MEMORANDUM

ITEM 9.2.

DATE: May 19, 2025

TO: Honorable Mayor and Council Members

FROM: Albert Stricker, Public Works Director
Dalia Fadl, Assistant Public Works Director

SUBJECT: **RESOLUTIONS INITIATING PROCEEDINGS FOR THE ANNUAL LEVY AND COLLECTION OF ASSESSMENTS FOR THE RANCHO CORDOVA LIGHTING DISTRICT NO. 2012-1 FOR FISCAL YEAR 2025-2026**

RECOMMENDATION

Adopt the Resolution initiating proceedings for the Annual Levy and Collection of Assessments for the Rancho Cordova Lighting District No. 2012-for Fiscal Year 2025-2026; and adopt the Resolution preliminarily approving the Engineer's Annual Levy Report and declaring its intention to levy and collect annual assessments for the Rancho Cordova Lighting District No. 2012-1 for Fiscal Year 2025-2026.

RESULT OF RECOMMENDED ACTION

The recommended actions are required as part of the process to continue the annual levy and collection of assessments in the District. The assessments fund the maintenance of street lights and safety lights in the District. There are no new impacts to existing or new residents. No assessments shall increase as a result of this action.

BACKGROUND

State law requires the City Council direct an Engineer's Report to be prepared each year and to hold a public hearing on the Report and the levy of the annual assessment. The Resolution initiating proceedings, Attachment 1, directs Francisco and Associates, Inc. to prepare and file the Engineer's Report.

In anticipation of this resolution, the Engineer's Report has been prepared and is on file with the City Clerk. The Engineer's Report, Exhibit A to the Resolution preliminarily approving the report and declaring the intention to levy and collect assessments, Attachment 3, includes a diagram of the assessment area, a description of the improvements and the operation and maintenance to be provided, a description of the property to be benefited, and the amount of the assessment to each individual property. The services performed within and funded by the District include on-going maintenance, operation and servicing of street lights and safety lights within the right-of-ways and other public areas within the District as described in the Engineer's Report.

The proposed Fiscal Year 2025-2026 assessment rates are equal to the rates previously levied

by the city in Fiscal Year 2024-2025.

The Fiscal Year 2025-2026 total assessment is estimated at **$363,832**. The District has established an Operating Reserve which provides funding for the operations and maintenance of the District Improvements, as well as providing financing for emergency expenditures. A Capital Projects Reserve has been established to fund replacements and upgrades of the District Improvements.

In September 2014, the City of Rancho Cordova completed the retrofit of all existing street lights located within the Rancho Cordova Lighting District (RCLD) with new LED street lights. The project was funded from a 1% interest loan from the California Energy Commission (CEC). This project has significantly reduced electricity and maintenance needs. The electrical and maintenance savings will be used to pay back the loan from the energy commission. Once the CEC loan is paid off in Fiscal Year 2028, the District is projected to generate sufficient revenues to build a reserve to cover the costs of the replacement of the LED street light heads when they need to be replaced in 20 years.

In order to proceed with the levy of assessments after consideration and approval of the Engineer's Report, it is appropriate for the Council to adopt the Resolution, Attachment 2, which declares the Council's intention to levy assessments for Fiscal Year 2025-2026. It also sets Monday, June 2, 2025 at 5:30 p.m., or as soon thereafter as possible, as the date and time for a public hearing on the issue of the levy of Fiscal Year 2025-2026 assessments. Notice of the public hearing will be given by publication.

FISCAL IMPACT AND FUNDING SOURCE

Approval of this item has no impact on the city's General Fund.

The Report as previously approved and on file with the City Clerk, provides a full and complete description of all services, facilities and appurtenants and any or all substantial changes to the services, facilities and appurtenants within the District.

8. The boundaries of the District are described in the Engineer's Report on file with the City Clerk.

9. The proposed assessment rates for Fiscal Year 2025-2026 do not exceed the maximum assessment rates approved through the property owner protest proceedings at the time of formation.

SECTION I

INTRODUCTION

Pursuant to the provisions of the Landscape and Lighting Act of 1972, being Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500 (hereafter referred to as the "1972 Act"), the City Council of the City of Rancho Cordova, County of Sacramento, State of California (hereafter referred to as "City"), has by resolution initiated proceedings in connection with the ongoing maintenance and operation of a special benefit assessment district designated as:

Rancho Cordova Lighting District No. 2012-1

(hereafter referred to as "District"), for the purpose of continuing and providing for the ongoing maintenance, servicing, and operation of public lighting improvements (safety lights and streetlights) within the City that had been administered by the County of Sacramento as Zone 2 of County Service Area 1 (CSA 1) until the Fiscal Year 2012-13 levy.

Prior to the formation of the District, the detachment of those portions of CSA 1 lying within the City limits was approved, resulting in the transfer of the responsibility of the servicing of CSA 1 improvements and related administration to the City. Commencing with the Fiscal Year 2012-13 levy, the City Council formed the District in order to provide ongoing funding for the costs and expenses required to service and maintain the safety light and streetlight improvements for the benefiting lots and parcels of land within the boundaries of the District. County Service Area 1 was created in 1986 by the Sacramento County Board of Supervisors by reorganizing five existing streetlight maintenance districts. CSA 1 was established to provide streetlight services to those unincorporated portions of Sacramento County. Since the establishment of CSA 1, the cities of Citrus Heights, Elk Grove and Rancho Cordova have been incorporated and in July 2005, the Board of Supervisors approved the creation of zones within CSA 1. The creation of these zones allowed the incorporated cities and the County to supplement CSA 1 revenues specific to those areas. This action also facilitated the eventual Local Agency Formation Commission (LAFCO) approved detachment of Elk Grove (August 2005), Citrus Heights (June 2006), and Rancho Cordova (June 2012) from CSA 1.

This Engineer's Report (hereafter referred to as "Report") has been prepared in connection with the levy and collection of annual assessments related thereto for Fiscal Year 2025-26, as required pursuant to Chapter 1, Article 4 of the 1972 Act. This Report describes the District, the improvements, and the assessments to be levied on properties within the District in connection with the special benefits the properties receive from the maintenance and servicing of the District improvements. The formation of this District and the annual assessments provide a continued funding source for the City to fund, in part, the ongoing maintenance, servicing and operation, of the safety lights and streetlights that provide special benefits to the properties within the District.

The improvements and assessments described in the Fiscal Year 2012-13 Engineer's Report (hereafter referred to as the "Formation Report") were based on the improvements and assessments previously established by the County of Sacramento for CSA 1 Zone 2. Such assessment revenues will be used to fund, in part, the annual direct expenditures and incidental expenses associated with the maintenance and servicing of the District's improvements. The formation of the District, the structure of the District (organization), the improvements, the method of apportionment, and assessments described in the Formation Report have been established to continue the maintenance of the existing improvements and assessments previously established by the County of Sacramento for CSA 1 and as such are not considered to be new or increased assessments under the provisions of the California Constitution Article XIIID.

As part of the District formation to continue the assessments previously levied by the County of Sacramento as part of CSA 1, in addition to the proceedings conducted by LAFCO for the detachment of the City of Rancho Cordova from CSA 1, the Rancho Cordova City Council conducted a noticed public hearing pursuant to the provisions of the 1972 Act to consider public testimonies, comments and written protests regarding the formation of the District and levy of assessments. At the close of the public hearing, the City Council adopted a Resolution approving the Formation Report and confirming and levying the assessments for Fiscal Year 2012-13.

Each subsequent fiscal year, an Engineer's Report shall be prepared and presented to the City Council describing the District, any changes to the District or improvements, and the proposed cost estimate and assessments for that fiscal year, and the City Council shall hold a noticed public hearing regarding these matters prior to approving and ordering the proposed levy of assessments for that fiscal year. If in any year, the proposed annual assessments for the District exceed the assessments described herein, such an assessment would be considered a new or increased assessment and must be confirmed through property owner protest ballot proceeding before that new or increased assessment may be imposed. It should be noted that an increased assessment to an individual property resulting from changes in development or land use does not constitute an increased assessment.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number (APN) by the Sacramento County Assessor's Office. The Sacramento County Auditor/Controller uses Assessor's Parcel Numbers and specific Fund Numbers to identify properties to be assessed on the tax roll for special benefit assessments.

CITY OF RANCHO CORDOVA

LIGHTING DISTRICT NO. 2012-1
FISCAL YEAR 2025-26

Pursuant to the 1972 Act, and in accordance with the Resolution of Intention, adopted by the City Council of the City of Rancho Cordova on May 19, 2025, I, Eduardo R. Espinoza, the duly appointed Engineer of Work, Assessment Engineer for the City of Rancho Cordova Lighting District No. 2012-1 (the "District") submit the following Report, consisting of Section I (Introduction), and this Section II, which consists of five (5) parts as follows:

Part A – PLANS AND SPECIFICATIONS

This part describes the improvements maintained by the District. The District has two (2) designated benefit zones that collectively encompass all lots and parcels of land within the boundaries of the District. The two benefit zones are designated as "Safety Light Only" Zone, which includes those lots and parcels of land within the District that are associated and benefit from only safety light improvements; and the "Safety Light and Street Light" Zone, which includes those lots and parcels of land within the District that are associated and benefit from both safety light improvements and local streetlight improvements.

Part B – ESTIMATE OF COST

This part contains an estimate of the annual costs to operate, maintain, and service the District's lighting improvements and facilities. The estimate included herein is also on file at the City of Rancho Cordova.

Part C – ASSESSMENT DISTRICT DIAGRAM

This part incorporates a diagram of the District showing the exterior boundaries of the District, the boundaries of any zones within the District and the lines and dimensions of each lot or parcel of land within the District. Reference is hereby made to the County Assessor's maps for a detailed description of the lines and dimensions of each lot and parcel of land within the District. This diagram has been prepared by the Engineer of Work and is on file at the City of Rancho Cordova.

Part D – METHOD OF APPORTIONMENT OF ASSESSMENTS

This part includes a discussion of benefits the improvements and services provide to properties within the District and the method of apportionment of assessments used to calculate each property's proportional special benefit and annual assessment.

Part E –ASSESSMENT ROLL

This part contains a listing of the proposed assessment amount for each parcel within the District. The proposed assessment amount for each parcel is based on the parcel's proportional special benefit as outlined in the method of apportionment of assessments. The Assessment Roll is also filed in the Office of the City Clerk of the City of Rancho Cordova and is incorporated in this report.

Part A
PLANS AND SPECIFICATIONS

Description of the District

The territory within the District consists of all lots and parcels of land within the boundaries of the City of Rancho Cordova that in Fiscal Year 2011-12, were considered to lie within CSA 1 Zone 2. Within these boundaries, parcels are identified and grouped into one of two designated benefit zones based on the special benefits properties receive from the District improvements, namely “Safety Lights Only” or “Safety Lights and Street Lights”. The two zones within the District and the benefits associated with the properties therein are described in more detail in Part D (Method of Apportionment of Assessments) of this Report. In addition, the Assessment District Diagram in Part C of the report provides a visual representation of the District showing the exterior boundaries of the District.

Description of Improvements and Services

The purpose of this District is to ensure the ongoing maintenance, operation, and servicing of street lighting improvements within the District (improvements that had been previously funded through annual assessments from the CSA 1). The improvements may consist of all or a portion of the public street lighting and appurtenant facilities within and adjacent to the District. These improvements may include, but are not limited to the materials, equipment, utilities, labor, appurtenant facilities, and expenses necessary for the ongoing maintenance and operation of public street lighting improvements. The improvements to be maintained and funded entirely or partially through the District assessments are generally described as:

Improvements and Services Authorized by the 1972 Act

As generally defined by the 1972 Act, the improvements and associated assessments for this District may include now or in the future one or more of the following:

- The installation or construction of public lighting facilities including, but not limited to streetlights, safety lights and traffic signals;
- The installation or construction of any facilities which are appurtenant to any of the foregoing, or which are necessary or convenient for the maintenance or servicing thereof;
- The maintenance or servicing, of any of the foregoing including the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement including but not limited to:
    - Repair, removal, or replacement of all or any part of any improvements;
    - Grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities;
    - Electric current or energy, gas, or other illuminating agent for any public lighting facilities or for the lighting or operation of any other improvements;

Incidental expenses associated with the improvements including, but not limited to:

- The costs of the report preparation, including plans, specifications, cost estimates, diagrams, and assessment;
- The costs of printing and advertising, and publishing, posting, and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Costs associated with any elections held for the approval of new or increased assessments.

Public Lighting Improvements

The District's annual assessments will finance in part the maintenance, operation and servicing of the District's lighting improvements (safety lights and streetlights) which generally includes the furnishing of labor, materials, equipment and electricity for the ordinary and usual maintenance, operation, and servicing of streetlights within the public rights-of-way and easements dedicated to the City, incidental expenses including administrative costs as well as the performance of periodic repairs, replacement and expanded maintenance resulting from damage or vandalism. These services and activities more specifically may include, but are not limited to:

- Payment of the electrical bill for the safety lights and streetlights.

- Maintenance, repair and replacement of light poles and fixtures, including changing light bulbs, painting, photoelectric cell repair or replacement, and repairing damage caused by automobile accidents, vandalism, time, and weather, including principal and interest related to funding of the replacement of the improvements.

- Electrical conduit and pull box repair and replacement due to damage by construction and weather.

- Monitoring of the Underground Service Alert (USA) network, identification of proposed excavation in the vicinity of lighting electrical conduits and marking the location of those underground conduits in the field to prevent damage by excavation.

- Services and maintenance repair and replacement including painting, replacing worn out electrical components and repairing damage due to accidents, vandalism, and weather.

- Remedial projects for major repairs or upgrading of facilities. Construction for such projects is usually performed by contract, however City maintenance workers may execute small projects.

- Streetlight inventory database, pole numbering and mapping to establish the number of streetlights that must be maintained, as well as the condition and location of these streetlights as part of an effective maintenance program.

- Acquisition of land, easements, and rights-of-way necessary to maintain the street and safety lighting system.

- Responding to citizens and Council member inquiries and complaints regarding street lighting. Resolving complaints may require an engineering study and possible project.

For the purpose of determining benefit and the proportional assessment of special benefit, the light fixtures to be maintained by the District are defined as either “Street Lights” or “Safety Lights”. Safety Lights are lights located at intersections on major streets and along the rear of properties that abut major streets. All other lights are designated as Street Lights. The following table provides a summary of the safety light and streetlight inventory within the City upon formation of the District. Detailed maps identifying the location and extent of the District’s Safety Lights and Street Lights at that time are on file in the Public Works Department of the City.

Type of Light	Number of Lights
Safety Lights	428
Street Lights	4,240
Total District Lights	4,668
Decorative Lights (1)	92
Total City Lights	4,760

(1) The 92 decorative lights shown above were contained within a single residential development and these lights are funded by a separate revenue source levied on those parcels. Therefore, these lights are not included as part of the District’s improvements, budget or assessments. Parcels within this residential development are included in the “Safety Light Only” zone.

Part B

ESTIMATE OF COSTS

The maximum assessment revenue shown herein is based on the cost of providing for the District improvements and does not include any other assessments or charges imposed on the properties. The cost estimate within this report identifies the cost to maintain the improvements within each specified zone of the District.

The District maintains two separate reserves, one is utilized for working capital purposes (the “Operating Reserve”) and the other for longer-term projects (the “Capital Projects Reserve”). The Operating Reserve provides cash for the ongoing operations and maintenance of the District, as well as providing funding for unanticipated expenditures. The size of the Operating Reserve is limited by Streets and Highways Code Section 22569, which states that an Operating Reserve shall not exceed the estimated costs of maintenance and services from the first day of the fiscal year (July 1) to the date that the City expects to receive the first apportionment of collections from the County. The City has determined that all cost estimates as presented in this report shall be considered as costs to maintain and service the District, or incidental expenses thereof, as to the application of the Streets and Highways Code Section 22569. In addition, the Capital Projects Reserve can be used to finance rehabilitation projects, repairs, or replacement of District improvements.

