MEMORANDUM

DATE: June 2, 2014

TO: Honorable Mayor and Council Members

FROM: Adam U. Lindgren, City Attorney
Kate Cook, Associate Attorney

SUBJECT: CITY COUNCIL DISCUSSION ON MARIJUANA CULTIVATION REGULATIONS AND OPTIONS

RECOMMENDATION

Discuss options for updating the City's regulations and zoning code provisions on outdoor and indoor marijuana cultivation and direct staff as to next steps.

RESULT OF RECOMMENDED ACTION

If the Council would like changes to the current marijuana cultivation regulations, staff will draft an ordinance amending the appropriate provisions of the Municipal Code for Council consideration at a future meeting.

BACKGROUND

Introduction:

A recent decision by the California Court of Appeal for the Third District clarifies that municipalities have broad authority to heavily regulate – and even completely ban – marijuana cultivation. City Council members have expressed an interest in discussing the options for amending the City's current regulations on marijuana cultivation. The purpose of this study session is for the City Council to consider its options and direct staff on any desired changes.

Rancho Cordova's Current Law on Marijuana Cultivation:

In 2010, the City Council passed Ordinance 17-2010, establishing the City's regulations for marijuana cultivation. Codified in Chapter 6.90 of the Municipal Code, the Ordinance allows for limited cultivation of marijuana for personal consumption. The Ordinance was crafted to reflect the law at the time, and establishes the following regulations:

- An individual may cultivate up to 25 square feet of marijuana **outdoors** if the plants are set back from all fences by 10 feet, the property has a secure fence, there is no evidence of the growth from a public right-of-way, the property owner has given his or her permission, and neighbors are not adversely impacted.¹

¹ The Ordinance defines "cultivation" as "the planting, growing, harvesting, drying, or processing of marijuana plants, or any part thereof."

- An individual may cultivate up to 25 square feet of marijuana **indoors**, on a parcel zoned for residential, within a fully enclosed structure inaccessible to minors if the property owner gives permission and numerous building standards are followed. Cultivation within the residential unit of a multi-family building requires inspection by a City building inspector or code enforcement officer. Indoor cultivation in excess of 25 square feet requires administrative review by the planning director and must meet numerous criteria related to building standards and documentation of medical need.

Overview of State and Federal Law on Marijuana Cultivation

California voters enacted The Compassionate Use Act (the CUA) in 1996. Contained in the State's Health and Safety Code, it provides qualified patients with an affirmative defense to criminal charges for possession and/or cultivation of a reasonable amount of marijuana needed for medical conditions. In 2004, the California Legislature adopted the Medical Marijuana Program Act (the MMPA). This law enhanced access to marijuana for qualified patients and caregivers by allowing for collective, cooperative cultivation projects (known as "dispensaries").

Neither the CUA nor the MMPA prevent a city from enacting nuisance and land use regulations regarding marijuana cultivation. The California Supreme Court held in May 2013 that neither the CUA nor the MMPA grant qualified patients a "broad right" to access medical marijuana and therefore local governments may regulate and prohibit facilities that distribute marijuana.² At the end of 2013, the Third District Court of Appeal took this ruling one step further in *Maral v. City of Live Oak*. The court upheld Live Oak's ordinance prohibiting all cultivation of marijuana, for any purpose, within the city. The court held that "there is no right — and certainly no constitutional right — to cultivate medical marijuana." A city, the court held, may prohibit all cultivation of marijuana within its boundaries pursuant to its police power.³ In late March, the California Supreme Court denied the petition for review of the case. Therefore the *Maral* decision remains good law. **This gives the City clear authority to prohibit all marijuana cultivation within its borders.** It is possible, however, that the law may change in the future.

The Sacramento County Board of Supervisors voted in May to ban all outdoor marijuana cultivation. The Ordinance will take effect in mid-June. The Board was scheduled to consider restrictions for indoor cultivation at its May 28th meeting, which had yet to occur at the time this report was finished. Other municipalities that prohibit outdoor cultivation include the cities of Citrus Heights, Concord, Corning, Sacramento and Elk Grove.

Marijuana remains an illegal Schedule I controlled substance under the Federal Controlled Substances Act. However, federal officials have emphasized that their enforcement efforts in California will focus on individuals and organizations who: transport marijuana to states where it is not legal, allow minors to access the drug, and use the marijuana trade to fund criminal activities.

Enforcement of Current Ordinance

The Rancho Cordova Police Department and Code Enforcement Division contacted at least 20 individuals in 2013 suspected to be in violation of the City's cultivation Ordinance. Most come into compliance after receiving a warning. Both departments have received complaints from residents regarding the negative impacts cultivation has on neighbors — such as nuisance odors and traffic concerns. Properties where large amounts of marijuana are cultivated are often targets for break-ins and robberies. It is believed that the vast majority of individuals

³ *Maral et al. v. City of Live Oak* (2013) 221 Cal.App.4th 975.

violating the Ordinance are cultivating marijuana for profit, which is illegal under the City's regulations as well as State law. Both departments support a complete ban on cultivation within the City, as it establishes a clear standard and may discourage criminal endeavors within the City.

Options for Regulating Marijuana Cultivation Within the City:

- 1) Leave Ordinance as-is, permitting limited amounts of indoor and outdoor cultivation.
- 2) Amend the Ordinance to prohibit all cultivation of marijuana within the City.
- 3) Amend the Ordinance to modify the current regulations in one or more of the following ways:
 - Prohibit outdoor cultivation only
 - Prohibit indoor cultivation only
 - Expand the allowed cultivation areas

- The medical and other costs to nonsmokers due to exposure to secondhand smoke were estimated at over \$10 billion per year in the United States in 2005;¹² and
- California's Tobacco Control Program saved the state and its residents \$86 billion in health care expenditures between the year of its inception, 1989, and 2004, with savings growing yearly;¹³ and

WHEREAS, exposure to secondhand smoke anywhere has negative health impacts, and exposure to secondhand smoke does occur at significant levels outdoors, as evidenced by the following:

- Levels of secondhand smoke exposure outdoors can reach levels attained indoors depending on the direction and amount of wind and number and proximity of smokers;¹⁵ and
- Irritation from secondhand smoke begins at levels as low as 4 micrograms per cubic meter, and in some outdoor situations this level can be found as far away as 13 feet from the burning cigarette;¹⁶ and
- Smoking cigarettes near building entryways can increase air pollution levels by more than two times as compared to background levels, with maximum levels reaching the "hazardous" range on the US EPA's Air Quality Index;¹⁷ and

Section 2. Amendment of Code. Chapter 6.84 of the Rancho Cordova Municipal Code is hereby retitled as the chapter on “Regulation of Smoking.”

Section 3. Amendment of Code. Chapter 6.84 of the Rancho Cordova Municipal Code, to be titled “Regulation of Smoking,” is hereby amended to read as follows:

6.84.010 Findings and Purpose.

The City Council finds as follows:

A. The purpose of this Chapter is to protect the public health and welfare by regulating smoking in public places and places of employment, and to strike a reasonable balance between the desires of persons who smoke and the need of nonsmokers to breathe smoke-free air, as air pollution caused by smoking is an offensive annoyance, irritant, public nuisance, and health hazard. Where these interests are in conflict, the need to breathe smoke-free air shall have priority.

B. Numerous studies have found that tobacco smoke, including secondhand smoke, is a major contributor to indoor air pollution and a significant health hazard and carcinogen to smokers and nonsmokers, and the number of nonsmokers is steadily increasing in this region.

C. Employees subject to prolonged exposure to smoke in the workplace have been found in scientifically conducted studies to experience a loss of job productivity and have been forced to take periodic sick leave due to reactions to secondhand smoke.

D. The U.S. Food and Drug Administration conducted laboratory analysis of electronic cigarette samples and found them to contain carcinogens and toxic chemicals to which users and bystanders could potentially be exposed, suggesting that the same health and public nuisance concerns present with conventional cigarettes exist with electronic cigarettes.

No settlement by a Private Enforcer of a violation of this Chapter shall be valid or enforceable if, within thirty (30) days of receiving notice of the settlement, the City Attorney determines the settlement to be unreasonable in light of the purposes of this Chapter. Any settlement or judgment that does not meet the requirements of this subsection may be set aside upon motion to a court of competent jurisdiction by the City Attorney.

G. Except as otherwise provided, enforcement of this Chapter is at the sole discretion of the City. Nothing in this Chapter shall create a right of action in any person against the City or its agents to compel public enforcement of this Chapter against private parties.

MEMORANDUM

DATE: June 2, 2014

TO: Honorable Mayor and Council Members

FROM: Cyrus Abhar, Public Works Director
Elizabeth Sparkman, Senior Engineer

SUBJECT: RESOLUTIONS INITIATING PROCEEDINGS FOR THE ANNUAL LEVY AND COLLECTION OF ASSESSMENTS FOR THE LANDSCAPING AND LIGHTING DISTRICT NO. 2005-1 FOR FISCAL YEAR 2014-2015

RECOMMENDATION

That City Council adopts:

- a) Resolution No. 45-2014 Initiating Proceedings for the Annual Levy and Collection of Assessments for the Landscaping and Lighting District 2005-1 for Fiscal Year 2014-2015; and
- b) Resolution No. 46-2014 Preliminarily Approving the Engineer's Annual Levy Report and Declaring its Intention to Levy and Collect Annual Assessments for the Landscaping and Lighting District No. 2005-1 for Fiscal Year 2014-2015.

RESULT OF RECOMMENDED ACTION

The recommended actions are required as part of the process to continue the annual levy and collection of assessments in the District. The assessments fund landscape maintenance in the District. There are no new impacts to existing or new residents. No assessments shall increase as a result of this action.

BACKGROUND

The Landscaping and Lighting District No. 2005-1 (LLD 2005-1) was formed in June 2005 by the City Council to continue a financial mechanism to provide landscape maintenance services previously funded since 1994 in Zone 4 and Zone 5 of the Sacramento County Landscape Maintenance District (SLMD). The maximum assessment rates authorized under LLC 2005-1 are equal to the maximum rates previously authorized in Zones 4 and 5 of the County's District.

State law requires the City Council direct an Engineer's Report to be prepared each year and to hold a public hearing on the report and the levy of the annual assessment. **Resolution No. 45-2014, Attachment 1**, directs Willdan Financial Services to prepare and file the Engineer's Report.

In anticipation of this resolution, the Engineer's Report has been prepared and is on file with the City Clerk. The **Engineer's Report, Exhibit A**, includes a diagram of the assessment area, a description of the maintenance services to be provided, a description of the property to be benefited, and the amount of the assessment to each individual property. The services performed within and funded by LLD 2005-1 include ongoing maintenance, operation and servicing of landscaping and streetscape within the right-of-ways and other public areas within the District at the locations described in the Engineer's Report.

The proposed Fiscal Year 2014-2015 assessment rates do not exceed the rates previously levied by the County since 1994 and are equal to the rates levied by the City in Fiscal Year 2013-2014. The boundaries of each Zone are shown in the district diagram in Part IV of the Engineer's Report and the details for each Zone are listed below:

- Zone 1 of the District is comprised of ninety-seven (97) residential parcels in the Ellenwood subdivision. These parcels are assessed on per Parcel basis at the maximum rate of \$42.50 per parcel.
- Zone 2 of the District is comprised of one hundred fifty-nine (159) residential parcels known as California Jazz Unit No. 1 and Unit No. 2. These parcels are assessed on an acreage basis at the maximum rate of \$30.48 per acre for the median landscape and parkway landscape improvements associated with these parcels.
- Zone 3 of the District is comprised of eighteen (18) parcels along Zinfandel Drive between Data Drive and south of International Drive. These parcels are assessed on an acreage basis at the rate of \$1,413.24 per acre for the median landscape improvements within the District.
- Zone 4 is comprised of fifty-two (52) parcels, including a portion of Capital Village, generally bounded by White Rock Road to the west, White Rock Road and Disk Drive to the north, fronting Kilgore Drive to the East, and fronting International Drive to the south. These parcels are assessed at the maximum rate of \$30.48 per gross acre.
- Zone 4A is comprised of six hundred sixty-four (664) parcels which are a part of the development known as Capital Village. Zone 4A was created to account for overlapping boundaries with a Landscape Maintenance CFD (LMCFD) formed by the City. The CFD will provide supplemental funding for landscape improvements within and adjacent to the development, including some median landscaping identified herein. Zone 4A shall be assessed at the maximum rate of \$30.48 per gross acre. Any supplemental funds generated by LMCFD that will be used to finance the median landscape improvements that benefit Zone 4A shall be transferred by the CFD to the District as a contribution to Zone 4A.

The Fiscal Year 2014-2015 total assessment is estimated at \$91,593. The District has an established Operating Reserve which provides funding for the operations and maintenance of the District, as well as providing financing for emergency expenditures. A second reserve fund finances special projects such as a central irrigation system, revegetation projects, and other rehabilitation projects or replacements of District improvements.

In July 2006, the County transferred funds previously collected in the County's Zone 4 and 5 to the City, which was deposited to the LLD 2005-1. The City had previously deemed that these transferred funds are to be used exclusively by the District and shall be considered as undesignated reserves within the Zones of the District. Funds from the undesignated reserve can be used to fund costs of any zone(s) that are unable to be funded by the annual assessments.

In order to proceed with the levy of assessments after consideration and approval of the Engineer's Report, it is appropriate for the Council to adopt **Resolution No. 46-2014, Attachment 2**, which declares the Council's intention to levy assessments for Fiscal Year 2014-2015. It also sets July 21, 2014 at 5:30 p.m. or as soon thereafter as possible, as the date and time for a public hearing on the issue of the levy of Fiscal Year 2014-2015 assessments. Notice of the public hearing will be given by publication.

INTRODUCTION

Pursuant to the provisions of the Landscaping and Lighting Act of 1972, being Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500 (hereafter referred to as the "1972 Act"), and in compliance with the substantive and procedural requirements of the California State Constitution Article XIII D (hereafter referred to as the "California Constitution"), the City Council of the City of Rancho Cordova, County of Sacramento, State of California (hereafter referred to as "City"), has by resolution initiated proceedings in connection with the ongoing maintenance of the special assessment district designated as:

Landscaping and Lighting District No. 2005-1

(hereafter referred to as "District"), for the purpose of continuing and providing for the ongoing maintenance and operation of landscaping and lighting improvements within the District.

These improvements have previously been provided and administered by the County of Sacramento (the "County") as part of the Sacramento Landscape Maintenance District (hereafter referred to as "SLMD"). Commencing with fiscal year 2005/2006, the City conducted property owner protest ballot proceedings and confirmed the assessments described herein at which time the maintenance and operation of the improvements became the responsibility of the City with the City Council acting as the legislative body of the District. The City Council proposes to continue the levy and collection of annual assessments through the County tax rolls to provide ongoing funding for the costs and expenses required to service and maintain the District improvements.

This Engineer's Report (hereafter referred to as "Report") has been prepared in connection with the annual administration of said District and the levy and collection of annual assessments related thereto for fiscal year 2014/15, as required pursuant to Chapter 1, Article 4 of the 1972 Act. This Report describes the District, the improvements, and the proposed assessments to be levied on properties within the District in connection with the special benefits the properties receive from the maintenance and servicing of the District improvements. The annual assessments will provide a continued funding source for the ongoing operation and maintenance of public landscaping and lighting improvements associated with the properties within the District.

The improvements and assessments described in this Report are based on the improvements and assessments previously established by the County for SLMD Zone 4 and Zone 5 and represent an estimate of the direct expenditures, incidental expenses, and fund balances associated with the maintenance and servicing of those improvements. The structure of the District (organization), the

improvements, the method of apportionment, and assessments described herein have been established to continue the maintenance of the existing improvements and assessments previously established by the County as outlined in the District's Fiscal Year 2005/2006 Engineer's Report.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number (APN) by the County Assessor's Office. The County Auditor/Controller uses Assessor's Parcel Numbers and specific Fund Numbers to identify properties to be assessed on the tax roll for special benefit assessments.

In fiscal year 2005/2006, as part of the District formation to continue the assessments previously levied by the County as part of the SLMD Zone 4 and Zone 5 for properties within the boundary of the City, the City conducted a Property Owner Protest Ballot proceeding for the District assessments pursuant to the provisions of the *California Constitution, Article XIID Section 4*. In conjunction with this ballot proceeding, the City Council also conducted a noticed public hearing to consider public testimonies, comments and written protests regarding the formation of the District and levy of maximum assessments. Upon conclusion of the public hearing, property owner protest ballots received were opened and tabulated to determine whether majority protest existed (ballots were weighted based upon the assessment amounts), and by resolution the City Council confirmed the results of the ballot tabulation. Tabulation of the ballots indicated that a majority protest did not exist for the continuation and transfer of assessments as presented and described in the fiscal year 2005/2006 Engineer's Report. The City Council approved the report, ordered the formation of the District, and approved the levy and collection of FY 2005/2006 assessments. The FY 2005/2006 assessments were then submitted to the Sacramento County Auditor/Controller for inclusion on the property tax roll for each parcel.

For fiscal year 2014/15, this Report has been prepared and presented to the City Council describing the District, any changes to the District or improvements, and the proposed budget and assessments for this fiscal year, and the City Council shall hold a noticed public hearing regarding these matters prior to approving and ordering the proposed levy of assessments. Should the proposed annual assessments for the District or portion thereof, exceed the maximum assessments described herein (as approved by the property owners), the new or increased assessment must be confirmed through another property owner protest ballot proceeding before the new or increased assessment may be imposed. It should be noted that an increased assessment to an individual property resulting from changes in development or land use does not constitute an increased assessment.

This Report consists of five (5) parts:

Part I

Plans and Specifications: A description of the District boundaries and the proposed improvements associated with the District. The District was formed with four (4) benefit zones encompassing all lots and parcels of land within the boundaries of the City. The territory within the District had previously been assessed through Zone 4 and Zone 5 of the SLMD in fiscal year 2004/2005. The District was first assessed in fiscal year 2005/2006.

Part II

The Method of Apportionment: A discussion of benefits the improvements and services provide to properties within the District and the method of calculating each property's proportional special benefit and annual assessment.

Part III

The District Budget: An estimate of the annual costs to operate, maintain and service the District's landscaping and lighting improvements and facilities. The special benefit assessments are based on the overall operation costs minus any costs that are considered general benefit. The proposed budget includes the anticipated costs for operating, maintaining and servicing the District improvements for fiscal year 2014/15, including any funds necessary to perform maintenance activities that cannot be reasonably collected in a single fiscal year to establish the proposed assessments for that year. Should the proposed assessments exceed the assessments described herein, property owner ballot proceedings shall be conducted to approve such an increase before the increase may be imposed.

Part IV

District Diagram: A Diagram showing the exterior boundaries of the District and the Zones therein is provided in this Report and includes the parcels that receive special benefits from the improvements. Parcel identification, the lines and dimensions of each lot, parcel and subdivision of land within the District, are inclusive of all parcels as shown on the County Assessor's Parcel Maps as they existed at the time of the passage of the Resolution of Intention, and shall include all subsequent subdivisions, lot line adjustments or parcel changes therein. Reference is hereby made to the County Assessor's maps for a detailed description of the lines and dimensions of each lot and parcel of land within the District.

Part V

Assessment Roll: A listing of the proposed assessment amount for each parcel within the District. The proposed assessment amount for each parcel is based on the parcel's proportional special benefit as outlined in the method of apportionment.

Part I — PLANS AND SPECIFICATIONS

A. Description of the District

The territory within the District consists of the lots and parcels of land that in fiscal year 2004/2005 were both within the City and within a portion of Zone 4 and all of Zone 5 of the Sacramento Landscape Maintenance District ("SLMD"). Said territory encompasses an area of land totaling approximately five hundred twelve acres (512 acres) that is centrally located within the City, generally south of Highway 50 and north of the City limits. Refer to the Budget Section for the current number of parcels within each Zone.

- **Zone 1:** That portion of the previous SLMD Zone 4, which at the time of the formation of the District included a total of ninety-seven (97) assessable parcels within the residential subdivision known as Ellenwood Court located south of Ellenwood Avenue. Upon formation of the District, this area was designated as Zone 1 to reflect the special benefit these parcels receive from the District improvements associated with the development located on the south side of Ellenwood Avenue.
- **Zones 2, 3 and 4:** The parcels within previous SLMD Zone 5, which at the time of the formation of the District included a total of six hundred eighty-six (686) assessable parcels generally located south of the American River, east of Mather Field Road and in close proximity to Zinfandel Drive and International Drive. Upon formation of the District, this area was designated as Zones 2, 3, and 4 and are described as follows:

Zone 2 included the one hundred fifty-four (154) assessable parcels within the residential subdivision known as California Jazz Units 1 & 2 generally located east of Data Drive, north of Reserve Drive, south of Capital Center Drive and west of International Drive.

Zone 3 included the eight (8) assessable parcels located on either side of Zinfandel Drive from Data Drive to the southern boundary of the District (approximately 700 feet south of International Drive).

Zone 4 included the remaining parcels that were previously included in SLMD Zone 5 that were not designated as either Zone 2 or Zone 3 of the District. This Zone includes parcels along Data Drive, International Drive, Capital Center Drive, White Rock Road, Quality Drive, Disk Drive, Prospect Park

Drive and Kilgore Road.

Zone 4A is the portion of Zone 4 that also lies within the City's Community Facilities District No. 2005-2 ("CFD 2005-2"). Zone 1 of CFD 2005-2 was established to fund, to the extent that funds from CFD 2005-2 are available, maintenance of landscape improvements of the residential subdivision development known as Capital Village. These landscape improvements were installed along the subdivision's rights-of-way and within the median(s) adjacent to the development. The funds from Zone 1 of CFD 2005-2, to the extent available, shall offset all or a portion of the costs within Zone 4A.

B. Description of Improvements and Services

Landscape Improvements

The purpose of this District is to ensure the ongoing maintenance, operation and servicing of local landscaping and street lighting improvements within the District (improvements that had been previously funded through annual assessments from the SLMD). The improvements may consist of all or a portion of the public landscaped areas, street lighting and appurtenant facilities within and adjacent to the District. These improvements may include, but are not limited to the materials, equipment, utilities, labor, appurtenant facilities and expenses necessary for the ongoing maintenance and operation of public street lighting and landscape improvements including but not limited to parkways, medians and other designated easements, right-of-ways or public areas within the District. The improvements to be maintained and funded entirely or partially through the District assessments are generally described as:

- **Zone 1:** Streetscape (parkway) landscaping along the South side of Ellenwood Avenue east of Routier Road that is within the public right-of-ways or easements dedicated to the City for maintenance. The costs and special benefits of these improvements are shared equally by only the assessable properties within Zone 1 of the District.
- **Zone 2:** Streetscape (parkway) landscaping surrounding and adjacent to the California Jazz subdivision on the north side of Reserve Drive from Data Drive to International Drive; the east side of Data Drive from Reserve Drive north to the end of the subdivision; the west side of Capital Center Drive from International Drive north to the end of the subdivision; and the north side of International Drive from Reserve Drive to Capital Center Drive. The costs and special benefits of these improvements are proportionately shared by only the properties within Zone 2 of the District.

- **Zone 3:** Streetscape (parkway) landscaping on both sides of Zinfandel Drive between International Drive and Data Drive. The costs and special benefits of these improvements are proportionately shared by only the properties within Zone 3 of the District.
- **Zones 2, 3, 4 and 4A:** All median landscape improvements within the District located on International Drive from approximately 570 feet westerly of Data Drive to Kilgore Road and on Zinfandel Drive from Data Drive to International Drive. The costs and special benefits of these improvements are proportionately shared by all the properties within Zone 2, 3, 4 and 4A of the District.

Specifically not included as District improvements are those improvements located on private property, improvements and facilities that may be provided or maintained by an agency other than the City; improvements and facilities that may be provided by another assessment or tax levied by the City or County and any improvement provided and maintained by a Homeowner's Association or similar entity.

Detailed descriptions of the location and extent of the specific improvements to be maintained by the District are on file with the City and by reference are made part of this Report. The net annual cost to provide and maintain the improvements determined to be of special benefit shall be allocated to each property in proportion to the special benefits received.

The landscape improvements for the District may include, but are not limited to turf, ground cover, shrubs and plants, trees, irrigation and drainage systems, ornamental lighting, masonry walls or other fencing, hardscape improvements, monuments, and associated appurtenant facilities located within the landscape easements or public right-of-ways. Specifically the landscape improvement areas for this District generally consist of the following:

- Approximately 9,600 square feet of streetscape (parkway) landscaping and 34 trees within the public right-of-ways located on the south side of Ellenwood Avenue.
- Approximately 11,000 square feet of turf, 28,455 square feet of streetscape (parkway) landscaping including 110 trees, located on the north side of Reserve Drive from Data Drive to International Drive; east side of Data Drive, from Reserve Drive north to end of California Jazz tract Unit No. 1; west side of Capital Center Drive, from International Drive north to the end of California Jazz Tract Unit No. 2; and north side of International Drive, from Reserve Drive to Capital Center Drive.

- Approximately 19,400 square feet of turf, 11,500 of streetscape (parkway) landscaping including 57 trees, located on the west side of Zinfandel Drive, south of International Drive.
- Approximately 152,340 square feet of turf, 55,600 square feet of streetscape and median landscaping including 392 trees along the medians and frontage corridors on Zinfandel Drive, from Data Drive to International Drive; and medians on International Drive, west of Data Drive to Kiloge Road.

Public Lighting Improvements

Lighting facilities that may be located within the landscaped areas including safety lights, security lights or ornamental lights installed as part of the landscape improvements are budgeted as part of the landscape maintenance costs.

The lighting improvements may include but shall not be limited to the cost of providing electrical energy and servicing of lighting fixtures, poles, meters, conduits, electrical cable and associated appurtenant facilities associated with the street lighting, safety lighting and/or traffic signals within the District including public lighting facilities on designated arterial and collector streets as well as lighting facilities within residential subdivisions or public areas such as parks. The cost of such improvements shall be allocated based on the proportional special benefits properties receive from these improvements.

Part II — METHOD OF APPORTIONMENT

A. General

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."

The method of apportionment described in this Report for allocation of special benefit assessments utilizes commonly accepted engineering practices and have been established pursuant to the 1972 Act and the provisions of the California Constitution. The formulas used for calculating assessments reflects the composition of parcels within the District and the improvements and services provided, to fairly apportion the costs based on the special benefits to each parcel.

B. Benefit Analysis

Each of the proposed improvements, the associated costs and assessments have been carefully reviewed, identified, and allocated based on special benefit pursuant to the provisions of the California Constitution and 1972 Act. The improvements provided by the District and for which properties will be assessed have been identified as necessary, required and/or desired for the development of properties within the District and as such, the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of the parcels within the District. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are a distinct and special benefit to the properties within the District. Any improvement or portion thereof that is considered to be of general benefit shall be funded by other revenue sources and not included as part of the special benefit assessments allocated to properties within the District.

Special Benefit

The method of apportionment (method of assessment) established herein is based on the premise that each assessed parcel within the District receives special benefits from specific improvements and the desirability and security of those properties is enhanced by the presence of well-maintained improvements in close proximity to those properties.

The special benefits associated with landscape improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life through well-maintained green space and landscaped areas.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

The special benefits of street lighting and other public lighting facilities are the convenience, safety, and security of property, improvements, and goods. Specifically:

- Enhanced deterrence of crime and the aid to police protection.
- Increased nighttime safety on roads, streets and public areas.
- Improved ability of pedestrians and motorists to see.
- Improved ingress and egress to property.
- Reduced vandalism and other criminal act and damage to improvements or property.
- Improved traffic circulation and reduced nighttime accidents and personal property loss.

All of the preceding factors contribute to a specific enhancement and desirability of each of the assessed parcels within the District and thereby provide special benefits to the properties. Furthermore, it has been determined that the lack of funding to properly service and maintain the District improvements could have a negative impact on the properties within the District.

General Benefit

In reviewing each of the District improvements, the proximity of those improvements to both properties within the District and those outside the District as well as the reasons for installing and constructing such improvements, it is evident that the improvements are solely for the benefit of properties within the District and the ongoing maintenance and operation of the improvements will directly affect the properties within the District. Although the improvements include public areas, easements, right-of-ways and other amenities available or visible to the public at large, the construction and installation of these improvements were only in direct benefit to the properties within the District and were not required nor necessarily desired by any properties or developments outside the District boundary and any public access or use of the improvements by others is incidental. Therefore, it has been determined that the improvements and the ongoing maintenance, servicing and operation of those improvements provide no measurable general benefit to properties outside the District or to the public at large, but clearly provide distinct and special benefits to properties within the District.

