summary

Public Safety	\$1,050,000
Public Works	\$1,008,500

Education/After School/Gardens	\$651,600
Sports	\$530,876
Administration/Communications	\$350,000
Community Development	\$350,000
Arts, Culture, History, and Entertainment	\$345,619
Other	\$294,082
Total	\$7,205,677

Once Council has adopted Resolution No. 61-2016, staff will initiate its implementation with all of the awarded applicants. Some of the awarded projects could be ready for implementation rather quickly, while others could be more involved to implement. For example, some projects may require approvals from other agencies; or, require some level of environmental review; or, trigger a public bidding process. In all cases, some level of formal agreement between the City and the grantee will be necessary, which will require some time to prepare the appropriate legal document(s).

All grantees will be required to sign a funding agreement with the City. The agreement will require grantees to use the funds for the needs represented in their grant applications (with documentation requirements), but will allow for small variations upon City approval. The agreements will also contain minimum insurance requirements, statements related to the public purpose of the grant, and a provision calling for unused funds to be returned to the City.

To assist the Council and grantees with an idea of the process involved and the potential timeline for receipt of funding, staff has organized the Community Enhancement Fund projects into three categories. The purpose of this exercise is to advise grantees that while their project has been endorsed by the City, there is an important implementation process that must occur prior to the issuance of any funding. The categories are as follows:

Category 1: Project funding at a level of generally less than \$100,000 and that generally provide services only. These projects do not require significant staff time to meet applicable legal requirements. They also do not require significant City staff time to plan or organize. These projects will, however, require some project specific findings in a standardized funding agreement. There are 49 projects in this category. The objective is to process approval documents and fund these projects in July, August, and September 2016.

Category 2: Most of these projects include construction of a new or improved facility. These may require the City and grantee to comply with prevailing wage and possibly competitive bidding requirements. These projects will require detailed staff processing to meet applicable legal requirements, plan, or organize; but will likely not require additional action by the City Council. Some of these projects may require the approval of an outside agency. There are 16 projects in this category. The objective is to process approval documents and fund these projects in September and October 2016.

Category 3: Projects that clearly require more extensive staff time to create specification and meet legal requirements (including California Environmental Quality Act findings, public bidding, prevailing wage, and entitlement issues), coordination with/approvals from outside agencies, extensive staff involvement to plan or potentially restructure the project, and subsequent discretionary approval action by the City Council. There are three projects in this category. The objective is to move forward with planning for these projects in a timely fashion and keep the Council updated on the progress.

Exhibit A to Resolution No. 61-2016 reflects the project list, funding amounts, and category number assigned to each project. It is possible that the category number assigned to a project may change up or down based on the information staff is currently gathering.

MEMORANDUM

DATE: June 6, 2016
TO: Honorable Mayor and Council Members
FROM: Adam Lindgren, City Attorney

SUBJECT: ORDINANCE AMENDING SECTIONS 16.83.105 AND 16.84.065 OF THE RANCHO CORDOVA MUNICIPAL CODE TO ALLOW FOR A THREE-YEAR EXTENSION OF THE FEE DEFERRAL PROGRAM FOR CERTAIN DEVELOPMENT IMPACT FEES

RECOMMENDATION

Introduce and waive the first reading of Ordinance No. 4-2016.

RESULT OF RECOMMENDED ACTION

If adopted, this ordinance would amend sections of the Municipal Code to allow for the City's previously adopted development impact fee deferral program to continue for another three years. Approval by the City Manager, or his designee, is required for any deferrals.

BACKGROUND

Following the acute nationwide slowdown in the housing market in 2008, the City Council approved a temporary fee deferral program in an effort to encourage project completion and new development. Under the program, authorized in Sections 16.83.105 and 16.84.065 of the Municipal Code, the payment of certain development impact fees may be deferred. The City Council extended this program in 2009, 2010, and again in 2013.

Section 16.83.105 allows for City Manager approval of the deferral of impact fees related to the Sunrise Douglas community plan area. Section 16.83.065 allows for City Manager approval of the deferral of impact fees related to the transportation development impact fee program. If approved, an applicant may defer payment of the fees to the earlier of 24 hours prior to scheduling of final inspection, issuance of a temporary or final certificate of occupancy, or one year from the date the deferral is approved. These sections are set to expire and therefore staff is requesting that Council approve the extension of the program.

The Ordinance before Council would extend the fee deferral program another three years and make minor amendments to the Code language to reflect the fact that this is not necessarily a "temporary" program only tied to the economic downturn that began in 2008.