The cost estimate for the District prepared by the City for Fiscal Year 2025-26 follows on the next page.

(1) The General Benefit Contribution was calculated at 25% of the annual Electrical and Maintenance costs associated with Safety Lighting.

(2) The annual levy may differ slightly from the maximum revenue shown due to rounding because of rounding limitations imposed by the County of Sacramento.

(3) Negative fund balances represent funds that will need to be contributed or loaned from an appropriate funding source outside the assessment district.

A description of the terms used in the preceding Cost Estimate table are listed on the following pages.

Direct Costs (Maintenance and Operation)

Direct Costs include the regular annual costs of maintaining and servicing lighting improvements. This may include, but is not limited to, the costs for labor, utilities, equipment, and supplies that are required to properly maintain the items that provide a direct benefit to the properties within the District. Specific Direct Costs may include, but are not limited to:

Electrical Costs — Includes the cost of providing electricity to the lights. Additionally, some lights may be maintained by the Sacramento Municipal Utility District ("SMUD") and the cost for maintenance of these lights is included as part of the utility bill for those lights.

Maintenance Costs — Includes the contract labor associated with the maintenance of the lights and the cost of the preparing and maintaining the light inventory.

Repairs/Replacements & Capital Expenditures — Includes but is not limited to activities needed to support the improvements that are not included or considered to be costs associated with the regular annual maintenance, servicing, and operation of the District improvements. Additionally, this item may include repairs that are only required periodically, repairs and replacements resulting from damage or vandalism, capital improvement expenditures to rehabilitate or upgrade the improvements, and collection of funding (installments) for future capital improvement projects. The amount collected each fiscal year is based on an estimate of current and future needs but may be limited by available funding (assessment revenues and City contributions).

USA Markings – includes costs associated with marking the location of underground utilities related to the above.

RCLD Loan Principal - Amounts of principal due to repay a low interest California Energy Commission (CEC) loan to fund the retrofitting of existing streetlights located within the District with new LED streetlights which will reduce energy costs.

RCLD Loan Interest - Amounts of interest due to repay a low interest California Energy Commission (CEC) loan to fund the retrofitting of existing streetlights located within the District with new LED streetlights which will reduce energy costs.

Special Projects - Includes costs for minor special project(s) related to annual maintenance and or operation of the improvements not described in the above categories.

Special Capital Projects - Includes costs expected to be incurred in any specific fiscal year for special capital projects shown in the District's Capital Improvement Plan. Costs in this category do not increase the annual levy as the Capital Improvement Reserve is used to fund these costs. For this reason, these costs may not be shown in the annual cost estimate.

Administration Costs

Annual Administration Costs include incidental District costs not included above that are required on an annual basis. Specific Administration Costs may include, but are not limited to:

District Administration - Includes the estimated cost to coordinate District services including responding to property owner inquiries relating to the assessments and services and contracting with professionals to provide administration, legal, and engineering services to the District that are required on an annual basis. This also includes the costs for the City to account for the funds, the calculation of the assessments, preparation of the annual report, and placing the assessment on the property tax bills.

Contract Administration - Estimated costs to coordinate and oversee the applicable maintenance and operation contracts and overall repair, maintenance, operation, and replacements of the District Improvements.

County Collection Fees - Includes the cost that the County charges to place the assessments onto the Sacramento County Secured Tax Roll.

Miscellaneous Administration Expenses - Includes other minor administrative costs such as telephone, copying, noticing, mailing, office supplies and fees related to District Administration.

Total Direct and Administration Costs - This is the total of the Direct and Administration Costs, which are the direct and incidental costs for the regular annual maintenance, servicing, and operation of the District improvements.

Miscellaneous Costs and Collections/(Credits) Applied to Levy

Miscellaneous Cost and Collections/(Credits) Applied to the Levy represent the expected contributions and funding from sources other than the current year assessments to support the annual costs included for the maintenance, servicing, and operation of the District improvements.

Replenishment/(Use) of Operating Reserve - A “Replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “Use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the cost estimate. Further information regarding the function of the Operating Reserve is provided in the following pages of this section.

Contribution/(Use) of Capital Projects Reserve - A “Contribution” increases the levy in order to generate funding for the Capital Projects Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation of projects or replacement in future years. On the other hand, a “Use of” the Capital Projects Reserve provides current year funding of rehabilitation projects or replacement from available funds within the Capital Projects Reserve. If the expenditure of a current year capital project is funded entirely by a collection from the current fiscal year levy and/or a transfer from the Operating Reserve, this line item may show as zero, which is the net of the two amounts. If zero, this line item may not be shown in the cost

estimate. Further information regarding the function of the Capital Projects Reserve is provided in the following pages of this section.

General Benefit Contribution – This amount represents funding from the City or other, utilizing revenue sources other than assessment revenues to pay the proportional costs for the regular annual maintenance, servicing and operation of the District improvements that have been determined to be of General Benefit and which cannot be assessed to property owners. This funding may be from the City's General Fund or any other funding source available.

Other Revenue Contributions - Additional funds designated for use by the District that are not District assessments. Often referred to as a City Contribution, these funds may be from any source available to the City to support the District and reduce the amount to be collected by the District assessments. If the Total Direct and Administration Costs minus any Reserve Fund Transfer and General Benefit Contribution results in an amount greater than the amount that can be collected through the assessments, the City either must reduce expenses or contribute funds to balance the cost estimate.

Balance to Levy - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the Total District Direct and Administration Costs together with any applicable adjustments associated with Miscellaneous Costs and Collections/(Credits) as described above.

District Statistics and Assessment Rates

Parcels Levied - The total number of parcels within each zone that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public right-of-way or easements, common areas, and/or parcels within the boundaries of the District that currently do not benefit from the improvements.

Front Footage - The total assessable front footage for non-residential property that are expected to be assessed on a front footage basis for the current fiscal year.

Residential Parcels – The total number of assessable residential parcels subject to the street lighting assessment.

Per Parcel Rate – Safety Lights - The maximum assessment rate that can be assessed to each assessable parcel within the respective zone for the current fiscal year.

Per Parcel Rate – Streetlights (Residential) - The maximum assessment rate that can be assessed to each assessable residential parcel for streetlights for the current fiscal year.

Per Front Foot Rate – Streetlights (Non-Residential) - The maximum assessment rate that can be assessed to each front foot of non-residential property for streetlights for the current fiscal year.

Estimated Maximum Assessment Revenue – The total amount that can be assessed to all parcels within each zone for the current fiscal year based upon the expected number of assessable parcels and front footage using the maximum assessment rates.

Operating Reserve Fund Balance

Beginning Reserve Fund Balance 7-1-2025 (est.) - The anticipated beginning balance of cash and receivables, net of any unpaid prior year obligations. These beginning balances shall be used to fund expenditures from July 1, 2025 to December 31, 2025, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. The Capital Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the report.

Replenishment/(Use) of Operating Reserve – Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve is intended to fund expenditures from the period of July 1, 2025 (the beginning of the fiscal year) through December 31, 2025. If positive, this amount is added to the levy in order to replenish the Operating Reserve. On the other hand, if negative, this portion of the Operating Reserve is used to fund Fiscal Year 2025-26 expenses and therefore reduces the levy amount. If zero, this line item may not be shown in the cost estimate.

Transfer from/(to) the Capital Project Reserve — The amount of Operating Reserve monies to be transferred to or from the Capital Projects Reserve. Periodically, funds held in a Capital Project Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Project Reserve are subject to transfer to the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the cost estimate.

Ending Operating Reserve Fund Balance 6-30-2026 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) as of June 30, 2026. The size of the Operating Reserve is limited by Streets and Highways Code Section 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance and service from the first day of the fiscal year (July 1) to the date that the agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, the District may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Capital Project Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the report.

Capital Project Reserve Fund Balance

Beginning Capital Project Reserve Fund Balance 7-1-2025 (est.) — The projected balance of funds in the Capital Project Reserve as of July 1, 2025. Streets and Highways Code Section 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Use for Fiscal Year 2025-26 Capital Projects – The amount expected to be incurred for Capital Projects in Fiscal Year 2025-26 and funded from the Capital Projects Reserve rather than the Fiscal Year 2025-26 levy. If zero, this line item may not be shown in the cost estimate.

Transfer from/(to) the Operating Reserve — The amount of Capital Project Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Capital Project Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Project Reserve are subject to transfer into the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. Ending Operating Reserve Fund Balance 6-30-2026 (est.) - The projected balance of funds in the Capital Projects Reserve as of June 30, 2026. These funds shall be used to fund the costs of installation, replacement, repair or upgrading of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Capital Projects Reserve or related activity for the current fiscal year, the Capital Projects Reserve information will not be presented in the report.

Capital Projects Reserve - Capital Improvement Plan

Streets and Highways Code Section 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. The projected fiscal year ending Capital Project Reserve Fund balance will fund the multi-year Capital Improvement Plan, as shown below, in order to fund the installation, replacement, repair or upgrading of District improvements and other allowable costs:

> The District expects expenditures for street light numbering replacement: $5,000 in Fiscal Year 2025-26.
>
> Periodically, funds held in a Capital Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Capital Projects Reserve are subject to transfer into the Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements.

ASSESSMENT DISTRICT DIAGRAM

The parcels to be assessed consist of all lots, parcels and subdivisions of land located within the boundaries of the map designated as “Assessment Diagram of Rancho Cordova Lighting District No. 2012-1.” The lines and dimensions of each parcel within the District are those lines and dimensions shown on the maps of the Sacramento County Assessor for the year in which this report was prepared and are incorporated herein and made part of this report.

Part D
METHOD OF APPORTIONMENT OF ASSESSMENTS

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include but are not limited to the construction, maintenance, operation, and servicing of public street lighting improvements and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

> *"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIIID addresses several key criteria for the levy of assessments, notably:

Article XIIID Section 2d defines District as:

> *"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service".*

Article XIIID Section 2i defines Special Benefit as:

> *"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."*

Article XIIID Section 4a defines proportional special benefit assessments as:

> *"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."*

The method of apportionment established herein is based on the premise that each assessed property receives special benefits from the maintenance, servicing and operation of either safety lights located throughout the District or both safety lights and local streetlights, and these improvements will be funded in part by such assessments, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as compared to other properties that receive such special benefits as outlined in the preceding definitions established in the 1972 Act and the California Constitution.

Benefit Analysis

To identify and determine the proportional special benefit to each parcel within the District, as well as any general benefit associated with the improvements, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The District's improvements and the associated costs described in this report, have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District, and is consistent with the method of apportionment previously established for the assessments as part of CSA 1.

While the California Constitution requires that *"The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement…";* it is reasonable to conclude that the reasons for installing local streetlights are often similar, but somewhat different than the reasons for installing safety lights. Therefore, the overall benefits associated with streetlights and safety lights are different, which also suggests that the apportionment of the cost to provide those improvements would be different.

In reviewing the location and extent of the City's Street Light improvements to be funded by District assessments and the relationship these improvements have to properties within the District, it was determined that these lights are entirely local lighting improvements that were installed specifically in connection with the development of nearby properties or were necessary as a precursor to property development and would otherwise not have been necessary or required without the development of the properties near those improvements. As such, these Street Light improvements have a direct and particular relationship to, and provide special benefit to, the properties located in close proximity to those lighting improvements and serve as extension of those properties and developments into the public areas (streets) that serve those properties. These lights clearly provide special benefits that affect these properties in a way that is particular and distinct from its effect on other parcels, and that of real property in general and the public at large do not share. This is most evident in the fact that the District's Street Light improvements are concentrated within the City's various residential developments and developed non-residential areas and the absence of such lights within many portions of the undeveloped areas of the District. The fact that these lights are a direct result of property development and many areas of the City forgo the need of local street lighting, the maintenance and operation costs associated with the Street Light improvements are considered to be solely a special benefit to those properties and developments in close proximity to those lights and have no measurable general benefit to the public at large or to the District as a whole. However, it is also recognized that these lights are not exclusive or typically isolated to a particular parcel but are rather shared and directly affect entire neighborhoods or groups of parcels. In this District, it has been determined that each parcel that is assessed for Street Lights is at least within approximately two-hundred feet (200 feet) of a streetlight although that light may be located across the street from the parcel.

As previously noted, Safety Lights are lights located at intersections on major streets and along the rear of properties that abut major streets. Although the location and extent of these lights are most certainly driven by development of properties in the area (concentrated largely in developed areas of the City), unlike the Street Light improvements which are directly correlated to specific developments and parcels, the District's Safety Lights are not entirely the result of specific property development, but more the result of overall development throughout the City and in addition to directly benefiting the properties in the District, these Safety Lights provide nighttime traffic illumination to enhance traffic circulation and safety.

Therefore, while the need for such lights is most often facilitated by development in the area and certainly a special benefit to properties within the District because safety lights promote nighttime traffic illumination and circulation for the general public as well as for properties in the District, these lights obviously provide some measure of benefit to the community as a whole and to the public at large (general benefit). In order to separate general benefits from special benefits, an evaluation of the overall extent and location of the Safety Light in the City, revealed that less than half (approximately 47%) of the Safety Lights within the District are located on major streets that are considered through-traffic corridors, namely Bradshaw Road, Folsom Boulevard and Sunrise Boulevard. The remaining Safety Lights within the City were located on streets and intersections considered internal City traffic routes that provide direct access to the parcels in the District. Therefore, it would be reasonable to conclude that like the local Street Light improvements, the Safety Light improvements located on these internal City traffic routes (approximately 53% of the Safety Lights at the time of formation of the District) are entirely for the special benefit of the properties they serve, while the Safety Lights on the through-traffic corridors provide comparable (proportionately equal) special benefit to properties in the District and general benefit to real property in general and the public at large. Therefore, collectively, it has been determined that no more than 25% of the total direct costs (maintenance and operation costs) of providing Safety Lights would be considered general benefit.

Zones of Benefit

In order to calculate and identify the proportional special benefit received by each parcel and their proportionate share of the improvement costs it is necessary to consider not only the improvements and services to be provided, but the relationship each parcel has to those improvements as compared to other parcels in the District.

Article XIIID Section 4a reads in part:

> *"…The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement or for the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."*

In an effort to ensure an appropriate allocation of the estimated annual cost to provide the District improvements based on proportional special benefits, this District has established benefit zones ("Zones") as authorized pursuant to Chapter 1 Article 4, Section 22574 of the 1972 Act:

> *"The diagram and assessment may classify various areas within an assessment district into different zones where, by reason of variations in the nature, location, and extent of the improvements, the various areas will receive differing degrees of benefit from the improvements. A zone shall consist of all territory which will receive substantially the same degree of benefit from the improvements."*

Therefore, in order to separate general benefits from special benefits and to ensure each parcel is assessed for only the special benefits received from the improvements, two benefit zones have been established and every parcel in the City is grouped into one of these two Zones:

- "Safety Lights Only" Zone: Includes all parcels that receive special benefits from the maintenance of Safety Lights only, which includes lights located at intersections on major streets and along the rear of properties that abut major streets.

- "Streetlights and Safety Lights" Zone: Includes all remaining parcels within the City that specially benefit from maintenance of Street Lighting (local lights) as well as Safety Lights.

The District cost estimate incorporated herein under Part B of this report provides a summary of the total estimated cost of providing the streetlight improvements and the allocation of those costs that are considered general benefit. Details regarding the location and extent of the street lighting improvements within the District and the Zones therein upon formation of the District are on file in the Public Works Department of the City. A diagram showing the exterior boundaries of the District and the location of the two zones therein at the time of formation is attached and incorporated herein under Part C of this report.