C. Assessment Methodology

The method of apportionment for the District calculates the receipt of special benefit from the respective improvements based on the actual or proposed land use of the parcels within the District. The special benefit received by each lot or parcel is equated to the overall land use of parcels within the District based on the parcel's actual land use or proposed development.

All costs associated with the improvements shall be fairly distributed among the parcels based upon the special benefit received by each parcel. Additionally, in compliance with the California Constitution, each parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred to that parcel. The benefit formula used to determine the assessment obligation is therefore based upon both the improvements that benefit the parcels within the District as well as the proposed land use of each property as compared to other parcels that benefit from those specific improvements.

At the time that the District was being formed and to identify and

determine the special benefit to be received by each parcel and their proportionate share of the improvement costs, it was necessary to consider the entire scope of improvements to be maintained by the District, as well as individual property development within the District. Upon review of the improvements to be maintained, it was determined that four (4) distinct areas benefit differently from the improvements within the District and therefore the landscape maintenance and assessments were established as four (4) benefit zones for the allocation of the assessments and proportional special benefit, as described below. Although a portion of Zone 4 was designated as Zone 4A in fiscal year 2007/08, as discussed below, Zones 4 and 4A remain as one benefit zone and are assessed at the same maximum rate.

Zones and Assessments:

Zone 1, upon formation of the District, was comprised of one hundred five (105) parcels that were previously part of the SLMD Zone 4. At that time, ninety-seven (97) of these parcels were residential properties and were assessed on a per parcel basis at the pre-existing rate of \$42.50 per parcel. Ninety-seven (97) parcels are currently being assessed within Zone 1.

Zone 2, upon formation of the District, was comprised of one hundred fifty-nine (159) parcels that were previously part of SLMD Zone 5 and are part of the residential developments known as California Jazz Unit No.1 and Unit No. 2. At that time, one hundred fifty four (154) of these parcels were assessed as residential properties on an acreage basis at the pre-existing rate of \$30.48 per acre for the median landscape improvements and parkway landscape improvements associated with these parcels. One hundred fifty four (154) parcels are currently being assessed within Zone 2.

Zone 3, upon formation of the District, was comprised of eight (8) parcels, all of which were assessable, that were previously part of SLMD Zone 5. These parcels were assessed on an acreage basis at the pre-existing rate of \$30.48 per acre for the median landscaping and \$1,382.76 per acre for the landscaping along the parkways of Zinfandel Drive, totaling \$1,413.24 per acre. Eighteen (18) parcels are currently being assessed within Zone 3.

Zone 4, upon formation of the District, was comprised of seventy (70) parcels that were previously part of the SLMD Zone 5 that were not included as part of this District's Zone 2 or 3. At that time, sixty three (63) of these parcels were non-exempt and were assessed on an acreage basis at the pre-existing rate of \$30.48 per acre for the median landscape improvements within the District. Fifty-two (52) parcels are currently being assessed within Zone 4.

Zone 4A, a portion of Zone 4 was redesignated as Zone 4A commencing with the fiscal year 2007/08 levy to account for the Zone 4A parcels lying within with a portion of CFD 2005-2; the Zone 4 parcels are outside of the CFD 2005-2 boundaries. At that time, Zone 4A consisted of five hundred seven (507) parcels, four hundred sixty two (462) of which were assessable. Since the CFD 2005-2 Zone 1, special taxes are to be levied upon Zone 4A parcels, these special taxes are contributed in part to the District for the benefit of Zone 4A. Zone 1 of the CFD provides funding for landscape improvements within and adjacent to the development, including the median landscaping identified herein. Although the CFD may fund median landscaping, the special taxes levied within Capital Village may not provide sufficient funds to maintain both the landscape improvements within the Capital Village development and the median landscape improvements within the District that specially benefit the parcels within Zone 4A. Therefore, the six hundred sixty four (664) non-exempt parcels currently within Zone 4A will continue to be assessed up to \$30.48 per gross acre until such time that the CFD generates sufficient revenue to fund the median landscape improvements. Any funds generated by the CFD that will be used to finance the median landscape improvements that benefit Zone 4A shall be transferred by the CFD to the District as a contribution to Zone 4A.

Exempt Parcels — Properties within the District that are not assessed for special benefit include but is not limited to:

- Lots or parcels identified as public streets and other roadways (typically not assigned an APN by the County);
- Dedicated public easements including open space areas, utility rights-of-way, greenbelts, parkways, parks or other publicly owned properties that are part of the District improvements or may provide other benefits to private properties within the District;
- Private properties that cannot be developed independently from an adjacent property, such as common areas, sliver parcels or bifurcated lots or properties with very restrictive development use;

These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment, but shall be reviewed annually by the assessment engineer to confirm the parcels current development status. Government owned properties or public properties are not necessarily exempt properties and shall be subject to special benefit assessment unless it qualifies for an exempt status.

Special Cases — In many districts where multiple land uses and zones exist, the typical property classification and assessment methodology does not accurately identify the special benefits received from the improvements for each and every parcel. For example, in some cases, only a small percentage of the parcel's total acreage can actually be developed. In this case, an appropriate calculation would be based on the net acreage that can be utilized rather than the gross acreage of the parcel. These special circumstances will be reviewed annually by the assessment engineer.

Part III — DISTRICT BUDGET

A. Budget

The Maximum Assessment per Parcel or Acre shown herein is based on the cost of providing for the District improvements and does not include any other assessments or charges imposed on the properties. The budget within this report identifies the cost to maintain the improvements within each specified Zone of the District.

Each zone within the District maintains two separate reserves, one is utilized for Working Capital purposes (the "Operating Reserve") and the other for longer-term projects (the "Special Projects Reserve"). The Operating Reserve provides cash for the ongoing operations and maintenance of the District, as well as providing funding for unanticipated expenditures. The size of the Operating Reserve for each zone is limited by Streets and Highways Code 22569, which states that an Operating Reserve shall not exceed the estimated costs of maintenance and services from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County. The City has determined that all budgeted costs as presented in this Report shall be considered as costs to maintain and service the District, or incidental expenses thereof, as to the application of the of Streets and Highways Code 22569.

The Special Projects Reserve can be used to finance the Central Irrigation System (CIS) project and re-vegetation projects, as well as other rehabilitation projects, repairs or replacements of District improvements. The District also holds an undesignated reserve, which represents the balance of the funds transferred from Sacramento County to the City when the authority for the District passed from County control to that of the City. At that time, the City deemed that these transferred funds are to be used exclusively by the District and shall be considered as undesignated reserves within the Zones of the District. Accordingly, funds from the Undesignated Reserve shall be transferred to fund the costs of any Zone, to the extent that the Zone is unable to fund such costs through the annual assessments and available reserves of the Zone.

B. Description of Budget Items

Description of the terms used in the preceding Budget, Assessment Rates and Reserve Balance tables are listed below:

MAINTENANCE AND OPERATION (DIRECT COSTS)

Contract Maintenance - Landscaping – Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements, irrigation and related drainage systems, as well as maintenance of appurtenant facilities (the “improvements”).

Utilities (Water/Electricity) – Landscaping - The furnishing of water and electricity required for the operation and maintenance of the landscaping related improvements.

Utilities (Electricity) – Lighting - The furnishing electricity required for the operation of the lighting improvements.

Periodic Repair/Rehabilitation – Landscaping – Expected costs for repair, replacement, installation or planned upgrades of District landscaping improvements.

Periodic Repair/Rehabilitation – Lighting – Expected costs for repair, replacement, installation or planned upgrades of District lighting improvements. If zero, this line item may not be shown in the budget.

Special Project Expenditures – Expected costs for installation, replacement or planned upgrades of District landscaping or lighting improvements for the current year that were previously funded or accumulated in the Special Projects Reserve. The Special Projects Reserve is used to accumulate funds for costs associated with the future rehabilitation, repair or replacement of these District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

ADMINISTRATION COSTS

District Administration – Estimated costs incurred by the City in preparation of the annual budget and the preparation, review, posting and / or publishing of documents and notices required for City Council

action to approve the annual assessments. These costs also include contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's Report.

Contract Administration – Estimated costs to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District.

County Collection Fees – The fee charged to the District by the County for placing assessments on property tax bills.

Other Administration Expenses – Administration expenses not included above, including the cost to publish public notices required for City Council action relating to the District. If zero, this line item may not be shown in the budget.

TOTAL COSTS – The total expected costs of the District.

ADJUSTMENTS AFFECTING LEVY AMOUNT

Replenishment/(Use) of Operating Reserve – A “Replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “Use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided in the following pages of this Section.

Contribution to/(Use of) Special Projects Reserve — A “Contribution” increases the levy in order to generate funding for the Special Projects Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Special Projects Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Special Projects Reserve. In the event that the expenditure of a current year special project is funded entirely by a collection from the current fiscal year levy and / or a transfer from the Undesignated Reserve, this line item may show as zero, which is the net of the two amounts. If zero, this line item may not be shown in the budget. Further information regarding the function of the Special Projects Reserve is provided in the following pages of this Section.

Undesignated Reserve Fund Transfer - A transfer of undesignated reserve funds provides current year funding for one or more Zones that are unable to be adequately funded by a Zone's annual assessments. Further information regarding the undesignated reserve can be found in the first page of the Budget Section.

Revenues from Other Sources – These amounts represent contributions from CFD No. 2005-2; only affects Zone 4A. This relationship is more fully described in the previous sections of this report.

Rounding Adjustment – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

BALANCE TO LEVY - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

DISTRICT STATISTICS & ASSESSMENT RATES

Number of Assessable Parcels - The total number of parcels within each Zone that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public right-of-ways or easements, common areas, and/or parcels within the boundaries of the District that currently do not benefit from the improvements, due possibly to development restrictions.

Assessable Acreage - The total assessable acreage within each Zones at are expected to be assessed on an acreage basis for the current fiscal year.

Applied Rate per Parcel - The assessment rates to be applied each non-exempt parcel within the Zone for the current fiscal year.

Applied Rate per Acre - The assessment rate per acre to be applied each non-exempt parcel within the respective Zone for the current fiscal year.

Maximum Rate per Parcel - The maximum assessment rate that can be assessed to each non-exempt parcel within the respective Zone for

the current fiscal year.

Maximum Rate per Acre - The maximum assessment rate per acre that can be assessed to each non-exempt parcel within the respective Zone for the current fiscal year.

Potential Maximum Assessment – The total amount that can be assessed to all parcels within each Zone for the current fiscal year based upon the expected number of assessable units and acres using the maximum assessment rates.

UNDESIGNATED RESERVE FUND BALANCE

Beginning Undesignated Reserve Balance 7-1-2014 (est.) - The anticipated beginning balance of cash and receivables, net of any unpaid prior year obligations, of the Undesignated Reserve. This reserve is undesignated; therefore, funds from the Undesignated Reserve may be used to fund costs of any Zone, to the extent that the Zone is unable to fund such costs through the annual assessments and available reserves of the Zone. Further information regarding the Undesignated Reserve can be found in the first page of the Budget Section.

Funding of Expenses in Excess of Assessments (est.) – The amounts expected to be transferred from the Undesignated Reserve to fund FY 2014/15 expenses. Funds from the Undesignated Reserve may be transferred to fund the costs of any Zone, to the extent that the Zone is unable to fund such costs through the annual assessments and available reserves of the Zone.

Ending Undesignated Reserve Balance 6-30-2015 (est.) - The anticipated ending balance of cash and receivables, net of any unpaid prior year obligations, of the Undesignated Reserve.

OPERATING RESERVE BALANCES

Beginning Reserve Balance 7-1-2014 (est.) - The anticipated beginning balance of cash and receivables, net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2014 to December 31, 2014, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. The Special

Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Add: Collect from FY 14/15 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2014 (the beginning of the Fiscal Year) through December 31, 2014. If zero, this line item may not be shown in the budget.

Less: Use for FY 14/15 Expenses – The amount of the Operating Reserve to be used to fund FY 14/15 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2014 (the beginning of the Fiscal Year) through December 31, 2014. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Special Projects Reserve — The amount of Operating Reserve monies to be transferred to or from the Special Projects Reserve. Periodically, funds held in a Special Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Special Projects Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2015 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2015. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance and service from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Special Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

SPECIAL PROJECTS RESERVE BALANCES

Beginning Reserve Balance 7-1-2014 (est.) — The projected balance of funds in the Special Projects Reserve as of July 1, 2014. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Add: Collect from FY 14/15 Levy — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, repairs, restorations or upgrades of District improvements. This line may show a portion of funds transferred from the Undesignated Reserve to fund a current year special project. If zero, this line item may not be shown in the budget.

Less: Use for FY 14/15 Special Projects — The amount of Special Projects Reserve monies expected to be expended for Special Projects to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Operating Reserve — The amount of Special Projects Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Special Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Special Projects Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2015 (est.) - The projected balance of funds in the Special Projects Reserve as of June 30, 2015. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Special Projects Reserve or related activity, the Special Projects Reserve information may not be presented in the Report.

C. Special Projects Reserve – Capital Improvement Plan

Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. Therefore, a five year Capital Improvement Plan is shown below for the rehabilitation, restoration, repair and/or replacement of District improvements and other allowable costs for each Zone projecting an ending Special Projects Reserve balance:

Zone 3:

- Upgrades to irrigation system; replacement and/or enhancement of landscape improvements: \$65,000 in FY 2014/15, \$15,000 2015/16, and \$40,000 in each FYs 2016/17 and 2017/18.
- Upgrades to Controller software for irrigation system: \$15,000 in FY 2014/15.
- Projected costs to reorganize district, including costs of re-engineering and balloting: \$22,139 in FY 2014/15 for Zone 3's share of costs.

Periodically, funds held in a Special Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Special Projects Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements.

Part IV — DISTRICT DIAGRAM

The parcels to be assessed consist of all lots, parcels and subdivisions of land located within the boundaries of the map designated as “Boundary Map of Landscaping and Lighting District No. 2005-1.”

The following District Diagram, which was based upon both the County Assessor's Maps and County Assessor's information, identifies all the parcels of land within the District at the time of formation.

Part V — ASSESSMENT ROLL

Parcel identification for each lot or parcel within the District is based on the Assessment Diagrams presented herein and is based on available parcel maps and property data from the County Assessor's Office at the time the Engineer's Report was prepared. A listing of the proposed lots and parcels to be assessed within this District along with the assessment amounts is provided herein.

Non-assessable lots or parcels may include, but are not limited to public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas, right-of-ways, common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed or has little or no value. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate described in this Report as approved by the City Council. Therefore, if a single parcel is subdivided to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

The following is a list of the parcels and proposed assessment amounts for each of the parcels within the District as determined by the assessment rates and method of apportionment described herein:

MEMORANDUM

DATE: June 2, 2014

TO: Honorable Mayor and Council Members

FROM: Cyrus Abhar, Public Works Director
Elizabeth Sparkman, Senior Engineer

SUBJECT: RESOLUTIONS INITIATING PROCEEDINGS FOR THE ANNUAL LEVY AND COLLECTION OF ASSESSMENTS FOR THE RANCHO CORDOVA LIGHTING DISTRICT NO. 2012-1 FOR FISCAL YEAR 2014-2015

RECOMMENDATION

That City Council adopts:

- a) Resolution No. 47-2014 Initiating Proceedings for the Annual Levy and Collection of Assessments for the Rancho Cordova Lighting District No. 2012-1 for Fiscal Year 2014-2015; and
- b) Resolution No. 48-2014 Preliminarily Approving the Engineer's Annual Levy Report and Declaring its Intention to Levy and Collect Annual Assessments for the Rancho Cordova Lighting District No. 2012-1 for Fiscal Year 2014-2015.

RESULT OF RECOMMENDED ACTION

The recommended actions are required as part of the process to continue the annual levy and collection of assessments for the Rancho Cordova Lighting District No. 2012-1 (the "District"). The assessments fund street lights and safety lights in the District. There are no new impacts to existing or new residents. No assessment rates shall increase as a result of this action.

BACKGROUND

County Service Area 1 was created in 1986 by the Sacramento County Board of Supervisors by reorganizing five existing street light maintenance districts. CSA 1 was established to provide street light services to those unincorporated portions of Sacramento County. From 1987 to 1996, the Board adjusted the annual assessment rates to account for fluctuations in operating and maintenance costs, which generally allowed for higher levels of service. The passage of Proposition 218 in 1996 capped the assessment rates and removed the Board's discretion to approve future rate increases. Since that time, the Board of Supervisors approved the creation of separate zones within CSA 1 for the Cities of Citrus Heights, Elk Grove and Rancho Cordova allowing the cities and the County to supplement CSA 1 revenues specific to those areas; Zone 2 of CSA 1 encompassed all of the City of Rancho Cordova. This action also facilitated the eventual Local Agency Formation Commission (LAFCO) approved detachment of Elk Grove

(August 2005), Citrus Heights (June 2006) from CSA 1 and Rancho Cordova (June 2012). The City of Rancho Cordova has been administering the District since the FY 2012-2013 annual levy.

State law requires the City Council direct an Engineer's Report to be prepared each year and to hold a public hearing on the Report and the levy of the annual assessment. **Resolution No. 47-2014, Attachment 1**, directs Willdan Financial Services to prepare and file the Engineer's Report.

In anticipation of this resolution, the Engineer's Report has been prepared and is on file with the City Clerk. The **Engineer's Report, Exhibit A**, includes a diagram of the assessment area, a description of the improvements and the operation and maintenance to be provided, a description of the property to be benefited, and the amount of the assessment to each individual property. The services performed within and funded by RCLD 2012-1 include ongoing maintenance, operation and servicing of street lights and safety lights within the right-of-ways and other public areas within the District as described in the Engineer's Report. The proposed Fiscal Year 2014-2015 assessment rates are equal to the rates previously levied by the City in Fiscal Year 2013-2014.

The Fiscal Year 2014-2015 total assessment is estimated at \$357,105. The District has established an Operating Reserve which provides funding for the operations and maintenance of the District Improvements, as well as providing financing for emergency expenditures. A Capital Projects Reserve has been established to fund replacements and upgrades of the District Improvements.

The City of Rancho Cordova is retrofitting all existing street lights located within the Rancho Cordova Lighting District (RCLD) with new LED street lights. Funding for this project comes from a 1% interest loan from the California Energy Commission (CEC). This project is expected to significantly reduce electricity and maintenance costs. The electrical and maintenance savings will be used to pay back the loan from the energy commission. The RCLD has historically been underfunded and has been supplemented by Measure A Maintenance funds. Once the CEC loan is paid off, in an estimated 10 years, the District is projected to generate sufficient revenues to build a reserve to cover the costs of the replacement of the LED street light heads when they need to be replaced in 20 years. The retrofit project started in January 2014 and is about 40% complete, anticipating an overall completion in August 2014.

In order to proceed with the levy of assessments after consideration and approval of the Engineer's Report, it is appropriate for the Council to adopt **Resolution No. 48-2014, Attachment 2**, which declares the Council's intention to levy assessments for Fiscal Year 2014-2015. It also sets July 21, 2014 at 5:30 p.m., or as soon thereafter as possible, as the date and time for a public hearing on the issue of the levy of Fiscal Year 2014-2015 assessments. Notice of the public hearing will be given by publication.

PART V — ASSESSMENT ROLL.....	17

INTRODUCTION

Pursuant to the provisions of the Landscape and Lighting Act of 1972, being Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500 (hereafter referred to as the "1972 Act"), the City Council of the City of Rancho Cordova, County of Sacramento, State of California (hereafter referred to as "City"), has by resolution initiated proceedings in connection with the ongoing maintenance and operation of a special benefit assessment district designated as:

Rancho Cordova Lighting District No. 2012-1

(hereafter referred to as "District"), for the purpose of continuing and providing for the ongoing maintenance, servicing and operation of public lighting improvements (safety lights and street lights) within the City that had been administered by the County of Sacramento as Zone 2 of County Service Area 1 (CSA 1) until the FY 2012/2013 levy.

Prior to the formation of the District, the detachment of those portions of CSA 1 lying within the City limits was approved, resulting in the transfer of the responsibility of the servicing of CSA 1 improvements and related administration to the City. Commencing with the FY 2012/2013 levy, the City Council formed the District in order to provide ongoing funding for the costs and expenses required to service and maintain the safety light and street light improvements for the benefiting lots and parcels of land within the boundaries of the District.

County Service Area 1 was created in 1986 by the Sacramento County Board of Supervisors by reorganizing five existing street light maintenance districts. CSA 1 was established to provide street light services to those unincorporated portions of Sacramento County. Since the establishment of CSA 1, the cities of Citrus Heights, Elk Grove and Rancho Cordova have been incorporated and in July 2005, the Board of Supervisors approved the creation of zones within CSA 1. The creation of these zones allowed the incorporated cities and the County to supplement CSA 1 revenues specific to those areas. This action also facilitated the eventual Local Agency Formation Commission (LAFCO) approved detachment of Elk Grove (August 2005) and Citrus Heights (June 2006) from CSA 1 and Rancho Cordova (June 2012).

This Engineer's Report (hereafter referred to as "Report") has been prepared in connection with the levy and collection of annual assessments related thereto for FY 2014/15, as required pursuant to Chapter 1, Article 4 of the 1972 Act. This Report describes the District, the improvements, and the assessments to be levied on properties within the District in connection with the special benefits the properties receive from the maintenance and servicing of the District improvements. The formation of this District and the annual assessments will provide a continued funding source for the City to fund, in part, the ongoing maintenance, servicing and operation, of the safety lights and street lights that provide special benefits to the properties within the District.

The improvements and assessments described in the FY 2012/2013 Engineer's Report (hereafter referred to as the "Formation Report") were based on the improvements and assessments previously established by the County of Sacramento for CSA 1 Zone 2 and the assessment revenues will be used to fund, in part, the annual direct expenditures and incidental expenses associated with the maintenance and servicing of the District's improvements. The formation of the District, the structure of the District (organization), the improvements, the method of apportionment, and assessments described in the Formation Report have been established to continue the maintenance of the existing improvements and assessments

previously established by the County of Sacramento for CSA 1 and as such are not considered to be new or increased assessments under the provisions of the California Constitution Article XIIID.

As part of the District formation to continue the assessments previously levied by the County of Sacramento as part of CSA 1, in addition to the proceedings conducted the Local Agency Formation Commission (LAFCO) for the detachment of the City of Rancho Cordova from CSA 1, the Rancho Cordova City Council conducted a noticed public hearing pursuant to the provisions of the 1972 Act to consider public testimonies, comments and written protests regarding the formation of the District and levy of assessments.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number (APN) by the Sacramento County Assessor's Office. The Sacramento County Auditor/Controller uses Assessor's Parcel Numbers and specific Fund Numbers to identify properties to be assessed on the tax roll for special benefit assessments.

Each subsequent fiscal year, an Engineer's Report shall be prepared and presented to the City Council describing the District, any changes to the District or improvements, and the proposed budget and assessments for that fiscal year, and the City Council shall hold a noticed public hearing regarding these matters prior to approving and ordering the proposed levy of assessments for that fiscal year. If in any year, the proposed annual assessments for the District exceed the assessments described herein, such an assessment would be considered a new or increased assessment and must be confirmed through property owner protest ballot proceeding before that new or increased assessment may be imposed. It should be noted that an increased assessment to an individual property resulting from changes in development or land use does not constitute an increased assessment.

This Report consists of five (5) parts:

Part I

Plans and Specifications: A description of the District boundaries and the proposed improvements associated with the District. The District has two (2) designated benefit zones that collectively encompass all lots and parcels of land within the boundaries of the District. The two benefit zones are designated as "Safety Light Only" Zone, which includes those lots and parcels of land within the District that are associated and benefit from only safety light improvements; and "Safety Light and Street Light" Zone, which includes those lots and parcels of land within the District that are associated and benefit from both safety light improvements and local street light improvements.

Part II

Method of Apportionment: A discussion of benefits the improvements and services provide to properties within the District and the method of calculating each property's proportional special benefit and annual assessment.

Part III

District Budget: An estimate of the annual costs to service, maintain and operate the safety light and street light improvements and appurtenant facilities within the District. This budget includes an estimate of direct operational costs (energy and maintenance costs), anticipated repair and replacement of the existing facilities and incidental expenses authorized by the 1972 Act such as administration expenses and collection of appropriate fund balances.

Part IV

District Diagram: A diagram showing the exterior boundaries of the District, and the Zones therein at the time of the formation of the District, is provided herein and includes all parcels that receive special benefits from the improvements. Parcel identification, the lines and dimensions of each lot, parcel and subdivision of land within the District, are inclusive of all parcels as shown on the Sacramento County Assessor's Parcel Maps, as they existed at the time this Report was prepared and shall include all subsequent subdivisions, lot-line adjustments or parcel changes therein. Reference is hereby made to the Sacramento County Assessor's maps for a detailed description of the lines and dimensions of each lot and parcel of land within the District.

Part V

Assessment Roll: A listing of the proposed assessment amount for each parcel based on the parcel's proportional special benefit as outlined in the method of apportionment. These assessment amounts represent the assessments proposed to be levied and collected on the County Tax Rolls for fiscal year 2014/15.

PART I — PLANS AND SPECIFICATIONS

Description of the District

The territory within the District consists of all lots and parcels of land within the boundaries of the City of Rancho Cordova that in fiscal year 2011/2012, were considered to lie within CSA 1 Zone 2. Within these boundaries, parcels are identified and grouped into one of two designated benefit zones based on the special benefits properties receive from the District improvements, namely Safety Lights Only or Safety Lights and Street Lights. The two Zones within the District and the benefits associated with the properties therein are described in more detail in Part II (Method of Apportionment) of this Report. In addition, the District Diagram in Section IV of the Report provides a visual representation of the District showing the exterior boundaries of the District.

Improvements and Services

Improvements and Services Authorized by the 1972 Act

As generally defined by the 1972 Act and may be applicable to this District, the improvements and associated assessments may include one or more of the following:

- The installation or construction of public lighting facilities including, but not limited to street lights, safety lights and traffic signals;
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof;
- The maintenance or servicing, of any of the foregoing including the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement including but not limited to:
 - Repair, removal, or replacement of all or any part of any improvements;
 - Grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities;
 - Electric current or energy, gas, or other illuminating agent for any public lighting facilities or for the lighting or operation of any other improvements;
- Incidental expenses associated with the improvements including, but not limited to:
 - The costs of the report preparation, including plans, specifications, estimates, budgets, diagrams, and assessment;
 - The costs of printing and advertising, and publishing, posting and mailing of notices;
 - Compensation payable to the County for collection of assessments;
 - Compensation of any engineer or attorney employed to render services;
 - Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
 - Costs associated with any elections held for the approval of new or increased assessments.

Description of District Improvements

The District's annual assessments will finance in part the maintenance, operation and servicing of the District's lighting improvements (safety lights and street lights) which generally includes the furnishing of labor, materials, equipment and electricity for the ordinary and usual maintenance, operation, and servicing of street lights within the public right-of-ways and easements dedicated to the City, incidental expenses including administrative costs as well as the performance of periodic repairs, replacement and expanded maintenance resulting from damage or vandalism. These services and activities more specifically may include, but are not limited to:

- Payment of the electrical bill for the safety lights and street lights.
- Maintenance, repair and replacement of light poles and fixtures, including changing light bulbs, painting, photoelectric cell repair or replacement, and repairing damage cause by automobile accidents, vandalism, time, and weather, including principal and interest related to funding of the replacement of the improvements.
- Electrical conduit and pullbox repair and replacement due to damage by construction and weather.
- Monitoring of the Underground Service Alert (USA) network, identification of proposed excavation in the vicinity of lighting electrical conduits, and marking the location of those underground conduits in the field to prevent damage by excavation.
- Service-can maintenance, repair and replacement including painting, replacing worn out electrical components and repairing damage due to accidents, vandalism, and weather.
- Remedial projects for major repairs or upgrading of facilities. Construction for such projects are usually performed by contract, however City maintenance workers may execute small projects.
- Street light inventory database, pole numbering and mapping to establish the number of streetlights that must be maintained, as well as the condition and location of these street lights as part of an effective maintenance program.
- Acquisition of land, easements and right-of-ways necessary to maintain the street and safety lighting system.
- Responding to citizens and Council member inquiries and complaints regarding street lighting. Resolving complaints may require an engineering study and possible project.