FISCAL IMPACT

The proposed ordinance will have no impact on the General Fund. These fees are still collected.

MEMORANDUM

DATE: June 6, 2016

TO: Honorable Mayor and Council Members

FROM: Michelle Mingay, Senior Finance Analyst

SUBJECT: **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF RANCHO CORDOVA DECLARING ITS INTENTION TO TRANSFER DELINQUENT REFUSE SERVICE CHARGES TO THE PROPERTY TAX ROLLS AND TO SET A PUBLIC HEARING FOR THE SAME**

RECOMMENDATION

Adopt Resolution 55-2016.

RESULT OF RECOMMENDED ACTION

Adoption of this resolution will begin the process to allow delinquent refuse service charges to be collected on the property tax roll and sets a Public Hearing for July 5, 2016 at 5:30 pm in the City Council Chambers.

BACKGROUND

The Collection Services Contract ("Contract"), between the City of Rancho Cordova and Republic Services, formerly Allied Waste Services, ("Republic"), for residential garbage collection and recycling, allows Republic to take any action legally available to collect past due amounts. Pursuant to Government Code sections 38790.1 and 25831, one such action is for the City to assist Republic by placing the delinquent accounts on the property tax roll.

The City's Municipal Code allows for the property tax rolls to be utilized for collecting delinquent charges but in order for the City to assist Republic, the City Council must approve two separate Resolutions prior to recording a tax levy for delinquent residential solid waste accounts. The first resolution, which is the subject of tonight's meeting, establishes the intent of the City Council to transfer delinquent residential solid waste accounts to the tax rolls, as well as sets a Public Hearing for July 5th at 5:30 p.m. to take comments and objections from the public regarding the transfer of delinquent residential solid waste accounts to the tax roll. At the conclusion of the Public Hearing, the Council will be asked to adopt the second resolution titled "A Resolution of the City Council of the City of Rancho Cordova Authorizing Delinquent Residential Solid Waste Service Charges to be Collected on the Property Tax Roll."

As of May 23, 2016, there are a total of 1,022 accounts eligible to be transferred to the tax roll, with a total balance due \$359,698.41. This amount includes a ten percent (10%) penalty which will be added to the tax roll to cover the cost for the City to administer the program.

In order to proceed with the levy of assessments, it is requested that Council adopt **Resolution No. 55-2016** A Resolution of Intention of The City Council of The City of Rancho Cordova to Transfer Delinquent Refuse Service Charges to the Tax Roll. Approval of this resolution also sets July 5, 2016 at 5:30 p.m. as the date and time for a public hearing on the issue. Notice of the public hearing will be given by publication at least 10 days prior.

FISCAL IMPACT

The City will receive a 10% administrative fee, based on the final balance transferred to the property tax roll, to cover the cost of administering the program.

AGENDA ITEM 8.9

MEMORANDUM

DATE: June 6, 2016

TO: Honorable Mayor and Council Members

FROM: Elizabeth Sparkman, Engineering Manager

SUBJECT: **RESOLUTION DECLARING A PROTEST HEARING AND AUTHORIZING THE MAILING OF PROPERTY OWNER BALLOT RELATING TO THE IMPOSITION OF AN ANNUAL STORMWATER UTILITY FEE BRIDGEWAY SQUARE APARTMENTS**

RECOMMENDATION

Adopt Resolution No. 60-2016.

RESULT OF RECOMMENDED ACTION

Action on this item will declare the results of the property owner protest and, if there exists less than a majority protest, authorize the mailing of a ballot to property owner to approve the levy of the fee to pay for maintenance of storm drainage and flood protection systems for Bridgeway Square Apartments set 1:00 p.m. on June 16, 2016 in the office of the City Clerk, as the time and date for the ballot tabulation for the matter.

BACKGROUND

The Council has previously the Bridgeway Square Apartments Project. This project has a condition of approval which requires that the property owner annex to a District formed by the City of Rancho Cordova to fund operation and maintenance of the storm drainage system. This condition will be satisfied by the participation in the new Stormwater Utility Fee for storm drainage and flood protection services which is the subject of tonight's action.

The property owner of Bridgeway Square Apartments has requested the City annex the project to the City's Stormwater Utility Fee pursuant to the California Health and Safety Code Section 5471 et seq. to provide the method of financing for storm drainage and flood protection services required to meet the condition.