Assessment Methodology

In order to calculate and identify the proportional special benefit received by each parcel and their proportionate share of the improvement costs, it is necessary to consider not only the improvements and services to be provided, but the relationship each parcel has to those improvements as compared to other parcels in the District.

Safety Lights and Street Lights, like most public improvements, provides varying degrees of benefit (whether they be general or special) based largely on the extent of such improvements, the location of the improvements in relationship to the properties, the specific use of each property, and the reason or need for such improvements as it relates to individual properties. In this District, these issues were each considered in determining the proportional special benefit to each parcel by the use of benefit zones, the separation of general benefit and special benefit, and County land use designations.

Safety Lights

Safety Lights are located throughout the District and properties throughout the City are considered to benefit proportionally from Safety Lights and are therefore levied a flat rate calculated by the following formula.

Net Safety Light Cost / Total Assessable Parcels = Levy per Parcel

Streetlights

Only properties that benefit from Street Lights are charged for Street Lights. Parcels are classified based on land use into two categories: Residential and Non-Residential. Residential parcels that have streetlights are levied equally. Non-Residential are levied on a front footage basis. Formulas for both Non-Residential and Residential parcels are illustrated below.

Residential Parcels

Net Residential Street Light Cost / Residential Parcels=Levy per Residential Parcel

Non-Residential Parcels

Net Non-Residential Street Light Cost / Non-Residential Front Footage = Levy per Non-Residential Front Foot

Levy per Non-Residential Front Foot x Non-Residential Parcel Front Footage= Levy per Parcel

In addition, each Fiscal Year, the City provides annexation documents showing the list of parcels that were annexed into the City of Rancho Cordova Community Facilities District No. 2008-1 (the “CFD No. 2008-1”) and the City of Rancho Cordova Community Facilities District No. 2014-1 (the “CFD No. 2014-1”). Both CFD No. 2008-1 and CFD No. 2014-1 provide services for street lighting in the City. Parcels that are annexed into CFD No. 2008-1 and CFD No. 2014-1 are not subject to the Street Light Assessment portion for the City of Rancho Cordova Lighting District No. 2012-1 and are only assessed for safety lights.

Exempt

Exempted from the assessment would be the areas of public streets and other roadways (typically not assigned an APN by the County), dedicated public easements, open space areas and rights-of- ways including public greenbelts and parkways. Also exempted from assessment would be utility rights-of-ways, common areas (such as in condominium complexes), landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels do not benefit from the improvements.

The land use classification for each parcel has been determined and based on the Sacramento County Assessor’s most recent secured roll.

Rates

The following Tables show the assessment rates proposed to be levied in Fiscal Year 2025-26 and an estimate of the revenue to be assessed. It is important to note that these rates are the same rates applied to the District parcels under CSA 1 and that these rates have not increased since the passage of Proposition 218 in 1996.

Part E
ASSESSMENT ROLL

Parcel identification for each lot or parcel within the District is based on the Assessment Diagram presented herein and is based on available parcel maps and property data from the County Assessor's Office at the time the Engineer's Report was prepared. A listing of the proposed lots and parcels to be assessed within this District along with the assessment amounts is provided herein.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate described in this report as approved by the City Council. Therefore, if a single parcel is subdivided to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

The following is a list of the parcels and proposed assessment amounts for each of the parcels within the District as determined by the assessment rates and method of apportionment described herein.

MEMORANDUM

ITEM 9.3.

DATE: May 19, 2025

TO: Honorable Mayor and Council Members

FROM: Dalia Fadl, Assistant Public Works Director

SUBJECT: **RESOLUTIONS INITIATING PROCEEDINGS FOR THE ANNUAL LEVY AND COLLECTION OF ASSESSMENTS FOR THE LANDSCAPE AND LIGHTING DISTRICT NO. 2005-1 FOR FISCAL YEAR 2025-2026**

RECOMMENDATION

Adopt the Resolution initiating proceedings for the Annual Levy and Collection of Assessments for the Landscaping and Lighting District 2005-1 for Fiscal Year 2025-2026; and adopt the Resolution preliminarily approving the Engineer's Annual Levy Report and declaring its intention to levy and collect annual assessments for the Landscaping and Lighting District No. 2005-1 for Fiscal Year 2025-2026.

RESULT OF RECOMMENDED ACTION

The recommended actions are required as part of the process to continue the annual levy and collection of assessments in the District. The assessments fund landscape maintenance in the District. No assessments shall increase as a result of this action.

BACKGROUND

The Landscaping and Lighting District No. 2005-1 (LLD 2005-1) was formed in June 2005 by the City Council to continue a financial mechanism to provide landscape maintenance services previously funded since 1994 in Zone 4 and Zone 5 of the Sacramento County Landscape Maintenance District (SLMD). The maximum assessment rates authorized under LLD 2005-1 are equal to the maximum rates previously authorized in Zones 4 and 5 of the County's District.

State law requires the City Council direct an Engineer's Report to be prepared each year and to hold a public hearing on the report and the levy of the annual assessment. The Resolution initiating proceedings, Attachment 1, directs Francisco & Associates, Inc. to prepare and file the Engineer's Report.

In anticipation of this resolution, the Engineer's Report has been prepared and is on file with the City Clerk. The Engineer's Report, Exhibit A to the Resolution preliminarily approving the report and declaring the intention to levy and collect assessments, Attachment 3, includes a diagram of the assessment area, a description of the maintenance services to be provided, a description of the property to be benefited, and the amount of the assessment to each individual property. The services performed within and funded by LLD 2005-1 include ongoing maintenance,

operation, and servicing of landscaping within the right-of-ways and other public areas within the District at the locations described in the Engineer's Report.

The proposed Fiscal Year 2025-2026 assessment rates do not exceed the rates previously levied by the County since 1994 and are equal to the rates levied by the city in Fiscal Year 2024-2025. The boundaries of each Zone are shown in the district diagram in Part IV of the Engineer's Report and the details for each Zone are listed below:

- **Zone 1** of the District is comprised of ninety-six (96) residential parcels in the Ellenwood subdivision. These parcels are assessed on per Parcel basis at the maximum rate of $42.50 per parcel.

- **Zone 2** of the District is comprised of one hundred fifty-four (154) residential parcels known as California Jazz Unit No. 1 and Unit No. 2. These parcels are assessed on an acreage basis at the maximum rate of $30.48 per acre for the median landscape and parkway landscape improvements associated with these parcels.

- **Zone 3** of the District is comprised of eighteen (18) parcels along Zinfandel Drive between Data Drive and south of International Drive. These parcels were assessed on an acreage basis at the pre-existing rate of $30.48 per acre for the median landscaping and $1,382.76 per acre for the landscaping along the parkways of Zinfandel Drive, totaling $1,413.24 per acre.

- **Zone 4** is comprised of fifty-two (52) parcels, including a portion of Capital Village, generally bounded by White Rock Road to the west, White Rock Road and Disk Drive to the north, fronting Kilgore Drive to the East, and fronting International Drive to the south. These parcels are assessed at the maximum rate of $30.48 per gross acre.

- **Zone 4A** is comprised of a portion of Zone 4. Properties within Zone 4A were redesignated as Zone 4A commencing with the Fiscal Year 2007/08 to account for the Zone 4A parcels lying within a portion of CFD 2005-2, while the remaining Zone 4 parcels are outside of the CFD 2005-2 boundaries. Since the CFD 2005-2 Zone 1, special taxes are to be levied upon Zone 4A parcels, these special taxes are contributed in part to the District for the benefit of Zone 4A. Zone 1 of the CFD provides funding for landscape improvements within and adjacent to the development, including the median landscaping identified herein. Although the CFD may fund median landscaping, the special taxes levied within Capital Village may not provide sufficient funds to maintain both the landscape improvements within the Capital Village development and the median landscape improvements within the District that specially benefit the parcels within Zone 4A. Therefore, Zone 4A is comprised of seven hundred eighty-three (783) assessable properties, each of which were assessed $30.48 per gross acre until such time that the CFD generates sufficient revenue to fund the median landscape improvements. Any funds generated by the CFD that will be used to finance the median landscape improvements that benefit Zone 4A shall be transferred by the CFD to the District as a contribution to Zone 4A.

The Fiscal Year 2025-2026 total assessment is estimated at $89,062. The District has an established Operating Reserve which provides funding for the operations and maintenance of the District, as well as providing financing for emergency expenditures. A second reserve fund finances special projects such as a central irrigation system, revegetation projects, and other rehabilitation projects or replacements of District improvements.

In July 2006, the County transferred funds previously collected in the County's Zone 4 and 5 to the City, which was deposited to the LLD 2005-1. The City had previously deemed that these transferred funds are to be used exclusively by the District and shall be considered as undesignated reserves within the Zones of the District. Funds from the undesignated reserve can be used to fund costs of any zone(s) that are unable to be funded by the annual assessments.

In order to proceed with the levy of assessments after consideration and approval of the Engineer's Report, it is appropriate for the Council to adopt the Resolution, Attachment 2, which declares the Council's intention to levy assessments for Fiscal Year 2025-2026. It also sets June 2, 2025 at 5:30 p.m. or as soon thereafter as possible, as the date and time for a public hearing on the issue of the levy of Fiscal Year 2025-2026 assessments. Notice of the public hearing will be given by publication.

FISCAL IMPACT AND FUNDING SOURCE

Approval of this item does not impact the city's General Fund. Funds collected by this district pay for the maintenance and services of landscaping, lighting and all appurtenant facilities.

SECTION I

INTRODUCTION

Pursuant to the provisions of the Landscaping and Lighting Act of 1972, being Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500 (hereafter referred to as the "1972 Act"), and in compliance with the substantive and procedural requirements of the California State Constitution Article XIIID (hereafter referred to as the "California Constitution"), the City Council of the City of Rancho Cordova, County of Sacramento, State of California (hereafter referred to as "City"), has by resolution initiated proceedings in connection with the ongoing maintenance of the special assessment district designated as:

Landscape and Lighting District No. 2005-1

(hereafter referred to as "District"), for the purpose of continuing and providing for the ongoing maintenance and operation of landscaping and lighting improvements within the District.

In Fiscal Year 2005-06, as part of the District formation to continue the assessments previously levied by the County as part of the Sacramento Landscape Maintenance District ("SLMD") Zone 4 and Zone 5 for properties within the boundary of the City, the City conducted a Property Owner Protest Ballot proceeding for the District assessments pursuant to the provisions of the *California Constitution, Article XIIID Section 4.* In conjunction with this ballot proceeding, the City Council also conducted a noticed public hearing to consider public testimonies, comments, and written protests regarding the formation of the District and levy of maximum assessments. Upon conclusion of the public hearing, property owner protest ballots received were opened and tabulated to determine whether a majority protest existed (ballots were weighted based upon the assessment amounts), and by resolution the City Council confirmed the results of the ballot tabulation. Tabulation of the ballots indicated that a majority protest did not exist for the continuation and transfer of assessments as presented and described in the Fiscal Year 2005-06 Engineer's Report. The City Council approved the report, ordered the formation of the District, and approved the levy and collection of Fiscal Year 2005-06 assessments. The Fiscal Year 2005-06 assessments were then submitted to the Sacramento County Auditor/Controller for inclusion on the property tax roll for each parcel.

The improvements and assessments described in this Report are based on the improvements and assessments previously established by the County for SLMD Zone 4 and Zone 5, and represent an estimate of the direct expenditures, incidental expenses, and fund balances associated with the maintenance and servicing of those improvements. The structure of the District (organization), the improvements, the method of apportionment, and assessments described herein have been established to continue the maintenance of the existing improvements and assessments previously established by the County as outlined in the District's Fiscal Year 2005-06 Engineer's Report.

For Fiscal Year 2025-26, this Report has been prepared and presented to the City Council describing the District, any changes to the District or improvements, and the proposed cost estimate and assessments for this fiscal year, and the City Council shall hold a noticed public hearing regarding these matters prior to approving and ordering the proposed levy of assessments. Should the proposed annual assessments for the District or portion thereof, exceed the maximum assessments described herein (as approved by the property owners), the new or increased assessment must be confirmed through another property owner protest ballot proceeding before the new or increased assessment may be imposed. It should be noted that an increased assessment of an individual property resulting from changes in development or land use does not constitute an increased assessment.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (APN) by the County Assessor’s Office. The County Auditor/Controller uses Assessor’s Parcel Numbers and specific Fund Numbers to identify properties to be assessed on the tax roll for special benefit assessments.

This part includes a discussion of benefits the improvements and services provide to properties within the District and the method of apportionment of assessments used to calculate each property's proportional special benefit and annual assessment.

Part E – ASSESSMENT ROLL

This part contains a listing of the proposed assessment amount for each parcel within the District. The proposed assessment amount for each parcel is based on the parcel's proportional special benefit as outlined in the method of apportionment of assessments. Part A
PLANS AND SPECIFICATIONS

Description of the District

The territory within the District consists of the lots and parcels of land that in Fiscal Year 2004-05 were both within the City and within a portion of Zone 4 and all of Zone 5 of the Sacramento Landscape Maintenance District ("SLMD"). Said territory encompasses an area of land totaling approximately five hundred twelve acres (512 acres) that is centrally located within the City, generally south of Highway 50 and north of the southern City limits.

Zone 1: That portion of the previous SLMD Zone 4, which at the time of the formation of the District included a total of ninety-seven (97) assessable parcels within the residential subdivision known as Ellenwood Court located south of Ellenwood Avenue. Upon formation of the District, this area was designated as Zone 1 to reflect the special benefit these parcels receive from the District improvements associated with the development located on the south side of Ellenwood Avenue.

Zones 2, 3 and 4: The parcels within previous SLMD Zone 5, which at the time of the formation of the District included a total of six hundred eighty-six (686) assessable parcels generally located south of the American River, east of Mather Field Road, and near Zinfandel Drive and International Drive. Upon formation of the District, this area was designated as Zones 2, 3, 4, and 4A and are further described as follows:

> **Zone 2** included the one hundred fifty-four (154) assessable parcels within the residential subdivision known as California Jazz Units 1 & 2, generally located east of Data Drive, north of Reserve Drive, south of Capital Center Drive and west of International Drive.
>
> **Zone 3** included the eight (8) assessable parcels located on either side of Zinfandel Drive from Data Drive to the southern boundary of the District (approximately 700 feet south of International Drive).
>
> **Zone 4** included the remaining parcels that were previously included in SLMD Zone 5 that were not designated as either Zone 2 or Zone 3 of the District. This Zone includes parcels along Data Drive, International Drive, Capital Center Drive, White Rock Road, Quality Drive, Disk Drive, Prospect Park Drive and Kilgore Road.
>
> **Zone 4A** is the portion of Zone 4 that also lies within the City's Community Facilities District No. 2005-2 ("CFD 2005-2"). Tax Zone 1 of CFD 2005-2 was established to fund, to the extent that funds from CFD 2005-2 are available, maintenance of landscape improvements of the residential subdivision development known as Capital Village. These landscape improvements were installed along the subdivision's rights-of-way and within the median(s) adjacent to

the development. The funds from Tax Zone 1 of CFD 2005-2, to the extent available, shall offset all or a portion of the costs within Zone 4A.

- Approximately 19,400 square feet of turf, 11,500 square feet of streetscape (parkway) landscaping including 57 trees, located on the west side of Zinfandel Drive, south of International Drive.

- Approximately 152,340 square feet of turf, 55,600 square feet of streetscape and median landscaping including 392 trees along International Drive; and medians on International Drive, west of Data Drive to Kilgore Road.