For the purpose of determining benefit and the proportional assessment of special benefit, the light fixtures to be maintained by the District are defined as either "Street Lights" or "Safety Lights". Safety Lights are lights located at intersections on major streets and along the rear of properties that abut major streets. All other lights are designated as Street Lights. The following table provides a summary of the safety light and street light inventory within the City upon formation of the District. Detailed maps identifying the location and extent of the District's Safety Lights and Street Lights at that time are on file in the Public Works Department.

Type of Light	Number of Lights
Safety Light	428
Street Light	4,240
Total District Lights	4,668
Decorative Light ⁽¹⁾	92
Total City Lights	4,760

- ⁽¹⁾ The 92 decorative lights shown above were contained within a single residential development and these lights are funded by a separate revenue source levied on those parcels. Therefore these lights are not included as part of the District's improvements, budget or assessments. Parcels within this residential development are included in the "Safety Light Only" zone

PART II — METHOD OF APPORTIONMENT

Based on the provisions of the 1972 Act and the California Constitution, this section of the Report summarizes the benefits associated with the District's safety and street light improvements and services to be provided by the District; the resulting District structure (zones of benefit); and the formulas used to calculate each parcel's proportional special benefit assessment obligation based on the entirety of the cost of providing the various improvements (method of assessment).

Benefit Analysis

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include but are not limited to the construction, maintenance, operation, and servicing of public street lighting improvements and appurtenant facilities.

The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service";

Article XIID Section 2i defines Special Benefit as:

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Article XIID Section 4a defines proportional special benefit assessments as:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

The method of apportionment (method of assessment) established herein is based on the premise that each assessed property receives special benefits from the maintenance, serving and operation of either safety lights located throughout the District or both safety lights and local street lights and these improvements will be funded in part by such assessments, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as

compared to other properties that receive such special benefits as outlined in the preceding definitions established in the 1972 Act and the California Constitution.

To identify and determine the proportional special benefit to each parcel within the District, as well as any general benefit associated with the improvements, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The District's improvements and the associated costs described in this Report, have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District and is consistent with the method of apportion previously established for the assessments as part of CSA 1.

While the California Constitution requires that *"The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement..."*; it is reasonable to conclude that the reasons for installing local street lights are often similar, but somewhat different than the reasons for installing safety lights. Therefore, the overall benefits associated with street lights and safety lights are different which also suggests that the apportionment of the cost to provide those improvements would be different.

In reviewing the location and extent of the City's Street Light improvements to be funded by District assessments and the relationship these improvements have to properties within the District, it was determined that these lights are entirely local lighting improvements that were installed specifically in connection with the development of nearby properties or were necessary as a precursor to property development and would otherwise not have been necessary or required without the development of the properties near those improvements. As such, these Street Light improvements have a direct and particular relationship to, and provide special benefit to, the properties located in close proximity to those lighting improvements and serve as extension of those properties and developments into the public areas (streets) that serve those properties. These lights clearly provide special benefits that affect these properties in a way that is particular and distinct from its effect on other parcels, and that of real property in general and the public at large do not share. This is most evident in the fact that the District's Street Light improvements are concentrated within the City's various residential developments and developed non-residential areas and the absence of such lights within many portions of the undeveloped areas of the District. The fact that these lights are a direct result of property development and many areas of the City forgo the need of local street lighting, the maintenance and operation costs associated with the Street Light improvements are considered to be solely a special benefit to those properties and developments in close proximity to those lights and have no measurable general benefit to the public at large or to the District as a whole. However, it is also recognized that these lights are not exclusive or typically isolated to a particular parcel, but are rather shared and directly affect entire neighborhoods or groups of parcels. In this District, it has been determined that each parcel that is assessed for Street Lights is at least within two-hundred feet (200 feet) of a street light although that light may be located across the street from the parcel.

As previously noted, Safety Lights are lights located at intersections on major streets and along the rear of properties that abut major streets. Although the location and extent of these lights are most certainly driven by development of properties in the area (concentrated largely in developed areas of the City), unlike the Street Light improvements which are directly correlated to specific developments and parcels, the District's Safety Lights are not entirely the result of specific property development, but more the result of overall development throughout the City and in addition to directly benefiting the properties in the District, these Safety Lights provide nighttime traffic illumination to enhance traffic circulation and safety.

Therefore, while the need for such lights is most often facilitated by development in the area and certainly a special benefit to properties within the District, because safety lights promote nighttime traffic illumination and circulation for the general public as well as for properties in the District, these lights obviously provide some measure of benefit to the community as a whole and to the public at large (general benefit). In order to separate general benefits from special benefits, an evaluation of the overall extent and location of the Safety Lights in the City, revealed that less than half (approximately 47%) of the Safety Lights within the District are located on major streets that are considered through-traffic corridors, namely Bradshaw Road, Folsom Boulevard and Sunrise Boulevard. The remaining Safety Lights within the City were located on streets and intersections considered internal City traffic routes that provide direct access to the parcels in the District. Therefore it would be reasonable to conclude that like the local Street Light improvements, the Safety Light improvements located on these internal City traffic routes (approximately 53% of the Safety Lights at the time of formation of the District) are entirely for the special benefit of the properties they serve, while the Safety Lights on the through-traffic corridors provide comparable (proportionately equal) special benefit to properties in the District and general benefit to real property in general and the public at large. Therefore collectively, it has been determined that no more than 25% of the total maintenance and operation (O&M) costs of providing Safety Lights would be considered general benefit.

Zones of Benefit

In order to calculate and identify the proportional special benefit received by each parcel and their proportionate share of the improvement costs it is necessary to consider not only the improvements and services to be provided, but the relationship each parcel has to those improvements as compared to other parcels in the District

Article XIID Section 4a reads in part:

"...The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement or for the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

In an effort to ensure an appropriate allocation of the estimated annual cost to provide the District improvements based on proportional special benefits, this District has established benefit zones ("Zones") as authorized pursuant to Chapter 1 Article 4, Section 22574 of the 1972 Act:

"The diagram and assessment may classify various areas within an assessment district into different zones where, by reason of variations in the nature, location, and extent of the improvements, the various areas will receive differing degrees of benefit from the improvements. A zone shall consist of all territory which will receive substantially the same degree of benefit from the improvements."

Therefore, in order to separate general benefits from special benefits and to ensure each parcel is assessed for only the special benefits received from the improvements two benefit zones have been established and every parcel in the City is grouped into one of these two Zones:

- Safety Lights Only: Includes all parcels that receive special benefits from the maintenance of Safety Lights only which includes lights located at intersections on major streets and along the rear of properties that abut major streets.

- **Street Lights and Safety Lights:** Includes all remaining parcels within the City that specially benefit from maintenance of Street Lighting (local lights) as well as Safety Lights.

The District Budget, incorporated herein under Part III of this Report, provides a summary of the total estimated cost of providing the street light improvements and the allocation of those costs that are considered general benefit. Details regarding the location and extent of the street lighting improvements within the District and the Zones therein upon formation of the District are on file in the Public Works Department. A diagram showing the exterior boundaries of the District and the location of the two Zones therein at the time of formation is attached and incorporated herein under Part IV (District Diagram) of this Report.

Assessment Methodology

In order to calculate and identify the proportional special benefit received by each parcel and their proportionate share of the improvement costs it is necessary to consider not only the improvements and services to be provided, but the relationship each parcel has to those improvements as compared to other parcels in the District.

Article XIID Section 4a reads in part:

"...The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement or for the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

Safety Lights and Street Lights, like most public improvements, provides varying degrees of benefit (whether they be general or special) based largely on the extent of such improvements, the location of the improvements in relationship to the properties, the specific use of each property, and the reason or need for such improvements as it relates to individual properties. In this District, these issues are each considered in determining the proportional special benefit to each parcel by the use of benefit zones, the separation of general benefit and special benefit, and County land use designations.

Safety Lights

Safety Lights are located throughout the District and properties throughout the City are considered to benefit proportionally from Safety Lights and are therefore levied a flat rate calculated by the following formula.

$$\text{Net Safety Light Cost} / \text{Total Assessable Parcels} = \text{Levy per Parcel}$$

Street Lights

Only properties that benefit from Street Lights are charged for Street Lights. Parcels are classified based on land use into two categories: Residential and Non-Residential. Residential parcels that have street lights are levied equally. Non-Residential are levied on a front footage basis. Formulas for both Non-Residential and Residential parcels are illustrated below.

Residential Parcels

$$\text{Net Residential Street Light Cost} / \text{Residential Parcels} = \text{Levy per Residential Unit}$$

Non-Residential Parcels

Net Non-Residential Street Light Cost / Non-Residential Front Footage=
 Levy per Non-Residential Front Foot

Levy per Non-Residential Front Foot x Non-Residential Parcel Front Footage=
 Levy per Parcel

Exempt

Excepted from the assessment would be the areas of public streets and other roadways (typically not assigned an APN by the County), dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways. Also excepted from assessment would be utility rights-of-ways, common areas (such as in condominium complexes), landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels do not benefit from the improvements.

The land use classification for each parcel has been based on the Sacramento County Assessor's Roll.

Rates

The following Table shows the assessment rates proposed to be levied in Fiscal Year 2014/15. It is important to note that these rates are the same rates applied to the District parcels under CSA 1 and that these rates have not increased since the passage of Proposition 218 in 1996.

Description of District Budget

Annual Maintenance & Operation (O&M) — Includes the regular annual costs of maintaining and servicing lighting improvements. This may include, but is not limited to, the costs for labor, utilities, equipment and supplies that are required to properly maintain the items that provide a direct benefit to the District.

- **Electrical Costs** — Includes the cost of providing electricity to the lights. Additionally, some lights may be maintained by the Sacramento Municipal Utility District ("SMUD") and the cost for maintenance of these lights is included as part of the utility bill for those lights.
- **Maintenance Costs** — Includes the contract labor associated with the maintenance of the lights and the cost of the preparing and maintaining the light inventory.

Capital Expenditures & Other Costs — Includes funding needs to support the improvements that are not included or considered to be costs associated with the regular annual maintenance, servicing and operation of the District improvements.

- **Repairs/Replacements & Capital Expenditures** — Includes, but is not limited to repairs that are only required periodically, repairs and replacements resulting from damage or vandalism, capital improvement expenditures to rehabilitate or upgrade the improvements, and collection of funding (installments) for future capital improvement projects. The amount collected each fiscal year is based on an estimate of current and future needs, but may be limited by available funding (assessment revenues and City contributions).
- **USA Markings** — includes costs associated with marking the location of underground utilities related to the above.
- **RCLD Loan** --- Amounts of principal and interest due to repay a low interest California Energy Commission (CEC) loan to fund the retrofitting of existing street lights located within the District with new LED street lights which will reduce energy costs.

Annual Administrative Expenses — Incidental district costs not included above that are required on an annual basis.

- **District Administration** — Includes the estimated cost to coordinate District services including responding to property owner inquiries relating to the assessments and services and contracting with professionals to provide administration, legal, and engineering services to the District that are required on an annual basis. This also includes the costs for the City to account for the funds, the calculation of the assessments, preparation of the annual Report, and placing the assessment on the property tax bills.
- **County Fees** — Includes the cost that the County charges to place the assessments onto the Sacramento County Secured Tax Roll.
- **Miscellaneous Administration Expenses** — Includes other minor administrative costs such as telephone, copying, noticing, mailing, office supplies and fees related to District Administration.

Total District Expenses — This is the total of the Annual Maintenance & Operation (O&M), Capital Expenditures, Annual Administrative Expenses and other costs which are considered to be the direct and incidental costs for the regular annual maintenance, servicing and operation of the District improvements.

Contributions/Adjustments — Represents the expected funding from sources other than the current year assessments to support the annual costs budgeted for the maintenance, servicing and operation of the District improvements.

- Replenishment/(Use) of Reserve – Funding transferred from or to the District's Reserve to either offset a portion of the Total Expense or to replenish the Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided in the following pages of this Section.
- General Benefit Contribution — Funding from the City utilizing revenue sources other than assessment revenues to pay the proportional costs for the regular annual maintenance, servicing and operation of the District improvements that have been determined to be of General Benefit and which cannot be included as part of the annual assessments. This City funding may be from the City's General Fund or any other funding source available to the City.
- Other Revenue Contributions – Additional funds designated for use by the District that are not District assessments. Often referred to as a City Contribution, these funds may be from any source available to the City to support the District and reduce the amount to be collected by the District assessments (the "Net Assessment Budget"). If the Total District Expenses minus any Reserve Fund Transfer and General Benefit Contribution results in an amount greater than the amount that can be collected through the assessments, the City would either have to reduce expenses or contribute funds to balance the budget.

Net Assessment Budget (Balances to Levy) — Represents the total amount proposed to be levied and collected as assessments on the County Tax Rolls for the fiscal year.

OPERATING RESERVE

Beginning Reserve Balance 7-1-2014 (est.) - The anticipated beginning balance of cash and receivables, net of any unpaid prior year obligations. These beginning balances shall be used to fund expenditures from July 1, 2014 to December 31, 2014, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. The Capital Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

Replenishment/(Use) of Operating Reserve – Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve is intended to fund expenditures from the period of July 1, 2014 (the beginning of the Fiscal Year) through December 31, 2014. If positive, this amount is added to the levy in order to replenish the Operating Reserve. On the other hand, if negative, this portion of the Operating Reserve is used to fund FY 2014/2015 expenses and therefore reduces the levy amount. If zero, this line item may not be shown in the budget.

Transfer from/(to) the Capital Projects Reserve — The amount of Operating Reserve monies to be transferred to or from the Capital Projects Reserve. Periodically, funds held in a Capital Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Projects Reserve are subject to transfer the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2015 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) as of June 30, 2015. The size of the Operating Reserve is limited by

Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance and service from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, the District may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Capital Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

CAPITAL PROJECTS RESERVE

Beginning Reserve Balance 7-1-2014 (est.) — The projected balance of funds in the Capital Projects Reserve as of July 1, 2014. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Transfer from/(to) the Operating Reserve — The amount of Capital Projects Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Capital Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Projects Reserve are subject to transfer into the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

Ending Reserve Balance 6-30-2015 (est.) - The projected balance of funds in the Capital Projects Reserve as of June 30, 2015. These funds shall be use to fund the costs of installation, replacement, repair or upgrading of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Capital Projects Reserve or related activity for the current fiscal year, the Capital Projects Reserve information will not be presented in the Report.

Capital Projects Reserve – Capital Improvement Plan

Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. Should an ending Capital Projects Reserve balance be projected, a five year Capital Improvement Plan is shown below in order to fund the installation, replacement, repair or upgrading of District improvements and other allowable costs:

The District expects expenditures for LED retrofits of \$28,000 each in FYs 2014/15 and 2015/16.

Periodically, funds held in a Capital Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Projects Reserve are subject to transfer into the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements.

PART V — ASSESSMENT ROLL

Parcel identification for each lot or parcel within the District is based on available parcel maps and property data from the Sacramento County Assessor's Office. A listing of the Assessor's Parcel Numbers (APNs) to be assessed within this District, along with the corresponding Assessment Amount to be levied for fiscal year 2014/15 is provided in the following pages. If any APN submitted for collection of the assessments is identified by the County Auditor/Controller of the County of Sacramento to be an invalid parcel number for the fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment, as described in this Report and approved by the City Council.

MEMORANDUM

DATE: June 2, 2014

TO: Honorable Mayor and Council Members

FROM: Cyrus Abhar, Public Works Director
Britton Snipes, Senior Civil Engineer

SUBJECT: RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A THREE YEAR CONTRACT WITH UNICO ENGINEERING, INC. FOR PUMP STATIONS OPERATION SERVICES IN THE AMOUNT OF \$279,140

RECOMMENDATION

Adopt Resolution No. 43-2014.

RESULT OF RECOMMENDED ACTION

Adoption of this resolution will allow the City to contract with Unico Engineering, Inc. for the next three years to provide professional services for operation of the City's six storm drain pump stations.

BACKGROUND

In March 2014, the City released a Request for Proposals (RFP) for a consultant to provide professional services for the operation of the City's six storm drain pump stations. The function of the pump stations is to pump storm water away from low-lying areas to ensure proper transport and drainage of water during a storm. Currently, the County of Sacramento Department of Water Resources maintains the City's storm water infrastructure, including the six pump stations. The County has provided annual and on-call storm water maintenance services to the City since its incorporation. However, the current agreement is scheduled to terminate at the end of the 2013-14 fiscal year, at which time the City will assume all storm water maintenance and operation responsibilities.

Operation of the storm water pump stations will include the following services:

- Regular inspections of the 6 pump stations in Rancho Cordova
- Response to emergency alarms (60 minute response time)
- Operation of the pumps and alarm monitoring controls
- Scheduling of maintenance and emergency repairs
- Maintaining a log of parts and components

The City received two RFP submittals for the requested work. Based on our evaluation, staff recommends awarding a three-year contract to Unico Engineering, Inc. to provide the needed pump station operation services.

FISCAL IMPACT

The contract for operation services of the storm water pump stations will be funded by Storm Water Utility Fee revenues and therefore will have no impact to the General Fund.

**PROFESSIONAL SERVICES AGREEMENT BETWEEN
THE CITY OF RANCHO CORDOVA AND
UNICO ENGINEERING, INC.**

THIS AGREEMENT for professional services is made by and between the City of Rancho Cordova, a California municipal corporation ("City"), and Unico Engineering ("Professional") as of June 2, 2014.

Section 1. SERVICES. Subject to the terms and conditions set forth in this Agreement, Professional shall provide to City the services described in the Scope of Work attached as Exhibit A at the time and place and in the manner specified therein. In the event of a conflict or inconsistency between the terms of this Agreement and Exhibit A, the Agreement shall prevail.

- 1.1 **Term of Services.** The term of this Agreement shall begin on the date first noted above and shall end on June 30, 2017, the date of completion specified in Exhibit A. Professional shall complete the work described in Exhibit A prior to that date, unless the term of the Agreement is otherwise terminated or extended, as provided for in Section 8. The time provided to Professional to complete the services required by this Agreement shall not affect the City's right to terminate the Agreement, as provided for in Section 8.
- 1.2 **Standard of Performance.** Professional shall perform all services required pursuant to this Agreement in the manner and according to the standards observed by a competent practitioner of the profession in which Professional is engaged in the geographical area in which Professional practices its profession. Professional shall prepare all work products required by this Agreement in a substantial, first-class manner and shall conform to the standards of quality normally observed by a person practicing in Professional's profession.
- 1.3 **Assignment of Personnel.** Professional shall assign only competent personnel to perform services pursuant to this Agreement. In the event that City, in its sole discretion, at any time during the term of this Agreement, desires the reassignment of any such persons, Professional shall, immediately upon receiving notice from City of such desire of City, reassign such person or persons.
- 1.4 **Time.** Professional shall devote such time to the performance of services pursuant to this Agreement as may be reasonably necessary to meet the standard of performance provided in Section 1.2 above and to satisfy Professional's obligations hereunder.

Section 2. COMPENSATION. City hereby agrees to pay Professional a sum not to exceed \$279,140, notwithstanding any contrary indications that may be contained in Professional's proposal, for services to be performed and reimbursable costs incurred under this Agreement. In the event of a conflict between this Agreement and Professional's proposal, attached as Exhibit B, regarding the amount of compensation, the Agreement shall prevail. City shall pay Professional for services rendered pursuant to this Agreement at the time and in the manner set forth herein. The payments specified below shall be the only payments from City to Professional for services rendered pursuant to this Agreement. Professional shall submit all

Last Revised July 31, 2012

invoices to City in the manner specified herein. Except as specifically authorized by City, Professional shall not bill City for duplicate services performed by more than one person.

Professional and City acknowledge and agree that compensation paid by City to Professional under this Agreement is based upon Professional's estimated costs of providing the services required hereunder, including salaries and benefits of employees and subcontractors of Professional. Consequently, the parties further agree that compensation hereunder is intended to include the costs of contributions to any pensions and/or annuities to which Professional and its employees, agents, and subcontractors may be eligible. City therefore has no responsibility for such contributions beyond compensation required under this Agreement.

2.1 Invoices. Professional shall submit invoices, not more often than once a month during the term of this Agreement, based on the cost for services performed and reimbursable costs incurred prior to the invoice date. Invoices shall contain the following information:

- Serial identifications of progress bills; i.e., Progress Bill No. 1 for the first invoice, etc.;
- The beginning and ending dates of the billing period;
- A Task Summary containing the original contract amount, the amount of prior billings, the total due this period, the balance available under the Agreement, and the percentage of completion;
- At City's option, for each work item in each task, a copy of the applicable time entries or time sheets shall be submitted showing the name of the person doing the work, the hours spent by each person, a brief description of the work, and each reimbursable expense;
- The total number of hours of work performed under the Agreement by Professional and each employee, agent, and subcontractor of Professional performing services hereunder, as well as a separate notice when the total number of hours of work by Professional and any individual employee, agent, or subcontractor of Professional reaches or exceeds 800 hours, which shall include an estimate of the time necessary to complete the work described in Exhibit A;
- The Professional's signature.

2.2 Monthly Payment. City shall make monthly payments, based on invoices received, for services satisfactorily performed, and for authorized reimbursable costs incurred. City shall have 30 days from the receipt of an invoice that complies with all of the requirements above to pay Professional.

2.3 Final Payment. City shall pay the last 10% of the total sum due pursuant to this Agreement within sixty (60) days after completion of the services and submittal to City of a final invoice, if all services required have been satisfactorily performed.

2.4 Total Payment. City shall pay for the services to be rendered by Professional pursuant to this Agreement. City shall not pay any additional sum for any expense or cost whatsoever

incurred by Professional in rendering services pursuant to this Agreement. City shall make no payment for any extra, further, or additional service pursuant to this Agreement.

In no event shall Professional submit any invoice for an amount in excess of the maximum amount of compensation provided above either for a task or for the entire Agreement, unless the Agreement is modified prior to the submission of such an invoice by a properly executed change order or amendment.

- 2.5 **Hourly Fees.** Fees for work performed by Professional on an hourly basis shall not exceed the amounts shown on the fee schedule set forth in Exhibit B.
- 2.6 **Reimbursable Expenses.** Reimbursable expenses shall be determined on a task by task basis and subject to approval by City prior to Professional beginning work on a task. Expenses not listed in Exhibit B are not chargeable to City. Reimbursable expenses are included in the total amount of compensation provided under this Agreement that shall not be exceeded.
- 2.7 **Payment of Taxes.** Professional is solely responsible for the payment of employment taxes incurred under this Agreement and any similar federal or state taxes.
- 2.8 **Payment upon Termination.** In the event that the City or Professional terminates this Agreement pursuant to Section 8, the City shall compensate the Professional for all outstanding costs and reimbursable expenses incurred for work satisfactorily completed as of the date of written notice of termination. Professional shall maintain adequate logs and timesheets in order to verify costs incurred to that date.
- 2.9 **Authorization to Perform Services.** The Professional is not authorized to perform any services or incur any costs whatsoever under the terms of this Agreement until receipt of authorization from the Contract Administrator.

Section 3. FACILITIES AND EQUIPMENT. Except as set forth herein, Professional shall, at its sole cost and expense, provide all facilities and equipment that may be necessary to perform the services required by this Agreement. City shall make available to Professional only the facilities and equipment listed in this section, and only under the terms and conditions set forth herein.

City shall furnish physical facilities such as desks, filing cabinets, and conference space, as may be reasonably necessary for Professional's use while consulting with City employees and reviewing records and the information in possession of the City. The location, quantity, and time of furnishing those facilities shall be in the sole discretion of City. In no event shall City be obligated to furnish any facility that may involve incurring any direct expense, including but not limited to computer, long-distance telephone or other communication charges, vehicles, and reproduction facilities.

Section 4. INSURANCE REQUIREMENTS. Before beginning any work under this Agreement, Professional, at its own cost and expense, shall procure "occurrence coverage" insurance against claims

Last Revised July 31, 2012

for injuries to persons or damages to property that may arise from or in connection with the performance of the work hereunder by the Professional and its agents, representatives, employees, and subcontractors. Professional shall provide proof satisfactory to City of such insurance that meets the requirements of this section and under forms of insurance satisfactory in all respects to the City. Professional shall maintain the insurance policies required by this section throughout the term of this Agreement. The cost of such insurance shall be included in the Professional's bid. Professional shall not allow any subcontractor to commence work on any subcontract until Professional has obtained all insurance required herein for the subcontractor(s) and provided evidence thereof to City. Verification of the required insurance shall be submitted and made part of this Agreement prior to execution. Professional shall maintain all required insurance listed herein for the duration of this Agreement.

- 4.1 Workers' Compensation.** Professional shall, at its sole cost and expense, maintain Statutory Workers' Compensation Insurance and Employer's Liability Insurance for any and all persons employed directly or indirectly by Professional. The Statutory Workers' Compensation Insurance and Employer's Liability Insurance shall be provided with limits of not less than ONE MILLION DOLLARS (\$1,000,000.00) per accident. In the alternative, Professional may rely on a self-insurance program to meet those requirements, but only if the program of self-insurance complies fully with the provisions of the California Labor Code. Determination of whether a self-insurance program meets the standards of the Labor Code shall be solely in the discretion of the Contract Administrator. The insurer, if insurance is provided, or the Professional, if a program of self-insurance is provided, shall waive all rights of subrogation against the City and its officers, officials, employees, and volunteers for loss arising from work performed under this Agreement.

An endorsement shall state that coverage shall not be canceled except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the City. Professional shall notify City within fourteen (14) days of notification from Professional's insurer if such coverage is suspended, voided or reduced in coverage or in limits.

The requirement to maintain Statutory Worker's Compensation and Employer's Liability Insurance insurance may be waived by the City upon written verification that Professional does not have any employees.

4.2 Commercial General and Automobile Liability Insurance.

- 4.2.1 General requirements.** Professional, at its own cost and expense, shall maintain commercial general liability insurance for the term of this Agreement in an amount not less than TWO MILLION DOLLARS (\$2,000,000.00) and automobile liability insurance for the term of this Agreement in an amount not less than ONE MILLION DOLLARS (\$1,000,000.00). The commercial general liability and automobile liability insurance shall be per occurrence, combined single limit coverage for risks associated with the work contemplated by this Agreement. If a commercial general liability insurance or an automobile liability form or other form with a general

aggregate limit is used, either the general aggregate limit shall apply separately to the work to be performed under this Agreement or the general aggregate limit shall be at least twice the required occurrence limit. Such coverage shall include but shall not be limited to, protection against claims arising from bodily and personal injury, including death resulting therefrom, and damage to property resulting from activities contemplated under this Agreement, including the use of owned and non-owned automobiles.

4.2.2 Minimum scope of coverage. Commercial general liability coverage shall be at least as broad as Insurance Services Office Commercial General Liability occurrence form CG 0001 (most recent edition) covering comprehensive General Liability on an "occurrence" basis. Automobile coverage shall be at least as broad as Insurance Services Office Automobile Liability form CA 0001 (most recent edition), Code 1 (any auto). No endorsement shall be attached limiting the coverage.

4.2.3 Additional requirements. Each of the following shall be included in the insurance coverage or added as an endorsement to the policy:

- a. City and its officers, employees, agents, and volunteers shall be covered as additional insureds with respect to each of the following: liability arising out of activities performed by or on behalf of Professional, including the insured's general supervision of Professional; products and completed operations of Professional; premises owned, occupied, or used by Professional; and automobiles owned, leased, or used by the Professional. The coverage shall contain no special limitations on the scope of protection afforded to City or its officers, employees, agents, or volunteers.
- b. The insurance shall cover on an occurrence or an accident basis, and not on a claims-made basis.
- c. An endorsement must state that coverage is primary insurance with respect to the City and its officers, officials, employees and volunteers, and that no insurance or self-insurance maintained by the City shall be called upon to contribute to a loss under the coverage.
- d. Any failure of Professional to comply with reporting provisions of the policy shall not affect coverage provided to City and its officers, employees, agents, and volunteers.
- e. An endorsement shall state that coverage shall not be canceled except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the City. Professional shall notify City within

fourteen (14) days of notification from Professional's insurer if such coverage is suspended, voided or reduced in coverage or in limits.

4.3 Professional Liability Insurance. Professional, at its own cost and expense, shall maintain for the period covered by this Agreement professional liability insurance for licensed professionals performing work pursuant to this Agreement in an amount not less than TWO MILLION DOLLARS (\$2,000,000) covering the licensed professionals' errors and omissions.

4.3.1 Any deductible or self-insured retention shall not exceed \$150,000 per claim.

4.3.2 An endorsement shall state that coverage shall not be suspended, voided, canceled by either party, or reduced in coverage or in limits, except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the City.