DISCUSSION

The property owner has submitted a petition and waiver for the City to institute the proceedings to participate in the Stormwater Utility Fee. This annexation to the Stormwater Utility Fee will include the project generally known as Bridgeway Square Apartments, see **ATTACHMENT 1**. The maintenance services to be funded include the furnishing of services and materials for the ordinary and usual operation, maintenance, and servicing of the storm drain and flood protection systems.

ATTACHMENT 2 is the Resolution declaring the results of the property owner protest and authorizing the mailing of property owner ballot, as required by Article XIII D of the California Constitution (also known as Proposition 218). The resolution sets forth the tabulation of ballots on June 16, 2016 at 1:00 p.m. in the office of the City Clerk. The results of the mailed ballot election will be presented to City Council at their regularly scheduled meeting on June 20, 2016 and additional actions will be recommended based the ballot results.

A "Rate Analysis Report" was approved by City Council on September 4, 2014 by Resolution 103-2014 setting Fiscal Year 2014/2015 maximum annual Stormwater Utility Fee amount for each parcel proportionate to the estimated stormwater runoff for each parcel, see **ATTACHMENT 3**. The maximum annual fee will increase each subsequent Fiscal Year by the annual change in the Consumer Price Index (CPI), during the preceding year, for All Urban Consumers, for the San Francisco-Oakland-San Jose areas, published by the United States Department of Labor, Bureau of Labor Statistics.

A sample of the Stormwater Utility Fees for Fiscal Year 2014/2015 are summarized in the following table:

Rate Analysis Report

for the

Stormwater Utility Fee

For the

City of Rancho Cordova

August 7, 2014

Introduction

The City of Rancho Cordova (City) is detaching from the County of Sacramento fee and is creating their own Stormwater Utility Fee, which is being levied per the California Health and Safety Code Section 5471 et seq.

The purpose of this Rate Analysis Report is to:

- Review the Stormwater Utility Fee and improvements to be funded.
- Review the requirements of Article XIID of the State Constitution (Proposition 218) relating to requirements for apportioning the costs associated with the City's stormwater runoff system.
- Analyze and recommend an appropriate rate structure and provide estimated rates based on cost data information provided by the City.

Proposition 218 Requirements

This fee must comply with the provisions of Article XIID of the California Constitution (Proposition 218). Section 6 of Proposition 218 has the following requirements for all "new, extended, imposed or increased" fees and charges:

- 1) "Revenues derived from the fee or charge shall not exceed the funds required to provide the property-related service."
- 2) "Revenues derived from the fee or charge shall not be used for any purpose other than that for which the fee or charge was imposed."
- 3) "The amount of a fee or charge imposed upon any parcel or person as an incident of property ownership shall not exceed the proportional cost of the service attributable to the parcel."
- 4) "No fee or charge may be imposed for a service unless that service is actually used by, or immediately available to, the owner of the property in question. Fees or charges based on potential or future use of service are not permitted. Standby charges, whether characterized as charges or assessments, shall be classified as assessments and shall not be imposed without compliance with [the assessment section of this code]."
- 5) "No fee or charge may be imposed for general governmental services including, but not limited to, police, fire, ambulance or library services where the service is available to the public at large in substantially the same manner as it is to property owners."

Background Information

In accordance with the Federal Clean Water Act of 1972, the United States Environmental Protection Agency (EPA) is required to establish regulations setting forth National Pollution Discharge Elimination System (NPDES) permit standards. The enactment of 1987 amendments to the Federal Clean Water Act (Act) of 1972 imposes permit requirements for discharge of storm waters. The Act allows the EPA to delegate its NPDES permitting authority to states with an approved environmental regulatory program. The State of California is one of the delegated states.

The responsibility for implementing various NPDES permits in the State of California has been delegated to the State Water Resources Control Board (SWRCB). The SWRCB administers NPDES authority through its nine Regional Boards. As an NPDES permittee, the City is required to manage stormwater pollution within its jurisdiction.

In order to provide for the safety of the residents of the City and protect property in the City from the damage associated with flooding and to meet the requirements of the NPDES permit, it is necessary to design, construct, operate, maintain, improve and replace storm drainage facilities which collect storm and surface water runoff and convey and treat such runoff in a safe manner to an acceptable point of discharge. It is also necessary to inspect, monitor, and take enforcement action related to illegal dumping, and illicit discharges. In order to properly fund such facilities and activities, the City has determined that it is necessary to impose on all developing properties in Rancho Cordova a user charge for storm drainage service.