Specifically, not included as District improvements, are those improvements located on private property, improvements and facilities that may be provided or maintained by an agency other than the City; improvements and facilities that may be provided by another assessment or tax levied by the City or County and any improvement provided and maintained by a Homeowner's Association or similar entity.

Detailed descriptions of the location and extent of the specific improvements to be maintained by the District are on file with the City and by reference are made part of this Report. The net annual cost to provide and maintain the improvements determined to be of special benefit shall be allocated to each property in proportion to the special benefits received.

The lighting improvements may include but shall not be limited to the cost of providing electrical energy and servicing of lighting fixtures, poles, meters, conduits, electrical cable and associated appurtenant facilities associated with the street lighting, safety lighting and/or traffic signals within the District including public lighting facilities on designated arterial and collector streets as well as lighting facilities within residential subdivisions or public areas such as parks. The cost of such improvements shall be allocated based on the proportional special benefits properties receive from these improvements.

Part B
ESTIMATE OF COSTS

The maximum assessment per parcel or acre shown herein is based on the cost of providing for the District improvements and does not include any other assessments or charges imposed on the properties. The cost estimate within this report identifies the cost to maintain the improvements within each specified zone of the District.

Each zone within the District maintains two separate reserves, one is utilized for working capital purposes (the “Operating Reserve”) and the other for longer-term projects (the “Special Projects Reserve”). The Operating Reserve provides cash for the ongoing operations and maintenance of the District, as well as providing funding for unanticipated expenditures. The size of the Operating Reserve for each zone is limited by Streets and Highways Code 22569, which states that an Operating Reserve shall not exceed the estimated costs of maintenance and services from the first day of the fiscal year (July 1) to the date that the agency expects to receive the first apportionment of collections from the County. The City has determined that all cost estimates as presented in this report shall be considered as costs to maintain and service the District, or incidental expenses thereof, as to the application of the Streets and Highways Code 22569.

The Special Projects Reserve can be used to finance the Central Irrigation System (CIS) project and re-vegetation projects, as well as other rehabilitation projects, repairs or replacements of District improvements.

The Cost Estimate for the District prepared by the City for Fiscal Year 2025-26 follows on the next page.

Utilities (Electricity) – Lighting - The furnishing of electricity required for the operation of the lighting improvements.

Periodic Repair/Rehabilitation – Landscaping – Expected costs for repair, replacement, installation, or planned upgrades of District landscaping improvements.

Periodic Repair/Rehabilitation – Lighting – Expected costs for repair, replacement, installation or planned upgrades of District lighting improvements. If zero, this line item may not be shown in the cost estimate.

Special Project Expenditures – Expected costs for installation, replacement or planned upgrades of District landscaping or lighting improvements for the current year that were previously funded or accumulated in the Special Projects Reserve. The Special Projects Reserve is used to accumulate funds for costs associated with the future rehabilitation, repair or replacement of these District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the cost estimate.

Administration Costs

District Administration – Estimated costs incurred by the City in preparation of the annual cost estimate and the preparation, review, posting and/or publishing of documents and notices required for City Council action to approve the annual assessments. These costs also include contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

Contract Administration – Estimated costs to coordinate and oversee the maintenance contracts and overall repair, maintenance and replacements of the District Improvements.

County Collection Fees – The fee charged to the District by the County for placing assessments on property tax bills.

Other Administration Expenses – Administration expenses not included above, including the cost to publish public notices required for City Council action relating to the District. If zero, this line item may not be shown in the cost estimate.

Total Direct and Administration Costs – The total expected costs of the District.

Miscellaneous Costs and Collections/(Credits) Applied to Levy

Replenishment/(Use) of Operating Reserve – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the cost estimate. Further information regarding the function of the Operating Reserve is provided in the following pages of this section.

Contribution to/(use of) Special Projects Reserve — A "Contribution" increases the levy in order to generate funding for the Special Projects Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation of projects or replacement in future years. On the other hand, a "Use of" the Special Projects Reserve provides current year funding of rehabilitation projects or replacement from available funds within the Special Projects Reserve. If the expenditure of a current year special project is funded entirely by a collection from the current fiscal year levy and/or a transfer from the Undesignated Reserve, this line item may show as zero, which is the net of the two amounts. If zero, this line item may not be shown in the cost estimate. Further information regarding the function of the Special Projects Reserve is provided in the following pages of this section.

Revenues from Other Sources – These amounts represent contributions from CFD No. 2005-2; which only affects Zone 4A. This relationship is more fully described in the previous sections of this report.

Balance to Levy - This is the total amount to be levied and collected through assessments for the current fiscal year for each Zone. The Balance to Levy represents the sum of the Total District Direct and Administration Costs together with any applicable adjustments associated with Miscellaneous Costs and Collections/(Credits) as described above.

District Statistics and Assessment Rates

Number of Assessable Parcels - The total number of parcels within each zone that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public right-of-way or easements, common areas, and/or parcels within the boundaries of the District that currently do not benefit from the improvements, due possibly to development restrictions.

Assessable Acreage - The total assessable acreage within each zone that are expected to be assessed on an acreage basis for the current fiscal year.

Maximum Rate per Parcel - The maximum assessment rate that can be assessed to each non-exempt parcel within the respective zone for the current fiscal year.

Maximum Rate per Acre - The maximum assessment rate per acre that can be assessed to each non-exempt parcel within the respective zone for the current fiscal year.

Estimated Maximum Assessment Revenue – The total amount that can be assessed to all parcels within each zone for the current fiscal year based upon the expected number of assessable units and acres using the maximum assessment rates.

Operating Reserve Fund Balances

Beginning Reserve Fund Balance 7-1-2025 (est.) - The anticipated beginning balance of cash and receivables, net of any unpaid prior year obligations for each zone. These beginning balances shall be used to fund each zone's expenditures from July 1, 2025 to December 31, 2025, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. The Special Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the report.

Add: Collect from Fiscal Year 2025-26 Levy – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2025 (the beginning of the fiscal year) through December 31, 2025. If zero, this line item may not be shown in the cost estimate.

Less: Use for Fiscal Year 2025-26 Expenses – The amount of the Operating Reserve to be used to fund Fiscal Year 2025-26 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Fund Balance to an amount no greater than the expected District costs for the period of July 1, 2025 (the beginning of the fiscal year) through December 31, 2025. If zero, this line item may not be shown in the cost estimate.

Transfer from/(to) the Special Projects Reserve - The amount of Operating Reserve monies to be transferred to or from the Special Projects Reserve. Periodically, funds held in a Special Projects Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Special Projects Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the cost estimate.

Ending Operating Reserve Fund Balance 6-30-2026 (est.) - This amount represents the anticipated Operating Reserve balance/(deficit) for each zone as of June 30, 2026. The size of each zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance and service from the first day of the fiscal year (July 1) to the date that the City expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. Any deficit fund balances will be contributed or loaned to the District from a source outside of the District. All Special Projects Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the report.

Special Projects Reserve Fund Balance

Beginning Special Projects Reserve Fund Balance 7-1-2025 (est.) — The projected balance of funds in the Special Projects Reserve as of July 1, 2025. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

Add: Collect from Fiscal Year 2025-26 Levy — This amount is added to the levy to accumulate funding for future year rehabilitation projects, replacements, repairs, restorations, or upgrades of District improvements. If zero, this line item may not be shown in the cost estimate.

Less: Use for Fiscal Year 2025-26 Special Projects – The amount of Special Project Reserve monies expected to be expended for special projects to fund the costs of installation, replacement, or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the cost estimate.

Transfer from/(to) the Operating Reserve — The amount of Special Projects Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Special Project Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Special Project Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Public Works Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the cost estimate.

Ending Special Projects Reserve Fund Balance 6-30-2026 (est.) – The projected balance of funds in the Special Projects Reserve as of June 30, 2026. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment. Should the District have no Special Project Reserve or related activity, the Special Project Reserve information may not be presented in the report.

Special Projects Reserve – Capital Improvement Plan

Streets and Highways Code Section 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

ASSESSMENT DISTRICT DIAGRAM

The parcels to be assessed consist of all lots, parcels and subdivisions of land located within the boundaries of the map designated as “Assessment Diagram of Landscape and Lighting District No. 2005-1.” The lines and dimensions of each parcel within the District are those lines and dimensions shown on the maps of the Sacramento County Assessor for the year in which this Report was prepared and are incorporated herein and made part of this Report.

Part D
METHOD OF APPORTIONMENT OF ASSESSMENTS

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping, and appurtenant facilities.

The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

> *"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIIID addresses several key criteria for the levy of assessments, notably:

Article XIIID Section 2d defines District as:

> *"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service";*

Article XIIID Section 2i defines Special Benefit as:

> *"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."*

Article XIIID Section 4a defines proportional special benefit assessments as:

> *"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."*

The method of apportionment described in this Report for allocation of special benefit assessments utilizes commonly accepted engineering practices and has been established pursuant to the 1972 Act and the provisions of the California Constitution. The formulas used for calculating assessments reflects the composition of parcels within the District and the improvements and services provided, to fairly apportion the costs based on the special benefits to each parcel.

Benefit Analysis

Each of the proposed improvements and the associated costs and assessments have been carefully reviewed, identified, and allocated based on special benefit pursuant to the provisions of the California Constitution and 1972 Act.

The improvements provided by the District and for which properties will be assessed have been identified as necessary, required and/or desired for the development of properties within the District and as such, the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of the parcels within the District. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are a distinct and special benefit to the properties within the District. Any improvement or portion thereof that is considered to be of general benefit shall be funded by other revenue sources and not included as part of the special benefit assessments allocated to properties within the District.

Special Benefit

The method of apportionment (method of assessment) established herein is based on the premise that each assessed parcel within the District receives special benefits from specific improvements and the desirability and security of those properties is enhanced by the presence of well-maintained improvements in close proximity to those properties. The special benefits associated with landscape improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life through well-maintained green space and landscaped areas.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation, and attenuating noise.

The special benefits of street lighting and other public lighting facilities are the convenience, safety, and security of property, improvements, and goods. Specifically:

- Enhanced deterrence of crime and the aid to police protection.
- Increased nighttime safety on roads, streets, and public areas.
- Improved ability of pedestrians and motorists to see.
- Improved ingress and egress to property.

- Reduced vandalism and other criminal acts and damage to improvements or property.
- Improved traffic circulation and reduced nighttime accidents and personal property loss.

All the preceding factors contribute to a specific enhancement and desirability of each of the assessed parcels within the District and thereby provide special benefits to the properties. Furthermore, it has been determined that the lack of funding to properly service and maintain the District improvements could have a negative impact on the properties within the District.

General Benefit

In reviewing each of the District improvements, the proximity of those improvements to both properties within the District and those outside the District as well as the reasons for installing and constructing such improvements, it is evident that the improvements are solely for the benefit of properties within the District and the ongoing maintenance and operation of the improvements will directly affect the properties within the District. Although the improvements include public areas, easements, rights-of-way and other amenities available or visible to the public at large, the construction and installation of these improvements were only a direct benefit to the properties within the District and were not required nor necessarily desired by any properties or developments outside the District boundary and any public access or use of the improvements by others is incidental. Therefore, it has been determined that the improvements and the ongoing maintenance, servicing and operation of those improvements provide no measurable general benefit to properties outside the District or to the public at large, but clearly provide distinct and special benefits to properties within the District.

Assessment Methodology

The method of apportionment for the District calculates the receipt of special benefit from the respective improvements based on the actual or proposed land use of the parcels within the District. The special benefit received by each lot or parcel is equated to the overall land use of parcels within the District based on the parcel's actual land use or proposed development.

All costs associated with the improvements shall be fairly distributed among the parcels based upon the special benefit received by each parcel. Additionally, in compliance with the California Constitution, each parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred to that parcel. The benefit formula used to determine the assessment obligation is therefore based upon both the improvements that benefit the parcels within the District as well as the proposed land use of each property as compared to other parcels that benefit from those specific improvements.

At the time that the District was being formed and to identify and determine the special benefit to be received by each parcel and their proportionate share of the improvement costs, it was necessary to consider the entire scope of improvements to be maintained by the District, as well as individual property development within the District. Upon review of

the improvements to be maintained, it was determined that four (4) distinct areas benefit differently from the improvements within the District and therefore the landscape maintenance and assessments were established as four (4) benefit zones for the allocation of the assessments and proportional special benefit, as described below. Although a portion of Zone 4 was designated as Zone 4A in Fiscal Year 2007-08, as discussed below, Zones 4 and 4A remain as one benefit zone and are assessed at the same maximum rate.

Zones and Assessments:

Zone 1 is comprised of ninety-six (96) assessable residential properties, each of which were assessed on a per parcel basis at the pre-existing rate of $42.50 per parcel.

Zone 2 is comprised of one hundred fifty-four (154) assessable residential properties within the developments known as California Jazz Unit No.1 and Unit No. 2. Each of the one hundred fifty-four (154) assessable parcels were assessed as residential properties on an acreage basis at the pre-existing rate of $30.48 per acre for the median landscape improvements and parkway landscape improvements associated with these parcels.

Zone 3 is comprised of eighteen (18) assessable properties, each of which were assessed on an acreage basis at the pre-existing rate of $30.48 per acre for the median landscaping and $1,382.76 per acre for the landscaping along the parkways of Zinfandel Drive, totaling $1,413.24 per acre.

Zone 4 is comprised of fifty-one (51) assessable properties, each of which were assessed on an acreage basis at the pre-existing rate of $30.48 per acre for the median landscape improvements within the District.

Zone 4A is comprised of a portion of Zone 4. Properties within Zone 4A were re-designated as Zone 4A commencing with the Fiscal Year 2007-08 to account for the Zone 4A parcels lying within a portion of CFD 2005-2, while the remaining Zone 4 parcels are outside of the CFD 2005-2 boundaries. Since the CFD 2005-2 Zone 1, special taxes are to be levied upon Zone 4A parcels, these special taxes are contributed in part to the District for the benefit of Zone 4A. Zone 1 of the CFD provides funding for landscape improvements within and adjacent to the development, including the median landscaping identified herein. Although the CFD may fund median landscaping, the special taxes levied within Capital Village may not provide sufficient funds to maintain both the landscape improvements within the Capital Village development and the median landscape improvements within the District that specially benefit the parcels within Zone 4A. Therefore, Zone 4A is comprised of seven hundred eighty-three (783) assessable properties, each of which were assessed $30.48 per gross acre until such time that the CFD generates sufficient revenue to fund the median landscape improvements. Any funds generated by the CFD that will be used to finance the median landscape improvements that benefit Zone 4A shall be transferred by the CFD to the District as a contribution to Zone 4A.

Exempt Parcels — Properties within the District that are not assessed for special benefit include but are not limited to:

- Lots or parcels identified as public streets and other roadways (typically not assigned an APN by the County);
- Dedicated public easements including open space areas, utility rights-of-way, greenbelts, parkways, parks, or other publicly owned properties that are part of the District improvements or may provide other benefits to private properties within the District;
- Private properties that cannot be developed independently from an adjacent property, such as common areas, sliver parcels or bifurcated lots or properties with very restrictive development use.

These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempt from assessment, but shall be reviewed annually by the assessment engineer to confirm the parcels current development status. Government owned properties or public properties are not necessarily exempt properties and shall be subject to special benefit assessment unless it qualifies for an exempt classification.

Special Cases – In many districts where multiple land uses, and zones exist, the typical property classification and assessment methodology does not accurately identify the special benefits received from the improvements for each and every parcel. For example, in some cases, only a small percentage of the parcel's total acreage can actually be developed. In this case, an appropriate calculation would be based on the net acreage that can be utilized rather than the gross acreage of the parcel. These special circumstances will be reviewed annually by the assessment engineer.