4.3.3 The following provisions shall apply if the professional liability coverages are written on a claims-made form:

- a. The retroactive date of the policy must be shown and must be before the date of the Agreement.
- b. Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of the Agreement or the work, so long as commercially available at reasonable rates.
- c. If coverage is canceled or not renewed and it is not replaced with another claims-made policy form with a retroactive date that precedes the date of this Agreement, Professional must provide extended reporting coverage for a minimum of five (5) years after completion of the Agreement or the work. The City shall have the right to exercise, at the Professional's sole cost and expense, any extended reporting provisions of the policy, if the Professional cancels or does not renew the coverage.
- d. A copy of the claim reporting requirements must be submitted to the City prior to the commencement of any work under this Agreement.

4.4 All Policies Requirements.

4.4.1 Acceptability of insurers. All insurance required by this section is to be placed with insurers with a Bests' rating of no less than A:VII.

4.4.2 Verification of coverage. Prior to beginning any work under this Agreement, Professional shall furnish City with certificates of insurance and with original

endorsements effecting coverage required herein. The certificates and endorsements for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.

4.4.3 Subcontractors. Professional shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all of the requirements stated herein.

4.4.4 Deductibles and Self-Insured Retentions. Professional shall disclose to and obtain the approval of City for the self-insured retentions and deductibles before beginning any of the services or work called for by any term of this Agreement.

During the period covered by this Agreement, only upon the prior express written authorization of Contract Administrator, Professional may increase such deductibles or self-insured retentions with respect to City, its officers, employees, agents, and volunteers. The Contract Administrator may condition approval of an increase in deductible or self-insured retention levels with a requirement that Professional procure a bond, guaranteeing payment of losses and related investigations, claim administration, and defense expenses that is satisfactory in all respects to each of them.

4.4.5 Waiver of Subrogation. Professional hereby agrees to waive subrogation which any insurer or contractor may require from vendor by virtue of the payment of any loss. Consultant agrees to obtain any endorsements that may be necessary to effect this waiver of subrogation. The Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of the entity for all work performed by the Professional, its employees, agents, and subcontractors.

4.4.6 Notice of Reduction in Coverage. In the event that any coverage required by this section is reduced, limited, or materially affected in any other manner, Professional shall provide written notice to City at Professional's earliest possible opportunity and in no case later than five (5) days after Professional is notified of the change in coverage.

4.5 Remedies. In addition to any other remedies City may have if Professional fails to provide or maintain any insurance policies or policy endorsements to the extent and within the time herein required, City may, at its sole option exercise any of the following remedies, which are alternatives to other remedies City may have and are not the exclusive remedy for Professional's breach:

- Obtain such insurance and deduct and retain the amount of the premiums for such insurance from any sums due under the Agreement;

- Order Professional to stop work under this Agreement or withhold any payment that becomes due to Professional hereunder, or both stop work and withhold any payment, until Professional demonstrates compliance with the requirements hereof; and/or
- Terminate this Agreement.

Section 5. INDEMNIFICATION AND PROFESSIONAL'S RESPONSIBILITIES.

- 5.1 General Requirement.** Professional shall indemnify, defend with counsel selected by the City, and hold harmless the City and its officials, officers, employees, agents, and volunteers from and against any and all losses, liability, claims, suits, actions, damages, and causes of action arising out of any personal injury, bodily injury, loss of life, or damage to property, or any violation of any federal, state, or municipal law or ordinance, to the extent caused, in whole or in part, by the willful misconduct or negligent acts or omissions of Professional or its employees, subcontractors, or agents, by acts for which they could be held strictly liable, or by the quality or character of their work. The foregoing obligation of Professional shall not apply when (1) the injury, loss of life, damage to property, or violation of law arises wholly from the negligence or willful misconduct of the City or its officers, employees, agents, or volunteers and (2) the actions of Professional or its employees, subcontractor, or agents have contributed in no part to the injury, loss of life, damage to property, or violation of law. It is understood that the duty of Professional to indemnify and hold harmless includes the duty to defend as set forth in Section 2778 of the California Civil Code. Acceptance by City of insurance certificates and endorsements required under this Agreement does not relieve Professional from liability under this indemnification and hold harmless clause. This indemnification and hold harmless clause shall apply to any damages or claims for damages whether or not such insurance policies shall have been determined to apply. By execution of this Agreement, Professional acknowledges and agrees to the provisions of this Section and that it is a material element of consideration.
- 5.2 PERS Indemnification.** In the event that Professional or any employee, agent, or subcontractor of Professional providing services under this Agreement is determined by a court of competent jurisdiction or the California Public Employees Retirement System (PERS) to be eligible for enrollment in PERS as an employee of City, Professional shall indemnify, defend, and hold harmless City for the payment of any employee and/or employer contributions for PERS benefits on behalf of Professional or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of City.
- 5.3 Design Professionals.** Notwithstanding Sections 5.1 and 5.2, to the extent that the services under this Agreement include design professional services subject to California Civil Code Section 2782.8, as may be amended from time to time,

Last Revised July 31, 2012

Professional's duty to indemnify shall only be to the maximum extent permitted by California Civil Code Section 2782.8.

Section 6. STATUS OF PROFESSIONAL.

- 6.1 Independent Contractor.** At all times during the term of this Agreement, Professional shall be an independent contractor as defined in Labor Code Section 3353, and shall not be an employee of City. Nothing contained in this Agreement shall be construed to be inconsistent with the foregoing relationship or status. City shall have the right to control Professional only insofar as the results of Professional's services rendered pursuant to this Agreement and assignment of personnel pursuant to Subparagraph 1.3; however, otherwise City shall not have the right to control the means by which Professional accomplishes services rendered pursuant to this Agreement. Professional shall have no power or authority by this Agreement to bind the City in any respect. All employees and agents hired or retained by Professional are employees and agents of Professional and not of the City. The City shall not be obligated in any way to pay any wage claims or other claims made against Professional by any such employees or agents, or any other person resulting from performance of this Agreement.

Notwithstanding any other City, state, or federal policy, rule, regulation, law, or ordinance to the contrary, Professional and any of its employees, agents, and subcontractors providing services under this Agreement shall not qualify for or become entitled to, and hereby agree to waive any and all claims to, any compensation, benefit, or any incident of employment by City, including but not limited to eligibility to enroll in the California Public Employees Retirement System (PERS) as an employee of City and entitlement to any contribution to be paid by City for employer contributions and/or employee contributions for PERS benefits. Professional shall not allow any employee to become eligible for a claim for PERS benefits.

- 6.2 Professional Not an Agent.** Except as City may specify in writing, Professional shall have no authority, express or implied, to act on behalf of City in any capacity whatsoever as an agent. Professional shall have no authority, express or implied, pursuant to this Agreement to bind City to any obligation whatsoever.

Section 7. LEGAL REQUIREMENTS.

- 7.1 Governing Law.** The laws of the State of California shall govern this Agreement.
- 7.2 Compliance with Applicable Laws.** Professional and any subcontractors shall comply with all laws and regulations applicable to the performance of the work hereunder, including but not limited to, the California Building Code, the Americans with Disabilities Act, and any copyright, patent or trademark law. Professional's failure to comply with any law(s) or regulation(s) applicable to the performance of the work hereunder shall constitute a breach of contract.

Last Revised July 31, 2012

- 7.3 Other Governmental Regulations.** To the extent that this Agreement may be funded by fiscal assistance from another governmental entity, Professional and any subcontractors shall comply with all applicable rules and regulations to which City is bound by the terms of such fiscal assistance program.
- 7.4 Licenses and Permits.** Professional represents and warrants to City that Professional and its employees, agents, and any subcontractors have all licenses, permits, qualifications, and approvals of whatsoever nature that are legally required to practice their respective professions. Professional represents and warrants to City that Professional and its employees, agents, any subcontractors shall, at their sole cost and expense, keep in effect at all times during the term of this Agreement any licenses, permits, and approvals that are legally required to practice their respective professions. In addition to the foregoing, Professional and any subcontractors shall obtain and maintain valid Business Licenses from City during the term of this Agreement.
- 7.5 Nondiscrimination and Equal Opportunity.** Professional shall not discriminate, on the basis of a person's race, religion, color, national origin, age, physical or mental handicap or disability, medical condition, marital status, sex, or sexual orientation, against any employee, applicant for employment, subcontractor, bidder for a subcontract, or participant in, recipient of, or applicant for any services or programs provided by Professional under this Agreement. Professional shall comply with all applicable federal, state, and local laws, policies, rules, and requirements related to equal opportunity and nondiscrimination in employment, contracting, and the provision of any services that are the subject of this Agreement, including but not limited to the satisfaction of any positive obligations required of Professional thereby.

Professional shall include the provisions of this Subsection in any subcontract approved by the Contract Administrator or this Agreement.

Section 8. TERMINATION AND MODIFICATION.

- 8.1 Termination.** City may cancel this Agreement at any time and without cause upon written notification to Professional.

Professional may cancel this Agreement upon 30 days' written notice to City and shall include in such notice the reasons for cancellation.

In the event of termination, Professional shall be entitled to compensation for services performed to the effective date of termination; City, however, may condition payment of such compensation upon Professional delivering to City any or all documents, photographs, computer software, video and audio tapes, and other materials provided to Professional or prepared by or for Professional or the City in connection with this Agreement.

Last Revised July 31, 2012

- 8.2 Extension.** City may, in its sole and exclusive discretion, extend the end date of this Agreement beyond that provided for in Subsection 1.1. Any such extension shall require a written amendment to this Agreement, as provided for herein. Professional understands and agrees that, if City grants such an extension, City shall have no obligation to provide Professional with compensation beyond the maximum amount provided for in this Agreement. Similarly, unless authorized by the Contract Administrator, City shall have no obligation to reimburse Professional for any otherwise reimbursable expenses incurred during the extension period.
- 8.3 Amendments.** The parties may amend this Agreement only by a writing signed by all the parties.
- 8.4 Assignment and Subcontracting.** City and Professional recognize and agree that this Agreement contemplates personal performance by Professional and is based upon a determination of Professional's unique personal competence, experience, and specialized personal knowledge. Moreover, a substantial inducement to City for entering into this Agreement was and is the professional reputation and competence of Professional. Professional may not assign this Agreement or any interest therein without the prior written approval of the Contract Administrator. MEMORANDUM

DATE: June 2, 2014

TO: Honorable Mayor and Council Members

FROM: Cyrus Abhar, Public Works Director
Chris Boyer, Associate Civil Engineer

SUBJECT: RESOLUTION AWARDING CONSTRUCTION CONTRACT IN THE AMOUNT OF \$1,577,024 TO TEICHERT CONSTRUCTION FOR THE SUNRISE BOULEVARD STREET REHABILITATION PROJECT

RECOMMENDATION

Adopt Resolution No. 28-2014.

RESULT OF RECOMMENDED ACTION

Adoption of this resolution will allow the City to award a construction contract in the amount of \$1,577,024 to Teichert Construction, the lowest responsive bidder, who will perform work on the Sunrise Boulevard Street Rehabilitation project. Work performed under this contract consists of furnishing all labor, materials and equipment for doing all work necessary for the construction and placing new rubberized asphalt concrete pavement overlay, repairing failed pavement, removing and replacing damaged concrete curb, gutter, sidewalk and curb returns, adding storm water pipeline as well as replacing pedestrian pushbuttons. The Sunrise Boulevard Street Rehabilitation project will resurface Sunrise Boulevard from 450-feet south of Zinfandel Drive to approximately 750-feet north of Trinity River Drive.

BACKGROUND

Portions of Sunrise Boulevard border both the City and the County of Sacramento; therefore an agreement for cost sharing was reached with the County. The agreement states that the City will construct the improvements on both sides of Sunrise Boulevard from Coloma Road to approximately 750-feet north of Trinity River Drive with this construction contract. The County will in turn construct the improvements from that point to the southern end of the American River Bridge. As part of this contract, the City is also including the portion of Sunrise Boulevard from Zinfandel Drive to Coloma Road, which is entirely within the City's boundary. The County plans to begin construction on their portion in the summer of 2015.

Six (6) contractors bid on the project. The lowest responsive bid was \$1,577,024, the average bid was \$1,777,491, and the high bid was \$1,924,480. Staff examined all the proposals and determined Teichert Construction to be the lowest responsible bidder. The bid summary sheet is provided as **Attachment 1**.

Staff recommends awarding the construction contract to Teichert Construction.

FISCAL IMPACT

Funding for this construction contract is provided primarily through a federal grant. Local transportation monies will be used for the matching funds. There is no impact to the City's General Fund.

This project is included in the City's current approved Capital Improvement Plan (CIP) and is included in the 13/14 budget.

b. The contractor will accept as its operating policy the following statement:

"It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training."

2. EEO Officer: The contractor will designate and make known to the contracting officers an EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting an active EEO program and who must be assigned adequate authority and responsibility to do so.

3. Dissemination of Policy: All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action, or who are substantially involved in such action, will be made fully cognizant of, and will implement, the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:

a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will

be reviewed and explained. The meetings will be conducted by the EEO Officer.

b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.

c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.

d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.

e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.

a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.

b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.

c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.

5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:

a. The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.

b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.

c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.

d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

6. Training and Promotion:

a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.

b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs, i.e., apprenticeship, and on-the-job training programs for the geographical area of contract performance. In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).

c. The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.

d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.

7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:

a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.

b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, national origin, age or disability.

c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.

d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, national origin, age or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.

8. Reasonable Accommodation for Applicants /

Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established there under. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.

9. Selection of Subcontractors, Procurement of

Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.

a. The contractor shall notify all potential subcontractors and suppliers and lessors of their EEO obligations under this contract.

b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

10. Assurance Required by 49 CFR 26.13(b):

a. The requirements of 49 CFR Part 26 and the State DOT's U.S. DOT-approved DBE program are incorporated by reference.

b. The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out

applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the contracting agency deems appropriate.

11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.

a. The records kept by the contractor shall document the following:

(1) The number and work hours of minority and non-minority group members and women employed in each work classification on the project;

(2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and

(3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women;

b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project, indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on [Form FHWA-1391](#). The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

III. NONSEGREGATED FACILITIES

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more.

The contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location, under the contractor's control, where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding \$2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size). The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. Contracting agencies may elect to apply these requirements to other projects.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

1. Minimum wages

a. All laborers and mechanics employed or working upon the site of the work, will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph 1.d. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph 1.b. of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

b. (1) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(ii) The classification is utilized in the area by the construction industry; and

(iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(2) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an

authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(3) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Wage and Hour Administrator for determination. The Wage and Hour Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(4) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs 1.b.(2) or 1.b.(3) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

c. Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

d. If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

2. Withholding

The contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor under this contract, or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing

wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work, all or part of the wages required by the contract, the contracting agency may, after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

3. Payrolls and basic records

a. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

b. (1) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the contracting agency. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly

payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at <http://www.dol.gov/esa/whd/forms/wh347instr.htm> or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the contracting agency for transmission to the State DOT, the FHWA or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the contracting agency..

(2) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(i) That the payroll for the payroll period contains the information required to be provided under §5.5 (a)(3)(ii) of Regulations, 29 CFR part 5, the appropriate information is being maintained under §5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;

(ii) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;

(iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(3) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(2) of this section.

(4) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or

criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.

c. The contractor or subcontractor shall make the records required under paragraph 3.a. of this section available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the FHWA may, after written notice to the contractor, the contracting agency or the State DOT, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

4. Apprentices and trainees

a. Apprentices (programs of the USDOL).

Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the

journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed.

Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination.

In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

b. Trainees (programs of the USDOL).

Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration.

The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration.

Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage

determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed.

In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

c. **Equal employment opportunity.** The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

d. **Apprentices and Trainees (programs of the U.S. DOT).**

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeymen shall not be greater than permitted by the terms of the particular program.

5. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.

6. Subcontracts. The contractor or subcontractor shall insert Form FHWA-1273 in any subcontracts and also require the subcontractors to include Form FHWA-1273 in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

7. Contract termination; debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

8. Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

9. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

10. Certification of eligibility.

a. By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

b. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

c. The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

The following clauses apply to any Federal-aid construction contract in an amount in excess of \$100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1.) of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the

case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1.) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1.) of this section.

3. Withholding for unpaid wages and liquidated

damages. The FHWA or the contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2.) of this section.

4. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1.) through (4.) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1.) through (4.) of this section.

VI. SUBLETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System.

1. The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contract price before computing the amount of work required to be performed by the contractor's own organization (23 CFR 635.116).

a. The term "perform work with its own organization" refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not

include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions:

- (1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;
- (2) the prime contractor remains responsible for the quality of the work of the leased employees;
- (3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and
- (4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submission of payrolls, statements of compliance and all other Federal regulatory requirements.

b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract.

2. The contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.

3. The contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.

4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is

evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract.

5. The 30% self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements.

VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations

made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR 635) in one or more places where it is readily available to all persons concerned with the project:

18 U.S.C. 1020 reads as follows:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the cost thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

Whoever knowingly makes any false statement, false representation, false report or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

Whoever knowingly makes any false statement or false representation as to material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-aid Roads Act approved July 1, 1916, (39 Stat. 355), as amended and supplemented;

Shall be fined under this title or imprisoned not more than 5 years or both."

IX. IMPLEMENTATION OF CLEAN AIR ACT AND FEDERAL WATER POLLUTION CONTROL ACT

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

1. Instructions for Certification – First Tier Participants:

a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.

b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.

If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this transaction for cause of default.

d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

Annual performance evaluations are an important way for the City Council and the City Manager to ensure effective communications about expectations and performance.

The City Council recognizes that for the City Manager to respond to their needs and to grow in the performance of his job, he needs to know how the City Council Members think he is performing.

To assure the City Manager gets this feedback, the City Council commits to conduct an evaluation of the City Manager's performance at least once each year, generally in November or December. The City Council and the City Manager agree that performance evaluations, for the purpose of mid-course corrections, may occur quarterly or several times during each calendar year. The City Council may use an outside facilitator to assist them in conducting this evaluation.

The annual review and evaluation shall be in accordance with specific criteria developed jointly by the City Council and the City Manager. Such criteria may be added to or deleted as the City Council may from time to time determine in consultation with the City Manager.

The City Council and the City Manager shall define such goals and performance objectives which they determine necessary for the proper operation of the City for the attainment of the City Council's policy objectives. The City Council and the City Manager shall further establish a relative priority among those various goals and objectives, which shall be reduced to writing and adopted by the Council. Following the City Manager's annual performance evaluation, the City Council shall adopt in open session specific goals and objectives for the coming year. The City Manager shall be evaluated based on his success in achieving these defined goals and objectives, and decisions regarding the City Manager's compensation shall depend in significant part on his achievement of these adopted goals. The City Manager's first annual performance evaluation will be in November or December 2014, and annually thereafter.

2. City Manager's Mandate

Rancho Cordova is at the forefront of a new era and attitude of city government. Financial constraints and uncertainty demand new thinking about the role and operation of government. The City must be financially

EXHIBIT A

strong, yet the City must not be an undue burden on taxpayers. The City cannot provide for every citizen service request; however, the City will not ignore legitimate community needs. The City must develop an identity and independence, and yet not contribute to the expensive and senseless duplication of services in the surrounding region. In short, the successful future of the city government demands that the City Manager be aggressive, innovative, and willing to take risks. The City and City Manager's mutual responsibility is to help shape a Rancho Cordova city government capable of meeting those challenges.

The City Manager and the City Council agree that the mandate for this position is to:

- (a) Provide excellent, not mediocre, government services that are:
 - Efficient
 - Effective
 - Well-respected
 - Entrepreneurial
- (b) Not only manage the City, but to fundamentally build how it works.
- (c) Reinvent how both citizens and employees "experience" Rancho Cordova city government by establishing quality interactions between employees, the citizens/ customers, and the City Council, and by building a positive culture in city government.
- (d) Create community and citizen pride in City government.
- (e) Over time, build a modern paradigm of government by:
 - Developing the capacity for intelligent change;
 - Determining the benchmark agencies by which we can measure our progress;
 - Creating a city government that has never existed before in California; and
 - Becoming a benchmark for other city governments to emulate.

II. REMUNERATION

The City agrees to provide the following compensation to the City Manager during the term of this Agreement:

EXHIBIT A**A. Compensation & Required Employer Costs****1. Base Salary**

The City Manager shall be paid a monthly salary of Nineteen Thousand Two Hundred Ninety-Eight Dollars (\$19,298.00), which amount is Range 527 of Step D-1 in the Salary Range Table as adopted by City of Rancho Cordova Resolution 63-2013. This constitutes "Base Salary."

Following the annual review of the performance of the City Manager by the City Council, and adoption of specific goals and objectives, as provided herein (Section I.E.1, above), at the discretion of the City Council, the City Manager shall be eligible to receive a salary increase, and/or a performance incentive payment in an amount less than or equal to five percent (5%) of Base Salary. The City Manager shall receive this performance incentive payment only if the City Council determines that he has produced exceptional results for the organization, which go above and beyond the expectations of his job obligations, as demonstrated by the accomplishment of the specific goals and objectives adopted for him in his preceding performance evaluation. The City Manager may be considered for a performance incentive payment based upon his 2015 annual performance evaluation, and each annual performance evaluation thereafter. Incentive payments do not increase Base Salary, but, subject to PERS, will be reported by the City to PERS as "bonus pay for performance."

The City Manager shall be paid at the same intervals and in the same manner as regular City employees. Any incentive payment to the City Manager will be paid in the payroll cycle following its approval by the City Council.

The City shall not at any time during the term of this Agreement reduce the base salary, compensation or other financial benefits of City Manager, unless as part of a general city management salary reduction, and then in no greater percentage than the average reduction of all department heads. If such a non-uniform reduction occurs, the City Manager may deem such action to be a termination without cause and shall be eligible for severance compensation under the terms provided herein in Section IV.C.1, below.

Any election to the 401(a) Plan is an irrevocable election..

B. Insurances

The City Manager shall receive a Cafeteria Plan contribution in the same amount as other employees for medical, dental and vision insurances. The City Manager shall be the owner of the life insurance policy, shall have full and complete discretion in selecting the policy and may substitute other policies if he so chooses, and shall have sole authority to designate the beneficiary for the death benefits under the policy.

IV. SEPARATION**A. At-Will Employment**

The City Manager is an at-will employee, and works exclusively at the pleasure and sole discretion of the City Council. As an at-will employee, the City Manager may be terminated at any time, with or without cause. Nothing in this Agreement, nor in any City policy, rule, procedure or ordinance shall modify the City Manager's status as an at-will employee, or limit the City's ability to treat the City Manager as an at-will employee.

B. Resignation/Retirement

City Manager may resign at any time and agrees to give the City at least forty-five (45) days advance written notice of the effective date of his resignation, unless the parties otherwise agree in writing. The City Manager shall receive the severance payment in a lump sum payment minus all applicable deductions fifteen (15) business days after execution of the waiver and release agreement. The City Manager shall not receive any severance payments if such a waiver and release agreement is not executed by the parties.
- d. The City Manager shall receive payment for all accrued unused vacation at the time of his separation from employment.

- f. No severance payment shall be made if the City Manager is terminated due to conviction of a felony, conviction of a misdemeanor involving moral turpitude or the entry of a plea of nolo contendere or a plea bargain to either such crime or crimes.

C. Payment for Unused Leave Balance

On separation from City employment, the City Manager shall be paid for all unused accumulated Universal Leave Program universal time off (UTO) accruals and/or he may apply Catastrophic Leave that has accumulated from unused UTO hours that accrued over the universal leave cap to PERS service credit if retiring upon separation, to the extent permitted by law. Accumulated UTO leave shall be paid at the City Manager's monthly base salary rate as of the effective date of separation.

In the event the City Manager dies while employed by the City under this Agreement, the City Manager's beneficiaries, or those entitled to his estate, shall be entitled to his earned salary and any in-lieu payments for accrued benefits, including compensation for the value of all accrued leave.

City shall defend, hold harmless and indemnify the City Manager against any tort, professional liability claim or demand or other legal action, whether groundless or otherwise, arising out of an alleged act or omission occurring in the performance of his duties as the City Manager. The City will compromise and settle any such claim or suit and pay the amount of any settlement or judgment rendered thereon, as appropriate and determined by the City Council.

Said indemnification shall extend beyond termination of employment and the otherwise expiration of this Agreement to provide protection for any such acts undertaken or committed in his capacity as City Manager, regardless of whether the notice of filing of a lawsuit occurs during or following employment with the City.

G. Severability

If any clause, sentence, part, section, or portion of this Agreement is found by a court of competent jurisdiction to be illegal or unenforceable, such clause, sentence, part, section, or portion so found shall be regarded as though it were not part of this Agreement and the remaining parts of this Agreement shall be fully binding and enforceable by the parties hereto.

H. Notice in the Event of Breach

In the event either party to this Agreement believes that the other party has violated this Agreement, the party alleging breach shall notify the other party in writing at least fourteen (14) days prior to filing any suit relating thereto.

TO: Honorable Mayor and Council Members

FROM: Michelle Mingay, Sr. Finance Analyst

SUBJECT: **ACTION ITEMS RELATED TO THE FORMATION OF THE CITY OF RANCHO CORDOVA COMMUNITY FACILITIES DISTRICT NO. 2014-1 (MONTELENA)**

RECOMMENDATION

Staff recommends Council adopt the following resolutions:

1. Resolution of Forming Community Facilities District and Levying a special tax in Community Facilities District No. 2014-1 (Montelena). (Resolution No. 35-2014)
2. Resolution Deeming it Necessary to Incur Bonded Indebtedness in Community Facilities District No. 2014-1 (Montelena). (Resolution No. 36-2014)
3. Resolution calling for a special election in Community Facilities District No. 2014-1 (Montelena). (Resolution No. 37-2014).
4. Resolution declaring election results of Community Facilities District No. 2014-1 (Montelena). (Resolution No. 38-2014).
5. Waive first reading and introduce Ordinance No. 14-2014 levying a special tax within Community Facilities District No. 2014-1 (Montelena).
6. Resolution approving the Funding, Construction and Acquisition Agreement in connection with Community Facilities District No. 2014-1 (Montelena). (Resolution No. 39-2014)

RESULT OF RECOMMENDED ACTIONS

Adoption of these items will complete the formation of the Community Facilities District No. 2014-1 (Montelena) (the "CFD") and authorize a landowner vote which, if successfully passed, authorizes the levy of a special tax. The special tax levy associated with this CFD is for the purpose of funding certain Public Facilities, such as roadways and underground utilities, and Long Term Maintenance Cost for infrastructure within the CFD's boundaries. There is no financial impact to existing residents.

BACKGROUND

At the meeting on April 21, 2014, the City initiated the process of forming Community Facilities District 2014-1 (Montelena) for the Montelena Development Project; a project that currently contemplates the construction of 806 single family homes, 14.2 acres of commercial property, 15.5 acres of parks, 9.24 acres of landscape areas, and a 2.0 acre fire station site. CFD's are commonly used throughout California to finance infrastructure and services in new development areas. The CFD is proposed to have a facilities special tax that will be levied on residential property within the development until all bonds issued by the district have been fully repaid. The facilities special tax will be \$1,237 per home and increase at a rate of 2% per year for the life of

the tax. The special tax will be authorized to support up to \$28,250,000 in bonds, the proceeds of which will primarily be used to pay infrastructure that is necessary for the development of the project. Additionally, this CFD will have a services special tax component which will begin after the facilities special tax has been fully assessed. The services special tax will be used for long term infrastructure maintenance within the district boundaries and complements revenues generated through Community Facilities District 2014-2, which is being formed concurrent with this CFD.

The Resolution of Intention adopted by the City Council on April 21, 2014 set June 2, 2014 at 5:30 pm, or as soon thereafter as the matter may be heard, for the hearing on the actual formation of the District and the levy of the special tax and the sale of bonds. The documents attached to this report will complete the formation and levy the special tax.