Based on the 2030 General Plan and current specific plan areas, Rancho Cordova is expected to develop as shown in Table 1 below. The proposed boundary for the stormwater utility is shown in Appendix A.

Services Funded

Expenditures from the revenue generated from the Stormwater Utility Fee are intended to comply with the requirements set forth in the NPDES permit. The activities and services funded by this fee include, but are not limited to:

1. Administration and oversight of the requirements set forth in the NPDES permit to City departments, developments, and local agencies.
2. Respond to and investigate incidents of illicit discharges and illegal connections to the storm drain system.
3. Periodically inspect facilities for proper handling of materials, chemicals, pollutants, garbage, waste, and debris and prevent any discharges to the storm drain system.
4. Regularly clean and maintain catch basins, the flowline, and storm drainage facilities.
5. Installation and maintenance of water quality devices required to keep pollutants out of the storm drain system.
6. Discourage illegal dumping or discharge of pollutants into the storm drain system by stenciling all City-owned catch basins with a "No Dumping" message.
7. Augment public education and outreach programs in regards to the proper use and function of the storm drainage system and the receiving waters.

8. Develop programs to promote, publicize, and facilitate public reporting of illicit discharges to the storm drain system.
9. Encourage the proper disposal of household hazardous waste (HHW) to prevent the improper disposal to the storm drain system or to the sewer system.
10. Discourage the improper disposal of litter, garden clippings, leaves, and pet waste into the street or the storm drain system.
11. Capital replacement of storm drainage and flood control improvements at the end of the expected useful life for such improvements.

Rate Structure Analysis

Section 6.b of Article XIID of the State Constitution (Proposition 218) states that:

“The amount of a fee or charge imposed upon any parcel or person as an incident of property ownership shall not exceed the proportional cost of the service attributable to the parcel.”

and

“No fee or charge may be imposed for a service unless that service is actually used by, or immediately available to, the owner of the property in question.”

By definition, all properties that shed stormwater into the City’s stormwater drainage system use, or are served by, the City’s stormwater drainage system. The amount of use attributed to each parcel is measurable by the amount of storm runoff contributed by the property, which is directly proportional to the amount of impervious area on a parcel (such as buildings and concrete). The more impervious area on a property, the more storm runoff the property generates, the more demand placed on the storm drain system.

The amount each parcel uses the stormwater drainage system is computed by the following formula:

$$(\text{Parcel Area}) \times (\text{Impervious Percentage}) = \text{Drainage Units}$$

The typical percent impervious (% Impervious) for land uses in the City, have been applied for the purposes of estimating the runoff generated by each property. These are shown in Appendix B.

The more Drainage Units a parcel has, the more storm run-off it generates, and the more it uses and impacts the stormwater drainage system.

It is standard practice to relate other land uses to a developed single family residential (SFR) parcel, instead of working exclusively with drainage units. The median size of a SFR parcel will be approximately 0.16 acre. Therefore, it makes sense to relate all parcels to this median residential property. The runoff from a 0.16-acre SFR parcel is set equal to one Drainage Measurement Unit (DMU) and this base DMU is calculated as follows:

$$(0.16 \text{ acres of area}) \times 50\% = 0.0800 \text{ Impervious Area} = 1 \text{ DMU}$$

Single Family Residential Parcels

As a SFR property increases in size over the median parcel size, the typical percentage of impervious area decreases, as shown in Appendix B. Conversely, as a SFR parcel decreases in size below the median parcel size, the typical percentage of impervious area increases, and such increase is typically proportional to the decrease in size. Therefore, SFR properties are separated into five (5) groups. The median parcel area for each group was used and their DMUs are calculated as follows:

<u>SFR Category</u>	<u>DMU/ Formula</u>
SFR1 – SFR parcels 0.16 acres or less	1.00 DMU
SFR2 – SFR parcels 0.17 - 0.25 acres	1.10 DMUs
SFR3 – SFR parcels 0.26 – 0.33 acres	1.175 DMUs
SFR4 – SFR parcels 0.34 – 0.50 acres	1.25 DMUs
SFR5 – SFR parcels greater than 0.50 acres	$1.25 + \frac{[(\text{acres} - 0.50) \times 5\%]}{0.0800} = \text{DMUs}$

Multi-Family Residential Parcels

Multi-Family Residential (MFR) units (including condominiums) are split into categories by the density, or number of dwelling units per acre (DU/Ac) as follows:

<u>MFR Category</u>	<u>Density</u>	<u>% Impervious</u>
MFR1 - High Density	Greater than 18 DU/Ac	75%
MFR 2 - Med Density	10 – 18 DU/Ac	70%

$$\frac{\text{Acreage} \times \% \text{Impervious}}{0.0800} = \text{DMUs}$$

Condominium unit parcel areas are calculated by dividing the total area of the condominium complex (which includes the common area) by the number of condominium units, and the total imperviousness of the entire complex is attributed to each individual condo parcel in the complex. (This divides the runoff of the entire complex to each of the individual units.) Because these condominium common areas are taken into consideration in this manner, they are exempt from the charge.