Part E

ASSESSMENT ROLL

Parcel identification for each lot or parcel within the District is based on the Assessment Diagram presented herein and is based on available parcel maps and property data from the County Assessor's Office at the time the Engineer's Report was prepared. A listing of the proposed lots and parcels to be assessed within this District along with the assessment amounts is provided herein.

Non-assessable lots or parcels may include, but are not limited to public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas, rights-of-way, common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed or has little or no value. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempt from assessment.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate described in this Report as approved by the City Council. Therefore, if a single parcel is subdivided to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

The following is a list of the parcels and proposed assessment amounts for each of the parcels within the District as determined by the assessment rates and method of apportionment described herein.

MEMORANDUM

ITEM 9.4.

DATE: May 19, 2025

TO: Honorable Mayor and Council Members

FROM: Albert Stricker, Public Works Director
Dalia Fadl, Assistant Public Works Director

SUBJECT: **A RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MEMORANDUM OF UNDERSTANDING, CONTRACT NO. 2025-23, BETWEEN THE CITY OF RANCHO CORDOVA AND THE COUNTY OF SACRAMENTO ENVIRONMENTAL MANAGEMENT DEPARTMENT FOR ENFORCEMENT OF A STORM WATER ORDINANCE AT COMMERCIAL AND INDUSTRIAL FACILITIES IN RANCHO CORDOVA**

RECOMMENDATION

Adopt the Resolution.

RESULT OF RECOMMENDED ACTION

Adoption of the Resolution would authorize the City Manager to execute a Memorandum of Understanding (MOU), Contract No. 2025-23, with the County of Sacramento Environmental Management Department (EMD) for enforcement of the city's Storm Water Ordinance (Ch. 15.12) at commercial and industrial facilities in Rancho Cordova, which allows the city to economically and efficiently fulfill the commercial/industrial storm water program requirements of the National Pollutant Discharge Elimination System (NPDES) permit.

BACKGROUND

The city adopted a Storm Water Ordinance (Chapter 15.12; Storm Water Management and Discharge Control) to comply with its NPDES permit issued by the California Regional Water Quality Control Board. As required by the NPDES permit, the city is responsible for prohibiting and regulating the discharge of pollutants to the local storm water conveyance system. The Storm Water Ordinance sets forth the specific requirements that residents and businesses must abide by. In addition, the ordinance gives the city the ability to enter into agreements with the County of Sacramento to administer and enforce the ordinance in commercial and industrial areas.

The city has entered into past MOU contracts with the Sacramento County EMD to perform storm water inspection and enforcement activities at commercial and industrial businesses within its jurisdictional boundaries. Staff has determined that it is more economical and efficient to continue to utilize the services of EMD to fulfill the commercial/industrial storm water program requirements of the NPDES permit.

EMD's Commercial/Industrial Storm Water Compliance Program regulates nine types of businesses in Rancho Cordova:

1. Auto repair shops
2. Auto body shops
3. Auto sales, leases, and rental dealerships
4. Gas stations
5. Restaurants
6. Nurseries
7. Kennels
8. Equipment rental businesses
9. Facilities that have coverage under the State's General Industrial Storm Water Permit

In general, businesses must exhibit good housekeeping by incorporating best management practices that prevent onsite pollutants from entering the city's storm drain system. Sacramento County EMD educates business owners and conducts progressive enforcement for businesses in violation of the Storm Water Ordinance. EMD provides reports to city staff on a monthly basis.

The proposed MOU, Attachment 2, would replace the previous MOU that expires June 30, 2025. The proposed MOU's expiration date is June 30, 2030.

FISCAL IMPACT AND FUNDING SOURCE

EMD's Commercial/Industrial Storm Water Compliance Program is funded by fees paid to EMD by the businesses that the EMD inspects. There are no direct costs to the city for this program.

MEMORANDUM

ITEM 9.5.

DATE: May 19, 2025

TO: Honorable Mayor and Council Members

FROM: Albert Stricker, Public Works Director
Dalia Fadl, Assistant Public Works Director

SUBJECT: **A RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE CONTRACT CHANGE ORDER NO. 2023-47-5 WITH ANVIL BUILDERS, INC. TO INCREASE THE CONTRACT AMOUNT FROM $3,647,999.00 TO AN AMOUNT NOT TO EXCEED $4,124,491.93 AND EXTEND THE CONTRACT TERM TO SEPTEMBER 30, 2025, FOR CONSTRUCTION OF THE PUMP STATIONS IMPROVEMENTS PROJECT**

RECOMMENDATION

Adopt the Resolution.

RESULT OF RECOMMENDED ACTION

Adoption of the Resolution and approval of the construction contract change order with Anvil Builders, Inc. would align with the objectives of the Pump Stations Improvement Project (Project) to increase flood control safety and resilience in the city. The contract change order allows staff to finalize the pump station construction improvements which will modernize legacy equipment.

BACKGROUND

The City of Rancho Cordova operates and maintains six stormwater drainage pump stations throughout the city (see Attachment 3 for City Pump Stations Map). Five of the six pump stations were constructed by Sacramento County and various developers between 1960 and 1985. Bear Hollow Drainage Pump Station was constructed in 2004. Decades of inclement weather have caused damage to the original equipment. The components of the original equipment are no longer manufactured; replacement parts are only available through the second-hand refurbished market at premium prices.

The Project consists of major electrical improvements as well as various general civil, mechanical, and structural improvements at the six drainage pump stations. These improvements include installation of electrical conduits, pavement and fencing adjustments, and concrete foundations at four pump stations for standby generators that were purchased through a FEMA grant under the Pump Stations Generators project.

Bids for this work were solicited on the city's website and CIPList.com on February 9, 2023.

Bids for the project were publicly opened on Thursday March 9, 2023. Three bids were received and the lowest responsible and responsive bid was $3,647,999 from Anvil Builders Inc. On April 3, 2023, the City Council approved a construction contract with Anvil Builders to construct the Project.

Per the City Municipal Code, Section 3.60.110 C, the City Manager is given the authority to approve change orders up to 10% of the contract value. Change Orders No. 1, 2, 3, and 4, totaling $249,283.35 for generator pad modifications and improvements related to security camera and fiber connections, were processed administratively in compliance with RCMC 3.60.110 C.

Change Order No. 5 is valued at an amount of $227,209.58, which exceeds the City Manager's signing authority, thus requiring City Council approval. To complete this project, the city is also seeking to extend the contract term from June 30, 2025, to September 30, 2025. This change order represents project design changes occurring because of SMUD coordination and unforeseen repairs during the connection of new equipment to legacy equipment as detailed in the Contract Change Order (Attachment 2).

FISCAL IMPACT AND FUNDING SOURCE

The Pump Stations Improvement Project is funded from the Stormwater Enterprise Fund. There is no impact to the City's General Fund. This project is included in the city's current approved Capital Improvement Plan.

MEMORANDUM

ITEM 9.6.

DATE: May 19, 2025

TO: Honorable Mayor and Council Members

FROM: Micah Runner, City Manager
Amanda Norton, Economic Development Director
Edgar Medina, Assistant Public Works Director

SUBJECT: **A RESOLUTION AUTHORIZING THE ACQUISITION OF PROPERTY AT 10801 WHITE ROCK ROAD, RANCHO CORDOVA, APN 072-0610-091-0000, AND AUTHORIZING EXECUTION OF A PURCHASE AND SALE AGREEMENT, AND CERTIFICATE OF ACCEPTANCE AND RECORDATION OF A GRANT DEED**

RECOMMENDATION

Adopt the Resolution.

RESULT OF RECOMMENDED ACTION

Adoption of the Resolution would allow the City Manager to proceed with the execution of documents necessary to purchase and take possession of the property located at 10801 White Rock Road (“Property”) for a future determined use for the amount of $3,000,000.

BACKGROUND

Although no specified use is projected for the site at this time, the property’s location adjacent to the Rancho Cordova City Hall provides the city with flexibility to plan for future public uses that will be a part of the city's growth and vision. As an interim use and due to its proximity to a key capital infrastructure project, the city will utilize the property for the construction of the Zinfandel Drive Bicycle & Pedestrian Overcrossing Project. The property value analysis and broker opinion of value is in line with the purchase price and market value for this property.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (Section 21000, et. seq. of the California Public Resources Code, hereafter CEQA) requires analysis of agency approvals of discretionary “projects.” A “project,” under CEQA, is defined as “the whole of an action, which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.” The acquisition of property by a public agency is a project as defined by CEQA. Pursuant to CEQA Guidelines Section 15061(b)(3), an activity is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. The activity is not subject to CEQA where it can be seen with certainty that there is no possibility that the activity in question may have a

significant effect on the environment.

As noted above, the action is to allow the City Manager to proceed with the execution of documents necessary to purchase and take possession of the property and no specified use is currently proposed or being considered for the site by the City. Further, while future development of the site is assumed, the type and intensity of development cannot be determined and it would be speculative to identify the type and level of development that would ultimately be constructed on site and the potential effects of that development. Pursuant to CEQA Guidelines Section 15145, if an impact is too speculative for evaluation the agency is not required to, nor should it, engage in speculation and should terminate the discussion. It should be noted that, at such time as development is proposed for the site, a project-level analysis can and will be prepared to disclose potential environmental impacts of that development. However, because the current action would only result in the change of ownership of the property and no physical changes would occur on the site that could result in physical environmental effects, the activity is not subject to CEQA pursuant to CEQA Guidelines section 15061(b)(3).

FISCAL IMPACT AND FUNDING SOURCE

The purchase price for the Property located at 10801 White Rock Road is $3,000,000. It is anticipated that additional funds will be needed for closing costs, including legal and environmental review. The land purchase and closing costs will be funded through any available General Fund surplus available in the current fiscal year, followed by Measure R Funds allocated to property acquisitions. A funding source for future improvements on this property has not been identified at this time.

If purchased, the Property will require annual property maintenance and security costs not expected to exceed $2,000 per year until it is developed or disposed of in some other way.

MEMORANDUM

ITEM 9.7.

DATE: May 19, 2025

TO: Honorable Mayor and Council Members

FROM: Micah Runner, City Manager

SUBJECT: **A RESOLUTION AUTHORIZING THE ACQUISITION OF PROPERTY AT 10455 INVESTMENT CIRCLE, RANCHO CORDOVA, AND AUTHORIZING EXECUTION OF A PURCHASE AND SALE AGREEMENT, ASSIGNMENT AND ASSUMPTION AGREEMENT, CERTIFICATE OF ACCEPTANCE, AND RECORDATION OF A GRANT DEED**

RECOMMENDATION

Adopt the Resolution.

RESULT OF RECOMMENDED ACTION

Adoption of the Resolution would allow the City Manager to proceed with the execution of documents necessary to purchase the property located at 10455 Investment Circle, APN 057-0212-008-0000 for the use of the Rancho Cordova Youth Center for the amount of $1,000,000.

BACKGROUND

The City of Rancho Cordova currently leases the property at 10455 Investment Circle from the Center of Praise Ministries, Inc. The church offered to lease its 1.75-acre property and nearly 9,500-square-foot building to the city for $1.00 per year for 25 years, contingent upon its transformation into a youth center. This agreement enabled the city to renovate and repurpose the facility, launching the Rancho Cordova Youth Center. The city signed the lease in 2020.

The FY 2024/25 Sacramento County assessed value of the property is more than $4,000,000. The purchase price of the property is $1,000,000, far less than the market rate and less than the original 2019 listing price.

The Subject Property operates as the Rancho Cordova Youth Center and there are no plans to change the current use of the site.

PLANNING COMMISSION REVIEW

On May 14, 2025, the Planning Commission found that the acquisition of the property located at 10455 Investment Circle with a public use consistent with the Rancho Cordova General Plan.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (Section 21000, et. seq. of the California Public Resources Code, hereafter CEQA) requires analysis of agency approvals of discretionary "projects." A "project," under CEQA, is defined as "the whole of an action, which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment." The acquisition of property by a public agency is a project as defined by CEQA. Pursuant to CEQA Guidelines Section 15061(b)(3), an activity is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. The activity is not subject to CEQA where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

As noted above, the purpose of the project is to purchase a parcel that is fully developed as the site of the Rancho Cordova Youth Center. There are no plans to change the current use of the site, obtain permits, or any other change in use, and the site will continue to operate as the Rancho Cordova Youth Center. The sale of real property would entail a change in the property's ownership and transfer of the deed, and would have no effect on the environment. As it can be seen with certainty that the acquisition of land will not have a significant effect on the environment, the project is exempt from further CEQA review pursuant to CEQA Guidelines section 15061(b)(3).

FISCAL IMPACT AND FUNDING SOURCE

The purchase price for the land is $1,000,0000. It is anticipated that additional funds will be needed for closing costs, including legal and environmental review. The city's General Fund reserves will be used to pay for the acquisition costs.

The property is already maintained and operated by the city as the Rancho Cordova Youth Center.

MEMORANDUM

ITEM 9.8.

DATE: May 19, 2025

TO: Honorable Mayor and Council Members

FROM: Albert Stricker, Public Works Director

SUBJECT: **A RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MEMORANDUM OF UNDERSTANDING, CONTRACT NO. 2025-59, BETWEEN THE CITY OF RANCHO CORDOVA AND THE COUNTY OF SACRAMENTO REGARDING COORDINATION OF STATE TRANSPORTATION IMPROVEMENT PROGRAM FUNDING APPLICATIONS AND COMMUNICATION ON THE FEDERAL FUNDING PROGRAM WITHIN SACRAMENTO COUNTY**

RECOMMENDATION

Adopt the Resolution.

RESULT OF RECOMMENDED ACTION

Adoption of the Resolution would authorize the City Manager to sign the Memorandum of Understanding (MOU) regarding coordination of State Transportation Improvement Program (STIP) funding applications and communication within Sacramento County. Entering into the MOU will increase reliability of State Transportation Improvement Program Funds allocated to the city, thereby increasing the ability to plan for City of Rancho Cordova improvements, and reducing efforts to prepare applications to pursue these funds.

BACKGROUND

Beginning with SB 45 (Kopp) in 1997, Regional Transportation Planning Agencies (RTPAs) were given authority for programming county shares of STIP funding through a California Transportation Commission (CTC) led process. STIP can fund new capital improvements for city roadway infrastructure. In this process, each RTPA is tasked with preparing a Regional Transportation Improvement Program (RTIP) consistent with CTC's STIP Guidelines to allocate these funds based on a statutorily defined formula incorporating population (75%) and highway lane miles (25%) as the basis for "county shares." Sacramento Area Council of Governments (SACOG) serves as the RTPA for Sacramento, Sutter, Yolo, and Yuba counties. SACOG submits its RTIP every two years, programming the county shares of STIP funds for these counties using a pooled competitive approach. In February 2024, SACOG revamped its STIP funding approach to include both a competitive regional program and individual intra-county competitive programs with a separate call for projects from the federal funding programs. Then, in February 2025, SACOG approved a funding estimate for the 2025 Four-County STIP Program, with 90% of each county's share allocated to individual county competitive funding programs, as well as a call for projects. See the table below for expected two-year allocations

(Note that the amount of STIP funds varies and future cycles will likely be different from the expected 2025 allocations identified below).

County	County Share	Regional (10%)	Individual County (90%)
Sacramento	**$31,562,377**	**$3,156,237**	**$28,406,140**
Yuba	$2,801,345	$280,135	$2,521,210
Yolo	$5,965,048	$596,505	$5,368,543
Sutter	$2,255,930	$225,593	$2,030,337
Total	$42,584,700	$4,258,470	$38,326,230

At the end of 2024, Yolo County began considering a collectively beneficial approach to the upcoming 2025 Four-County STIP Program. The approach would be to partner through a memorandum of understanding (MOU) utilizing formulas to allocate STIP funding across eligible agencies to develop and submit a competitive package of projects to SACOG. This approach would improve the certainty of the funding amounts at the agency level and SACOG has expressed a willingness to support this approach by evaluating projects for competitiveness through a pre-application process.