The documents attached to this report will complete the formation and levy the special tax. The following descriptions correspond to the Item numbers in the "Attachments" listing below:

1. **Resolution No. 35-2014 – A Resolution of Formation of Community Facilities District.** This officially forms the CFD, authorizes the special taxes to be collected and calls for the required property owner vote on the levy of taxes and the establishment of an appropriations limit for the CFD (under Article XIIB of the Constitution). The Exhibit(s) to this resolution show the facilities and services to be financed and the formula by which the special taxes will be levied in the CFD.
2. **Resolution No. 36-2014 – A Resolution Determining Necessity to Incur Bonded Indebtedness Within Community Facilities District.** This makes the determination to issue bonds to be financed by the special taxes. The amount is a "not to exceed" and includes amounts to cover improvements to be financed in later series of bonds. This resolution also calls for the required landowner vote on the issuance of bonds.
3. **Resolution No. 37-2014 – A Resolution Calling Special Election.** This sets the election for June 2, 2014 and provides the form of the special ballot to be used by the landowner-voter. Calling the election and actually having the election on the same night is allowed under CFD law due to the fact that all the landowners in the CFD have waived certain time requirements for proceeding to the election.
4. **Resolution No. 38-2014 – A Resolution Declaring Results of Special Election and Directing Recording of Notice of Special Tax Lien.** This is for adoption by the Council after the vote is announced by the City Clerk. It confirms the outcome of the property owner election for the CFD. Attached to it is a copy of the official Canvass and Statement of Result of Election to be completed by the Clerk after the vote is announced. This resolution also directs the filing of the Notice of Special Tax Lien against the lands in the CFD to allow collection of the special tax on each property.
5. **Ordinance No. 14-2014 - An Ordinance of the City Council of the City of Rancho Cordova Levying Special Taxes Within Community Facilities District No. 2014-1 (Montelena).** Under the law, the Council must levy the special taxes by ordinance. Under the ordinance, the levy is made once by the adoption of this ordinance, and, in each year hereafter, the process of determining the special taxes and processing the collection is done administratively by the Director of Finance (or a consultant) and no further Council action is needed.

6. **Resolution No. 39-2014 – A Resolution Approving the Funding, Construction and Acquisition Agreement in Connection with Community Facilities District No. 2014-1 (Montelena).** This sets forth the terms and conditions upon which moneys will be released. Most of the funds are authorized to be released to the developer as the City accepts the related public improvements, to reimburse the developer for moneys spent on the public improvements. Under the agreement, the City has reserved certain amounts and funding priorities per negotiation with the developer.
- 7a. **Order of Proceedings.** This is a guide for the Mayor to use to facilitate the required public hearing and landowner vote process. The document outlines the agenda to be followed to conduct the public hearing and adoption of the items needed to complete the formation of the CFD, to hold the special election and to take the final actions for the special tax and bonds authorization.
- 7b. **Certificate of City Clerk Regarding Waiver (of Certain Election Requirements) and Consent.** This is to be completed by the City Clerk for the City's record in connection with the ballot /election procedure and acknowledges receipt of waivers from the property owners.
- 7c. **Certificate of City Clerk Regarding Election Results.** This is to be completed by the City Clerk for the City's record in connection with the opening of ballots and announcement of results.
- 7d. **Notice of Special Tax Lien.** This is the document to be completed by the Clerk and recorded with the County Recorder subsequent to the meeting. It establishes a lien in favor of the City to allow for the collection and enforcement of the special taxes. The Developer will provide the Exhibit C listing of property owners as soon as the information is available; do not record the Notice without Exhibit C completed.
- 7e. **CFD Report.** This is the required report that shows the facilities (public improvements) and services to be provided by the CFD. The City was directed to prepare this report by the first Resolution of Intention adopted for the CFD on April 21, 2014. It shows the estimated costs of the various facilities and services along with the costs to issue the bonds and to administer the CFD. A copy of this report should be filed with the City Clerk as part of the proceedings

Taking the above actions will conclude the formation process for the CFD. The approval of bond documentation, which provides for the issuance of the anticipated CFD bonds, will be the subject of a future meeting.

Section 6. Joint Facilities. Certain public facilities proposed to be provided within the District include: (i) certain park and recreation facilities to be owned by the Cordova Recreation and Park District; (ii) certain water facilities to be owned by the Sacramento County Water Agency (Zone 11A and Zone 40) and; (iii) certain sanitary sewer facilities to be owned by the Sacramento Area Sewer District and Sacramento County Regional Sanitation District. As to each entity, the City proposes to enter into a separate Joint Community Facilities Agreement in accordance with Section 53316.2 of the Act, the form of each which shall be reviewed and approved by City staff, whereby, if such applicable facilities are constructed in accordance with required specifications and standards, each entity will accept such facilities for operation and maintenance and the City will pay for such acquisition costs under appropriate conditions and subject to an acquisition agreement between the City and certain owners of property in the District. The City Council hereby finds that such joint facilities agreements would be beneficial to the residents of the City. The City Council hereby authorizes the Finance Director, the City Manager or such other person or persons as either of them may designate (collectively, the "Authorized Officers") are each hereby authorized and directed to execute such joint facilities agreements, for and in the name and on behalf of the City and the District, in such forms, together with any additions thereto or changes therein deemed necessary or advisable by the Authorized Officer executing such document upon consultation with Bond Counsel or the City Attorney. The City shall not use the proceeds of the special tax of the District or of any bonds issued for the District for the acquisition of facilities to be owned by an entity other than the City unless and until such entity and the City have entered into such Joint Community Facilities Agreement.

Section 7. Special Tax.

a. Except to the extent that funds are otherwise available to the CFD to pay for the Facilities and/or the principal and interest as it becomes due on bonds of the CFD issued to finance the Facilities, a special tax (the "Special Tax") sufficient to pay the costs thereof, secured by the recordation of a continuing lien against all non-exempt real property in the CFD, is intended to be levied annually within the CFD, and collected in the same manner as ordinary *ad valorem* property taxes or in such other manner as may be prescribed by this Council.

b. The proposed rate and method of apportionment of the Special Tax among the parcels of real property within the CFD, in sufficient detail to allow each landowner within the proposed CFD to estimate the maximum amount such owner will have to pay, are shown in **Exhibit B** attached hereto and by this reference incorporated herein.

c. In the case of any Special Tax to pay for the Facilities and to be levied against any parcel used for private residential purposes: (i) the maximum special tax shall be specified as a dollar amount which shall be calculated and thereby established not later than the date on which the parcel is first subject to the tax because of its use for private residential purposes and which amount shall not be increased over time over two percent per year; (ii) the tax year after which no further Special Tax subject to this sentence shall be levied or collected shall be as set forth in **Exhibit B** hereto; and (iii) under no circumstances will the Special Tax levied against any parcel subject to this sentence be increased as a consequence of delinquency or default by the owner of any other parcel within the CFD by more than ten percent. For the purposes hereof, a parcel is used for "private residential purposes" not later than the date on which an occupancy permit for private residential use is issued.

Section 8. Increased Demands. It is hereby found and determined that the Facilities are necessary to meet increased demands placed upon local agencies as the result of development occurring in the CFD.

Section 9. Responsible Official. The office of the Finance Director of the City of Rancho Cordova, 2729 Prospect Park Drive, Rancho Cordova, California 95670 (916-851-8700) is designated as the office responsible for preparing annually a current roll of special tax levy obligations by assessor's parcel number, estimating future special tax levies and for establishing procedures to promptly respond to inquiries regarding estimates of future special tax levies. The City may contract with private consultants to provide this service in lieu of the Finance Director.

Section 10. Tax Lien. The Special Tax will be collected and enforced as a separate line item on the regular property tax bill. However, this City Council reserves the right, under Section 53340, to utilize any method of collecting the Special Tax which it shall, from time to time, determine to be in the best interests of the City, including, but not limited to, direct billing by the City to the property owners and supplemental billing. In particular, the City may bill the 2014-15 Special Taxes directly, and not post those taxes to the regular, secured property tax roll. The procedure for collection in any case when the City chooses to collect the Special Tax through direct billing shall be as follows:

After levy by the City Council, whether pursuant to authorizing ordinance or annual resolution, the City Finance Director shall cause to be prepared and sent to the property owners by first class U.S. Mail, at their addresses as shown on the last equalized assessment roll, a tax bill, which shall specify the amount due, give instructions for payment to the City Finance Director, state (as is hereby authorized and provided) that the first installment of the Special Tax (50% of the annual Special Tax shall be payable in each installment) shall be delinquent if not received by the City Finance Director by the close of business on the next succeeding December 10, and the second installment shall be delinquent if not paid by the City Finance Director by the close of business on the next succeeding April 10, shall specify (as is hereby authorized and provided) that all delinquencies shall incur an immediate 10% penalty, and an additional 1 1/2% penalty on the first day of each month beginning with the next succeeding September 1, and shall specify (as is hereby authorized and provided) that delinquencies are subject to judicial foreclosure under the procedure set forth in §53356.1 and following of the Government Code.

The City Council, as an alternative enforcement mechanism, may by resolution elect to place delinquent Special Taxes on the next secured property tax roll. In such event, attorneys' fees and costs to date in any foreclosure action, and penalties on the delinquency through the following December 1, may be included in the amount to be placed on the roll. Both remedies may be pursued simultaneously, but if the property owner pays the regular property tax bill for the subsequent year, including the delinquent Special Tax posted to that bill, the foreclosure action may thereafter be pursued solely for attorneys' fees and costs incurred subsequent to the posting of the delinquent Special Tax on the secured roll.

Section 11. Appropriations Limit. In accordance with the Act, the annual appropriations limit, as defined by subdivision (h) of Section 8 of Article XIII B of the California Constitution, of the CFD is hereby preliminarily established at \$10,000,0000 and said appropriations limit shall be submitted to the voters of the CFD as hereafter provided. The proposition establishing said annual appropriations limit shall become effective if approved by the qualified electors voting thereon and shall be adjusted in accordance with the applicable provisions of the Act.

Section 12. Election. Pursuant to the provisions of the Act, the proposition of the levy of the Special Tax and the proposition of the establishment of the appropriations limit specified above shall be submitted to the qualified electors of the CFD at an election the time, place and conditions of which election shall be as specified by a separate resolution of this Council. The qualified electors for the election to be held in these proceedings shall be the landowners owning land within the District. The City Council will conduct the election by mailed ballot and hereby designates the City Clerk as the official to conduct the mailed-ballot election.

Section 13. Advances of Funds. Advances of funds or contributions of work in kind from any lawful source, specifically including owners of property within the District, may be reimbursed from bond proceeds or from special tax revenue or both to the extent of the lesser of the value or cost of the contribution, but any agreement to do so shall not constitute a debt or liability of the City.

Section 14. Callable Bonds. Any bonds issued in these proceedings shall be callable in accordance with the provisions of the Act and as more specifically to be set forth in any resolution providing for the form, execution and issuance of bonds.

Section 15. Prior Proceedings Valid. This City Council now finds and determines that all proceedings up to and including the adoption of this Resolution were and are valid and in conformity with the requirements of the Act. This determination and finding is final and conclusive in accordance with Government Code Section 53325.1.

“SFD Lot” means an individual residential lot, identified and numbered on a recorded Final Map, on which a building permit has been or is permitted to be issued for construction of a single family detached unit without further subdivision of the lot and for which no further subdivision of the lot is anticipated pursuant to an approved tentative map.

Notwithstanding the foregoing, if the City determines that, at the time a Parcel is rezoned from residential to non-residential land uses, an equal amount of Acreage within the CFD is rezoned to Residential Property and is subject to the levy of Special Taxes, the Non-Residential Property can be deemed exempt from Special Taxes if the Administrator determines that there is no loss in Expected Maximum Facilities Special Tax Revenues from granting such exemption.

“Taxable Property” means all of the Assessor’s Parcels within the boundaries of the CFD which are not exempt from the Special Taxes pursuant to law or Section G below.

“Taxable Public Property” means any property within the CFD that, based on reference to Attachment 1, was expected to be Residential Property and instead becomes Public Property. Notwithstanding the foregoing, if the City determines that, in the Fiscal Year in which the Parcel would first be categorized as Taxable Public Property, an equal amount of Acreage within the CFD that was expected to be Public Property is rezoned to Residential Property and is subject to the levy of Special Taxes, the Parcel of Public Property can be deemed exempt from Special Taxes if the Administrator determines that there is no loss in Expected Maximum Facilities Special Tax Revenues from granting such exemption.

“Trigger Event” means, in any Fiscal Year, that, on or before June 30 of the prior Fiscal Year, the City made a finding that (i) all Bonds secured by the levy and collection of Facilities Special Taxes

in the CFD have been fully repaid, (ii) all Administrative Expenses have been paid or reimbursed to the City, and (iii) the Long-Term Maintenance Reserve has been fully funded. In the first Fiscal Year in which the Administrator finds that the Trigger Event occurred in the prior Fiscal Year, and in each Fiscal Year thereafter, the Facilities Special Tax shall cease to be levied, and the Services Special Tax determined for each Parcel pursuant to Section C.2 shall be levied as needed to pay the Services Special Tax Requirement.

“Undeveloped Property” means, in any Fiscal Year, all Parcels of Taxable Property that are not Developed Property or Final Map Property.

“Unit” means a single family detached unit or an individual unit within a duplex, triplex, halfplex, fourplex, condominium, townhome, live/work, or apartment structure. An Accessory Unit that shares a Parcel with a single-family detached unit shall not be considered a separate Unit for purposes of this RMA.

B. DATA FOR ADMINISTRATION OF SPECIAL TAXES

On or about July 1 of each Fiscal Year, the Administrator shall identify the current Assessor’s Parcel numbers for all Parcels of Developed Property, Final Map Property, and Undeveloped Property within the CFD. The Administrator shall also determine: (i) which Parcels of Developed Property are Residential Property and Non-Residential Property; (ii) by reference to the condominium plan, site plan, or other document, the number of Units on each Parcel of Single Family Attached Property and Multi-Family Property; (iii) whether the Trigger Event has occurred; and (iv) the Facilities Special Tax Requirement or, if the Trigger Event has occurred, the Services Special Tax Requirement for the Fiscal Year.

In any Fiscal Year, if it is determined that: (i) a parcel map for property in the CFD was recorded after January 1 of the prior Fiscal Year (or any other date after which the Assessor will not incorporate the newly-created parcels into the then current tax roll), (ii) because of the date the parcel map was recorded, the Assessor does not yet recognize the new parcels created by the parcel map, and (iii) a building permit was issued prior to June 30 of the prior Fiscal Year for development on one or more of the newly-created parcels, the Administrator shall calculate the Special Tax for Units within the subdivided area and levy such Special Tax on the master Parcel that was subdivided by recordation of the parcel map.

C. MAXIMUM SPECIAL TAXES

* On July 1, 2015 and on each July 1 thereafter, all figures shown in Table 2 above shall be increased by the Annual Escalation Factor.

D. ADJUSTMENTS TO THE MAXIMUM FACILITIES SPECIAL TAX

The Expected Maximum Facilities Special Tax Revenues were calculated based on the Expected Land Uses at CFD Formation. The Administrator shall review Final Maps, tentative map revisions, and other approvals and land use changes and compare the revised land uses to the Expected Land Uses to evaluate the impact on the Expected Maximum Facilities Special Tax Revenues.

If, prior to the Final Bond Sale, a change to the Expected Land Uses (a "Land Use Change") is proposed that will result in a reduction in the Expected Maximum Facilities Special Tax Revenues, no action will be needed pursuant to this Section D as long as the reduction does not reduce debt service coverage on outstanding Bonds below the amount committed to in the Bond documents. Upon approval of the Land Use Change, the Administrator shall update Attachment 2 to show the reduced Expected Maximum Facilities Special Tax Revenues, which amount shall be used to size the Final Bond Sale.

If a Land Use Change is proposed after the Final Bond Sale, the following steps shall be applied:

Step 1: By reference to Attachment 2 (which will be updated by the Administrator each time a Land Use Change has been processed according to this Section D), the

Administrator shall identify the Expected Maximum Facilities Special Tax Revenues;

- Step 2:** The Administrator shall calculate the Maximum Facilities Special Tax Revenues that could be collected from Taxable Property if the Land Use Change is approved;
- Step 3:** If the amount calculated in Step 2 is higher than that determined in Step 1, no further action is needed. If the revenues calculated in Step 2 are less than those calculated in Step 1, and if the landowner requesting the Land Use Change does not prepay the portion of the Expected Maximum Facilities Special Tax Revenues in an amount that corresponds to the lost revenue, then the Maximum Facilities Special Tax for each Parcel of Taxable Property in the area affected by the Land Use Change shall be increased proportionately until the Expected Maximum Facilities Special Tax Revenues for the area affected by the Land Use Change is the same as it was prior to the Land Use Change.

If multiple Land Use Changes are proposed simultaneously by a single land owner (which may include approval of multiple Final Maps at one time), the Administrator may consider the combined effect of all the Land Use Changes to determine if there is a reduction in Expected Maximum Facilities Special Tax Revenues. If there is a reduction, the Administrator shall increase the Maximum Facilities Special Tax proportionately in all of the Final Maps being proposed by the landowner until the aggregate amount that can be levied within the Final Maps is equal to the amount that could have been levied prior to the proposed Land Use Changes. If Land Use Changes are proposed simultaneously by multiple landowners, the Administrator shall consider the proposed Land Use Changes individually.

E. METHOD OF LEVY OF THE SPECIAL TAXES

1. Facilities Special Tax

Each Fiscal Year prior to the Trigger Event, the Administrator shall determine the Facilities Special Tax Requirement and levy the Facilities Special Tax on all Parcels of Taxable Property as follows:

- Step 1:** In all Fiscal Years through and including Fiscal Year 2029-30, the Maximum Facilities Special Tax shall be levied on all Parcels of Developed Property and Final Map Property. Any Facilities Special Tax proceeds collected that are not needed to pay debt service on the Bonds, replenish reserves, or pay Administrative Expenses shall be used to pay directly for Authorized Facilities.

After Fiscal Year 2029-30, the Facilities Special Tax shall be levied Proportionately on each Parcel of Developed Property, other than Taxable Public Property, up to 100% of the Maximum Facilities Special Tax for each Parcel until the amount levied on Developed Property is equal to the Facilities Special Tax Requirement;

- Step 2: After Fiscal Year 2029-30, if additional revenue is needed after Step 1 to pay the Facilities Special Tax Requirement, the Facilities Special Tax shall be levied Proportionately on each Parcel of Final Map Property up to 100% of the Maximum Facilities Special Tax;
- Step 3: In any Fiscal Year, if additional revenue is needed after Step 2 to pay the Facilities Special Tax Requirement, the Facilities Special Tax shall be levied Proportionately on each Parcel of Undeveloped Property up to 100% of the Maximum Facilities Special Tax;
- Step 4: In any Fiscal Year, if additional revenue is needed after Step 3 to pay the Facilities Special Tax Requirement, the Facilities Special Tax shall be levied Proportionately on each Parcel of Taxable Public Property, up to 100% of the Maximum Facilities Special Tax.

2. *Services Special Tax*

Each Fiscal Year after the Trigger Event, the Administrator shall determine the Services Special Tax Requirement and levy the Services Special Tax on all Parcels of Taxable Property as follows:

- Step 1: The Services Special Tax shall be levied Proportionately on each Parcel of Developed Property, other than Taxable Public Property, up to 100% of the Maximum Services Special Tax for each Parcel until the amount levied on Developed Property is equal to the Services Special Tax Requirement;
- Step 2: If additional revenue is needed after Step 1 to pay the Services Special Tax Requirement, the Services Special Tax shall be levied Proportionately on each Parcel of Final Map Property, up to 100% of the Maximum Services Special Tax;
- Step 3: If additional revenue is needed after Step 2 to pay the Services Special Tax Requirement, the Services Special Tax shall be levied Proportionately on each Parcel of Undeveloped Property, up to 100% of the Maximum Services Special Tax;
- Step 4: If additional revenue is needed after Step 3 to pay the Services Special Tax Requirement, the Services Special Tax shall be levied Proportionately on each Parcel of Taxable Public Property, up to 100% of the Maximum Services Special Tax.

F. MANNER OF COLLECTION OF SPECIAL TAXES

The Special Taxes shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that the City may directly bill, collect at a different time

or in a different manner, and/or collect delinquent Special Taxes through foreclosure or other available methods.

The Facilities Special Tax shall be levied until the first Fiscal Year after the Fiscal Year in which the Trigger Event has occurred; however, in no event shall Facilities Special Taxes be levied after Fiscal Year 2065-66. Under no circumstances may the Facilities Special Tax on a Parcel in residential use be increased in any Fiscal Year as a consequence of delinquency or default in payment of the Facilities Special Tax levied on another Parcel or Parcels by more than ten percent (10%) above the amount that would have been levied in that Fiscal Year had there never been any such delinquencies or defaults. The Services Special Tax may be levied and collected in perpetuity.

G. EXEMPTIONS

Notwithstanding any other provision of this RMA, no Special Taxes shall be levied on the following: (i) Public Property, except Taxable Public Property, (ii) Non-Residential Property, except Taxable Non-Residential Property, (iii) Parcels that are designated as permanent open space or common space on which no structure is permitted to be constructed, (iv) Parcels owned by a public utility for an unmanned facility, or (v) Parcels subject to an easement that precludes any use on the Parcel other than that permitted by the easement. In addition, no Facilities Special Tax shall be levied on any Parcel that has fully prepaid the Facilities Special Tax obligation assigned to the Parcel, as determined pursuant to the formula set forth in Section H below. Notwithstanding the foregoing, if a Facilities Special Tax has been levied on a Parcel in any Fiscal Year, and the Parcel subsequently meets the criteria for any of the exempted categories above, the Parcel shall remain subject to the Facilities Special Tax levy unless and until a prepayment is made to release the Parcel from its Facilities Special Tax obligation. If, in any Fiscal Year, a Parcel of Public Property is converted to private use, such Parcel shall be subject to the levy of Special Taxes.

H. PREPAYMENT OF FACILITIES SPECIAL TAX

The following definitions apply to this Section H:

“**Construction Fund**” means the account (regardless of its name) identified in the Indenture to hold funds which are available to acquire or construct Authorized Facilities.

“**Outstanding Bonds**” means all Previously Issued Bonds which remain outstanding, with the following exception: if a Facilities Special Tax has been levied against, or already paid by, an Assessor’s Parcel making a prepayment, and a portion of the Facilities Special Tax will be used to pay a portion of the next principal payment on the Bonds that remain outstanding (as determined by the Administrator), that next principal payment shall be subtracted from the total Bond principal that remains outstanding, and the difference shall be used as the amount of Outstanding Bonds for purposes of this prepayment formula.

“**Previously Issued Bonds**” means all Bonds that have been issued prior to the date of prepayment.

“Public Facilities Requirements” means \$12,000,000, or such other number as shall be determined by the City to be an appropriate estimate of the net construction proceeds that will be generated from all Bonds that have been or are expected to be issued on behalf of the CFD.

“Remaining Facilities Costs” means the Public Facilities Requirements (as defined above), minus public facility costs funded by Previously Issued Bonds (as defined above), developer equity, or any other source of funding.

1. *Full Prepayment*

The Facilities Special Tax obligation applicable to a Parcel in the CFD may be fully prepaid and the obligation of the Parcel to pay the Facilities Special Tax permanently satisfied as described herein, provided that a prepayment may be made only if there are no delinquent Special Taxes with respect to such Parcel at the time of prepayment. The Services Special Tax obligation may not be prepaid. An owner of a Parcel intending to prepay the Facilities Special Tax obligation shall provide the City with written notice of intent to prepay. Within 30 days of receipt of such written notice, the City or its designee shall notify such owner of the prepayment amount for such Parcel. Prepayment must be made not less than 50 days prior to any redemption date for Bonds to be redeemed with the proceeds of such prepaid Facilities Special Taxes.

The Prepayment Amount shall be calculated as follows (capitalized terms as defined below):

	Bond Redemption Amount
plus	Remaining Facilities Amount
plus	Redemption Premium
plus	Defeasance Requirement
plus	Administrative Fees and Expenses
less	Reserve Fund Credit
equals	Prepayment Amount

As of the proposed date of prepayment, the Prepayment Amount shall be determined by application of the following steps:

- Step 1. Determine the total Maximum Facilities Special Tax that could be collected from the Parcel prepaying the Facilities Special Tax in the Fiscal Year in which prepayment would be received by the City.
- Step 2. Divide the Maximum Facilities Special Tax computed pursuant to Step 1 by the Expected Maximum Facilities Special Tax Revenues for the Fiscal Year in which prepayment would be received by the City.
- Step 3. Multiply the quotient computed pursuant to Step 2 by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (*the “Bond Redemption Amount”*).

- Step 4. Compute the current Remaining Facilities Costs (if any).
- Step 5. Multiply the quotient computed pursuant to Step 2 by the amount determined pursuant to Step 4 to compute the amount of Remaining Facilities Costs to be prepaid (*the "Remaining Facilities Amount"*).
- Step 6. Multiply the Bond Redemption Amount computed pursuant to Step 3 by the applicable redemption premium, if any, on the Outstanding Bonds to be redeemed (*the "Redemption Premium"*).
- Step 7. Compute the amount needed to pay interest on the Bond Redemption Amount starting with the last Bond interest payment date on which interest has been or will be paid by Facilities Special Taxes already levied until the earliest redemption date for the Outstanding Bonds.
- Step 8. Compute the amount of interest the City reasonably expects to derive from reinvestment of the Bond Redemption Amount plus the Redemption Premium from the first Bond interest payment date after which the prepayment has been received until the redemption date for the Outstanding Bonds.
- Step 9. Take the amount computed pursuant to Step 7 and subtract the amount computed pursuant to Step 8 (*the "Defeasance Requirement"*).
- Step 10. Determine the costs of computing the prepayment amount, redeeming Bonds, and recording any notices to evidence the prepayment and redemption (*the "Administrative Fees and Expenses"*).
- Step 11. If and to the extent so provided in the Indenture, a reserve fund credit shall be calculated as a reduction in the applicable reserve fund for the Outstanding Bonds to be redeemed pursuant to the prepayment (*the "Reserve Fund Credit"*).
- Step 12. The Facilities Special Tax prepayment is equal to the sum of the amounts computed pursuant to Steps 3, 5, 6, 9, and 10, less the amount computed pursuant to Step 11 (*the "Prepayment Amount"*).
- Step 13. From the Prepayment Amount, the amounts computed pursuant to Steps 3, 6, and 9 shall be deposited into the appropriate fund as established under the Indenture and be used to retire Outstanding Bonds or make debt service payments. The amount computed pursuant to Step 5 shall be deposited into the Construction Fund. The amount computed pursuant to Step 10 shall be retained in the account or fund that is established to pay Administrative Expenses.

Once a full prepayment of a Parcel's Facilities Special Tax obligation has been received, a Notice of Cancellation of Special Tax Lien shall be recorded against the Parcel to reflect the discharge of the Parcel's obligation to pay the Facilities Special Tax. However, a Notice of Cancellation of Special Tax Lien shall not be recorded until all Facilities Special Taxes levied on the Parcel in the current or prior Fiscal Years have been collected. The prepayment of a Facilities Special Tax shall not affect the perpetual obligation to pay the Services Special Tax.

2. *Partial Prepayment*

A partial prepayment may be made in an amount equal to any percentage of full prepayment desired by the party making a partial prepayment, except that the full amount of Administrative Fees and Expenses determined in Step 10 shall be included in the partial prepayment. The Maximum Facilities Special Tax that can be levied on a Parcel after a partial prepayment is made shall be determined as follows:

- Step 1. Calculate the full prepayment (not including the amount collected for Administrative Fees and Expenses) that would be due from the Parcel if the entire Special Tax obligation were being prepaid pursuant to Section H.1 above.
- Step 2. Divide the partial prepayment amount for the Parcel (not including the amount collected for Administrative Fees and Expenses) by the amount computed in Step 1 to determine a percentage.
- Step 3. Subtract the percentage computed in Step 2 from 100% to determine the "Remaining Percentage."
- Step 4. Multiply the Remaining Percentage from Step 3 by the Maximum Facilities Special Tax for the Parcel to determine the new Maximum Facilities Special Tax that will be in effect for the Parcel after the partial prepayment is applied.

I. INTERPRETATION OF SPECIAL TAX FORMULA

Interpretations of the RMA may be made and applied by City staff administering the CFD for purposes of interpreting the RMA to apply the Special Taxes consistently among land classifications or to actual land uses upon development in a manner fair and consistent with other land uses, or to clarify any vagueness or ambiguity as it relates to the Special Tax rates, method of apportionment, technicalities, classification of properties or any definition applicable to the CFD. Such interpretations shall be delivered to the Administrator in a written communication.