Non- Residential Parcels

All non-residential parcel DMUs will be based on the impervious area (runoff coefficient) table shown in Exhibit B, using the following formula:

$$\frac{\text{Acreage} \times \% \text{Impervious}}{0.0800} = \text{DMUs}$$

All parcels draining into Rancho Cordova Stormwater Utility Fee-maintained drainage infrastructure are proposed to be charged the same user fee rate per DMU for stormwater runoff treatment. The Rancho Cordova Stormwater Utility Fee is proposed in perpetuity.

For the purposes of this report, City-maintained drainage infrastructure includes streets, pipes, inlets, outlets, and natural drainage courses. Parcels related to these types of property uses are exempt from the runoff charge, as they are part of the infrastructure being funded. Also exempt from the runoff charge is Caltrans right-of-way, because Caltrans handles its own runoff under a separate NPDES permit.

Drainage units may be adjusted based on appeal from the property owner. See the Appeals Process below.

Table 3, below, provides a preliminary summary of DMUs for the various land uses in Rancho Cordova.

Fee Calculations

The estimated annual costs for the proposed storm drain improvements are \$5,401,709 as shown in Table 4 above. Dividing that by the total number of proposed DMU's in Rancho Cordova (47,124), the maximum estimated annual Stormwater Utility Fee rate is **\$114.63 per DMU**.

This would be the proposed maximum fee rate for fiscal year 2014-15. The maximum rate will be increased each subsequent Fiscal Year by the annual change in the Consumer Price Index (CPI), during the preceding year, for All Urban Consumers, for the San Francisco-Oakland-San Jose areas, published by the United States Department of Labor, Bureau of Labor Statistics (or a reasonably equivalent index should the stated index be discontinued, as determined by the Director of Public Works).

The actual rate to be levied each year will be as approved by the City at a public hearing, after they consider an Annual Fee Report outlining the estimated annual costs of the program for the ensuing fiscal year.

Table 5 provides sample fee calculations for various land uses and parcel sizes.

The Preliminary Charge Roll, which is a listing of each parcel to be charged a fee and its proposed maximum fee for FY 2014-15, is on file in the office of the City Clerk.

Appeals Process

If a property owner disagrees with the calculation of his or her fee, based on the parcel area and estimated impervious percentage assigned to the property, then the property owner may appeal the calculation as follows:

1. Property owner must provide written documentation explaining the reason why the charge should be changed. This documentation must include:
 - a. The name, phone number, mailing address, and email address, if available, of the property owner.
 - b. The Assessor's Parcel Number (APN) of the property in question.
2. If additional documentation is required or insufficient documentation was submitted, a representative of the Department of Public Works (Staff) will notify the property owner in writing.
3. Once Staff has determined that sufficient documentation has been submitted, Staff will perform the initial review. Staff will notify the property owner in writing within four (4) weeks from the time sufficient documentation was submitted as to whether or not the fee amount will be changed.
 - a. If the determination is to change the fee amount, then the new fee amount will be documented within the City's fee database.

- b. If the determination is that the fee should not be changed, the property owner can appeal Staff's decision to the Director of Public Works. The appeal must be made in writing and returned no later than four (4) weeks from the date of mailing of Staff's initial review decision. The Director of Public Works will notify the property owner in writing within four (4) weeks from the date of receipt of the appeal as to whether or not the fee amount will be changed.

If the owner of any parcel shall have reason to feel that the computation of the DMU for his/her parcel is not correct, that person may file an appeal with the Director of Public Works in the manner prescribed by the Director of Public Works. The Director of Public Works will consider all data provided by the appellant and shall render a decision in writing. The decision of the Director of Public Works will be final with respect to City action on the appeal.

Appeals will be accepted annually up until June 30 for inclusion on the following fiscal year's property tax roll submittal. However, if an appeal is granted by Staff or the Director of Public Works that does not permit inclusion for the following fiscal year's property tax roll submittal, a reimbursement will be provided to the property owner by the City.