In the beginning of 2025, the Sacramento Transportation Authority (STA), SACOG, County of Sacramento, cities, and transit and rail providers evaluated the potential for a similar approach to allocating the $28,406,140 within Sacramento County based on 77.5% ($22,015,000 rounded to nearest thousand) for roads and active transportation projects and the remaining 22.5% ($6,391,140) for transit and rail projects. Then suballocating the roads and active transportation funds to the County and Cities based on the Measure A formula of 75% population and 25% lane miles. The agency staff were supportive of this approach and this strategy was approved at the March STA Governing Board meeting. In this process, STA will provide staff to coordinate among the various agencies involved each cycle and to communicate with agencies on the funding programs administered by SACOG. Agencies will still be required to submit projects meeting STIP and SACOG requirements for award by SACOG but will have more certainty in funding. The resulting two-year allocations for 2025 are as follows:

Area	Suballocation
Transit (22.5%)	$ 6,391,140
Citrus Heights	$ 1,109,000
Elk Grove	$ 2,400,000
Folsom	$ 1,274,000
Galt	$ 363,000
Isleton	$ 100,000
Rancho Cordova	**$ 1,168,000**

Sacramento	$ 6,889,000
Unincorporated County	$8,712,000
TOTAL	$ 28,406,140

On April 10, 2025, the STA Board authorized their Executive Director, Kevin Bewsey, to enter into the attached MOU with the County of Sacramento, Cities, and transit and rail providers. Entering into the MOU will increase reliability of State Transportation Improvement Program Funds allocated to the city, therefore increasing the ability to plan for city improvements, and reducing efforts to prepare applications to pursue these funds.

FISCAL IMPACT AND FUNDING SOURCE

The 2025 estimated STIP funding is a $1,168,000 grant to the City of Rancho Cordova.

MEMORANDUM

ITEM 9.9.

DATE: May 19, 2025

TO: Honorable Mayor and Council Members

FROM: Jesse Yabes, Associate Civil Engineer
Edgar Medina, Assistant Public Works Director
Albert Stricker, Public Works Director

SUBJECT: **A RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE CONTRACT NO. 2025-73 IN AN AMOUNT NOT TO EXCEED $2,933,362.00 WITH GHILOTTI CONSTRUCTION COMPANY, INC. TO CONSTRUCT PHASE 3 OF THE SUNRISE BOULEVARD REHABILITATION PROJECT**

RECOMMENDATION

Adopt the Resolution.

RESULT OF RECOMMENDED ACTION

Adoption of the Resolution would promote public safety and improve reliability on Sunrise Boulevard, a major arterial, by awarding a construction contract to rehabilitate the roadway and upgrade pedestrian push buttons at two signalized intersections.

BACKGROUND

Sunrise Boulevard is identified as a critical backbone infrastructure because it connects mixed land uses, supports development, and promotes economic development and new housing near Rancho Cordova's job base. Construction of Phase 3 of the Sunrise Boulevard Rehabilitation Project (Project) will resurface the pavement, re-stripe the roadway, upgrade six drainage inlets, replace pedestrian push buttons at two signalized intersections, and perform other incidental work as required. The project area is located on the east side of Sunrise Boulevard, from Douglas Road to Kiefer Boulevard, and on the west side of Sunrise Boulevard from Douglas Road to the city's boundary line (Attachment 4). Completion of the Project will increase the reliability of Sunrise Boulevard, a principal transportation corridor, which brings long-term economic benefits to the community and region.

Bids for the project were solicited on the city's website and OpenGov.com. Bids were publicly opened on April 24, 2025. A total of nine were received. The lowest responsible and responsive base bid was $2,933,362.00 from Ghilotti Construction Company, Inc. Due to funding constraints, city staff declined a bid alternative for additional pavement preservation treatment. The contractor award was based on the lowest, responsive and responsible base bid. The Bid Summary Checklist is provided as Attachment 3.

This Project was subject to environmental review under the California Environmental Quality Act (CEQA). The Project was determined to be exempt from CEQA regulations pursuant to the categorical exemptions in Section 15301(c), "Existing Facilities," for existing streets and highways, so long as the project does not create additional automobile lanes. None of the exceptions in Section 15300.2 apply to this categorical exemption.

Staff recommends awarding the construction contract to Ghilotti Construction Inc**.** and authorizing the City Manager to execute the agreement (Attachment 2). The Project is expected to be under construction starting in Summer 2025 and completed in Spring 2026.

FISCAL IMPACT AND FUNDING SOURCE

This project is included in the Capital Improvement Plan budget for Fiscal Years 2024-25 and 2025-26. the Project budget consists of funding from New Measure A Fund, Gas Tax, Measure R Fund, and Road Maintenance and Rehabilitation Account. There is no impact on the city's General Fund.

Contractor shall comply with all applicable federal, state, and local laws, policies, rules, and requirements related to equal opportunity and nondiscrimination in employment, contracting, and the provision of any services that are the subject of this Agreement, including but not limited to the satisfaction of any positive obligations required of Contractor thereby. Any person or entity submitting a bid on this project to engage in the business or act in the capacity of a contractor shall be licensed as a contractor in accordance with the provisions of Division 3, Chapter 9 of the California Business and Professions Code. A bid

submitted to the City by a contractor who is not licensed as set forth above shall be considered non-responsive and shall be rejected by the City.

Before awarding the contract for this project, the City must verify that the contractor was properly licensed when the contractor submitted his/her bid on this project. In order for the City to verify the license status of a contractor, the contractor, at the time he/she submits his/her bid for the project, shall provide the City his/her contractor's license information.

No bid submitted to the City shall be invalidated by the failure of the bidder to be licensed in accordance with the laws of this state. However, at the time the contract is awarded, the contractor shall be properly licensed in accordance with the laws of this state. The first payment for work or material under any contract shall not be made unless and until the Registrar of Contractors verifies to the City that the records of the Contractors' State License Board indicate that the contractor was properly licensed at the time the contract was awarded. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by law, including, but not limited to, any appropriate disciplinary action by the Contractors' State License Board. IRAN CONTRACTING ACT OF 2010 COMPLIANCE AFFIDAVIT

(California Public Contract Code Sections 2200-2208)

The California Legislature adopted the Iran Contracting Act of 2010 to respond to policies of Iran in a uniform fashion (PCC § 2201(q)). The Iran Contracting Act prohibits bidders engaged in investment activities in Iran from bidding on, submitting proposals for, or entering into or renewing contracts with public entities for goods and services of one million dollars ($1,000,000) or more (PCC § 2203(a)). A bidder who "engages in investment activities in Iran" is defined as either:

1. A bidder providing goods or services of twenty million dollars ($20,000,000) or more in the energy sector of Iran, including provision of oil or liquefied natural gas tankers, or products used to construct or maintain pipelines used to transport oil or liquefied natural gas, for the energy sector of Iran; **or**
2. A bidder that is a financial institution (as that term is defined in 50 U.S.C. § 1701) that extends twenty million dollars ($20,000,000) or more in credit to another person, for 45 days or more, if that person will use the credit to provide goods or services in the energy sector in Iran and is identified on a list created by the California Department of General Services (DGS) pursuant to PCC § 2203(b) as a person engaging in the investment activities in Iran.

The bidder shall certify that at the time of submitting a bid for new contract or renewal of an existing contract, the bidder is **not** identified on the DGS list of ineligible businesses or persons and that the bidder is **not** engaged in investment activities in Iran in violation of the Iran Contracting Act of 2010.

California law establishes penalties for providing false certifications, including civil penalties equal to the greater of $250,000 or twice the amount of the contract for which the false certification was made; contract termination; and three-year ineligibility to bid on contracts (PCC § 2205).

MEMORANDUM

ITEM 10.1.

DATE: May 19, 2025

TO: Honorable Mayor and Council Members

FROM: Arlene Granadosin-Jones, Planning Manager

SUBJECT: **AN ORDINANCE AMENDING TITLE 23, CHAPTER 23.313 MIXED-USE ZONING DISTRICT, CHAPTER 23.316 GENERAL COMMERCIAL AND INDUSTRIAL ZONES, CHAPTER 23.325 OVERLAY ZONING DISTRICTS, CHAPTER 23.734 ACCESSORY STRUCTURES, CHAPTER 23.919 SPECIAL REGULATED USES, CHAPTER 23.1104 DEFINITIONS, AND THE FOLSOM BOULEVARD SPECIFIC PLAN**

RECOMMENDATION

Waive the first reading and introduce the Ordinance.

RESULT OF RECOMMENDED ACTION

The Ordinance would come back for a second reading and proposed adoption at the next Regular City Council meeting. Adoption of the Ordinance would amend Title 23 Zoning Code and the Folsom Boulevard Specific Plan.

BACKGROUND

Periodically, amendments to the Municipal Code are necessary to address ambiguities, provide clarification, to be consistent with customary practice or comply with changes in State law. In the past, various Titles of the Code and Specific Plan documents have routinely been amended for these assorted reasons, as well as including new development standards to address new uses. The amendments proposed are mostly clean up items to address. Staff did not believe these minor changes warranted a discussion with the City Council prior to scheduling the amendments for a public hearing. At their regular meeting on April 9, 2025, the Planning Commission heard the items in a duly noticed public hearing and adopted a Resolution recommending that the City Council adopt the Ordinance amending Title 23 and the Folsom Boulevard Specific Plan.

ANALYSIS

Attachment 3 includes all draft amendments, shown in track changes with new draft language underlined and language proposed for removal with strikethrough lines. Only those chapters and/or sections with proposed changes are included in the attached documents as excerpts from the Rancho Cordova Municipal Code and the Folsom Boulevard Specific Plan. A summary of the changes is provided below. Attachment 2 includes all the amendments in a non-track change format. This is provided as an exhibit to the Ordinance.

ZONING CODE AND FOLSOM BOULEVARD SPECIFIC PLAN AMENDMENTS

Consistency with AB 2632

Assembly Bill 2632 went into effect on January 1, 2025, and prohibits local governments from treating thrift retail establishments differently than non-thrift retail establishments for zoning, land use, approval, and development purposes or from receiving used or donated items for sale in that or another store. The proposed amendments would permit “Thrift Store” in zoning districts where “Retail, General” is permitted or conditionally permitted.

Per State law, a city may still require:

- That thrift retail stores meet certain aesthetic or design standards.
- That the delivery of goods or donations is conducted within a specified area of the store’s premises.
- That donations be accepted only during business hours.
- That the donation process is operated by employees of the store and that the donations of goods from the public are collected and received by employees of the thrift retail store.
- Limits on the size of the area within which collecting and receiving activities are conducted.
- Limits on operation of equipment associated with the collection, receipt, processing, or disposal of used and donated goods.
- Enforce health and safety standards including, but not limited to, those relating to shopping center ingress and egress or the enforcement of illegal dumping.

Chapter 23.919.090 of the Zoning Code includes design standards and operational requirements that thrift store uses will still be required to follow and adhere to.

The following Zoning Code sections and the allowed uses chapter of the Folsom Boulevard Specific Plan are updated to be consistent with AB 2632:

- Title 23 Zoning Code, Chapter 23.313 Mixed-Use Zoning Districts
- Title 23 Zoning Code, Chapter 23.316 General Commercial and Industrial Zones
- Title 23 Zoning Code, Chapter 23.325 Overlay Zoning Districts
- Title 23 Zoning Code, Chapter 23.919 Special Regulated Uses
- Folsom Boulevard Specific Plan, Chapter 2 Land Use Plan and Allowed Uses

Chapter 23.734 Accessory Structures

The proposed amendment provides clarity for the term “architecturally compatible” to indicate that accessory structures should be similar in materials, color, architectural details, and façade treatments with the primary building. The proposed amendment also clarifies the location standard for accessory structures on residential properties. Currently, the Zoning Code states that accessory structures are not permitted to be in front of the principal building, however, there are instances where garages are located closer to the front property line than the living area of a house. The intent of the standard is to make sure that accessory structures are placed behind the front-most façade of the living area of a house to maintain the integrity of the residential neighborhood streetscape.

Chapter 23.1104 General Definitions

The proposed amendment would revise the definition of the following:

- "Home Occupation" to include "internet sales" in the definition. All home-based businesses would still be required to adhere to Zoning Code Chapter 23.901.030, which includes specific regulations to ensure compatibility with the principal residential use.
- "Vehicle Services - Major" to delete "cleaning (e.g., self-service and attended car washes)" in the definition. This type of use has a separate land use definition as "car washing" in the Zoning Code.
- "Recreational Vehicle" to revise the definition to be consistent with the definition used by the California Department of Motor Vehicles (DMV).

ENVIRONMENTAL ANALYSIS

CEQA requires analysis of agency approvals of discretionary "projects." A "project," under CEQA, is defined as "the whole of an action, which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment." (CEQA Guidelines, § 15378.) As reflected in State CEQA Guideline 15061 (b)(3), an activity is not subject to CEQA, "where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment…" The proposed amendments are not a "project" within the meaning of CEQA because the amendments seek to further regulate or clarify uses that are already present in the City or provide consistency with State law and no significant expansion of these activities can reasonably be anticipated to occur. Because no expansion of uses or activities is reasonably anticipated, no possibility exists that the ordinance will result in a significant effect on the environment. Thus, the proposed ordinance is not subject to the requirements of CEQA. However, in the event that adoption of the Ordinance is considered a CEQA project, it would nonetheless qualify for categorical exemptions as set forth below.

CEQA Guidelines Section 15061(b)(3) states that a project is exempt from CEQA "where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment." The approval of the code amendments set forth in the proposed ordinance does not approve any physical development and it would not result in a direct or indirect physical changes in the environment. Any specific development projects that may result from these changes will be subject to environmental review. The proposed amendments are consistent with the City's General Plan. For these reasons, the proposed amendments would not have the potential to result in individually or cumulatively significant effects on the environment and these Municipal Code amendments are exempt from review under CEQA and no further environmental review is necessary.

FISCAL IMPACT AND FUNDING SOURCE

There is no Fiscal impact.

Section 2: Findings. This Ordinance is adopted pursuant to the following findings:

A. **CEQA Compliance.** CEQA requires analysis of agency approvals of discretionary "projects." A "project," under CEQA, is defined as "the whole of an action, which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment." (CEQA Guidelines, § 15378.) As reflected in State CEQA Guideline 15061 (b) (3), an activity is not subject to CEQA, "[where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment…" The proposed amendments are not a "project" within the meaning of CEQA because the amendments seek to provide clarification of uses, standards and/or enforcement procedures, address inconsistencies between definitions, delete text that is no longer necessary. Because no expansion of uses or activities is reasonably anticipated, no possibility exists that the ordinance will result in a significant effect on the environment. Thus, the proposed ordinance is not subject to the requirements of CEQA. However, in the event that adoption of the ordinance is considered a CEQA project, it would nonetheless qualify for categorical exemptions as set forth below.

CEQA Guidelines Section 15061(b)(3) states that a project is exempt from CEQA "where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment." The approval of the code amendments set forth in the proposed ordinance does not approve any physical development and it would not result in a direct or indirect physical changes in the environment. Any specific development projects that may result from these changes will be subject to environmental review. The proposed amendments are consistent with the city's General Plan. For these reasons, the proposed amendments would not have the potential to result in individually or cumulatively significant effects on the environment and these

Municipal Code amendments are exempt from review under CEQA and no further environmental review is necessary.

B. **The proposed amendment is consistent with the General Plan.** The attached Municipal Code Amendments and Folsom Boulevard Specific Plan Amendment ("Amendments") are consistent with the General Plan. The amendments would address inconsistencies, delete text and graphics that are no longer necessary, and provide clarifying language for implementation.