WHEREAS, this Council has also adopted Resolution No. 36-2014 "RESOLUTION DEEMING IT NECESSARY TO INCUR BONDED INDEBTEDNESS IN COMMUNITY FACILITIES DISTRICT NO. 2004-1 (MONTELENA)" (the "Resolution Determining Necessity"), determining the necessity to incur bonded indebtedness in the maximum aggregate principal amount of \$28,250,000 upon the security of the special tax to be levied within the CFD pursuant to the Act; and

WHEREAS, pursuant to the provisions of the Resolution of Formation and the Resolution Determining Necessity, the propositions of the levy of the special tax, the establishment of the appropriations limit and the incurring of the bonded indebtedness shall be submitted to the qualified electors of the CFD as required by the provisions of the Act.

NOW, THEREFORE, BE IT HEREBY RESOLVED THE CITY COUNCIL OF THE CITY OF RANCHO CORDOVA does authorize as follows:

Section 1. Issues Submitted. Pursuant to Sections 53326, 53351 and 53325.7 of the Act, the issues of the levy of the special tax, the incurring of bonded indebtedness and the establishment of the appropriations limit shall be submitted to the qualified electors (as defined below) of the CFD at an election called therefor as provided below.

Section 2. Qualified Electors. This Council hereby finds that fewer than 12 persons have been registered to vote within the territory of the CFD for each of the 90 days preceding the close of the public hearings heretofore conducted and concluded by this Council for the purposes of these proceedings. Accordingly, and pursuant to Section 53326 of the Act, this Council finds that, for these proceedings, the qualified electors are the landowners within the CFD and that the vote shall be by such landowners or their authorized representatives, each having one vote for each acre or portion thereof such landowner owns in the CFD as of the close of the public hearings.

Section 3. Conduct of Election. This Council hereby calls a special election to consider the measures described in Section 1 above, which election shall be held on June 2, 2014, and the results thereof canvassed at the meeting of this Council on June 2, 2014. The City Clerk is hereby designated as the official to conduct the election and to receive all ballots until 5:30 p.m. on the election date. It is hereby acknowledged that the City Clerk has on file the

Resolution of Formation, a certified map of the boundaries of the CFD, and a sufficient description to allow the City Clerk to determine the electors of the CFD. Pursuant to Section 53327 of the Act, the election shall be conducted by messenger or mail-delivered ballot pursuant to Section 4000 of the California Elections Code. This Council hereby finds that paragraphs (a), (b), (c) (1) and (c)(3) of Section 4000 are applicable to this special election.

Section 4. Ballot. As authorized by Section 53353.5 of the Act, the three propositions described in section 1 above shall be combined into a single ballot measure, the form of which is attached hereto as **Exhibit A** and by this reference incorporated herein and the form of ballot is hereby approved. The City Clerk is hereby authorized and directed to cause a ballot, in substantially the form of **Exhibit A**, to be delivered to each of the qualified electors of the CFD. Each ballot shall indicate the number of votes to be voted by the respective landowner to which the ballot pertains. Each ballot shall be accompanied by all supplies and written instructions necessary for the use and return of the ballot. The envelope to be used to return the ballot shall be enclosed with the ballot, have the return postage prepaid, and contain the following: (a) the name and address of the landowner, (b) a declaration, under penalty of perjury, stating that the voter is the owner of record or authorized representative of the landowner entitled to vote and is the person whose name appears on the envelope, (c) the printed name, signature and address of the voter, (d) the date of signing and place of execution of the declaration pursuant to clause (b) above, and (e) a notice that the envelope contains an official ballot and is to be opened only by the canvassing board of the election.

Section 5. Waivers. This Council hereby further finds that the provisions of Section 53326 of the Act requiring a minimum of 90 days following the adoption of the Resolution of Formation to elapse before the special election are for the protection of the qualified electors of the CFD. There is on file with the City Clerk a written waiver executed by all of the qualified electors of the CFD allowing for a shortening of the time for the special election to expedite the process of formation of the CFD and waiving any requirement for notice, analysis and arguments in connection with the election. Accordingly, this Council finds and determines that the qualified electors have been fully apprised of and have agreed to the shortened time for the election and waiver of analysis and arguments, and have thereby been fully protected in these proceedings. This Council also finds and determines that the City Clerk has concurred in the shortened time for the election. Analysis and arguments with respect to the ballot measures are hereby waived, as provided in Section 53327 of the Act

Section 6. Accountability. Under Sections 50075.1 and 53410 of the Government Code, the following accountability measures shall apply to the special taxes and/or any bonds: (a) the construction and/or acquisition of the Facilities and the incidental costs thereof including any bonds, all as defined in the Resolution of Formation shall constitute the specific single purpose; (b) the proceeds shall be applied only to the specific purposes identified in (a) above; (c) there shall be created special account(s) or funds(s) into which the proceeds shall be deposited; and (d) there shall be caused to be prepared an annual report as required by Section 50075.3 or 53411 of the Government Code.

WHEREAS, under the provisions of the Resolution of Formation and the Resolution Determining Necessity, and pursuant to a resolution entitled "Resolution Calling Special Election in Community Facilities District No. 2014-1 (Montelena)" (the "Election Resolution") heretofore adopted by this Council, the propositions of the levy of the special tax, the establishment of the appropriations limit and the incurring of the bonded indebtedness were submitted to the qualified electors of the CFD as required by the provisions of the Act; and

WHEREAS, pursuant to the terms of the Election Resolution, which are by this reference incorporated herein, the special election has been held and the City Clerk has on file a Canvass and Statement of Results of Election (the "Canvass"), a copy of which is attached hereto as **Exhibit A**; and

WHEREAS, this Council has reviewed the Canvass, finds it appropriate and wishes to complete its proceedings for the CFD.

NOW, THEREFORE, BE IT HEREBY RESOLVED THE CITY COUNCIL OF THE CITY OF RANCHO CORDOVA does authorize as follows:

Section 1. Recitals. The foregoing recitals are all true and correct.

Section 2. Issues Presented. The issues presented at the special election were the levy of a special tax within the CFD, the incurring of a bonded indebtedness in the maximum aggregate principal amount of \$28,250,000, and the approval of an annual appropriations limit of not to exceed \$6,000,000 all pursuant to the Resolution of Formation and the Resolution Determining Necessity.

**Form of Funding, Construction and Acquisition Agreement
(to be attached)**

FUNDING, CONSTRUCTION AND ACQUISITION AGREEMENT

CITY OF RANCHO CORDOVA COMMUNITY FACILITIES DISTRICT NO. 2014-1 (MONTELENA)

THIS AGREEMENT is entered into as of the ____ day of _____, 2014 by and between the CITY OF RANCHO CORDOVA, a California municipal corporation (the "**City**"), and MONTELENA DOUGLAS, LLC, a California limited liability company and CHRYSANTHY ROAD INVESTMENT, LLC, a California limited liability company (collectively the "**Developers**").

RECITALS

(A) Developers are the developers of approximately 184.16 acres of property located within the City (the "**Property**"). Pursuant to the request of Developer, City commenced and completed proceedings for the establishment of a community facilities district pursuant to the provisions of Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982," (the "**Act**"), relating to and including the Property for the purpose of paying a share of the costs for certain public facilities which are necessary to the development of the Property, including the issuance of special tax bonds, as well as paying for certain services. Said community facilities district is known as "City of Rancho Cordova Community Facilities District No. 2014-1 (Montelena), County of Sacramento, State of California" (the "**District**"). The Property is located within the corporate limits of the City.

(B) Developers propose to construct improvements and to pay certain fees described in the List of Authorized Facilities for the District (together, the "**Project**") as required by the Project Approvals (as defined below) and to be financed by the District. The City approved tentative subdivision maps for the Project. The tentative subdivision maps, including conditions of approval, and other existing and subsequent approvals granted by City and agreements between Developers and City in implementation of the Project, as the same may be amended from time to time, including amendments thereto, are herein collectively referred to as the "**Project Approvals**."

(C) Section 53313.5 of the California Government Code provides that a community facilities district may finance the construction and acquisition of facilities constructed after the adoption of the resolution of formation establishing the community facilities district if the facilities have been constructed as if they had been constructed under the direction and supervision, or under the authority of, the local agency whose governing body is conducting proceedings for the establishment of the district.

(D) The purpose of this Agreement is to provide for the acquisition of certain public facilities serving development of the Project to be financed in whole or in part by the District, including payment of certain fees to fund such public facilities, using proceeds from issuance and sale of bonds for the District to finance the design and acquisition of such public facilities and expenses incidental thereto and to provide the terms of any reimbursement to Developer.

AGREEMENTS

NOW, THEREFORE, in consideration of the preceding recitals and the mutual covenants hereinafter contained, the parties agree as follows:

Section 1. ESTABLISHMENT OF DISTRICT. The City has initiated and concluded proceedings pursuant to the Act for the establishment of the District. Such proceedings included elections pursuant to Sections 53326 and 53327 of the California Government Code on (i) the question of the issuance of bonds for the District to finance the design, construction or acquisition of the below described authorized facilities, either directly or through the payment of fees charged by the City to fund capital improvements, (ii) the issue of the annual levy of special taxes on all taxable property within the District for the payment of principal and interest on the bonds of the District and the annual administrative expenses of the City and the District in levying and collecting such special taxes, paying the principal and interest on such bonds and providing for the registration, exchange and transfer of such bonds, including the fees of fiscal agents and paying agents, and any necessary replenishment for the reserve fund for such bonds, accumulation of funds for future bond payments, or the acquisition of authorized facilities and payment of authorized costs from the proceeds of such special taxes, and (iii) the question of the establishment of an appropriations limit for the District.

Section 2. SALE OF BONDS; AUTHORIZED FACILITIES. The City intends to proceed with the sale of bonds for the District in an aggregate principal amount not to exceed \$28,250,000 for the purpose of raising money eligible for use as payment for Authorized Facilities and/or Authorized Fees (described below) in accordance with this Agreement and City policies. The timing of the issuance and sale of the Bonds, the aggregate principal amount thereof, and the terms and conditions upon which they shall be sold shall be reasonably determined solely by the City based on input from the Developers. If multiple series of bonds are to be issued, this Agreement is applicable to proceeds from the first series of such bonds; such first series is herein referred to as the “**Bonds.**” Proceeds from subsequent series of bonds for the District may be made applicable to this Agreement by mutual agreement of the parties hereto, or may be made applicable to a separate agreement.

Developers acknowledge that the legal documents related to the Bonds includes the restrictions on the issuance of additional bonds of the following effect: no series of additional bonds shall (a) have a term in excess of 30 years; (b) have a final maturity date later than September 1, 2054; (c) have annual debt service which, increases by more than 2.15% over the annual debt service for the immediately preceding Bond Year.”

The authorized facilities (the “**Authorized Facilities**”) eligible for reimbursement from Bond proceeds and the City-wide fees eligible for advance funding (the “**Authorized Fees**”) from Bond proceeds are generally described in the List of Facilities Authorized Eligible for Funding for the District as part of the formation proceedings and attached as Exhibit "A" hereto. The Authorized Facilities identified in Exhibit “A” represent all of the facilities that are eligible for acquisition, however Developers may not construct all of the Authorized Facilities (e.g. some facilities may be constructed by City, other public agencies or utilities, or other developers that require the construction of such facilities, or in concert with other developers).

References to payments from “**Available Construction Proceeds**” (which shall be the proceeds of the sale of the Bonds net of costs of issuance, less the Formation Fees and Costs, capitalized interest, and any administration costs to be deducted therefrom, plus any interest earnings on such proceeds, plus Available Special Tax Revenues (defined in Section 12 below))

for an Authorized Facility installed by the Developers or for payment or prepayment of Authorized Fees paid by the Developers shall mean and refer to the Available Construction Proceeds related solely to development of the Property.

Section 3. TAX REQUIREMENTS. The City shall take all actions which, in the opinion of City's bond counsel, are necessary in order to avoid classification of the bonds as "arbitrage bonds" or the loss of tax exemption for the bonds for any other reason.

Section 4. AMOUNTS TO BE INCLUDED IN BONDS. The aggregate principal amount of the Bonds shall include an amount needed (i) to fund a reserve fund for the payment of principal and interest of the Bonds as is determined by the City to be necessary and appropriate, capitalized interest on the Bonds for such period as the City shall reasonably determine is appropriate in consultation with the Developers (if and to the extent not provided by the levy and collection of special taxes in advance of such Bond sale), (ii) the amount of the discount of the underwriter who purchases the Bonds, and (iii) other expenses incurred by the City in connection with the issuance and sale of the Bonds, including bond and disclosure counsel fees, legal fees, fees of the bank which will act as transfer agent, registrar and paying or fiscal agent for the Bonds, other fees and costs normally incidental to the sale of Bonds, and such other fees and costs enumerated in Section 53345.3 of the Act as the City determines are necessary and appropriate. The City may also, at its sole discretion, include within the aggregate principal amount of the Bonds an amount determined by the City to equitably reimburse Developers, or any entities related thereto, for costs and expenses incurred by it which are related to the establishment of the District; provided that the City shall determine the amount to be so reimbursed on the basis of detailed itemizations of costs provided by Developers, the amount to be reimbursed to Developers shall be based on the relative amount advanced for such costs by the Developers and shall be limited to the proceeds derived from the Property. (All of the foregoing fees, costs, and expenses described in this paragraph are hereinafter "**Formation Fees and Costs.**") In no event shall Developers be reimbursed from Bond proceeds for (i) in-house administrative overhead (except that Developers shall be entitled to payment equal to four percent (4%) of actual construction costs as and for project and construction management services), (ii) interest expense incurred by Developers on moneys advanced during the proceedings for formation of the District and issuance of Bonds, and during construction of the Authorized Facilities; and (iii) any other costs and expenses incurred by Developers which are not authorized by the Act.

Upon issuance of Bonds to be repaid with special tax revenues levied on Villages 6-10 or the commercial parcel within the Project, a portion of the bond proceeds will be reserved for certain frontage improvement cost for portions of Rancho Cordova Parkway (Commercial, Villages 6 and 7) (first 450 feet of westerly frontage at Rancho Cordova Parkway Intersection), and Chrysanthy Blvd. (Villages 8,9,10), (frontage on both sides of Chrysanthy Blvd, fronting Montelena only). The amount to be reserved shall be \$1,962,961 and shall be used consistent with Exhibit "B". The amount to be reserved will automatically be adjusted each July 1, starting July 1, 2015, by the change in the 20-City Construction Cost Index as reported in the Engineering News Record for the twelve-month period ending April of the then current year.

As these improvements are constructed the unused amount of proceeds reserved for these improvements will be appropriately reduced. The amount so reserved shall only be available for these improvements unless released by the City for use to fund other Authorized Facilities in accordance with this Agreement.

Developers shall have the right to request the release of proceeds reserved for the

Rancho Cordova Parkway and Chrysanthy Blvd improvements described above for purposes of funding other Authorized Facilities if the construction of one or both of those improvements is funded or is available from other sources.

Section 5. DESIGN OF AUTHORIZED FACILITIES.

(a) Conformance With Standards. Authorized Facilities to be acquired by the City shall be designed in conformance with all applicable City standards and requirements. Upon completion of the design of each such Authorized Facility to the satisfaction of the City; and when Developers have paid to the City all applicable plan checking and other fees, Developers shall notify City that the design of the Authorized Facility is completed.

(b) Reimbursement for Design. Developers may be reimbursed out of the Available Construction Proceeds for such expenses incurred in designing those Authorized Facilities set forth in Exhibit "A" hereto, including all applicable plan checking and other fees paid, subject to the City's determination of the amount to be so reimbursed pursuant to the terms hereof, and subject to the limitation that reimbursement in all cases is to be made from Available Construction Proceeds only. Reimbursement for design and for plan check services related to approval of the design for each Authorized Facility shall be made in one or more lump sum payments as and when the design for each Authorized Facility is approved, but only after City has received and approved all invoices for such services associated with the design of such Authorized Facility.

(c) Assumption of Design by City. Notwithstanding the preceding provisions of this Section 5, if the City determines that Developers are not proceeding with the design of an Authorized Facility to be constructed by Developers for acquisition by City on a reasonable schedule which will enable the City to insure that construction of such Authorized Facility can be completed within the time specified in Section 6 hereof, the City may take over the design of the Authorized Facility by giving Developers written notice thereof. Upon receipt of such a notice, Developers shall surrender to the City all plans and specifications which have then been completed or which are in progress with respect to such Authorized Facility.

If the City takes over the design of an Authorized Facility as provided above, the City shall reimburse Developers from the Available Construction Proceeds for the approved expenses incurred in connection with the design of the Authorized Facility which have not previously been reimbursed, provided there are sufficient funds remaining, after payment for the Authorized Facilities, to do so. The City shall be reimbursed from Available Construction Proceeds the expenses incurred to complete the design. If the City takes over the design of other Authorized Facilities commenced by Developers, the cost of a portion of the plans for such Authorized Facilities taken over shall be eligible for fee credits to the extent fee credits are applicable hereunder for Authorized Facilities.

Section 6. CONSTRUCTION FOR ACQUISITION. The City shall only be required to acquire from Developers, and otherwise pay Developers for, the Authorized Facilities set forth in Exhibit "A." For those Authorized Facilities which Developers construct, Developers shall proceed with the construction thereof in accordance with the approved plans and specifications.

For construction of Authorized Facilities, Developers shall comply with all of the following requirements to insure that the Authorized Facilities will be constructed as if they had been constructed under the direction and supervision, or under the authority of the City:

(a) Approval by City. The plans and specifications and form of contract documents shall be approved by the City Engineer and City Attorney for conformance with City Codes and policy.

(b) Contract Requirements. Developers shall require, and the specifications and contract documents shall require, all such contractors to pay prevailing wages in accordance with the California Labor Code, Government Code and Public Contracts Code relating to public works projects of cities and as required by the procedures and standards of the City with respect to the construction of its public works projects.

(c) Proof of Insurance/Completion of Construction. All such contractors shall be required to provide proof of insurance coverage throughout the term of the construction of the Authorized Facilities which they will construct in conformance with the City's standard procedures and requirements. Developers shall cause the Authorized Facilities to be constructed in an expeditious manner as determined by the City to be in accordance with project approvals and development progress. If Developers fail to expeditiously prosecute such construction of the Authorized Facilities to be constructed by Developers for acquisition by the City, the City shall have the right and may elect to take over the construction of such Authorized Facilities, or any part thereof, if it determines it is necessary for it to so proceed in order to protect the City's interests. If the City elects to so proceed, it shall notify Developers in writing that if Developers do not satisfy the City that construction is proceeding expeditiously on the construction of an Authorized Facility within 30 days after receipt of such notice, the City will take over the construction of such Authorized Facilities. If after receiving such a written notification Developers do not satisfy the City that they are proceeding expeditiously to construct that portion of the Authorized Facilities identified in the written notification to the satisfaction of the City, within 30 days from the date of receipt thereof, Developers shall relinquish to the City all design documents, and shall cooperate with the City in every way to ensure that the construction of the Authorized Facilities will be completed expeditiously.

Section 7. INSPECTION AND APPROVAL OF CONSTRUCTION. The City shall provide such level of inspection of the progress of construction of the Authorized Facilities to be constructed by Developers for acquisition or reimbursement therefor by the City as it deems necessary. The City may provide engineering and inspection services using City staff, contracting with the Sacramento County Public Works Agency, or contracting with any other entity for these services (in all cases referred to as the "**City Inspectors**"). City Inspectors shall have access to the construction sites at all times for the purpose of conducting their inspections. Developers and their contractors shall cooperate in every way with the City Inspectors to ensure that they are afforded an adequate opportunity to inspect each and every aspect of the progress of construction of each and every such Authorized Facility.

Section 8. LIENS. Upon the expiration of the time for the recording of claims of liens as prescribed by Section 3115 and 3116 of the California Civil Code, Developers shall provide to the City (as set forth in paragraph 9(a) below) such evidence or proof as the City shall reasonably require that all persons, firms and corporations supplying work, labor, materials, supplies and equipment to the construction of the Authorized Facilities, or portion thereof, constructed by Developers for acquisition by the City have been paid, and that no claims of liens have been recorded by or on behalf of any such person, firm or corporation. During construction of the Authorized Facilities, Developers shall provide, or cause their contractors to provide, conditional lien releases with respect to pending Requests for Payment (and unconditional lien releases for previously paid Requests for Payment), in accordance with the statutory requirements and as may be requested by City.

Section 9. PAYMENT OF ACQUISITION PRICE.

(a) Request for Payment of Acquisition Price. On the 30th day of each month following commencement of construction of any of the Authorized Facilities or such other dates as are mutually agreeable by City and Developers, Developers will submit to City an invoice, or other form of request, for payment (the “**Request for Payment**”) of the Acquisition Price (as determined below) for the portion of each Authorized Facility constructed during the previous month. The Request for Payment shall be made on the form attached hereto as Exhibit “C” and include such necessary information (including invoices, receipts, worksheets and other evidence) in sufficient detail to allow the City to verify the Acquisition Price of such portions of the Authorized Facilities. With the Request for Payment, Developers shall also submit copies of verifications of inspections conducted pursuant to Section 7 and lien releases pursuant to Section 8 above for the portions of the Authorized Facilities for which the Request for Payment is submitted.

(b) Determination of Acquisition Price/City Inspection. Upon submittal of a complete (as reasonably determined by City) Request for Payment, the City or the City and Other Public Entity shall determine the Acquisition Price (or in the case of a reimbursement, the reimbursement amount, which hereinafter is included in the term “**Acquisition Price**”) to be paid by the City for the acquisition from Developers of the portions of the Authorized Facilities constructed by Developers during said prior month. City Inspectors shall verify the type and quantity of work described in the Request for Payment as having been completed and confirms said work is completed in a satisfactory manner. City Inspectors shall transmit to the City's Finance Department the findings of its review and then consult with the Finance Department as needed to determine the Acquisition Price. The Acquisition Price for the portion of an Authorized Facility shall include the actual cost of construction (or payment) thereof as determined by the contract prices as set forth in contracts and purchase orders entered into by Developers with their contractors, and suppliers, in accordance with standards and procedures therefor as prescribed by the City. The City shall use its best efforts to determine the Acquisition Price within twenty (20) business days from receipt of a Request for Payment. Upon determining the Acquisition Price, City shall promptly notify Developers in writing of such Acquisition Price.

(c) Payment of Acquisition Price. Within forty-five (45) days after receipt of a complete (as reasonably determined by City) Request for Payment, the City, through its fiscal agent, shall pay from the Available Construction Proceeds the Acquisition Price then due to Developers. If the Payment Request indicates that Developers are withholding from their contractor a retention of a least five percent (5%) of the contract price for the portion of the constructed Authorized Facility, then the full amount of the approved Acquisition Price shall be authorized for payment to Developers; if the Payment Request does not indicate the withholding by Developers of such five percent (5%) retention, then the amount to be paid to Developers shall be equal to the Acquisition Price, less a retention of five percent (5%) of the contract price for the portion of the constructed Authorized Facility. Upon completion of such Authorized Facility in its entirety, including all “Punch List” work, and acceptance of the Authorized Facility by the City, the City, through its fiscal agent, shall pay from the Available Construction Proceeds the balance of the Acquisition Price then due Developers for such Facility, including any 5% progress retention then paid by Developers or any 5% retentions previously retained by City with respect thereto. City may withhold payment from Developers if the Developer requesting payment owes the City money on outstanding invoices or is delinquent in the payment of any special taxes until such balance is brought to zero.

(d) Payment Limited to Available Construction Proceeds. As noted hereunder, payments to Developers shall be payable solely from the Available Construction Proceeds and any interest earnings thereon. The amount to be paid to Developers shall be a reimbursement for actual costs incurred as determined by the City in accordance with this Agreement and shall not exceed the Developers' cost thereof as reasonably determined by the City to be eligible under the Act to be part of the Acquisition Price of Authorized Facilities. All portions of the Authorized Facilities not acquired with the Available Construction Proceeds shall nonetheless be constructed by the Developers, to the extent required by the project approvals. In the event Available Construction Proceeds are insufficient to pay the eligible Acquisition Price, any shortfall shall be the responsibility of the Developers, however Developers may request that all or any portion of such shortfall be reimbursed from additional series of bonds for the District if and when such additional bonds are issued, and in such event the deferred amount will be eligible for reimbursement from proceeds of such future bonds, to the extent funds are available.

Developers shall not be entitled to reimbursement for costs allocable to any Authorized Facility which has previously been acquired by the City and reimbursed from other sources, if, in the opinion of the City, such reimbursement would create a double payment to Developer(s) for such Authorized Facility, or component thereof.

(e) Annual Accounting of Available Construction Proceeds. At the request of Developers, which shall be not more than once a year during the term of this Agreement, City shall prepare and provide to Developers an accounting (an “**Annual Accounting**”) of the following: (i) the total amount of Available Construction Proceeds then on deposit in the Improvement Fund hereunder and deposited thereto from the prior fiscal year; (ii) the fiscal year tax roll submitted to the County Auditor-Controller; (iii) the amount of all charges and credits to the Improvement Fund during the prior fiscal year, including interest earnings on the funds therein and charges for City administration and any third party consultant or administration fees; (iv) the amount of Authorized Fees then advanced on behalf of Developers pursuant to Section 14 below; and (v) the amount, if any, of outstanding payments then approved for payment to Developers pursuant to approved Requests for Payment.

Section 10. ACQUISITION/OWNERSHIP OF FACILITIES.

(a) Dedication of Authorized Facilities. Upon determination by Developers that an Authorized Facility is complete and ready for acceptance by the City, Developers shall execute and submit to City or other public agency or utility that will own and operate such Authorized Facility an offer of dedication (or other such instrument acceptable to the City or applicable public entity) irrevocably offering to transfer ownership of the Authorized Facility (the “**Offer of Dedication**”).

(b) Review of Completed Construction. Upon delivery to City or other public agency or utility of the Offer of Dedication and upon (i) completion of the construction of an Authorized Facility, (ii) receipt of written notification from City's Inspectors that construction thereof has been completed in accordance with the plans and specifications thereof and the City's or other entity's standard requirements, and (iii) receipt of satisfactory proof, based on the records of Developers and the City and such certifications as the City may require, that the requirements of Section 6 hereof have been satisfied, the City shall notify Developers in writing that the construction of the Authorized Facility has been satisfactorily completed. Upon receiving such notification of a completed Authorized Facility, Developers shall forthwith file with

the County Recorder of the County of Sacramento a Notice of Completion pursuant to the provision of Section 3093 of the California Civil Code. Developers shall furnish to the City a duplicate copy of each such Notice of Completion showing thereon the date of filing with the County Recorder. The costs incurred by the City in inspecting and approving the construction of the Authorized Facilities shall be paid by Developer, subject to reimbursement from Available Construction Proceeds derived from Developers' Property. Upon recordation of a Notice of Completion, the City or other entity shall accept the Authorized Facility offered and the one-year warranty period provided in paragraph 11(c) shall commence.

(c) Ownership of Facilities. Notwithstanding the fact that some of the Authorized Facilities, or components or segments thereof, to be constructed by Developers for acquisition by the City or other public agency or utility may be constructed in dedicated street rights-of-way or on property which has been or will be dedicated or offered for dedication to the City, District or other entity, such Authorized Facilities, or components or segments, shall be and remain the property of Developers, and Developers shall be responsible for any loss or damage thereto or liability arising therefrom, until they are acquired by the City or other entity as provided in this Agreement. Such ownership by Developers shall likewise not be affected by any agreement which Developers may enter into with the City pursuant to the provisions of the Subdivision Map Act (Section 66410 et seq. of the California Government Code), which agreement may contain or include provisions with respect to the construction and ownership of Authorized Facilities which provisions may seem to be contradictory to the provision of this Agreement, in which case the provisions of this Section 10 shall control.

(d) Maintenance of Authorized Facilities. Until an Authorized Facility is acquired by the City or other public agency or utility, Developer shall maintain it, and shall keep the same free of any liens and in good operating condition. Upon the acceptance of an Offer of Dedication of an Authorized Facility by the City or other entity, the City or other entity shall, except as otherwise provided in the Project Approvals, become responsible for its maintenance, subject to the warranty period in Section 11(c).

(e) Dedication of Rights-of-Way. Notwithstanding the preceding provisions of this Section 10, the City will not acquire any Authorized Facilities, unless and until the street, drainage or other utility rights of way where they are located have been irrevocably offered to the City for dedication.

Section 11. IMPROVEMENT SECURITY.

(a) Security Prior to Final Maps. Notwithstanding the provisions of this Agreement, Developers shall be required to agree to construct and to secure the construction and completion of construction of the Authorized Facilities, or portions thereof, as a condition precedent to the approval of final subdivision or parcel maps for portions of Developers' Property as required by the City pursuant to Section 66462 and Sections 66499 through 66499.10 of the Government Code.