Respectfully submitted:

MEMORANDUM

DATE: June 6, 2016

TO: Honorable Mayor and Council Members

FROM: Albert Stricker, Interim Public Works Director and
Darrell Eck, Executive Director, Sacramento Central Groundwater Authority

**SUBJECT: RESOLUTION TO SUPPORT THE SACRAMENTO CENTRAL
GROUNDWATER AUTHORITY TO BECOME A GROUNDWATER
SUSTAINABILITY AGENCY**

RECOMMENDATION

Approve Resolution No. 62-2016.

RESULT OF RECOMMENDED ACTION

Approval of Resolution No. 62-2016 resolves that council supports Sacramento Central Groundwater Authority's preparation of the Alternative Plan to become a Groundwater Sustainability Agency for the South American Sub-basin and submit to the State Department of Water Resources for consideration.

BACKGROUND

Darrell Eck, Executive Director of the Sacramento Central Groundwater Authority (SCGA) will provide a presentation to Council providing a brief review of the Water Forum history, SCGA formation and a focused update on the State of California's 2014 Sustainability Ground Water Act. In the early 1990's, Sacramento County along with regional stakeholders including local governments, water managers, agricultural businesses, citizen groups and environmentalists recognized the importance of protecting the state's water resources including groundwater. After extensive collaboration, the Water Forum Agreement was adopted in 2000 which provided a plan for how to manage the region's groundwater resources for both current and future users. The Groundwater Element of the Agreement included negotiated agreements between Forum members that established a long term average sustainable yield for groundwater within the individual basins within Sacramento County.

In 2006, the Water Forum completed facilitation of the formation of SCGA, a joint powers authority for which Rancho Cordova is a voting member of a 16 member governing board. The governing board consists of regional members including municipalities, public agencies, and private water purveyors as well as agricultural, conservation and commercial/industrial interests located within the South American Subbasin.

On September 16, 2014, the Sustainable Groundwater Management Act (SGMA) was signed into law by the governor to provide a framework for sustainable management of groundwater by local water supply, water management and land use agencies. SGMA requires all basins to

establish Groundwater Sustainability Agencies (GSA) and develop Groundwater Sustainability Plans to manage groundwater that is compliant with SGMA regulations.

SCGA intends to initiate the process of becoming a GSA. The Omochumne-Hartnell Water District (OHWD) and Sloughhouse Resource Conservation District (SRCD,) both of which are located within the SCGA service area have requested to modify the boundary of the South American Subbasin and form their own GSAs. The request from OHWD and SRCD, if approved by the state Department of Water Resources, would require reevaluation of years of work previously done by the Water Forum and SCGA.

FISCAL IMPACT

There is no fiscal impact to the City.

BACKGROUND

On August 3, 2015, City Council adopted Resolution 102-2015 which approved the fiscal year 2015/2016 budget amounts for the community grants, City Council projects, and staff projects to be funded from the Community Enhancement Fund.

At the October 13, 2015 City Council Work Session an update was given on the implementation of the fiscal year 2015/2016 Community Enhancement Fund projects and programs.

In December 2015, the Residential Chain-Link Fence Buyback policy was finalized. The policy outlines the Council requested program funded by the fiscal year 2015/2016 Community Enhancement Fund. In January 2016, staff began community outreach to residents identified with existing chain-link fences in their front yard. The initial goal of the pilot program was to remove the first 10 chain-link fences by the spring of 2016. The response by residents far exceeded the expectation set for the pilot program. As of May 2016, 23 chain-link fences have been removed and another 7 are approved for removal and are expected to be removed by June 30, 2016. Staff is seeking a modification to the current year budget to allow for the increase in demand and to not lose the positive momentum created by this well-received program.

At the February 1, 2016 City Council Special Meeting a status update was given on several projects that required Council input and direction, which included the Sunriver Neighborhood Association – Physical Fitness Par Course project. At the conclusion of the meeting, Council directed staff to identify the full anticipated costs of the project, clarify the use of volunteers, ascertain any special requirements, and to report back on the findings.

Since then, staff met with Parks District staff to fully vet the cost estimates associated with the Sunriver Neighborhood Association project as well as the Sacramento Valley Live Steamers project. In addition, discussions took place on the use of volunteers and the overall processing requirements of the Parks District. Both of these projects are on land owned and maintained by Cordova Recreation and Parks District.

Staff seeks direction from the City Council on the attachment.