C. **The proposed amendment would not be detrimental to the public interest, health, safety, convenience, or welfare of the city.** The amendments would address inconsistencies, delete text and graphics that are no longer necessary, and provide clarifying language for implementation. None of these proposed amendments will be detrimental to the public interest, health, safety, convenience, or welfare of the city.

D. The proposed amendments are internally consistent with other applicable provisions in this Zoning Code. The Amendments have been reviewed for consistency with the entirety of the Municipal Code and are consistent with other applicable provisions of the Municipal Code.

Section 5. Severability

If any provision of this Ordinance or the application thereof to any person or circumstance, is held invalid, the remainder of the Ordinance, including the application of such part or provision to other persons or circumstances shall not be affected thereby and shall continue in full force and effect. To this end, provisions of this Ordinance are severable. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase hereof irrespective of the fact that any one or more sections, subsections, subdivisions, paragraphs, sentences, clauses, or phrases be held unconstitutional, invalid or unenforceable.

Section 6. Effective Date

23.316.030 Allowed land uses and permit requirements.

Table 23.316-1 identifies allowed uses and corresponding requirements for the general commercial and industrial zoning districts subject to compliance with Chapter 23.304 RCMC (Land Use Classification) and all other provisions of this title. Descriptions/definitions of the land uses can be found in Article 11 of this title (Definitions). The specific use regulations column in the table identifies the specific chapter or section where additional regulations for that use type are located within this title.

This zoning code relies upon a generalized list of allowed and conditionally allowed uses. Some interpretation is required to determine whether or not a specific use falls into a particular use category. Typically a use clearly falls into a particular category, but three additional tools are provided in this title to identify the appropriate use category when necessary:

A. RCMC 23.1104.040 (Land use definitions) includes land use descriptions.

B. Similar Use Determinations. For uses that are not listed in Table 23.316-1 or where it is not clear whether a use would be permitted, a similar use determination can be processed according to Chapter 23.122 RCMC (Similar Use Determinations). All of the definitions, tables and other provisions of this title, in addition to the operational characteristics of the intended use, can be used to make a similar use determination.

Use regulations in the table are shown with a representative symbol by use classification listing: “P” symbolizes uses allowed by right, “AUP” symbolizes uses that require approval of an administrative use permit, “C” symbolizes uses that require approval of a conditional use permit, and “N” symbolizes uses that are not permitted.

Notes:
1. Trade schools permitted by right; all other schools require an AUP.
2. Permitted if the entire operation is conducted within a completely enclosed building or screened from view behind a fence or wall.
3. Off-site sales of alcohol permitted as an allowed use if incidental to a permitted use (e.g., breweries, wineries). Only retail sale of alcohol is permitted as part of the primary use. All other types of off-site sales (e.g., convenience store) require a conditional use permit. See Wholesaling and Distribution for nonretail sales.
4. On-site sales permitted with limited use permit. Off-site requires a conditional use permit.
5. Incidental sales up to 15 percent of developed portion of site are permitted as a by-right use and must be fully screened from view or enclosed within a building. Automotive sales that exceed 15 percent of the developed portion of the site or outdoor display areas that are not screened from view may be permitted with the issuance of an administrative use permit.
6. All retail, accessory and office, accessory uses are permitted up to a combined 50 percent of total building square footage.
7. The following limitations apply to retail, accessory and office, accessory in the M-2 district:
a. Sales are allowed when incidental to a permitted use and sales and stock room area does not exceed 25 percent of total floor area;
b. Offices are allowed when incidental to a permitted use and do not exceed 25 percent of total floor area;
c. Cafes/restaurants are allowed up to 15 percent of building square footage (freestanding restaurants require the issuance of a conditional use permit).
8. Up to 50 percent of total building area may be used for storage, warehousing, distribution or similar use as a permitted use. A conditional use permit is required to exceed this percentage.
9. This use is permitted if an integral part of the primary use (unrelated, incidental rental operations are not permitted). Additional provisions in RCMC 23.913.040 (Accessory automobile sales and rental uses) apply.
10. Uses which serve alcohol for on-site consumption and which have an “on-sale” license from the California Department of Alcoholic Beverage Control must be located at least 250 feet from any adult live theater in which live nude dancing is performed and which is subject to Section 143.3 of the California Code of Regulations.
11. On-site urban agriculture stands are allowed up to 120 square feet, on the site of an urban agriculture use consistent with applicable regulations in RCMC 23.904.030.

This shall not apply to any home occupation massage business that is in full compliance with home occupation requirements in Chapter 23.901 RCMC.
15. Over 20,000 square feet requires an administrative use permit.
16. On-site consumption of food is considered a permitted use if the related primary use is a permitted use.
17. On-site consumption of alcohol, as an accessory use to a permitted use, requires approval of an administrative use permit.

23.325.020 Convention (CO) overlay zoning district.

A. Purpose and Intent. The purpose of the convention (CO) overlay zoning district is to establish an area in the city specifically for the development of a convention center with related and supporting uses. The convention district is intended to be a special place in the city that is entertaining, vibrant, and inviting to tourists, visitors, and residents alike. This overlay district supplements the provisions of the underlying zoning districts for the special purposes identified herein. Where there is conflict between this overlay district and the underlying base district, the overlay district regulations prevail.

B. Convention Overlay District Area. The convention overlay zoning district is applied to those parcels described in Figure 23.325-1 (Convention Overlay District Area), consistent with the General Plan's convention overlay. The convention overlay district is generally defined as that area south of Highway 50, east of Kilgore Road, north of Sun Center Drive, and west of Citrus Road.

Figure 23.325-1: Convention Overlay District Area

C. Allowed Uses. Table 23.325-1 identifies the allowed use provisions specific to the convention overlay zoning district. The allowed use provisions of Table 23.325-1 supersede and replace the allowed use provisions of the underlying base zoning district of the applicable property. Similar uses may be determined as identified in this title. The allowed use provisions are listed in compliance with Chapter 23.304 RCMC (Land Use Classification).

Use regulations in the table are shown with a representative symbol by use classification listing: "P" symbolizes uses allowed by right, "AUP" symbolizes uses that require approval of an administrative use permit, "C" symbolizes uses that require approval of a conditional use permit, and "N" symbolizes uses that are not permitted.

Notes:

1. For mixed-use zones, the use is permitted in conjunction with the predominant use of the underlying base zoning district. In other words, this use is only allowed as part of an integrated development.
2. Off-premises sale of alcohol is an allowed use where such sales are incidental to an allowed use that provides on-site alcohol consumption (restaurant, brew pub, tasting room, etc.).
3. Dormitories on any parcel that is part of a contiguous campus are permitted as an accessory use to the public or private school.

D. Development Standards. The following development standards are applicable to the convention overlay zoning district. These standards, along with other development standards (e.g., landscaping requirements, parking standards) in this title and citywide design guidelines, are intended to assist property owners and project designers in understanding the city's minimum requirements and expectations for high quality development. Where site development standards listed herein are in conflict with the site development standards in other chapters of this code or the underlying zoning district, these standards shall apply. The designated approval authority will review development applications against these standards to determine compliance with applicable zoning regulations.

Table 23.325-2: Development Standards in the Convention Overlay District

Development Standard	Convention Overlay District
Density[1]	
Minimum	10 du/ac
Maximum	40.0 du/ac
Floor Area Ratio[2]	
Minimum	0.25
Maximum	3.0
Setbacks	
Front and Street-Side	0 ft.
Rear	10 ft.
Between Structures	10 ft.[3]
Interior	0 ft.
Residential, Standalone Structure[4]	Refer to setbacks for the MDR zone
Height Limit	
Primary Structures	No maximum[5]

Notes:

1. The minimum and maximum density standards are only applicable to mixed-use and integrated developments that include residential uses. Residential projects shall include a minimum of four units.

2. Includes residential uses and square footage. See Article 11 of this title for definition of floor area ratio (FAR).

3. The distance between structures may be modified as part of design review; however, any modifications must be consistent with the Uniform Building Code.

4. For residential units developed as part of an integrated development but not in the same building as the primary use(s), refer to the MDR zone for all setbacks. In all other instances, the setbacks shall be the same as the primary structure(s).

5. While there is no height maximum, the regulations of the Federal Aviation Administration (FAA) limit the height of structures to between 150 and 350 feet based on location. See the safety element of the General Plan for more information. FAA approval is required for all structures over 150 feet in height.

E. Parking Standards. Parking standards for uses in the convention overlay zoning district shall be consistent with Chapter 23.719 RCMC (Parking and Loading). Required off-street loading/unloading and passenger loading areas shall also be consistent with applicable provisions of Chapter 23.719 RCMC (Parking and Loading).

F. Exceptions. The council desires to provide flexibility for projects within the convention overlay district that will benefit the community in specific, identified ways. In conjunction with a major design review, project-level CEQA review, and any other required entitlements, an applicant may request that the council approve an exception to allow a development project that does not strictly adhere to the convention overlay development standards identified in

Table 23.325-2. The council may grant an exception for any development standard in Table 23.325-2 for projects that are uses allowed in Table 23.325-1, and meet at least four of the following six conditions:

1. Will fulfill a compelling community need, as indicated by an existing city goal, General Plan policy, budget priority, or other council adopted policy document.

2. Will improve an existing blighted situation by removing 100 percent of the blight located upon the subject property.

3. Will provide unmet services to a currently underserved community.

4. Will create at least 15 new permanent full-time jobs (or new jobs equivalent to at least 15 full-time jobs) or a minimum of one job per 500 square feet.

5. Will generate annual sales tax contributions to the city in excess of $25,000.

6. Investments in the property will increase the property tax revenue for the subject parcel(s) by at least 250 percent.

To the extent practical, development projects should comply with the development standards in Table 23.325-2. All projects remain subject to design review as established in Chapter 23.140 RCMC (Minor Design Review) and Chapter 23.141 RCMC (Major Design Review). An exception request must be included and will be reviewed in conjunction with the project's design review application. It is the applicant's responsibility to request relief from the development standards in Table 23.325-2 and provide justifications for why standards cannot be met. It is also the applicant's responsibility to provide evidence of compliance with at least four of the conditions listed in this section to support the exception request. The council is the approval authority for all exception requests.

Under no circumstance shall an exception result in any of the following:

1. Allow a land use not otherwise permitted or conditionally permitted in the zone;

2. Allow a detrimental environmental impact not adequately analyzed;

3. Waive a specific prohibition; or

4. Waive or modify a procedural requirement.

The procedure for granting exceptions allowed under this provision is provided in RCMC 23.110.130. In granting the exception, the council shall make the following findings:

1. The proposed project qualifies for an exception by meeting at least four of the six conditions required for granting an exception as defined in this subsection (F).

2. The council has determined that the proposed project has adhered to the development standards in Table 23.325-2 to the fullest extent practicable.

3. The applicant has provided substantial evidence that the conditions for the exception will be met following construction and operation of the project. Further, the applicant has agreed to conditions of approval that provide assurances that these requirements will likely be met or exceeded throughout the life of the project.

4. Granting the exception will not adversely affect the interests of the public or the interests of the residents and property owners in the vicinity of the premises in question, and shall not establish a precedence for other project requests.

5. Granting the exception will not endanger the public health and safety. [Ord. 15-2023 § 3 (Exh. A); Ord. 11-2021 § 3 (Exh. A); Ord. 4-2018 § 3 (Exh. A); Ord. 4-2017 § 3 (Exh. B); Ord. 1-2017 § 3; Ord. 11-2015 § 3; Ord. 19-2013 § 3 (Exh. A); Ord. 18-2013 § 3 (Exh. A); Ord. 12-2011 § 3 (Exh. A); Ord. 27-2008 § 1 (Exh. A § 2.9.020)].

23.919.090 Thrift store.

A. Purpose and Applicability. The regulations contained in this section shall apply to new and qualifying expansion of existing thrift stores as defined in RCMC 23.1104.040 (Land use definitions). The establishment of new thrift stores shall be consistent with the allowed use provisions of Article 3 of this title (Zoning Districts, Allowable Uses, and General Development Standards) and the standards contained in this section, as well as other development standards as required in the underlying zoning district. Where the standards of the underlying district conflict with the standards herein, these standards shall apply. The purpose of these regulations is to limit the overconcentration of thrift stores in the city by applying minimum distance standards between thrift stores and ensuring compatibility with surrounding uses by requiring special standards for collection/receiving and refuge areas and requiring additional property maintenance.

B. Development Standards. All new thrift stores shall observe all development standards of the underlying zoning district, except that they shall also comply with the following additional standards:

1. Enclosed Activities. All activities shall be completely enclosed within the building for the use.

2. Collection/Receiving Area. The collection area shall be located on the side or rear of the building. Adequate directional signage shall be provided from the main entrance to the use to direct individuals to the collection area. The collection area shall be noticed to prohibit depositing goods when the store is closed.

3. Property Maintenance. Management shall be responsible for the removal of litter from the subject property, adjacent property, and streets that results from the thrift store (with adjacent property owner consent). [Ord. 4-2017 § 3 (Exh. B); Ord. 12-2011 § 3 (Exh. A); Ord. 27-2008 § 1 (Exh. A § 5.7.090)].

23.1104.020 General definitions.

"Recreational vehicle (RV)" means an enclosed piece of equipment designed for dual use as both a vehicle and a temporary travel home. This includes travel trailers and motorhomes primarily intended for personal, non-commercial use, such as vacations, camping, or full-time residential living. RVs are typically registered and designated as recreational vehicles by the Department of Motor Vehicles (DMV). Vehicles originally manufactured or used as commercial vehicles—such as buses or trucks—that have been converted for recreational use must be reclassified and registered as an RV with the DMV to fall under this definition. Unlike "Commercial vehicles", which include those used for business purposes—such as large trucks, trailers, buses, and heavy equipment—RVs are not designed for the transport of goods, commercial passenger services, or industrial applications.

23.1104.040 Land use definitions.

"Home occupation" means the conduct of a business within a dwelling unit or residential site, employing occupants of the dwelling, with the business activity being subordinate to the residential use of the property. Examples include, but are not limited to, accountants and financial advisors, architects, artists, attorneys, offices for construction businesses (no equipment or material storage), internet sales, and real estate sales.

"Vehicle services – major" means the repair, alteration, restoration, towing, painting, or finishing of automobiles, trucks, recreational vehicles, boats, and other vehicles as a primary use, including the incidental wholesale and retail sale of vehicle parts as an accessory use. This use includes major repair and body work repair facilities dealing with entire vehicles; such establishments typically provide towing, collision repair, other body work, and painting services and may also include tire recapping establishments.

Table 23.316-1 identifies allowed uses and corresponding requirements for the general commercial and industrial zoning districts subject to compliance with Chapter 23.304 RCMC (Land Use Classification) and all other provisions of this title. Descriptions/definitions of the land uses can be found in Article 11 of this title (Definitions). The specific use regulations column in the table identifies the specific chapter or section where additional regulations for that use type are located within this title.

This zoning code relies upon a generalized list of allowed and conditionally allowed uses. Some interpretation is required to determine whether or not a specific use falls into a particular use category. Typically a use clearly falls into a particular category, but three additional tools are provided in this title to identify the appropriate use category when necessary:

A. RCMC 23.1104.040 (Land use definitions) includes land use descriptions.

B. Similar Use Determinations. For uses that are not listed in Table 23.316-1 or where it is not clear whether a use would be permitted, a similar use determination can be processed according to Chapter 23.122 RCMC (Similar Use Determinations). All of the definitions, tables and other provisions of this title, in addition to the operational characteristics of the intended use, can be used to make a similar use determination.