(b) Reduction in Amount of Improvement Bonds. The aggregate principal amount of the improvement bonds or other security provided by Developers pursuant to this Section 11 shall be reduced by such amount as the City shall reasonably determine is appropriate upon receipt of the proceeds derived from Developers' Property from the sale of the Bonds. The amount of the reduction of such aggregate principal amount shall be determined by the City based on the amount of each such improvement bond or other security which relates to the Authorized Facilities to be constructed or acquired with the Available Construction Proceeds

provided by the sale of the Bonds and Special Tax Revenues derived from Developers' Property.

(c) Performance Bonds-One Year Warranty. Developers warrant to the City or other public agency or utility having jurisdiction that the Authorized Facilities constructed by Developers and acquired by the City shall be free from defects in workmanship or materials for a period of one year from the date of acceptance by the City. All subdivision and performance bonds shall provide, among other things, that the principal thereof, whether that be Developers or its contractor(s), guarantees that the completed Authorized Facilities shall be free from defects resulting from faulty workmanship and materials for a period of one (1) year from the date of acceptance by the City or other public entity, and the obligation of the surety shall extend to the fulfilling of that guarantee. At the end of said one year period, and subject to certification from the City Engineer that any defects have been corrected, the obligation of the principal and surety named therein shall cease.

Section 12. GAP SHORTFALL.

(a) "Gap Shortfall" Defined. The parties anticipate that a shortfall will occur between: (i) the anticipated cost of the Authorized Facilities as determined from the actual construction and design contracts and related invoices therefor and the actual costs of all other Authorized Facilities, and (ii) the Available Construction Proceeds (hereafter referred to as the **"Gap Shortfall."**)

(b) Reimbursement of Gap Shortfall to Developers. To cover the Gap Shortfall, Developers agree with the City to: (1) waive their right to payment from the Bond proceeds for the portion of Authorized Facilities cost incurred by Developers equal to the actual Gap Shortfall, and (2) defer such payment until and to the extent the District can impose and collect annual special taxes in excess of the amounts required annually to pay required debt service, replenish the debt service reserve fund, cure bond delinquencies and pay City administration costs up to \$75,000 per year and subject to the escalation calculated as provided in the Rate & Method of Apportionment (**"Available Special Tax Revenues"**) as provided herein. In consideration of such deferral of payment of the Gap Shortfall, City shall levy the maximum rate on Developed Property and Final Map Property (as defined in the Rate and Method of Apportionment of Special Tax for the District), and annually pay, after September 1st of each year, to Developers from Available Special Tax Revenues payments towards such deferred Acquisition Price, for a period of ten (10) years (unless the Gap Shortfall is sooner paid in full) beginning with Available Special Tax Revenues from the special tax levy for the year _____ and ending with Available Special Tax Revenues from the special tax levy for the year _____. **[[[BLANKS TO BE COMPLETED WITH A 10-YEAR PERIOD STARTING NOT EARLIER THAN FIRST YEAR OF BOND LEVY AND ENDING NOT LATER THAN 2029-30]]]** (the "Gap Shortfall Period"). After the expiration of the Gap Shortfall Period, City may use Available Special Tax Revenues for any other purpose authorized for the District, as determined by the City in its sole discretion.

(c) Personal to Developer. Regardless of who pays the cost for any Authorized Facilities, the reimbursement of the Gap Shortfall hereunder shall be personal to Developer, shall not run with the land, and shall not be assigned by Developer without the written consent of the City, which shall not be unreasonably withheld.

Section 13. FAILURE TO COMPLETE CONSTRUCTION. Notwithstanding the preceding provisions of this Agreement, if Developers fail to expeditiously prosecute the

construction of any of the Authorized Facilities to be constructed by Developer for acquisition by the City, the City shall have the right and may elect to take over the construction of such Authorized Facilities, or any part thereof, if it determines it is necessary for it to so proceed in order to protect the City's interests as they relate to the City's obligations to the District.

(a) Notice from City. If the City elects to so proceed, it shall notify Developers in writing that if Developers do not satisfy the City that construction is proceeding expeditiously on the construction of the Authorized Facilities that City intends to take over within thirty (30) days after receipt of such notice, the City will take over the construction of the Authorized Facilities specified in such notice. If after receiving such a written notification Developers do not satisfy the City that Developers are proceeding expeditiously to construct that portion of the Authorized Facilities identified in the written notification to the satisfaction of the City, or if Developers elect not to construct the specified Authorized Facilities because the need for such construction is not then required by the conditions of development for the Property within the District, within thirty (30) days from the date of receipt thereof, Developers shall relinquish to the City all design documents, and shall cooperate with the City in every way to ensure that the construction of the Authorized Facilities specified in such notice may be taken over by the City and can be completed expeditiously.

(b) Funding for City Completion of Authorized Facilities. For any Authorized Facilities that are then required to be constructed pursuant to the conditions of development for, and the then status of development within, the Property within the District, the following sources of funds may be utilized by the City for the construction of any such Authorized Facilities being taken over by the City pursuant to the foregoing provisions: (i) the Available Construction Proceeds and any Available Special Tax Revenues, (ii) the proceeds of applicable City development fees collected pursuant to the applicable codes, ordinances and policies of the City, (iii) proceeds from the sale of the bonds of another community facilities district or assessment district established over and including property in the City, (iv) interest earnings on the reserve fund or improvement fund for the Bonds of the District, to the extent such earnings are determined by the City to be available for construction of the Authorized Facilities, (v) Developers' subdivision bond or bonds to the extent applicable, (vi) any other performance security that may have been provided by Developers, and (vii) Developers' and/or contractors' performance bonds that may have then been posted with respect to Authorized Facilities which have been commenced but not then completed. To the extent that such sources may be insufficient to pay for the construction of Authorized Facilities which will be constructed by the City pursuant to this Section and which are then required by the conditions of development for the Property within the District, Developers acknowledge that the City may elect to construct only those Authorized Facilities which can be constructed within the total of the amounts of the proceeds from the sale of the Bonds and such other funds which are available therefor, and that development within such Property may be delayed pending the completion of the balance of such required Authorized Facilities. Nothing contained herein and no take-over of construction of Authorized Facilities by the City shall relieve a Developer of any of its responsibilities under any development agreement or project approval relating to the Property.

Section 14. CONSTRUCTION OF JOINT COMMUNITY FACILITIES. The parties acknowledge that the City has entered or will enter into joint community facilities agreements pursuant to Section 53316.2 of the Act (each a "**Joint Community Facilities Agreement**") with Cordova Recreation and Park District, Sacramento County Water Agency (Zone 11A and Zone 40), Sacramento Area Sewer District and Sacramento County Regional Sanitation District (each, including any others, an "**Other Public Entity**"), with respect to the construction of certain Authorized Facilities to be financed by the District and acquired by such Other Public

Entities. In accordance with such Joint Community Facilities Agreements, City and Developer agree that the Authorized Facilities to be acquired by an Other Public Entity shall be designed in conformance with and constructed pursuant to all applicable City and Other Public Entity requirements and statutes (and/or County of Sacramento requirements and regulations, if the Facility is located in the County and such standards or regulations apply thereto) and in compliance with the applicable requirements of the Act. City and Developers further each agree to comply with any and all other requirements, and perform any and all other covenants, applicable to them under the Joint Community Facilities Agreements. The provisions of this Agreement with regard to the inspection, acceptance and acquisition of the Facilities to be acquired by an Other Public Entity and the payment of the Acquisition Price pursuant to each Payment Request therefor shall be additionally subject to the approval of the work that is the subject of such Payment Request and, as applicable, acceptance of such Facilities by the respective Other Public Entity, all in accordance with the terms of this Agreement and the applicable Joint Community Facilities Agreement.

Section 15. CONSTRUCTION OF OTHER FACILITIES. Developers shall also proceed expeditiously with the design and construction of the other improvements and facilities, required by the Project Approvals, other than the Authorized Facilities, which are necessary to the development of the Property. Such other public improvements and facilities shall be designed and constructed on a schedule which will not delay or interfere in any way with the design and construction of the Authorized Facilities. The provisions of this Section shall not supersede those of any other agreement between Developers and the City.

Section 16. INDEMNIFICATION; INSURANCE.

(a) Indemnity. Developers shall defend, indemnify and hold harmless the City, the District, and their officers, agents and employees from any and all liability, cost and expense in connection with the construction of the Authorized Facilities to be constructed by Developers for acquisition by the City, including, but not limited to, liability, costs, expense and claims arising under the procedures set forth in Section 6 of this Agreement. Developers shall also defend, indemnify and hold harmless the City, the District, and their officers, agents and employees from any and all liability, cost and expense in connection with the ownership of the Authorized Facilities to be constructed by Developers for acquisition by the City prior to the time the City accepts the Authorized Facilities, whether or not such Authorized Facilities are to be acquired with Bond proceeds. The indemnity obligations of Developers as set forth herein shall terminate upon the end of the warranty period provided for in section 11(c).

(b) General Liability Insurance. Developers shall procure and provide, until construction of all of the Authorized Facilities to be constructed by Developers are completed and acceptance thereof by the City has occurred, a broad form comprehensive general liability policy of insurance, in a form acceptable to the City, naming the City, the District and their officers, agents and employees as additional insureds, having a single aggregate liability limit as to all coverages provided thereby in the amount of \$2,000,000. Before commencing the construction of any Authorized Facility, Developers shall provide the City with a certification of insurance and endorsement as to such insurance, in a form acceptable to the City, and Developers shall upon each renewal of such insurance policy provide the City with a new certificate of insurance with respect thereto.

(c) Workers' Compensation Insurance. Developers shall also furnish to the City, prior to commencing the construction of any Authorized Facility to be constructed by Developers for acquisition by the City, a certificate of insurance evidencing that Developers

have procured and have in force a current policy of workers' compensation insurance in compliance with California law as to all workers to be employed by Developers in connection with the design and construction of the Authorized Facilities. Developers shall require each person, firm or corporation with whom they contract in connection with the design and construction of the Authorized Facilities to provide and maintain such workers' compensation insurance and a broad form comprehensive general liability insurance policy in the amount hereinabove specified and in a form acceptable to the City. Developers shall provide to the City proof, in such form and at such intervals as set forth below, that each contractor with whom they contract has procured and is maintaining such insurance.

(d) Contractor/Sub Contractor Insurance Coverage. Within thirty (30) days of the date of this Agreement, and thereafter, upon the execution of each contract with each person, firm or corporation with whom Developers contract in connection with the design and construction of the Authorized Facilities, and prior to permitting any such person, firm or corporation to commence, or continue, work under such contract, as applicable, Developers shall provide to the City a certificate from the insurance provider for each such contractor that the contractor has in force the insurance policies required of it under this Section 16, that the City is named as an additional insured on the broad form comprehensive general liability insurance policy of such contractor, and that the policies will not be canceled or allowed to lapse without thirty (30) days written notice to the City.

(e) Reimbursement for Insurance Premiums. The premiums paid by Developer for the insurance required by this Section 16 may be included in the Acquisition Price to be paid by the City for the Authorized Facilities to be constructed by Developers as an incidental cost.

Section 17. ADVANCES OF AUTHORIZED FEES. At any time that any Authorized Fees are due with respect to development of a Developer's Property and have not yet been paid, Developers may request that City pay such fee from Available Construction Proceeds, however acceptance of any Developers' request to pay or prepay Authorized Fees shall be subject to the reasonable discretion of the City after consultation with the Developers. Additionally, if Developers have previously paid Authorized Fees as a deposit pursuant to a City Fee Deposit and Reimbursement Agreement or other agreement providing for reimbursement of the Developers' deposit from Available Construction Proceeds, Developers may similarly request that City pay such fee from Available Construction Proceeds, however payment shall be subject to the terms of the City Deposit City Fee Deposit and Reimbursement Agreement or such other agreement. To facilitate the tracking and administration of such fee advances, the City may require that such request be submitted in a specific format. The City does not expect to allow the use of Bond proceeds to prepay any other fees unless such advance payment of fees serves a need of the City, as determined at the City's sole discretion.

In the event either Authorized Fees are paid or Authorized Facilities are funded from Available Construction Proceeds, Developers shall be entitled to fee credits, pursuant to City policies on fee credits, for Authorized Facilities that are acquired or constructed by the City and that are also included in the City's fee programs.

If an Authorized Facility or component thereof has been acquired from the Developers using Available Construction Proceeds, any reimbursement to the City for such item which comes from other revenue sources and which is otherwise payable to the Developers will be paid to the District and will be used first to pay for other Authorized Facilities and, thereafter, to reduce outstanding Bonds. Other revenue sources include, but are not limited to, fee revenues

paid for such Authorized Facility or component thereof by other development projects not owned by the Developers or direct reimbursements from other development projects. If only a portion of the Acquisition Price for an Authorized Facility is paid to Developers using Available Construction Proceeds, then any reimbursement for such Authorized Facility which comes from other revenue sources shall be paid first to Developers until the balance of the Acquisition Price is paid to Developers, and thereafter any additional reimbursement from other revenue sources shall be paid to the City as provided above.

City acquisition or construction of an Authorized Facility shall not prevent Developers from receiving refunds of fees paid by development within the District that would have been offset by fee credits, but for the timing of completion of the Authorized Facility. In particular, the City's fee credits policy requires 20% of the anticipated fee credits to be reserved until the improvement generating such fee credits are accepted and a final accounting is completed. If the 80% amount allowed to be taken as fee credits is exhausted prior to completion of an Authorized Facility, City policy provides that some or all of the 20% amount reserved for fee credits will be paid by the City as a fee reimbursement, instead of being taken as fee credits, to the extent development within the District continues and fees for such improvement are paid prior to such completion. Payment of the Acquisition Price for such Authorized Facility shall not prevent City from providing any such fee refunds pursuant to City policy.

Section 18. BINDING ON COMMUNITY FACILITIES DISTRICT. The District shall automatically become a party to this Agreement to the extent permitted by California law, and all provisions hereof which apply to the City shall so apply to the District. The City Council of the City, acting for the District, shall perform all parts of this Agreement which require performance on the part of the District.

Section 19. ASSIGNMENT. Developers may not assign this Agreement or any right or duty hereunder without the express written approval of the City. The City may condition any such approval on proof of the financial responsibility and experience of a proposed assignee to undertake and perform the duties and responsibilities of Developers under this Agreement. The City's approval of an assignment of this Agreement and the rights and duties of Developers hereunder shall not be unreasonably withheld or delayed.

Section 20. PROMPT ACTION. All consents, approvals and determinations required of either the City or Developers pursuant to this Agreement shall be promptly given or made, and shall not be unreasonably withheld.

Section 21. GENERAL. This Agreement contains the entire agreement between the parties with respect to the matters herein provided for, and may be amended by a subsequent written agreement signed on behalf of both parties. This Agreement is for the exclusive benefit of the parties and shall not be construed to confer any rights or benefits upon any persons other than the City and Developers. This Agreement shall, however, inure to the benefit of and be binding upon the successors and assigns of the parties. This Agreement shall be construed and governed by the Constitution and laws of the State of California. Should any party to this Agreement commence a court action or proceeding against any other party with respect to this Agreement or the design and acquisition or construction of the Authorized Facilities, the party prevailing in such action or proceeding shall be entitled to receive from the losing party its attorney's fees, expert witness' fees, court costs, and other costs incurred by it in prosecuting or defending such action or proceeding. The captions of the sections of this Agreement are provided for convenience only, and shall not have any bearing on the interpretation of any

section hereof. This Agreement may be executed in several counterparts, each of which shall be an original of the same Agreement.

Section 22. NOTICES. COMMUNITY FACILITIES DISTRICT NO. 2014-1 (MONTELENA)
COUNTY OF SACRAMENTO, STATE OF CALIFORNIA

Pursuant to the requirements of Section 3114.5 of the Streets and Highways Code and Section 53324 of the Government Code, the undersigned, City Clerk of the City of Rancho Cordova, hereby gives notice that a lien to secure payment of a special tax which the City Council of the City of Rancho Cordova, County of Sacramento, State of California is authorized to levy is hereby imposed. The special tax secured by this lien is authorized to be levied for the purpose of: paying for the facilities or services described in **Exhibit A** attached hereto including paying principal and interest on bonds, the proceeds of which are being used to finance those facilities, and including incidental expenses incurred and to be incurred in connection with the City of Rancho Cordova Community Facilities District No. 2014-1 (Montelena) and the issuance of bonds.

The special tax is authorized to be levied within the City of Rancho Cordova Community Facilities District No. 2014-1 (Montelena), which has now been officially formed and the lien of the special tax is a continuing lien which shall secure each annual levy of the special tax and which shall continue in force and effect until the special tax obligation is prepaid, permanently satisfied, and canceled in accordance with law, or until the special tax ceases to be levied and a notice of cessation of special tax is recorded in accordance with Section 53330.5 of the Government Code.

The rate, method of apportionment, and manner of collection of the authorized special tax is shown on **Exhibit B** attached hereto. Conditions under which the obligation to pay the special tax may be prepaid and permanently satisfied and the lien of the special tax canceled are as set forth in Section H of Exhibit B attached hereto.

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

Special Taxes applicable to each Assessor's Parcel in the City of Rancho Cordova Community Facilities District No. 2014-1 (Montelena) shall be levied and collected according to the tax liability determined by the City Council through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in the CFD, unless exempted by law or by the provisions of Section G below, shall be taxed for the purposes, to the extent, and in the manner herein provided.

"Administrative Expenses" means any or all of the following: the fees and expenses of any fiscal agent or trustee (including any fees or expenses of its counsel) employed in connection with any Bonds, and the expenses of the City in carrying out its duties with respect to the CFD and the Bonds, including, but not limited to, the levy and collection of Special Taxes, the fees and expenses of its counsel, charges levied by the County in connection with the levy and collection of Special Taxes, costs related to property owner inquiries regarding the Special Taxes, amounts needed to pay rebate to the federal government with respect to Bonds, costs associated with complying with continuing disclosure requirements with respect to the Bonds and the Special Taxes, and all other costs and expenses of the City and County in any way related to the establishment or administration of the CFD.

"Administrator" means the person or firm designated by the City to administer the Special Taxes according to this RMA.

“Annual Escalation Factor” means the annual percentage increase, if any, in the McGraw-Hill Engineering News Record Construction Cost Index (ENR CCI) for the San Francisco area from January of the previous year to January of the year in which the Special Tax is levied. In the event the ENR CCI is no longer reported, the City Manager or Finance Director shall select a similar index to replace it.

For Final Map Property, “Proportionately” means that the ratio of the actual Facilities Special Tax or actual Services Special Tax levied to the Maximum Facilities Special Tax or Maximum Services Special Tax is equal for all Assessor’s Parcels of Final Map Property. For Undeveloped Property, “Proportionately” means that the ratio of the actual Facilities Special Tax or actual Services Special Tax levied to the Maximum Facilities Special Tax or Maximum Services Special Tax is equal for all Assessor’s Parcels of Undeveloped Property.

the prior Fiscal Year. In any Fiscal Year, the Services Special Tax Requirement shall be reduced by surplus amounts available (as determined by the City) from the levy of the Services Special Tax in prior Fiscal Years, including revenues from the collection of delinquent Services Special Taxes and associated penalties and interest.

“**SFD Lot**” means an individual residential lot, identified and numbered on a recorded Final Map, on which a building permit has been or is permitted to be issued for construction of a single family detached unit without further subdivision of the lot and for which no further subdivision of the lot is anticipated pursuant to an approved tentative map.

“**Single Family Attached Property**” means, in any Fiscal Year, all Parcels of Developed Property for which a building permit or use permit was issued for construction of a residential structure consisting of two or more Units that share common walls, have separate Assessor’s Parcel numbers assigned to them (except for a duplex unit, which may share a Parcel with another duplex unit), and may be purchased by individual homebuyers (which shall still be the case even if the Units are purchased and subsequently offered for rent by the owner of the Unit), including such residential structures that meet the statutory definition of a condominium contained in Civil Code Section 1351.

“**Single Family Detached Property**” means, in any Fiscal Year, all Parcels of Developed Property for which a building permit was issued for construction of a Unit that does not share a common wall with another Unit.

“**Special Taxes**” means, collectively, the Facilities Special Tax and the Services Special Tax.

“**Taxable Non-Residential Property**” means any property within the CFD that, based on reference to Attachment 1, was expected to be Residential Property and instead becomes Non-Residential Property. Notwithstanding the foregoing, if the City determines that, at the time a Parcel is rezoned from residential to non-residential land uses, an equal amount of Acreage within the CFD is rezoned to Residential Property and is subject to the levy of Special Taxes, the Non-Residential Property can be deemed exempt from Special Taxes if the Administrator determines that there is no loss in Expected Maximum Facilities Special Tax Revenues from granting such exemption.

“**Taxable Property**” means all of the Assessor’s Parcels within the boundaries of the CFD which are not exempt from the Special Taxes pursuant to law or Section G below.

“**Taxable Public Property**” means any property within the CFD that, based on reference to Attachment 1, was expected to be Residential Property and instead becomes Public Property. Notwithstanding the foregoing, if the City determines that, in the Fiscal Year in which the Parcel would first be categorized as Taxable Public Property, an equal amount of Acreage within the CFD that was expected to be Public Property is rezoned to Residential Property and is subject to the levy of Special Taxes, the Parcel of Public Property can be deemed exempt from Special Taxes if the Administrator determines that there is no loss in Expected Maximum Facilities Special Tax Revenues from granting such exemption.

“**Trigger Event**” means, in any Fiscal Year, that, on or before June 30 of the prior Fiscal Year, the City made a finding that (i) all Bonds secured by the levy and collection of Facilities Special Taxes

in the CFD have been fully repaid, (ii) all Administrative Expenses have been paid or reimbursed to the City, and (iii) the Long-Term Maintenance Reserve has been fully funded. In the first Fiscal Year in which the Administrator finds that the Trigger Event occurred in the prior Fiscal Year, and in each Fiscal Year thereafter, the Facilities Special Tax shall cease to be levied, and the Services Special Tax determined for each Parcel pursuant to Section C.2 shall be levied as needed to pay the Services Special Tax Requirement.

“Undeveloped Property” means, in any Fiscal Year, all Parcels of Taxable Property that are not Developed Property or Final Map Property.

“Unit” means a single family detached unit or an individual unit within a duplex, triplex, halfplex, fourplex, condominium, townhome, live/work, or apartment structure. An Accessory Unit that shares a Parcel with a single-family detached unit shall not be considered a separate Unit for purposes of this RMA.

B. DATA FOR ADMINISTRATION OF SPECIAL TAXES

On or about July 1 of each Fiscal Year, the Administrator shall identify the current Assessor’s Parcel numbers for all Parcels of Developed Property, Final Map Property, and Undeveloped Property within the CFD. The Administrator shall also determine: (i) which Parcels of Developed Property are Residential Property and Non-Residential Property; (ii) by reference to the condominium plan, site plan, or other document, the number of Units on each Parcel of Single Family Attached Property and Multi-Family Property; (iii) whether the Trigger Event has occurred; and (iv) the Facilities Special Tax Requirement or, if the Trigger Event has occurred, the Services Special Tax Requirement for the Fiscal Year.

In any Fiscal Year, if it is determined that: (i) a parcel map for property in the CFD was recorded after January 1 of the prior Fiscal Year (or any other date after which the Assessor will not incorporate the newly-created parcels into the then current tax roll), (ii) because of the date the parcel map was recorded, the Assessor does not yet recognize the new parcels created by the parcel map, and (iii) a building permit was issued prior to June 30 of the prior Fiscal Year for development on one or more of the newly-created parcels, the Administrator shall calculate the Special Tax for Units within the subdivided area and levy such Special Tax on the master Parcel that was subdivided by recordation of the parcel map.

C. MAXIMUM SPECIAL TAXES

1. Facilities Special Tax

Table 1 below identifies the Maximum Facilities Special Tax for Parcels in the CFD, both before and after the Trigger Event subject to potential adjustments that may occur to the Maximum Facilities Special Tax pursuant to Section D below.

Table 2 below identifies the Maximum Services Special Tax for Parcels within the CFD, both before and after the Trigger Event.

TABLE 2

* On July 1, 2015 and on each July 1 thereafter, all figures shown in Table 2 above shall be increased by the Annual Escalation Factor.

D. ADJUSTMENTS TO THE MAXIMUM FACILITIES SPECIAL TAX

The Expected Maximum Facilities Special Tax Revenues were calculated based on the Expected Land Uses at CFD Formation. The Administrator shall review Final Maps, tentative map revisions, and other approvals and land use changes and compare the revised land uses to the Expected Land Uses to evaluate the impact on the Expected Maximum Facilities Special Tax Revenues.

If, prior to the Final Bond Sale, a change to the Expected Land Uses (a "Land Use Change") is proposed that will result in a reduction in the Expected Maximum Facilities Special Tax Revenues, no action will be needed pursuant to this Section D as long as the reduction does not reduce debt service coverage on outstanding Bonds below the amount committed to in the Bond documents. Upon approval of the Land Use Change, the Administrator shall update Attachment 2 to show the reduced Expected Maximum Facilities Special Tax Revenues, which amount shall be used to size the Final Bond Sale.

If a Land Use Change is proposed after the Final Bond Sale, the following steps shall be applied:

- Step 1:** By reference to Attachment 2 (which will be updated by the Administrator each time a Land Use Change has been processed according to this Section D), the

Administrator shall identify the Expected Maximum Facilities Special Tax Revenues;

Step 2: The Administrator shall calculate the Maximum Facilities Special Tax Revenues that could be collected from Taxable Property if the Land Use Change is approved;

Step 3: If the amount calculated in Step 2 is higher than that determined in Step 1, no further action is needed. If the revenues calculated in Step 2 are less than those calculated in Step 1, and if the landowner requesting the Land Use Change does not prepay the portion of the Expected Maximum Facilities Special Tax Revenues in an amount that corresponds to the lost revenue, then the Maximum Facilities Special Tax for each Parcel of Taxable Property in the area affected by the Land Use Change shall be increased proportionately until the Expected Maximum Facilities Special Tax Revenues for the area affected by the Land Use Change is the same as it was prior to the Land Use Change.

If multiple Land Use Changes are proposed simultaneously by a single land owner (which may include approval of multiple Final Maps at one time), the Administrator may consider the combined effect of all the Land Use Changes to determine if there is a reduction in Expected Maximum Facilities Special Tax Revenues. If there is a reduction, the Administrator shall increase the Maximum Facilities Special Tax proportionately in all of the Final Maps being proposed by the landowner until the aggregate amount that can be levied within the Final Maps is equal to the amount that could have been levied prior to the proposed Land Use Changes. If Land Use Changes are proposed simultaneously by multiple landowners, the Administrator shall consider the proposed Land Use Changes individually.

E. METHOD OF LEVY OF THE SPECIAL TAXES

1. *Facilities Special Tax*

Each Fiscal Year prior to the Trigger Event, the Administrator shall determine the Facilities Special Tax Requirement and levy the Facilities Special Tax on all Parcels of Taxable Property as follows:

Step 1: In all Fiscal Years through and including Fiscal Year 2029-30, the Maximum Facilities Special Tax shall be levied on all Parcels of Developed Property and Final Map Property. Any Facilities Special Tax proceeds collected that are not needed to pay debt service on the Bonds, replenish reserves, or pay Administrative Expenses shall be used to pay directly for Authorized Facilities.

After Fiscal Year 2029-30, the Facilities Special Tax shall be levied Proportionately on each Parcel of Developed Property, other than Taxable Public Property, up to 100% of the Maximum Facilities Special Tax for each Parcel until the amount levied on Developed Property is equal to the Facilities Special Tax Requirement;

- Step 2:** After Fiscal Year 2029-30, if additional revenue is needed after Step 1 to pay the Facilities Special Tax Requirement, the Facilities Special Tax shall be levied Proportionately on each Parcel of Final Map Property up to 100% of the Maximum Facilities Special Tax;
- Step 3:** In any Fiscal Year, if additional revenue is needed after Step 2 to pay the Facilities Special Tax Requirement, the Facilities Special Tax shall be levied Proportionately on each Parcel of Undeveloped Property up to 100% of the Maximum Facilities Special Tax;
- Step 4:** In any Fiscal Year, if additional revenue is needed after Step 3 to pay the Facilities Special Tax Requirement, the Facilities Special Tax shall be levied Proportionately on each Parcel of Taxable Public Property, up to 100% of the Maximum Facilities Special Tax.

2. Services Special Tax

Each Fiscal Year after the Trigger Event, the Administrator shall determine the Services Special Tax Requirement and levy the Services Special Tax on all Parcels of Taxable Property as follows:

- Step 1:** The Services Special Tax shall be levied Proportionately on each Parcel of Developed Property, other than Taxable Public Property, up to 100% of the Maximum Services Special Tax for each Parcel until the amount levied on Developed Property is equal to the Services Special Tax Requirement;
- Step 2:** If additional revenue is needed after Step 1 to pay the Services Special Tax Requirement, the Services Special Tax shall be levied Proportionately on each Parcel of Final Map Property, up to 100% of the Maximum Services Special Tax;
- Step 3:** If additional revenue is needed after Step 2 to pay the Services Special Tax Requirement, the Services Special Tax shall be levied Proportionately on each Parcel of Undeveloped Property, up to 100% of the Maximum Services Special Tax;
- Step 4:** If additional revenue is needed after Step 3 to pay the Services Special Tax Requirement, the Services Special Tax shall be levied Proportionately on each Parcel of Taxable Public Property, up to 100% of the Maximum Services Special Tax.

F. MANNER OF COLLECTION OF SPECIAL TAXES

The Special Taxes shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that the City may directly bill, collect at a different time

or in a different manner, and/or collect delinquent Special Taxes through foreclosure or other available methods.

The Facilities Special Tax shall be levied until the first Fiscal Year after the Fiscal Year in which the Trigger Event has occurred; however, in no event shall Facilities Special Taxes be levied after Fiscal Year 2065-66. Under no circumstances may the Facilities Special Tax on a Parcel in residential use be increased in any Fiscal Year as a consequence of delinquency or default in payment of the Facilities Special Tax levied on another Parcel or Parcels by more than ten percent (10%) above the amount that would have been levied in that Fiscal Year had there never been any such delinquencies or defaults. The Services Special Tax may be levied and collected in perpetuity.

G. EXEMPTIONS

Notwithstanding any other provision of this RMA, no Special Taxes shall be levied on the following: (i) Public Property, except Taxable Public Property, (ii) Non-Residential Property, except Taxable Non-Residential Property, (iii) Parcels that are designated as permanent open space or common space on which no structure is permitted to be constructed, (iv) Parcels owned by a public utility for an unmanned facility, or (v) Parcels subject to an easement that precludes any use on the Parcel other than that permitted by the easement. In addition, no Facilities Special Tax shall be levied on any Parcel that has fully prepaid the Facilities Special Tax obligation assigned to the Parcel, as determined pursuant to the formula set forth in Section H below. Notwithstanding the foregoing, if a Facilities Special Tax has been levied on a Parcel in any Fiscal Year, and the Parcel subsequently meets the criteria for any of the exempted categories above, the Parcel shall remain subject to the Facilities Special Tax levy unless and until a prepayment is made to release the Parcel from its Facilities Special Tax obligation. If, in any Fiscal Year, a Parcel of Public Property is converted to private use, such Parcel shall be subject to the levy of Special Taxes.

H. PREPAYMENT OF FACILITIES SPECIAL TAX

The following definitions apply to this Section H:

“**Construction Fund**” means the account (regardless of its name) identified in the Indenture to hold funds which are available to acquire or construct Authorized Facilities.

“**Outstanding Bonds**” means all Previously Issued Bonds which remain outstanding, with the following exception: if a Facilities Special Tax has been levied against, or already paid by, an Assessor’s Parcel making a prepayment, and a portion of the Facilities Special Tax will be used to pay a portion of the next principal payment on the Bonds that remain outstanding (as determined by the Administrator), that next principal payment shall be subtracted from the total Bond principal that remains outstanding, and the difference shall be used as the amount of Outstanding Bonds for purposes of this prepayment formula.

“**Previously Issued Bonds**” means all Bonds that have been issued prior to the date of prepayment.

“Public Facilities Requirements” means \$12,000,000, or such other number as shall be determined by the City to be an appropriate estimate of the net construction proceeds that will be generated from all Bonds that have been or are expected to be issued on behalf of the CFD.

“Remaining Facilities Costs” means the Public Facilities Requirements (as defined above), minus public facility costs funded by Previously Issued Bonds (as defined above), developer equity, or any other source of funding.

1. *Full Prepayment*

The Facilities Special Tax obligation applicable to a Parcel in the CFD may be fully prepaid and the obligation of the Parcel to pay the Facilities Special Tax permanently satisfied as described herein, provided that a prepayment may be made only if there are no delinquent Special Taxes with respect to such Parcel at the time of prepayment. The Services Special Tax obligation may not be prepaid. An owner of a Parcel intending to prepay the Facilities Special Tax obligation shall provide the City with written notice of intent to prepay. Within 30 days of receipt of such written notice, the City or its designee shall notify such owner of the prepayment amount for such Parcel. Prepayment must be made not less than 50 days prior to any redemption date for Bonds to be redeemed with the proceeds of such prepaid Facilities Special Taxes.

The Prepayment Amount shall be calculated as follows (capitalized terms as defined below):

	Bond Redemption Amount
plus	Remaining Facilities Amount
plus	Redemption Premium
plus	Defeasance Requirement
plus	Administrative Fees and Expenses
less	<u>Reserve Fund Credit</u>
equals	Prepayment Amount

As of the proposed date of prepayment, the Prepayment Amount shall be determined by application of the following steps:

- Step 1. Determine the total Maximum Facilities Special Tax that could be collected from the Parcel prepaying the Facilities Special Tax in the Fiscal Year in which prepayment would be received by the City.
- Step 2. Divide the Maximum Facilities Special Tax computed pursuant to Step 1 by the Expected Maximum Facilities Special Tax Revenues for the Fiscal Year in which prepayment would be received by the City.
- Step 3. Multiply the quotient computed pursuant to Step 2 by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (*the “Bond Redemption Amount”*).

- Step 4. Compute the current Remaining Facilities Costs (if any).
- Step 5. Multiply the quotient computed pursuant to Step 2 by the amount determined pursuant to Step 4 to compute the amount of Remaining Facilities Costs to be prepaid (*the "Remaining Facilities Amount"*).
- Step 6. Multiply the Bond Redemption Amount computed pursuant to Step 3 by the applicable redemption premium, if any, on the Outstanding Bonds to be redeemed (*the "Redemption Premium"*).
- Step 7. Compute the amount needed to pay interest on the Bond Redemption Amount starting with the last Bond interest payment date on which interest has been or will be paid by Facilities Special Taxes already levied until the earliest redemption date for the Outstanding Bonds.
- Step 8: Compute the amount of interest the City reasonably expects to derive from reinvestment of the Bond Redemption Amount plus the Redemption Premium from the first Bond interest payment date after which the prepayment has been received until the redemption date for the Outstanding Bonds.
- Step 9: Take the amount computed pursuant to Step 7 and subtract the amount computed pursuant to Step 8 (*the "Defeasance Requirement"*).
- Step 10. Determine the costs of computing the prepayment amount, redeeming Bonds, and recording any notices to evidence the prepayment and redemption (*the "Administrative Fees and Expenses"*).
- Step 11. If and to the extent so provided in the Indenture, a reserve fund credit shall be calculated as a reduction in the applicable reserve fund for the Outstanding Bonds to be redeemed pursuant to the prepayment (*the "Reserve Fund Credit"*).
- Step 12. The Facilities Special Tax prepayment is equal to the sum of the amounts computed pursuant to Steps 3, 5, 6, 9, and 10, less the amount computed pursuant to Step 11 (*the "Prepayment Amount"*).
- Step 13. From the Prepayment Amount, the amounts computed pursuant to Steps 3, 6, and 9 shall be deposited into the appropriate fund as established under the Indenture and be used to retire Outstanding Bonds or make debt service payments. The amount computed pursuant to Step 5 shall be deposited into the Construction Fund. The amount computed pursuant to Step 10 shall be retained in the account or fund that is established to pay Administrative Expenses.

Once a full prepayment of a Parcel's Facilities Special Tax obligation has been received, a Notice of Cancellation of Special Tax Lien shall be recorded against the Parcel to reflect the discharge of the Parcel's obligation to pay the Facilities Special Tax. However, a Notice of Cancellation of Special Tax Lien shall not be recorded until all Facilities Special Taxes levied on the Parcel in the current or prior Fiscal Years have been collected. The prepayment of a Facilities Special Tax shall not affect the perpetual obligation to pay the Services Special Tax.

2. *Partial Prepayment*

A partial prepayment may be made in an amount equal to any percentage of full prepayment desired by the party making a partial prepayment, except that the full amount of Administrative Fees and Expenses determined in Step 10 shall be included in the partial prepayment. The Maximum Facilities Special Tax that can be levied on a Parcel after a partial prepayment is made shall be determined as follows:

- Step 1. Calculate the full prepayment (not including the amount collected for Administrative Fees and Expenses) that would be due from the Parcel if the entire Special Tax obligation were being prepaid pursuant to Section H.1 above.
- Step 2. Divide the partial prepayment amount for the Parcel (not including the amount collected for Administrative Fees and Expenses) by the amount computed in Step 1 to determine a percentage.
- Step 3. Subtract the percentage computed in Step 2 from 100% to determine the "Remaining Percentage."
- Step 4. Multiply the Remaining Percentage from Step 3 by the Maximum Facilities Special Tax for the Parcel to determine the new Maximum Facilities Special Tax that will be in effect for the Parcel after the partial prepayment is applied.

I. INTERPRETATION OF SPECIAL TAX FORMULA

Interpretations of the RMA may be made and applied by City staff administering the CFD for purposes of interpreting the RMA to apply the Special Taxes consistently among land classifications or to actual land uses upon development in a manner fair and consistent with other land uses, or to clarify any vagueness or ambiguity as it relates to the Special Tax rates, method of apportionment, technicalities, classification of properties or any definition applicable to the CFD. Such interpretations shall be delivered to the Administrator in a written communication.

CFD BOUNDARY MAP

MEMORANDUM

DATE: June 2, 2014

TO: Honorable Mayor and Council Members

FROM: Cyrus Abhar, Public Works Director
Elizabeth Sparkman, Senior Engineer

SUBJECT: ACTION ITEMS RELATED TO THE FORMATION OF THE CITY OF RANCHO CORDOVA COMMUNITY FACILITIES DISTRICT NO. 2014-2 (STREET, LIGHTING AND LANDSCAPING MAINTENANCE)

RECOMMENDATION

Staff recommends Council adopt the following resolutions:

1. Resolution of formation of community facilities district and to levy a special tax in Community Facilities District No. 2014-2 (Street, Lighting and Landscaping Maintenance). (Resolution No. 40-2014)
2. Resolution calling for a special election in Community Facilities District No. 2014-2 (Street, Lighting and Landscaping Maintenance). (Resolution No. 41-2014).
3. Resolution declaring election results of Community Facilities District No. 2014-2 (Street, Lighting and Landscaping Maintenance). (Resolution No. 42-2014).
4. Waive first reading and introduce Ordinance No. 15-2014 levying a special tax within Community Facilities District No. 2014-2 (Street, Lighting and Landscaping Maintenance).

RESULT OF RECOMMENDED ACTIONS

Action on these items will complete the formation of the CFD, authorize a landowner vote which if successfully passed authorizes the levy of a special tax on the Montelena project included in the CFD. The special tax levy is for the purpose of paying for the public services to maintain public infrastructure necessary or incident to development in the CFD. The actions also result in the establishment of a future annexation area which allows the processing of future annexations in an efficient manner. There is no financial impact to existing residents.

BACKGROUND

The Council approved projects in the City, including the Montelena project, that have a condition of approval which requires that the property owner annex to a new District to be formed by the City of Rancho Cordova to fund operation and maintenance of streets, street lights and landscaping improvements within the public right of way. This condition will be satisfied by the formation of and participation in a CFD for public streets, lighting and landscaping maintenance which is the subject of tonight's action.

The property owner of the Montelena project has requested the City form a community facilities district pursuant to the Mello-Roos Community Facilities Act of 1982 (State of California

Government Code Section 53311 et seq.) to provide the method of financing for public streets, lighting and landscaping maintenance required to meet the condition.

At the meeting on April 21, 2014, the City initiated the process of forming a Community Facilities District (CFD) and Future Annexation Area for street, lighting and landscaping maintenance services in the new development area and will initially include the Montelena project, but can expand in the future as other projects in the new development area in need of public maintenance will annex to the district. The maintenance services to be funded by special taxes include the furnishing of services and materials for the ordinary and usual operation, maintenance, and servicing of the public streets, lighting and landscaping improvements. The Rate and Method of Apportionment (RMA) of Special Tax for CFD No. 2014-2, **Exhibit B of Attachment 1**, details how the special tax will be levied on properties commencing with Fiscal Year 2014/2015. The RMA establishes maximum taxes for ordinary use parcels based on land use classifications based upon fair share contributions towards the costs to maintain the public streets, lighting and landscaping services in the City. The maximum special rates for Fiscal Year 2014/2015 for ordinary use parcels in the RMA are summarized in Table 1 on the following page.

DISCUSSION

The Resolution of Intention adopted by the City Council on April 21, 2014 set June 2, 2014 at 5:30 pm, or as soon thereafter as the matter may be heard, for the public hearing on the actual formation of the District and the levy of the special tax. The documents attached to this report will complete the formation and levy the special tax.

Included in this package as "Item 5a" is a guide for the Mayor to use to facilitate the required public hearing and landowner vote process. Consult this document for an agenda to be followed to conduct the hearing and for the adoption of the items needed to complete the formation of the CFD and to hold the election

Attachment 2, Resolution No. 41-2014 – A Resolution of the City Council of the City of Rancho Cordova Calling Special Election. This sets the election for the same (June 2, 2014) Council meeting (allowable due to waivers of time requirements received from the property owners) and provides the form of the special ballot to be used by the landowner-voter.

Attachment 3, Resolution No. 42-2014 – A Resolution of the City Council of the City of Rancho Cordova Declaring Results of Special Election and Directing Recording of Notice of Special Tax Lien. This is for adoption by the Council after the vote is announced by the City Clerk. It confirms the outcome of the property owner election for the CFD. Attached to it is a copy of the official Canvass and Statement of Result of Election to be completed by the Clerk after the vote is announced. This resolution also directs the filing of the Notice of Special Tax Lien against the lands in the CFD to allow collection of the special tax on each property.

Attachment 4, Ordinance No. 15-2014 - An Ordinance of the City Council of the City of Rancho Cordova Levying Special Taxes Within Community Facilities District No. 2014-2 (Street, Lighting and Landscaping Maintenance). Under the law, the Council must levy the special taxes by an ordinance. Under this ordinance, the levy is made once by the adoption of this ordinance, and, in each year hereafter, the process of determining the special taxes and processing the collection is done by the Director of Finance (or a consultant) and no further Council action is needed.

Attachment 5.a., Order of Proceedings for Hearing, Vote and Actions. This is the agenda to be followed to conduct the hearing and for the adoption of the items needed to complete the formation of the CFD, to hold the election and to take the final actions for the special tax.

Attachment 5.b., Certificate of City Clerk Regarding Waiver (of Certain Election Requirements) and Consent. This is to be completed by the City Clerk for the City's record in connection with the ballot/election procedure and acknowledges receipt of waivers from the property owners.

Attachment 5c., Certificate of City Clerk Regarding Election Results. This is to be completed by the City Clerk for the City's record in connection with the opening of ballots and announcement of results.

Attachment 5d., CFD Report. This is the special tax report that shows the services to be provided by the CFD. The report was directed to be prepared by the Resolution of Intention to Establish the CFD and Future Annexation Area. It shows the estimated costs of the services and to administer the CFD. A copy of this report should be filed with the City Clerk as part of the proceedings.

The proposed rate and method of apportionment of the Special Tax among the parcels of real property within the CFD, in sufficient detail to allow each landowner within the proposed CFD to estimate the maximum amount such owner will have to pay, are shown in **Exhibit B** attached hereto and hereby incorporated herein.

c. Territory in the Future Annexation Area will be annexed into the CFD and a special tax will be levied on such territory only with the Unanimous Approval of the owner or owners of each parcel or parcels at the time that parcel or those parcels are annexed into the CFD. Except to the extent that funds are otherwise available to the CFD to pay for the Services, a special tax sufficient to pay the costs thereof, secured by the recordation of a continuing lien against all non-exempt real property in the Future Annexation Area, is intended to be levied annually within the Future Annexation Area, and collected in the same manner as ordinary *ad valorem* property taxes or in such other manner as may be prescribed by this City Council. As required by Section 53339.3(d) of the Act, the City Council hereby determines that the special tax proposed to pay for one or more Services to be supplied within the Future Annexation Area will be equal to the special taxes levied to pay for the same Services in the original area of the CFD.

ATTACHMENT 1

10. Tax Lien. Upon recordation of a notice of special tax lien pursuant to Section 3114.5 of the California Streets and Highways Code, a continuing lien to secure each levy of the Special Tax shall attach to all nonexempt real property in the CFD and this lien shall continue in force and effect until the Special Tax obligation is prepaid and permanently satisfied and the lien canceled in accordance with law or until collection of the Special Tax by the City ceases.

11. Appropriations Limit. In accordance with the Act, the annual appropriations limit, as defined by subdivision (h) of Section 8 of Article XIII B of the California Constitution, of the CFD is hereby preliminarily established at \$15,000,000 and such appropriations limit shall be submitted to the voters of the CFD as hereafter provided. RESOLUTION NO. 41-2014

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF RANCHO CORDOVA
CALLING SPECIAL LANDOWNER ELECTIONCITY OF RANCHO CORDOVA
Community Facilities District No. 2014-2
(Street, Lighting and Landscaping Maintenance)

RESOLVED, by the City Council (the "Council") of the City of Rancho Cordova (the "City"), County of Sacramento, State of California as follows:

WHEREAS, this Council has adopted a resolution entitled "A Resolution of the City Council of the City of Rancho Cordova of Formation of Community Facilities District, (the "Resolution of Formation"), ordering the formation of City's Community Facilities District No. 2014-2 (Street, Lighting and Landscaping Maintenance) (the "CFD") and future annexation area, defining the public services (the "Services") to be provided by the CFD, authorizing the levy of a special tax on property within the CFD and preliminarily establishing an appropriations limit for the CFD, all pursuant to the Mello-Roos Community Facilities Act of 1982, Chapter 2.5 of Part 1 of Division 2 of Title 5, commencing with Section 53311, of the California Government Code (the "Act"); and

WHEREAS, pursuant to the provisions of the Resolution of Formation, the propositions of the levy of the special tax and the establishment of the appropriations limit shall be submitted to the qualified electors of the CFD as required by the provisions of the Act.

NOW THEREFORE, IT IS HEREBY ORDERED as follows:

1. **Issues Submitted.** Pursuant to the Act, the issues of the levy of the special tax and the establishment of the appropriations limit shall be submitted to the qualified electors (as defined below) of the CFD at an election called therefore as provided below.

2. **Qualified Electors.** This Council hereby finds that fewer than 12 persons have been registered to vote within the territory of the CFD for each of the ninety (90) days preceding the close of the public hearings heretofore conducted and concluded by this Council for the purposes of these proceedings. Accordingly, and pursuant to Section 53326 of the Act, this Council finds that, for these proceedings, the qualified electors are the landowners within the CFD and that the vote shall be by such landowners or their authorized representatives, each having one vote for each acre or portion thereof such landowner owns in the CFD as of the close of the public hearing.

3. **Conduct of Election.** This Council hereby calls a special election to consider the issues described in section 2, above, which election shall be held on June 2, 2014, and the results thereof canvassed at the meeting of this Council on June 2, 2014. The City Clerk is hereby designated as the official to conduct the election and to receive all ballots until the close of business on the election date. It is hereby acknowledged that the Clerk has on file the Resolution of Formation, a map of the boundaries of the CFD and Future Annexation Area, and a sufficient description to allow the Clerk to determine the electors of the CFD. Pursuant to Section 53327 of the Act, the election shall be conducted by messenger or mail-delivered ballot pursuant to Section 4000 of the California Elections Code. This Council hereby finds that paragraphs (a), (b) and (c) (1) of Section 4000 are applicable to this special election.

4. **Ballot.** As authorized by Section 53353.5 of the Act, the issues described in Section 1 above shall be combined into a single ballot measure, the form of which as attached hereto as Exhibit "A" is hereby approved. The City Clerk is hereby authorized and directed to cause a ballot, in substantially the form of Exhibit "A", to be delivered to each of the qualified electors of the CFD. Each ballot shall indicate the number of votes to be voted by the respective landowner to which the ballot pertains. Each ballot shall be accompanied by all

supplies and written instructions necessary for the use and return of the ballot. The envelope to be used to return the ballot shall be enclosed with the ballot, have the return postage prepaid, and contain the following: (a) the name and address of the landowner, (b) a declaration, under penalty of perjury, stating that the voter is the owner of record or authorized representative of the landowner entitled to vote and is the person whose name appears on the envelope, (c) the printed name, signature and address of the voter, (d) the date of signing and place of execution of the declaration pursuant to clause (b) above, and (e) a notice that the envelope contains an official ballot.

5. **Waivers.** This Council hereby further finds that the provisions of Section 53326 of the Act requiring a minimum of 90 days following the adoption of the Resolution of Formation to elapse before the special election are for the protection of the qualified electors of the CFD. There is on file with the Clerk a written waiver executed by all of the qualified electors of the CFD allowing for a shortening of the time for the special election to expedite the process of formation of the CFD and waiving any requirement for notice, analysis and arguments in connection with the election. Accordingly, this Council finds and determines that the qualified electors have been fully apprised of and have agreed to the shortened time for the election and waiver of analysis and arguments, and have thereby been fully protected in these proceedings. This Council also finds and determines that the City Clerk has concurred in the shortened time for the election. Analysis and arguments with respect to the ballot measures are hereby waived, as provided in Section 53327 of the Act.

6. **Accountability.** Under Section 50075.1 of the Government Code, the following accountability provisions shall apply to the special taxes: (a) the providing of services in addition to those presently provided within the CFD, all as defined in the Resolution of Formation, shall constitute the specific single purpose; (b) the proceeds shall be applied only to the specific purposes identified in (a) above; (c) there shall be created special account(s) or funds(s) into which the proceeds shall be deposited; and (d) there shall be caused to be prepared an annual report if required by Section 50075.3 of the Government Code.

The cost estimates above, in conjunction with trip generation rates, were used to determine the CFD special tax rates that would generate the required revenue to cover the annual maintenance cost.

By applying the various land uses within Montelana to the trip generation rates, the total number of trips generated by Montelana was determined. The annual costs were then divided by the number of trips. This cost per trip was then applied to the trips generated by the various land uses and the following special tax rates were derived

B. DATA COLLECTION FOR ANNUAL TAX LEVY

Each Fiscal Year, the Administrator shall identify the current Assessor's Parcel number for all Parcels of Taxable Property within CFD No. 2014-2 and shall determine within which Tax Zone each Assessor's Parcel is located. Upon each annexation of property into CFD No. 2014-2, the

EXHIBIT "A"

COMMUNITY FACILITIES DISTRICT REPORT

Administrator shall update Attachment 1 to include the new Assessor's Parcel number(s). In addition, for all Parcels of Developed Property, if applicable to the Tax Zone in which the Parcels are located, the Administrator shall determine if each Parcel is an Ordinary Use Parcel, an Additional Load Parcel, a Residential Alley Parcel, a Decorative Lighting Parcel, an Additional Load and Decorative Lighting Parcel, or a Residential Alley and Decorative Lighting Parcel.

Based on review of building permit records for property within the CFD, the Administrator shall determine which Parcels in the CFD are Developed Property for purposes of levying the Special Tax pursuant to Section D below. For Single Family Attached Property, Multi-Family Property, and Hotel Property, the number of Units shall be determined by referencing the condominium plan, apartment plan, site plan or other development plan for the property. For Residential Property, the Administrator shall determine the Square Footage of each Unit. For Non-Residential Property, the Administrator shall determine the Acreage of, and Square Footage on, each Parcel.

If a Parcel in the CFD is rezoned prior to such Parcel becoming Developed Property, the City may in its sole discretion, move the Parcel to a different Tax Zone based on the rezone. If a Parcel rezones after the Parcel has been taxed as Developed Property in prior Fiscal Years, the City can either continue to apply the Maximum Special Tax to the Parcel that had applied prior to the rezone or, in the City's sole discretion, allow for the Parcel to be moved to a different Tax Zone based on the rezone.

In any Fiscal Year, if it is determined that (i) a parcel map for a portion of property in CFD No. 2014-2 was recorded after January 1 of the prior Fiscal Year (or any other date after which the Assessor will not incorporate the newly-created Parcels into the then current tax roll), (ii) because of the date the parcel map was recorded, the Assessor does not yet recognize the new Parcels created by the parcel map, and (iii) one or more of the newly-created Parcels meets the definition of Developed Property, the Administrator shall calculate the Special Tax for the property affected by recordation of the parcel map by determining the Special Tax that applies separately to each newly-created Parcel, then applying the sum of the individual Special Taxes to the Parcel that was subdivided by recordation of the parcel map.

C. MAXIMUM SPECIAL TAX

MEMORANDUM

DATE: June 2, 2014

TO: Honorable Mayor and Council Members

FROM: Stephanie Snyder, City Manager's Office

SUBJECT: FIRST ANNUAL UPDATE ON BIG BROTHERS BIG SISTERS GRANT AGREEMENT

RECOMMENDATION

Accept informational report on the status of this two year program, and approve in concept modification of benchmarks going forward to reflect delay in starting the program that was subsequently exacerbated by several challenges.

RESULT OF RECOMMENDED ACTION

City Manager will adjust the current grant agreement (Contract No. 103-2013) to reflect City Council's desires to allow program in progress to continue and ramp up to a realistic conclusion at the end of FY 2014-15.

BACKGROUND

The FY 2013-15 Adopted Budget includes two years' seed funding for a program with the Big Brothers Big Sisters of Greater Sacramento (BBBS)-- \$40,000 for year one (FY 2013-14) and \$30,000 for year two (\$30,000). This funding was allocated based on the City Council's expressed desires to support a partnership between the City and BBBS that would deliver onsite mentoring services at four Rancho Cordova elementary schools. The City contribution is one half of the funds required for working towards originally expected outcomes, and the City required BBBS to bring in matching funds from area businesses. The overarching interest expressed by the Council had been to facilitate the investment of area businesses in a way that would positively impact the lives of children attending Rancho Cordova schools—investment of both financial resources and the volunteer work force needed to complete the cycle. BBBS has a proven track record in providing such services and programs in partnership with local schools in the Sacramento region.

Based on Council's desires and feedback from BBBS on reasonable outcomes, City staff executed a grant agreement effective August 1, 2013 that required matching funds as a milestone for releasing quarterly payments. The agreement also listed benchmarks for the number of children and volunteers expected as outcomes of the program for each year, and required BBBS to make a verbal progress report annually. The purpose of this staff report is to provide an opportunity for the required verbal report, and to highlight challenges encountered this past year that necessitate an adjustment of expected outcomes in order to continue the project to completion.

During the year, BBBS has met the required quarterly benchmarks of matching funds, having raised \$37,000 to date (compared to the \$30,000 in grant funds received and required as a match.) These funds are available for the four participating (or expected to participate) elementary schools—three in Folsom Cordova Unified School District (Rancho Cordova, White Rick and Williamson) and one in Sacramento City Unified School District (Abraham Lincoln).

In addition to \$3,000 in matching funds still needed, the last quarter of year one (ending June 30, 2014) also has benchmarks referring to the total number of volunteers recruited and trained per site, as well as the total number of youth completely matched. A significant delay in getting the program underway in all schools, as well as other challenges throughout the year, has seriously compromised BBBS's ability to achieve these benchmarks by the close of this fiscal year. The end result of having a student matched to a volunteer, completely processed and being mentored, has several parts to the process that were not originally considered when the grant agreement was executed. The added delay now caused by having reached the end of the school year is also a slowdown to the headway BBBS has just started to make.

Rhonda Staley-Brooks, Executive Director of BBBS will present the first verbal report of the grant, explaining the complexities of the different phases of the cycle, the challenges encountered during the year, and what can be expected next. At the conclusion of the Council's discussion about the program, staff seeks recognition to continue the grant into the second year. If so desired, staff will make appropriate adjustments to the grant agreement in order to facilitate the successful completion of the program in FY 2014-15 and the next verbal report will take place in May or June 2015.