Use regulations in the table are shown with a representative symbol by use classification listing: “P” symbolizes uses allowed by right, “AUP” symbolizes uses that require approval of an administrative use permit, “C” symbolizes uses that require approval of a conditional use permit, and “N” symbolizes uses that are not permitted.

Notes:
1. Trade schools permitted by right; all other schools require an AUP.
2. Permitted if the entire operation is conducted within a completely enclosed building or screened from view behind a fence or wall.
3. Off-site sales of alcohol permitted as an allowed use if incidental to a permitted use (e.g., breweries, wineries). Only retail sale of alcohol is permitted as part of the primary use. All other types of off-site sales (e.g., convenience store) require a conditional use permit. See Wholesaling and Distribution for nonretail sales.
4. On-site sales permitted with limited use permit. Off-site requires a conditional use permit.
5. Incidental sales up to 15 percent of developed portion of site are permitted as a by-right use and must be fully screened from view or enclosed within a building. Automotive sales that exceed 15 percent of the developed portion of the site or outdoor display areas that are not screened from view may be permitted with the issuance of an administrative use permit.
6. All retail, accessory and office, accessory uses are permitted up to a combined 50 percent of total building square footage.
7. The following limitations apply to retail, accessory and office, accessory in the M-2 district:
a. Sales are allowed when incidental to a permitted use and sales and stock room area does not exceed 25 percent of total floor area;
b. Offices are allowed when incidental to a permitted use and do not exceed 25 percent of total floor area;
c. Cafes/restaurants are allowed up to 15 percent of building square footage (freestanding restaurants require the issuance of a conditional use permit).
8. Up to 50 percent of total building area may be used for storage, warehousing, distribution or similar use as a permitted use. A conditional use permit is required to exceed this percentage.
9. This use is permitted if an integral part of the primary use (unrelated, incidental rental operations are not permitted). Additional provisions in RCMC 23.913.040 (Accessory automobile sales and rental uses) apply.
10. Uses which serve alcohol for on-site consumption and which have an "on-sale" license from the California Department of Alcoholic Beverage Control must be located at least 250 feet from any adult live theater in which live nude dancing is performed and which is subject to Section 143.3 of the California Code of Regulations.
11. On-site urban agriculture stands are allowed up to 120 square feet, on the site of an urban agriculture use consistent with applicable regulations in RCMC 23.904.030.

13. See Chapter 23.915 RCMC (Storage, Personal Storage Facility Development Standards).
14. Massage parlors and massage establishments must be located at least 1,000 feet from other massage parlors and massage establishments, as measured from the entrance of each establishment. This shall not apply to any home occupation massage business that is in full compliance with home occupation requirements in Chapter 23.901 RCMC.
15. Over 20,000 square feet requires an administrative use permit.
16. On-site consumption of food is considered a permitted use if the related primary use is a permitted use.
17. On-site consumption of alcohol, as an accessory use to a permitted use, requires approval of an administrative use permit.

23.325.020 Convention (CO) overlay zoning district.

A. Purpose and Intent. The purpose of the convention (CO) overlay zoning district is to establish an area in the city specifically for the development of a convention center with related and supporting uses. The convention district is intended to be a special place in the city that is entertaining, vibrant, and inviting to tourists, visitors, and residents alike. This overlay district supplements the provisions of the underlying zoning districts for the special purposes identified herein. Where there is conflict between this overlay district and the underlying base district, the overlay district regulations prevail.

B. Convention Overlay District Area. The convention overlay zoning district is applied to those parcels described in Figure 23.325-1 (Convention Overlay District Area), consistent with the General Plan's convention overlay. The convention overlay district is generally defined as that area south of Highway 50, east of Kilgore Road, north of Sun Center Drive, and west of Citrus Road.

Figure 23.325-1: Convention Overlay District Area

C. Allowed Uses. Table 23.325-1 identifies the allowed use provisions specific to the convention overlay zoning district. The allowed use provisions of Table 23.325-1 supersede and replace the allowed use provisions of the underlying base zoning district of the applicable property. Similar uses may be determined as identified in this title. The allowed use provisions are listed in compliance with Chapter 23.304 RCMC (Land Use Classification).

Use regulations in the table are shown with a representative symbol by use classification listing: "P" symbolizes uses allowed by right, "AUP" symbolizes uses that require approval of an administrative use permit, "C" symbolizes uses that require approval of a conditional use permit, and "N" symbolizes uses that are not permitted.

Notes:

1. For mixed-use zones, the use is permitted in conjunction with the predominant use of the underlying base zoning district. In other words, this use is only allowed as part of an integrated development.
2. Off-premises sale of alcohol is an allowed use where such sales are incidental to an allowed use that provides on-site alcohol consumption (restaurant, brew pub, tasting room, etc.).
3. Dormitories on any parcel that is part of a contiguous campus are permitted as an accessory use to the public or private school.

D. Development Standards. The following development standards are applicable to the convention overlay zoning district. These standards, along with other development standards (e.g., landscaping requirements, parking standards) in this title and citywide design guidelines, are intended to assist property owners and project designers in understanding the city's minimum requirements and expectations for high quality development. Where site development standards listed herein are in conflict with the site development standards in other chapters of this code or the underlying zoning district, these standards shall apply. The designated approval authority will review development applications against these standards to determine compliance with applicable zoning regulations.

Table 23.325-2: Development Standards in the Convention Overlay District

Development Standard	Convention Overlay District
Density[1]	
Minimum	10 du/ac
Maximum	40.0 du/ac
Floor Area Ratio[2]	
Minimum	0.25
Maximum	3.0
Setbacks	
Front and Street-Side	0 ft.
Rear	10 ft.
Between Structures	10 ft.[3]
Interior	0 ft.
Residential, Standalone Structure[4]	Refer to setbacks for the MDR zone
Height Limit	
Primary Structures	No maximum[5]

Notes:

1. The minimum and maximum density standards are only applicable to mixed-use and integrated developments that include residential uses. Residential projects shall include a minimum of four units.

2. Includes residential uses and square footage. See Article 11 of this title for definition of floor area ratio (FAR).

3. The distance between structures may be modified as part of design review; however, any modifications must be consistent with the Uniform Building Code.

4. For residential units developed as part of an integrated development but not in the same building as the primary use(s), refer to the MDR zone for all setbacks. In all other instances, the setbacks shall be the same as the primary structure(s).

5. While there is no height maximum, the regulations of the Federal Aviation Administration (FAA) limit the height of structures to between 150 and 350 feet based on location. See the safety element of the General Plan for more information. FAA approval is required for all structures over 150 feet in height.

E. Parking Standards. Parking standards for uses in the convention overlay zoning district shall be consistent with Chapter 23.719 RCMC (Parking and Loading). Required off-street loading/unloading and passenger loading areas shall also be consistent with applicable provisions of Chapter 23.719 RCMC (Parking and Loading).

F. Exceptions. The council desires to provide flexibility for projects within the convention overlay district that will benefit the community in specific, identified ways. In conjunction with a major design review, project-level CEQA review, and any other required entitlements, an applicant may request that the council approve an exception to allow a development project that does not strictly adhere to the convention overlay development standards identified in

Table 23.325-2. The council may grant an exception for any development standard in Table 23.325-2 for projects that are uses allowed in Table 23.325-1, and meet at least four of the following six conditions:

1. Will fulfill a compelling community need, as indicated by an existing city goal, General Plan policy, budget priority, or other council adopted policy document.

2. Will improve an existing blighted situation by removing 100 percent of the blight located upon the subject property.

3. Will provide unmet services to a currently underserved community.

4. Will create at least 15 new permanent full-time jobs (or new jobs equivalent to at least 15 full-time jobs) or a minimum of one job per 500 square feet.

5. Will generate annual sales tax contributions to the city in excess of $25,000.

6. Investments in the property will increase the property tax revenue for the subject parcel(s) by at least 250 percent.

To the extent practical, development projects should comply with the development standards in Table 23.325-2. All projects remain subject to design review as established in Chapter 23.140 RCMC (Minor Design Review) and Chapter 23.141 RCMC (Major Design Review). An exception request must be included and will be reviewed in conjunction with the project's design review application. It is the applicant's responsibility to request relief from the development standards in Table 23.325-2 and provide justifications for why standards cannot be met. It is also the applicant's responsibility to provide evidence of compliance with at least four of the conditions listed in this section to support the exception request. The council is the approval authority for all exception requests.

Under no circumstance shall an exception result in any of the following:

1. Allow a land use not otherwise permitted or conditionally permitted in the zone;

2. Allow a detrimental environmental impact not adequately analyzed;

3. Waive a specific prohibition; or

4. Waive or modify a procedural requirement.

The procedure for granting exceptions allowed under this provision is provided in RCMC 23.110.130. In granting the exception, the council shall make the following findings:

1. The proposed project qualifies for an exception by meeting at least four of the six conditions required for granting an exception as defined in this subsection (F).

2. The council has determined that the proposed project has adhered to the development standards in Table 23.325-2 to the fullest extent practicable.

3. The applicant has provided substantial evidence that the conditions for the exception will be met following construction and operation of the project. Further, the applicant has agreed to conditions of approval that provide assurances that these requirements will likely be met or exceeded throughout the life of the project.

4. Granting the exception will not adversely affect the interests of the public or the interests of the residents and property owners in the vicinity of the premises in question, and shall not establish a precedence for other project requests.

5. Granting the exception will not endanger the public health and safety. [Ord. 15-2023 § 3 (Exh. A); Ord. 11-2021 § 3 (Exh. A); Ord. 4-2018 § 3 (Exh. A); Ord. 4-2017 § 3 (Exh. B); Ord. 1-2017 § 3; Ord. 11-2015 § 3; Ord. 19-2013 § 3 (Exh. A); Ord. 18-2013 § 3 (Exh. A); Ord. 12-2011 § 3 (Exh. A); Ord. 27-2008 § 1 (Exh. A § 2.9.020)].

23.919.090 Thrift store.

A. Purpose and Applicability. The regulations contained in this section shall apply to new and qualifying expansion of existing thrift stores as defined in RCMC 23.1104.040 (Land use definitions). The establishment of new thrift stores shall be consistent with the allowed use provisions of Article 3 of this title (Zoning Districts, Allowable Uses, and General Development Standards) and the standards contained in this section, as well as other development standards as required in the underlying zoning district. Where the standards of the underlying district conflict with the standards herein, these standards shall apply. The purpose of these regulations is to limit the overconcentration of thrift stores in the city by applying minimum distance standards between thrift stores and ensuring compatibility with surrounding uses by requiring special standards for collection/receiving and refuge areas and requiring additional property maintenance.

~~B. Location. Thrift stores shall not be located closer than 1,000 feet from another thrift store.~~

B~~C~~. Development Standards. All new thrift stores shall observe all development standards of the underlying zoning district, except that they shall also comply with the following additional standards:

1. Enclosed Activities. All activities shall be completely enclosed within the building for the use.

2. Collection/Receiving Area. The collection area shall be located on the side or rear of the building. Adequate directional signage shall be provided from the main entrance to the use to direct individuals to the collection area. The collection area shall be noticed to prohibit depositing goods when the store is closed.

3. Property Maintenance. Management shall be responsible for the removal of litter from the subject property, adjacent property, and streets that results from the thrift store (with adjacent property owner consent). [Ord. 4-2017 § 3 (Exh. B); Ord. 12-2011 § 3 (Exh. A); Ord. 27-2008 § 1 (Exh. A § 5.7.090)].

23.1104.020 General definitions.

"Recreational vehicle (RV)" means an enclosed piece of equipment designed for dual use as both a vehicle and a temporary travel home. This includes travel trailers and motorhomes primarily intended for personal, non-commercial use, such as vacations, camping, or full-time residential living. RVs are typically registered and designated as recreational vehicles by the Department of Motor Vehicles (DMV). Vehicles originally manufactured or used as commercial vehicles—such as buses or trucks—that have been converted for recreational use must be reclassified and registered as an RV with the DMV to fall under this definition. Unlike "Commercial vehicles", which include those used for business purposes—such as large trucks, trailers, buses, and heavy equipment—RVs are not designed for the transport of goods, commercial passenger services, or industrial applications. ~~dually used as both a vehicle and a temporary travel home. Travel trailers are included under this definition. RVs are intended for everything from brief leisure activities, such as vacations and camping, to full-time living.~~

23.1104.040 Land use definitions.

"Home occupation" means the conduct of a business within a dwelling unit or residential site, employing occupants of the dwelling, with the business activity being subordinate to the residential use of the property. Examples include, but are not limited to, accountants and financial advisors, architects, artists, attorneys, offices for construction businesses (no equipment or material storage), internet sales, and real estate sales.

"Vehicle services – major" means the repair, alteration, restoration, towing, painting, ~~cleaning (e.g., self-service and attended car washes),~~ or finishing of automobiles, trucks, recreational vehicles, boats, and other vehicles as a primary use, including the incidental wholesale and retail sale of vehicle parts as an accessory use. This use includes major repair and body work repair facilities dealing with entire vehicles; such establishments typically provide towing, collision repair, other body work, and painting services and may also include tire recapping establishments.

MEMORANDUM

ITEM 11.1.

DATE: May 19, 2025

TO: Honorable Mayor and Council Members

FROM: Brenda Roach, Human Resources Manager

SUBJECT: **COMPLIANCE WITH NEW LEGAL OBLIGATIONS RE: PUBLIC HEARING ON CITY OF RANCHO CORDORVA'S VACANCIES, RECRUITMENT, AND RETENTION EFFORTS (ASSEMBLY BILL 2561/GOVERNMENT CODE SECTION 3502.3)**

RECOMMENDATION

RESULT OF RECOMMENDED ACTION

This item is informational only, no action is recommended.

BACKGROUND

Assembly Bill (AB) 2561 was signed into law by Governor Newsom on September 22, 2024. Under this new law, local agencies, including the City of Rancho Cordova, are required to hold at least one public hearing each fiscal year to provide updates on staffing vacancies and share information on recruitment and retention efforts. AB 2561 is codified as Government Code section 3502.3 and became effective on January 1, 2025.

Under AB 2561, local agencies must:

1. Conduct at least one public hearing each fiscal year to present the status of vacant positions and related recruitment and retention strategies.
2. Hold the hearing prior to adoption of an annual or multi-year budget, if applicable.
3. Identify any necessary changes to policies, procedures, or recruitment practices that may hinder hiring efforts.
4. Provide recognized employee organizations the opportunity to present during the hearing. (Note: This provision does not apply to the City of Rancho Cordova, as no employee unions represent City staff)

The intent of AB 2561 is to improve transparency regarding staffing shortages and ensure that City Council and the public are informed about how vacancies affect service delivery. This law also provides a platform to discuss hiring challenges and potential solutions in a public setting. While AB 2561 does not impose penalties, it sets an expectation for ongoing public reporting of vacancies, recruitment, and retention.

In 2024, the City experienced an average vacancy rate of 8% for regular, full-time employee (FTE) positions. During this period, a total of 11 employees separated from the organization. The vacancies arose due to a variety of factors, including retirements, internal promotions, new positions added, and external employment opportunities. A month-by-month summary of these vacancies is presented in Table 1.

% of Vacancies	11%	10%	8%	8%	8%	7%	7%	6%	7%	6%	8%	9%

In accordance with the requirements of AB 2561, city staff conducted a review of hiring-related policies and procedures to assess any potential barriers to recruitment. At this time, no challenges have been identified. The city continues to offer competitive salaries and benefits to attract and retain talent. However, recruitment difficulties persist in certain specialized areas, particularly in traffic engineering, due to a limited candidate pool and heightened market competition—an ongoing trend observed regionally. Staff will continue to seek opportunities to enhance outreach efforts and optimize hiring processes where possible.

FISCAL IMPACT AND FUNDING SOURCE
